**Karl Ernst Georges**

**Essays on Contemporary Events** C.G. Jung, 2014-12-18 Was the leading psychologist of his time a Nazi sympathiser? This was the question asked by many after the Second World War, as they sought to explain Jung's actions and publications during Nazi rule. So great was the controversy that his reputation risked being permanently damaged. *Essays on Contemporary Events* was the first broadside in his vigorous defence of his beleaguered reputation. This remarkable work is essential reading for anyone seeking to understand Jung. It will enable the reader to decide: was Jung wholly innocent of the accusations or had he, like so many others, fallen under the Nazi spell and was now trying to make amends.

**Lateinisch-deutsches Handwörterbuch** Karl Ernst Georges, 1855

Matthias Flacius and the Survival of Luther's Reform Oliver K. Olson, 2002

**Theologian of Sin and Grace** Luka Ilić, 2014 The Croatian-born Matthias Flacius Illyricus (1520-1575) was a Lutheran theologian and reformer who spent most of his adult life in the German-speaking territories of the Holy Roman Empire, playing an important role within the Evangelical churches and in the confessionalization of his day. Luka Ilić establishes that Flacius' theology became increasingly radicalized with time and examines aspects of this process through following two parallel tracks. One trajectory focuses on the development of Flacius' theological thought, while the other one discusses the pivotal influences and major turning points in his life, such as being exiled from different cities. Although Flacius did enjoy some measure of success and even attracted a considerable number of followers for shorter periods of time, his radicalized theology ultimately led to his public downfall and marred his legacy. Flacius' relationships with the most important Wittenberg figures, Luther and Melancthon, are also explored, along with the vast personal

and professional networks Flacius built up in imperial cities, all of which shaped his theological development. One of the dominant claims is that Flacius' understanding of original sin and of grace were the lynchpin for much of his opus. At the same time, the findings demonstrate that Flacius was a multifaceted individual with interest and competences in a number of different academic fields.

Harvesting Martin Luther's Reflections on Theology, Ethics, and the Church WENGERT, 2017 As profound as Martin Luther's ideas are, this giant of church history was concerned above all with practical instruction for daily Christian living. *Harvesting Martin Luther's Reflections* highlights this concern of Luther, mining his thought in key areas of doctrine, ethics, and church practice. Gathering noteworthy contributions by well-known Luther scholars from Europe and the Americas, this book ranges broadly over theological questions about baptism and righteousness, ethical issues like poverty and greed, and pastoral concerns like worship and spirituality.

*John Calvin, Myth and Reality* Amy N. Burnett, 2011-05-11 The chapters in this volume were originally presented as papers at the 2009 colloquium of the Calvin Studies Society, held to mark the five-hundredth anniversary of John Calvin's birth. They offer a fresh evaluation of Calvin's ideas and achievements, and describe how others--from his contemporaries to the present--have responded to or built upon the Calvinist heritage. This book dispels popular misperceptions about Calvin and Calvinism, allowing readers to make a more accurate assessment of Calvin's importance as a theologian and historical figure. Contributions address areas in which Calvin's legacy has been most controversial or misunderstood, such as his attitude toward women, his advocacy of church discipline, and his understanding of predestination. These essays also give a nuanced picture of the impact of Calvinism by taking account of both the positive and negative reactions to it from the early modern period to the

present. Part 1: Calvin: The Man and His Work Part 2: Appeal of and Responses to Calvinism Part 3: The Impact of Calvin's Ideas

**The Oxford Encyclopedia of the Reformation** Hans

Joachim Hillerbrand, 1996 Provides a useful reference work on the period of Reformation. This book focuses on the range of religious and social changes wrought by the Reformation, including not only issues of church polity and theology but also related developments in politics, economics, demographics, art, and literature.

**History of Venice: Books V-VIII** Pietro Bembo, 2007 Bembo (1470-1547), a Venetian nobleman, later a cardinal of the Roman Catholic Church, was the most celebrated Latin stylist of his day and was widely admired for his writings in Italian. Named official historian of Venice in 1529, Bembo began to compose in Latin his continuation of the city's history in 12 books, covering the years from 1487-1513.

History of Venice: Books IX-XII Pietro Bembo, 2007 Much of Bembo's work is devoted to the external affairs of Venice, principally conflicts with other European states and with the Turks in the East. The History of Venice was published after his death, in Latin and in his own Italian version. This edition, completed by this third volume, makes it available for the first time in English translation.
