The Blue Bottle Craft of Coffee James Freeman,Caitlin Freeman,Tara Duggan,2012-10-09 One of the country's most celebrated roasters explains how to choose, brew, and enjoy the new breed of artisan coffees at home, along with 40 inventive recipes that incorporate coffee or taste good with a cup. Blue Bottle Coffee Company has quickly become one of America's most celebrated roasters. Famous for its complex and flavorful coffees, Blue Bottle delights its devoted patrons with exquisite pour-overs, delicious espressi, and specialized brewing methods. Yet as coffee production becomes more sophisticated with specialized extraction techniques and Japanese coffee gadgets, the new artisan coffees can seem out of reach. The Blue Bottle Craft of Coffee explains this new world from farm to cup, exploring the bounty of beans available and the intricate steps that go into sourcing raw coffee from around the globe. Blue Bottle founder James Freeman coaches you through brewing the perfect cup of coffee, using methods as diverse as French press, nel drip, siphon, and more to produce the best flavor. For coffee lovers who want to roll up their sleeves and go deeper, Freeman explains step by step how to roast beans at home using standard kitchen tools—just like he did when starting out. The Blue Bottle Craft of Coffee also introduces a home technique for cupping, the industry method of tasting coffees for quality control, so you can hone your taste and share your meticulously roasted coffee with friends. Rounding out the book are more than thirty inventive recipes from Blue Bottle pastry chef and former Miette bakery owner Caitlin Freeman that incorporate coffee or just taste particularly good with coffee, such as Saffron Vanilla Snickerdoodles, Stout Coffee Cake with Pecan-Caraway Streusel, Affogato with Smoky Almond Ice Cream, Coffee Panna Cotta, and more. With more than one hundred stunning photographs showing coffee's journey from just-harvested cherry to perfect drink, this distinctive and deep guide to the new breed of amazing coffees from one of the top artisan coffee makers will change the way you think about—and drink—coffee.

American Indian Business Deanna M. Kennedy,Charles F. Harrington,Amy Klemm Verbos,Daniel Stewart,Joseph Scott Gladstone,Gavin Clarkson,2017-09-26 American Indian business is booming. The number of American Indian- and Alaska Native-owned businesses increased by 15.3 percent from 2007 to 2012—a time when the total number of US businesses increased by just 2 percent—and receipts grew from \$34.4 million in 2002 to \$8.8 billion in 2012. Despite this impressive growth, there is an absence of small businesses on reservations, and Native Americans own private businesses at the lowest rate per capita for any ethnic or racial group in the United States. Many Indigenous entrepreneurs face unique cultural and practical challenges in starting, locating, and operating a business, from a perceived lack of a culture of entrepreneurship and a suspicion of capitalism to the difficulty of borrowing start-up funds when real estate is held in trust and cannot be used as collateral. This book provides an accessible introduction to American Indian businesses, business practices, and business education. Its chapters cover the history of American Indian business

from early trading posts to today's casino boom; economic sustainability, self-determination, and sovereignty; organization and management; marketing; leadership; human resource management; tribal finance; business strategy and positioning; American Indian business law; tribal gaming operations; the importance of economic development and the challenges of economic leakage; entrepreneurship; technology and data management; business ethics; service management; taxation; accounting; and health-care management. American Indian Business also furthers the inclusion of Indigenous perspectives in the study of American business practices in general and demonstrates the significant impact that American Indians have had on business, as well as their cultural contributions to management, leadership, marketing, economic development, and entrepreneurship.
