New Wars Scott Nicholas Romaniuk, 2013 Al Qaeda's deadly assaults against the American homeland on September 11, 2001 deeply altered regional security architectures the world over. Religious extremists responsible for having coordinated and implemented the 9/11 attacks have brought state and non-state actors to radically reconsider traditional concepts of security, including responses and the need for tactical and strategic preemption in the face of growing conventional and asymmetric threats to communities at home and abroad. Drawing upon critical new research, the analyses presented by the contributors of this volume challenge and even shatter previously held ideas about domestic and international terrorism and state-sanctioned violence. They shed light upon new conceptions of security as well as the need for actors to address existing and emerging cultures of fear and critical susceptibilities in the face of wanton violence and security of the state in the 21st century.

Justice and Governance in East Timor Rod Nixon, 2013-06-17 Focusing on the case study of Timor Leste, this book presents the New Subsistence State as a conceptual tool for understanding governance challenges in countries characterised by subsistence economic and social relations. It examines the ways in which Timor Leste conforms to the typology of the New Subsistence State, taking into consideration geographic, historical and socio-political aspects. The book defines a New Subsistence State as an overwhelmingly subsistence economy corresponding to little or no historical experience of the generation and administration of large surpluses, with minimal labour specialisation, and the predominance, especially in rural areas, of traditional authority relations. It looks at how these features restrict the capacity of the new state to operate effectively in accordance with the modern state model. The book presents a case for prioritising sustainable approaches to public administration in New Subsistence State contexts. It goes on to examine the historical

role of village justice systems, and demonstrates how a community justice and mediation program building on existing capacities could prove an economical means of promoting human rights values and reducing the burden on the national courts. The book presents an interesting contribution to studies on Southeast Asian Politics and Governance.

Blue Fox Maria Markstedter, 2023-04-11 Provides readers with a solid foundation in Arm assembly internals and reverse-engineering fundamentals as the basis for analyzing and securing billions of Arm devices Finding and mitigating security vulnerabilities in Arm devices is the next critical internet security frontier—Arm processors are already in use by more than 90% of all mobile devices, billions of Internet of Things (IoT) devices, and a growing number of current laptops from companies including Microsoft, Lenovo, and Apple. Written by a leading expert on Arm security, *Blue Fox: Arm Assembly Internals and Reverse Engineering* introduces readers to modern Armv8-A instruction sets and the process of reverse-engineering Arm binaries for security research and defensive purposes. Divided into two sections, the book first provides an overview of the ELF file format and OS internals, followed by Arm architecture fundamentals, and a deep-dive into the A32 and A64 instruction sets. Section Two delves into the process of reverse-engineering itself: setting up an Arm environment, an introduction to static and dynamic analysis tools, and the process of extracting and emulating firmware for analysis. The last chapter provides the reader a glimpse into macOS malware analysis of binaries compiled for the Arm-based M1 SoC. Throughout the book, the reader is given an extensive understanding of Arm instructions and control-flow patterns essential for reverse engineering software compiled for the Arm architecture. Providing an in-depth introduction into reverse-engineering for engineers and security researchers alike, this book: Offers an introduction to the Arm architecture, covering both AArch32 and AArch64 instruction set

states, as well as ELF file format internals Presents in-depth information on Arm assembly internals for reverse engineers analyzing malware and auditing software for security vulnerabilities, as well as for developers seeking detailed knowledge of the Arm assembly language Covers the A32/T32 and A64 instruction sets supported by the Armv8-A architecture with a detailed overview of the most common instructions and control flow patterns Introduces known reverse engineering tools used for static and dynamic binary analysis Describes the process of disassembling and debugging Arm binaries on Linux, and using common disassembly and debugging tools Blue Fox: Arm Assembly Internals and Reverse Engineering is a vital resource for security researchers and reverse engineers who analyze software applications for Arm-based devices at the assembly level.

Political Islam and Violence in Indonesia Zachary Abuza, 2006-09-25 Political Islam and Violence in Indonesia presents a penetrating new investigation of religious radicalism in the largest Muslim country in the world. Indonesia is a country long known for its diversity and tolerant brand of Islam. However, since the fall of Suharto, a more intolerant form of Islam has been growing, one whose adherents have carried out terrorist attacks, waged sectarian war, and voiced strident anti-Western rhetoric. Zachary Abuza's unique analysis of radical Islam draws upon primary documents such as Jemaah Islamiyah's operations manual, interviews, and recorded testimonies of politicians, religious figures, and known militants, as well as personal interviews with numerous security and intelligence experts in Indonesia and elsewhere, to paint a picture at once guardedly optimistic about the future of Indonesian democracy and concerned about the increasing role of conservative and radical Islam in Indonesian society. This book will be of great interest to students of Indonesian politics, Asian studies, political violence and security studies in general.

Deepening Democracy in Indonesia? Maribeth Erb, Priyambudi Sulistiyanto, 2009 Since the fall of long-reigning President Soeharto, in 1998, Indonesia has been in an era of transition, away from an authoritarian regime, and on a quest for democracy. This quest started with decentralization laws implemented in 2001, which gave greater autonomy to the regions, and continued with the direct elections for the national and local legislatures and the President in 2004. The latest development in this democratization process is the implementation of a system for the direct election of regional leaders, which began in 2005; the first round of elections across the nation for all governors, mayors and district heads was completed in 2008. Authors of the chapters in this volume, the result of a workshop in Singapore in 2006, present data from

across the archipelago for these first direct elections for local leaders and give their assessment as to how far these elections have contributed to a deepening democracy.

Religion, Politics and Gender in Indonesia Sonja van Wichelen, 2010-06-10 The political downfall of the Suharto administration in 1998 marked the end of the New Order in Indonesia, a period characterized by 32 years of authoritarian rule. It opened the way for democracy, but also for the proliferation of political Islam, which the New Order had discouraged or banned. Many of the issues raised by Muslim groups concerned matters pertaining to gender and the body. They triggered heated debates about women's rights, female political participation, sexuality, pornography, veiling, and polygamy. The author argues that public debates on Islam and Gender in contemporary Indonesia only partially concern religion, and more often refer to shifting moral conceptions of the masculine and feminine body in its intersection with new class dynamics, national identity, and global consumerism. By approaching the contentious debates from a cultural sociological perspective, the book links the theoretical domains of body politics, the mediated public sphere, and citizenship. Placing the issue of gender and Islam in the context of Indonesia, the biggest Muslim-majority country in the world, this book is an important contribution to the existing literature on the topic. As such, it will be of great interest to scholars of anthropology, sociology, and gender studies.

ISS 1 Islam And The Question Of Reform , 2008-12-15 Reform, by definition, is not a complete break with tradition, but a determination by scholars, activists, politicians and critical thinkers to re-claim the tenets of their faith. Muslim communities have historically displayed a tendency to preserve the status quo. By contrast, the individuals and movements in Islam and the Question of Reform are determined—often at great personal risk—to push aside existing political and social elites and the

historically accepted interpretations of Islam and its place in society. The perspectives examined in this volume avoid superficial or apologetic examinations of Islam's political and social role. Instead, they meticulously scrutinise the religion's public role, often questioning the validity of dogmas that have acted as tools of empowerment for existing elites for centuries.

Empire and Neoliberalism in Asia Vedi R.

Hadiz, 2006-09-27 This book analyzes the overall effect of American primacy on social and political conflicts in Asia, discussing how the post-Cold War American agenda does not promote democratization in the region, in contradiction to one of the major proclaimed aims of the proponents of the Pax Americana. This team of renowned scholars argue that the US agenda can strengthen anti-democratic impulses in Asian societies, exacerbating and complicating existing domestic conflicts and struggles. *Empire and Neoliberalism in Asia* also examines how the requirements of the War on Terror intersect with, and reinforce, those of transnationalized sections of American capital. Drawing on country case studies, this multidisciplinary book looks at the ramifications of the American Empire for the Asian region and will appeal to anyone interested in Asian politics, international relations, political economy, development studies and sociology.

The Ashgate Research Companion to Contemporary Religion and Sexuality Andrew K.T. Yip, 2016-04-01 The Ashgate Research Companion to Contemporary Religion and Sexuality provides academics and students with a comprehensive and authoritative state-of-the-art review of current research in the area of sexuality and religion, broadly defined. This collection of expert essays offers an inter-disciplinary study of the important aspects of sexuality and religion, calling upon sociological, cultural, historical and theological contributions to an under-

researched subject. The Companion focuses on the exploration of diverse religious faiths, spiritualities, and sexualities with contributions that embrace many contrasting approaches related to the contemporary context. By adopting a truly interdisciplinary and multi-dimensional perspective, the Companion embraces the complexities of both sexuality and religion. Aimed primarily at a readership with specialist interest in both, The Ashgate Research Companion to Contemporary Religion and Sexuality offers an innovative and refreshing analysis of key theoretical and empirical issues in an increasingly relevant and expanding area of academic interest. The Companion comprises five main thematic sections, each with chapters ranging across a variety of crucial topics traversing various faith traditions. The principal themes are: epistemological and methodological issues; the significance of religious text; institutional religious settings; stability transformation and change; contesting hegemonic structures and discourses. Each section includes four chapters contributed by leading international experts in their respective fields and who are at the cutting-edge of current research. Collectively, they offer an inter-disciplinary and comprehensive survey of sexuality and religion.

Nine-tenths of the Law Hannah Dobbz, 2012-11-27 Millions of foreclosed homes and abandoned buildings on one hand; millions of Americans desperate for decent shelter on the other. Hannah Dobbz makes the necessary addition of resources and needs in a book that is both a brilliant history of squatting in the USA and a template for the next stage of the Occupy movement.--Mike Davis, author of Planet of Slums and Buda's Wagon How does property fit into designs for an equitable society? Nine-tenths of the Law examines the history of squatting and property struggles in the United States, from colonialism to twentieth century urban squatting and the foreclosure crisis of the late 2000s, and how such resistance movements shape the law. Stories from our most hard-hit American cities show that property is truly in crisis: One

in five homes in Buffalo, NY, are abandoned. Our national housing vacancy rate is 14 percent. If we gave a house to every homeless person in the United States two-thirds of that stock would remain empty. In May of 2011, one in every 103 homes in Nevada was in foreclosure. Nine-tenths of the Law expands our understanding of property law and highlights recent tactics like creative squatting ventures and the use of adverse possession to claim title to vacant homes. Hannah Dobbz unveils the tangled relationship Americans have always had in creating and sustaining healthy communities. Hannah Dobbz is a writer, editor, filmmaker, and former squatter. In 2007 she produced a film about squatters in the Bay Area called Shelter. The film has screened widely at universities, bookstores, and community spaces, including the 2009 Three Rivers Film Festival in Pittsburgh, Pennsylvania.

Asian Muslim Women Huma Ahmed-Ghosh, 2015-09-11

Presents multifaceted aspects of Asian Muslim women's lives and agencies. This book resists the homogenization of Muslim women by detailing the diversity in their lives and by challenging the dominant paradigm of Arabized Islam as the sole interpreter of the faith. Though much has been written on the Middle East, there is a huge gap in research on Asia, which has two-thirds of the world's Muslim population. These essays reveal that the lives of Muslim women are impacted not only by Islam but also by local politics, class, religion, and ethnicity. Through ethnographic research and other methodologies, the contributors describe how economic globalization, construction of sexualities, and diasporic expectations shape women's lives. The book focuses on women's negotiations and resistances to global, national, and local patriarchies in an attempt to empower themselves. "This book's greatest strength is the diversity of its scope, both geographically and thematically, without reducing Muslim women to particular roles and/or identities." Berkshire Hathaway Letters to Shareholders Warren Buffett, Max Olson, 2022-09-09 Warren E. Buffett first took control of Berkshire Hathaway Inc., a small textile company, in April of 1965. A share changed hands for around \$18 at the time.
