*Charles Brockden Brown* Jeffrey Andrew

Weinstock,2011-07-15 This study of the works of late eighteenth-century American Gothic author Charles Brockden Brown argues that Brown was a seminal figure in the development of four forms of Gothic fiction: the Frontier Gothic, the Urban Gothic, the Psychological Gothic, and the Female Gothic.

Defense Against the Dark Emily Carlin,2011-03-15 When we lie awake at night listening to mysterious sounds, we imagine all the things that could be making those strange noises. The rumbling is the sound of the refrigerator; the knocking is from the old furnace; the creaking is nothing more than the house settling...isn't it? Although the modern world has denied the existence of things that go bump in the night and has taught us that the occult couldn't possibly exist, we know there are things that science has yet to explain. Defense Against the Dark introduces the reader to many of

those unsavory magickal creatures and occult happenings that exist outside of fairytales. Our ancestors knew these threats were real, and took precautions to protect themselves from whatever evil was lurking in the shadows. Defense Against the Dark will teach you: Common lore and mythology of predatory entities such as goblins, vampires, imps, and ghosts How to identify malevolent spirits and understand how curses actually work How to master different protection methods, including shielding, banishing, and hex breaking Easy, concrete methods for protecting yourself in everyday situations

#### Design Solutions for Adaptive Hypermedia Listening Software

Turel, Vehbi, 2021-06-18 Adaptive hypermedia listening software enables materials writers to combine and deliver a wide range of digital elements on the same digital computer platform more efficiently. Such a combination and delivery provides a multidimensional, multi-sensory digital environment in which rich, efficient, instant, comprehensible, optimum, and meaningful input and feedback can be presented effectively and efficiently.

Moreover, language learners' attention can be drawn to forms and meanings in input. Such aspects correspond with different theories and hypotheses of language learning and teaching. This presents

users/learners with an environment that is easy to use, tension-free, and optimal during self-study. However, to be able to design and develop cost effective and professional adaptive hypermedia listening software, there are certain scientific educational findings and implications that need to be implemented at every single stage. To have access to such vital findings is not so easy, and research must address this area. Design Solutions for Adaptive Hypermedia Listening Software explores how to design and create technically and pedagogically sound and efficient interactive adaptive hypermedia listening software for language learners in any language. The chapters will cover learner strategy tools, the effectiveness of this technology, best practices in adaptive hypermedia listening software, and the benefits and challenges of this technology for language learning. It is ideal for companies, institutions, teachers, policymakers, academicians, researchers, advanced-level students, technology developers, and decision-making pertinent government officials interested in designing and developing multimedia listening environments for language learners.

*The Identification of Vat Dyes on Cellulosic Materials* D. A. Derrett-Smith, J. Gray, 2013-10-22 The Identification of Vat Dyes on Cellulosic Materials focuses on the determination of the dyeing class of all the dyes usually found on cellulosic materials, which is another method of distinguishing between reactive and other classes of dyes on these materials. This book discusses the characteristics of vat and soluble vat dyes. Organized into six chapters, this book starts with an overview of the various methods of preparing the five reagents used in the tests, namely, alkaline hydrosulfite, acid hydrosulfite, nitric acid, sulfuric acid, and acid potassium permanganate. This text then describes the various tests that are found reliable in determining the different types of dyes. Other chapters examine the rate of oxidation of all the available blue dyes, which are classified into four major subdivisions. The final chapter deals with the identification of indigo blue dyes wherein the distinctions can be made by means of nitric

acid in a similar manner. This book is a valuable resource for dye manufacturers.

**Leadership by Design** Richard N. Swett, 2005 Ambassador Richard Swett's groundbreaking new book investigates the unique civic leadership strengths of the architecture profession. Drawing upon the compelling history of the profession, both past and present, as well as from his own singular experience as the only architect to serve in Congress during the 20th century, Swett has produced an insightful volume that is both inspiring and instructive. He shares Mark Twain's view that "if the only tool you have is a hammer, after a while every problem begins to look like a nail." *Leadership by Design* is an eloquent plea to architects, leaders and citizens alike to expand the tool chest as we seek new leadership to

design new solutions for the complex challenges facing our nation and the world.

Popular Performance Adam Ainsworth, Oliver Double, Louise Peacock, 2017-04-20 There is no fourth wall in popular performance. The show is firmly rooted in the here and now, and the performers address the audience directly, while the audience answer back with laughter, applause or heckling. Performer and role are interlaced, so that we are left uncertain about just how the persona we see onstage might relate to the private person who presents it to us. Popular Performance defines and surveys varieties of performance where the main purpose is to entertain, and where there is no shame in being trivial, frivolous or nonsensical as long as people go home happy at the end of the show. Contributions by new and established scholars focus particularly on how it is made, explaining the techniques of performance and production that make it so appealing to audiences. With sections examining how popular performance works in a range of historical and contemporary examples, readers will gain insights into: \* performance forms associated with the variety tradition: music hall, vaudeville, cabaret, variety \* performance forms associated with circus: wild west shows,

clowning \* issues relating to the identity of the performer in relation to magic, burlesque, pantomime in contemporary performance \* issues relating to venue and audience in relation to contemporary street theatre, stand-up, and live sketch comedy.

### **The Solomon Key and Beyond W. Frederick**

Zimmerman,2005-01-31 The Unauthorized Dan Brown Update includes information about Digital Fortress, Angels & Demons, Deception Point, The Da Vinci Code (book and movie), The Solomon Key, and subsequent novels. It's a mini book in the sense that it is fairly thin - 96 pages to start with, although it will grow over time. (For example, detailed chapter-by-chapter analysis of The Solomon Key will be added soon after that novel is published.) This is a meta book in the sense that it complements, without trying to replace, the many worthy books that are already available about The Da Vinci Code. This book is unique in that it provides a nimble, timely report on \*all\* of Dan Brown's activities, including everything that is known about The Solomon Key, The Da Vinci Code movie, and beyond.

### **Gettysburg's Lost Love Story: The Ill-Fated Romance of**

General John Reynolds and Kate Hewitt Jeffrey J. Harding,2022-02  
Union general John Reynolds was one of the most beloved and

respected military leaders of the Civil War, yet beyond the battlefield, the captivating true story of his secret romance with Catherine Kate Mary Hewitt remains etched into his legacy. Clandestinely engaged before John marched off to war, the couple's love remained a secret. Kate made a poignant last promise, a commitment to enter into a religious life if her beloved were to be killed. Tragically, Reynolds lost his life leading troops into action during the opening phases of the Battle of Gettysburg. Within days Kate was embraced by the Reynolds family and soon began to honor her promise of a religious life. Yet a few years later she seemed to disappear. Author Jeffrey J. Harding unveils new findings on Kate's life before and after John's death as he recounts Gettysburg's saga of star-crossed love.

**American Dissidents [2 volumes] Kathlyn Gay, 2011-12-12**

Anarchists, civil rights advocates, dissidents, and political pundits have all played key roles in shaping our nation. Examining modern-day individuals like WikiLeaks Bradley Manning and conservative video prankster James O'Keefe as well as those of prior decades like César Chávez, this book profiles controversial figures across history. The two-volume *American Dissidents: An Encyclopedia of Activists, Subversives, and Prisoners of Conscience* is a work that

is as interesting as it is important, spotlighting men and women who are heroes to some, outlaws and villains to others. The 150 individuals profiled in this encyclopedia represent diverse ethnic, racial, and religious backgrounds, as well as various movements and ideologies. They are authors, anarchists, civil rights advocates, communists, entertainers, environmentalists, government officials, labor organizers, libertarians, military personnel, pacifists, political activists from the left and right, religious leaders, and suffragettes—all of whom have labored to change the social, economic, and political landscapes of the United States. Each of the profiles of 2,000 words or more offers not only biographical data but also information to help readers place the individuals within the context of events that surrounded and influenced their activities. Because objectivity is a key consideration of the work, entries include both praise and criticism.

Invisible Universe, The: Dark Matter, Dark Energy, And The Origin And End Of The Universe Antonino Del Popolo, 2021-04-20  
This book describes some of the frontier problems of cosmology: our almost total ignorance of what the Universe is made up of, the mystery of its origin and its end. The book starts with a description of the historical events that led to the construction of the Big Bang

model together with the stages that transformed the Universe from a very hot place to a very cold one, full with the structures that we observe today. These structures (stars, galaxies, etc.) constitute only 5% of the contents of the Universe. Concerning the remaining 95%, dubbed dark matter and dark energy, we know very little, and we have only indirect evidence of their existence. The text describes the story and the protagonists who showed the need for the existence of this 'missing matter', the observations, and puzzles they had to solve to understand that dark matter was not ordinary matter. The book describes the hunt for dark matter, carried out with instruments operating in space, on the Earth's surface, and in laboratories built in the bowels of the Earth. It also describes dark energy, which manifests itself in the accelerated expansion of the Universe, and appeared only a few billions of years ago. The book discusses why dark energy must exist and what its existence implies, especially for the future and the end of our Universe.

**The Secrets for Motivating, Educating, and Lifting the Spirit of African American Males Ernest H. Johnson, Ph.D.,2011-11-21**

Unlike the media would have you believe, most black males find great value in education. They want to believe that they have a special gift and that they can make a difference in the world. The problem is that they have ill feelings about how society has deprived them of the most qualified teachers and the best ways to be engaged in their own education. As a consequence of repeatedly being marginalized, criticized, and put down by society and teachers, they do not feel motivated to attend school or to

produce outstanding academic work. The Secrets for Motivating, Educating, and Lifting the Spirit of African American Males contains essays that center on how to help educators and parents to equip young black males with the drive necessary to craft fulfilling lives for themselves so they don't slip through the cracks in the educational system. "Historically, we are still dealing with what happens to the image of Black people in the minds of white people. A book like this helps to make certain that the information teachers provide to all students—regardless of their race—will help them understand that the history of this country has made generation after generation of black students see themselves as academically and socially inferior to white people. Most importantly, it's the teachers—not just black teachers, but all teachers— who have to understand the power they have to change the mindset of society. Changing how society thinks about Black people, particularly Black males, is a task teachers can truly accomplish because they have the power to create lesson plans that challenge how students think about each other. For such lessons are important for changing the attitudes and beliefs of the entire community in which we live." – REVEREND C.T. VIVIAN, A Pioneer of the Civil Rights Movement, Author, Educator, and a

Close Friend of Reverend Dr. Martin Luther King, Jr. “This book provides a fresh perspective for understanding the problems associated with the education of Black males. As a minister, I have not encountered a project that gathers the collective wisdom of a group of over 20 Black male educators who are dedicated to helping the world save young Black males. When all their ideas come together, they are bound to create a storm of new thinking about how all of us can work together. As a spiritual leader, my role is to help young Black males understand that the same God that was in Dr. King is the same God that is in them. This is a difficult lesson for some Black males who have been brainwashed to see themselves as having no say about the outcome of their lives. This book will help us, including those in the ministry, to reevaluate the thinking patterns of our boys so that we can better prepare them for the critical thinking that is required for life in the 21st century.” – REVEREND ROBERT KILGORE, Assistant Pastor at Hillside International Truth Center, Atlanta, GA
