The Zoo of Magical and Mythological Creatures Sam

Bowring,2009-03-01 An imaginative and hilarious fantasy from an exciting new voice in children's literature. Twelve-year-old Zackary is the seventh son of the King and Queen of Solaris, and a most reluctant knight. He would rather put anchovies in the knights helmets or use his sword to cut sandwiches than learn courtly ways. In despair, the King and Queen assign him to the castle administrator, Barnabas, who sends him on an errand to the Zoo of Magical and Mythological Creatures, established by Zackary's grandfather. Mistaken for a job applicant, Zackary starts working at the zoo with the resident sorcerer, Acacia. Powerful magic is needed to control some of the extraordinary creatures in the zoo: from the Stympthalian birds of Greek mythology and the nine-headed hydra, to manticores from India and the squonks - Drufflefuster, Gobblesnocks, Snivelsnork and Grimelgrout. These are the ugliest, most endearing, little creatures that will be encountered in a children's book in 2009. But just as Zackary is settling in to his double life, a shadow is cast across the entire kingdom with the news that a strange creature is expected at the zoo - a creature which spreads evil and destruction in its path.

Fossil-Fuel Faulkner Jay Watson,2022-10-06 Fossil-Fuel

Faulkner is the first book-length study of a single writer in the emerging field of the energy humanities. As we try to imagine our way beyond a deeply problematic fossil energy regime that depletes and degrades the planet and sharpens the gap between Global North and Global South and move toward as more just and sustainable energy future, there is much to learn from how previous generations imagined the modern transition into a hydrocarbon-fueled world from the solar- and muscle-powered order that preceded it, and from how they imagined the consequences of that transition, including the new cultural forms it elicited and the new social problems it created. Jay Watson turns to the life and writings of William Faulkner, creator of one of the

richest imaginative landscapes in American literary history, for new insights into the deep-reaching connections linking the extraction, production, and use of energy resources in his native US South to its histories of slavery and Jim Crow, its ecologies of disruption and despoilation, the logic of its cultural practices, and the nuances of literary form. Surveying the author's personal and imaginative engagements with coal and oil, with modern automobility and the road narrative, and with the profligate energies of the sun and the human animal, Fossil-Fuel Faulkner explores nearly all of Faulkner's novels and over a dozen of his short stories, and reveals the author to be one of petromodernity's keenest chroniclers and critics.

Epee 2.0 Johan Harmenberg, 2007 Johan Harmenberg had left his native Sweden because he had given up on serious competitive fencing. But when he came to MIT, he met an innovative coach - the late Eric Sollee. Scribbling on a napkin in a Cambridge bar, Eric, Johan, and the other MIT fencers sketched the Three Conjectures of a new fencing paradigm - a way to force a more skillful opponent to play your game. On his return to Sweden, Johan developed it into an art and a science, then put it into effect with a vengeance. Despite being snubbed by the Swedish authorities because of his unorthodox style, he won the World Championship in 1977 and the Olympic Gold Medal in 1980. In this groundbreaking book, Johan reveals his methods, showing how to can neutralize the superior technique of even the best classical fencers. Plus Olympic Silver Medalist Bjorne Vaggoe adds his personal application of the new paradigm and Geoff Pingree tells how it was applied with stunning success at MIT.

On Truth Harry Frankfurt, 2006-10-31 Having outlined a theory of bullshit and falsehood, Harry G. Frankfurt turns to what

lies beyond them: the truth, a concept not as obvious as some might expect. Our culture's devotion to bullshit may seem much stronger than our apparently halfhearted attachment to truth. Some people (professional thinkers) won't even acknowledge true and false as meaningful categories, and even those who claim to love truth cause the rest of us to wonder whether they, too, aren't simply full of it. Practically speaking, many of us deploy the truth only when absolutely necessary, often finding alternatives to be more saleable, and yet somehow civilization seems to be muddling along. But where are we headed? Is our fast and easy way with the facts actually crippling us? Or is it all good? Really, what's the use of truth, anyway? With the same leavening wit and commonsense wisdom that animates his pathbreaking work *On Bullshit*, Frankfurt encourages us to take another look at the truth: there may be something there that is perhaps too plain to notice but for which we have a mostly unacknowledged yet deep-seated passion. His book will have sentient beings across America asking, The truth—why didn't I think of that?

Day of Ahmed's Secret Florence H. Parry, 1995-04-25 As Ahmed delivers bottles of propane gas, he treasures a special secret he can't wait to share with his family. Skillfully, the authors use the secret to sustain suspense...and to highlight the significance of Ahmed's poignant joy in his accomplishment....A handsome, affectionate book.--Kirkus Reviews.

Water I Won't Touch Kayleb Rae Candrilli, 2021-04-20 Both radically tender and desperate for change, *Water I Won't Touch* is a life raft and a self-portrait, concerned with the vitality of trans people living in a dangerous and inhospitable landscape. Through the brambles of the Pennsylvania forest to a stretch of the Jersey Shore, in quiet moments and violent memories, Kayleb Rae Candrilli touches the broken earth and examines the whole in its parts. Written during the body's healing from a double mastectomy—in the wake of addiction and family dysfunction—these ambitious poems put new form to what's been

lost and gained. Candrilli ultimately imagines a joyful, queer future: a garden to harvest, lasting love, the insistent flamboyance of citrus.

A Companion to Feminist Art Hilary Robinson, Maria Elena Buszek, 2019-06-24 Original essays offering fresh ideas and global perspectives on contemporary feminist art The term 'feminist art' is often misused when viewed as a codification within the discipline of Art History—a codification that includes restrictive definitions of geography, chronology, style, materials, influence, and other definitions inherent to Art Historical and museological classifications. Employing a different approach, *A Companion to Feminist Art* defines 'art' as a dynamic set of material and theoretical practices in the realm of culture, and 'feminism' as an equally dynamic set of activist and theoretical practices in the realm of politics. Feminist art, therefore, is not a simple classification of a type of art, but rather the space where feminist politics and the domain of art-making intersect. The Companion provides readers with an overview of the developments, concepts, trends, influences, and activities within the space of contemporary feminist art—in different locations, ways of making, and ways of thinking. Newly-commissioned essays focus on the recent history of and current discussions within feminist art. Diverse in scope and style, these contributions range from essays on the questions and challenges of large sectors of artists, such as configurations of feminism and gender in post-Cold War Europe, to more focused conversations with women artists on Afropean decoloniality. Ranging from discussions of essentialism and feminist aesthetics to examinations of political activism and curatorial practice, the Companion informs and questions readers, introduces new concepts and fresh perspectives, and illustrates just how much more there is to discover within the realm of feminist art. Addresses the intersection between feminist thinking and major theories that have influenced art theory Incorporates diverse voices from around the world to offer viewpoints on global

feminisms from scholars who live and work in the regions about which they write Examines how feminist art intersects with considerations of collectivity, war, maternal relationships, desire, men, and relational aesthetics Explores the myriad ways in which the experience of inhabiting and perceiving aged, raced, and gendered bodies relates to feminist politics in the art world Discusses a range practices in feminism such as activism, language, education, and different ways of making art The intersection of feminist art-making and feminist politics are not merely components of a unified whole, they sometimes diverge and divide. A Companion to Feminist Art is an indispensable resource for artists, critics, scholars, curators, and anyone seeking greater strength on the subject through informed critique and debate.

From Impressionism to Anime Susan J. Napier, 2007-12-15 What is it about anime that is so appealing to a transnational fan base? Is the American attraction to anime similar to the popularity of previous fads of Japanese culture, like the Japonisants of fin-de-siecle France enamored of Japanese art and architecture, or the American poets in the fifties and sixties who latched onto haiku? Or is this something new, a product of global culture in which ethnic identities carry less weight? This book explores these issues

by taking a look at anime fans and the place they occupy, both in terms of subculture in Japan and America, and in relation to Western perceptions of Japan since the late 1800s.

What Runs Over Kayleb Rae Candrilli, 2017 Poetry. Memoir. Born from the isolation of rural Pennsylvania, a life of homeschooling, and physiological and physical domestic abuse, Kayleb Rae Candrilli's memoir in verse, *WHAT RUNS OVER*, demands attention. Unfurling and unrelenting in its delivery, Candrilli has painted the mountain in excruciating detail. They show readers a world of canned peaches, of Borax cured bear hides, of urine filled Gatorade bottles, of the syringe and all the syringe may carry. They show a world of violence and its many personas. *WHAT RUNS OVER*, too, is a story of rural queerness, of a transgender boy almost lost to the forest forever. When Roethke said 'energy is the soul of poetry,' he might have been anticipating a book like *WHAT RUNS OVER*, which is so full of energy it practically vibrates in your hand. Here, Candrilli's speaker sticks their tongue 'into the heads / of venus fly traps just to feel the bite,' then later, burns holy books in the backyard and rolls around in the ashes until they become 'a painted god.' This is the verve of an urgent new poetic voice announcing itself to the world. As Candrilli writes: 'This is what I look like / when I'm trying to save myself.'--Kaveh Akbar

White Malice Susan Williams,2021-09-30 Accra, 1958.

Africa's liberation leaders have gathered for a conference, full of strength, purpose and vision. Newly independent Ghana's Kwame Nkrumah and Congo's Patrice Lumumba strike up a close partnership. Everything seems possible. But, within a few years, both men will have been targeted by the CIA, and their dream of true African autonomy undermined. The United States, watching the Europeans withdraw from Africa, was determined to take control. Pan-Africanism was inspiring African Americans fighting for civil rights; the threat of Soviet influence over new African governments loomed; and the idea of an atomic reactor in black hands was unacceptable. The conclusion was simple: the US had to 'recapture' Africa, in the shadows, by any means necessary. Renowned historian Susan Williams dives into the archives, revealing new, shocking details of America's covert programme in Africa. The CIA crawled over the continent, poisoning the hopes of 1958 with secret agents and informants; surreptitious UN lobbying; cultural infiltration and bribery; assassinations and coups. As the colonisers moved out, the Americans swept in—with bitter consequences that reverberate in Africa to this day

Kenneth Koch, 2012-01-11 First published to enormous acclaim in 1973, this book became a classic that revolutionized the way children are taught to read and write poetry.
