*Shapers of Early Christianity* Roland H. Worth, Jr., 2010-06-28 In 100 A.D., Christianity was practiced only by a small, oppressed minority. Three hundred years later, Christianity had become one of the world's major religions. But this change did not happen easily. The imperial government of Rome, intellectual tradition and battles within the church itself influenced the transformation. Every viewpoint had its champions and opponents and whether they were defenders of the faith or those whom history later labeled heretics, they were part of the early evolution of Christianity. This volume discusses more than 50 figures who played a role in the transformation from primitive Christianity to early Medieval Catholicism. As it examines the lives and influence of imperial rulers such as Constantine, proponents of the intellectual tradition including Gregory of Neocaesaria and Julius Africanus, and early Bible translators such as Tatian, Origen and Jerome, the work provides a fascinating look at Christian history.

It is intended for students as well as for developers and researchers in the field. This book is highly useful for faculties and students. One can use this book as a study guide, knowledge test questions bank, practice test kit, quiz book, trivia questions . . . etc. The strategy used in

this book is the same as that which mothers and grandmothers have been using for ages to induce kids in the family to sip more soup (or some other nutritious drink). The children are told that some cherries (their favourite noo- dles or cherries ) are hidden somewhere in the bowl, and that serves as an incentive for drinking the soup. In joint families, by the time the children are old enough to know the trick played by their grandma, there is usually another group of kids ready to fall for it! They excite the kids, but the real nutrition lies not in the noodles but in the soup. The problems given in this book are like those noodles/cherries while solving all these problems are nutritious soup. Now it is your choice to drink the nutritious soups or not!!!
