Catching Caden Samantha Christy, 2017-12-15 If all they see are her scars - they aren't looking hard enough. It was my home run ball that shattered her face. Right along with her modeling career. Now it's my mission to help her rebuild her life. And get her to love the game that she hates. The game that dictates my life both on and off the field. But when the lines of our friendship become blurred, I worry she'll just be another casualty of my three-strikes rule. The rule I have to protect my money, my future, my heart. No girl has ever broken it. I've never wanted one to. Until now. The question is ... will I let her?

Cybercrime David Wall, 2007-09-17 Looking at the full range of cybercrime, and computer security he shows how the increase in personal computing power available within a globalized communications network has affected the nature of and response to criminal activities. We have now entered the world of low impact, multiple victim crimes in which bank robbers, for example, no longer have to meticulously plan the theft of millions of dollars. New technological capabilities at their disposal now mean that one person can effectively commit millions of robberies of one dollar each. Against this background, David Wall scrutinizes the regulatory challenges that cybercrime poses for the criminal (and civil) justice processes, at both the national and the international levels. Miguel's Bay Ron Prouty, Peggy Donoho, 2018-10-15 Miguel Guerrero, a Menorcan sailor born in 1817, established a fishing rancho on Terra Ceia Island in 1848. Frederica Kramer, born in 1830, immigrated to Florida's West Coast from Bavaria around 1855. Their dream was to build a new life in America. In spite of the language barrier between these two settlers, they fell in love and were married. They endured the Third Seminole Indian War and the hardships of the Civil War, only to have their family threatened by a deadly fever. Their story is one of enduring love in the face of overwhelming difficulties.

A Man's Promise Brenda Jackson, 2014-05-27 From a New York Times–bestselling author, a jilted groom hopes for second chance at love in book two of a series featuring a “memorable family tree” (USA Today). A man’s word is his bond. His family is his strength. His heart is his own. Superstar musician Caden Granger has spent years running from love, commitment and family. Yet despite his fame and fortune, he knows the kind of respect and adoration he needs can only come from one person—the very woman who wants nothing to do with him. Charity volunteer and owner of a wine boutique, Shiloh Timmons finally got her life on track once her relationship with Caden ended, and she’s in no hurry to revisit a romance with the man who believes she left him standing at the altar. If Caden can’t have Shiloh by his side, all the success in the world will mean nothing. Now he has a chance to renew his promises . . . but is it too late? Praise for Brenda Jackson “Readers can’t deny that Jackson knows how to bring the heat, and more. Her characters are multidimensional, tantalizing and charming.” –RT Book Reviews “If there’s one thing Jackson knows how to do, it’s how to pluck those heartstrings and stir up some seriously saucy drama.” –BookPage “Sexy and sizzling.” –Library Journal “Jackson is a master at writing.” –Publishers Weekly

Friars, Soldiers, and Reformers John L. Kessell, 1976 The Franciscan mission San José de Tumacácori and the perennially undermanned presidio Tubac become

John L. Kessell's windows on the Arizona–Sonora frontier in this colorful documentary history. His fascinating view extends from the Jesuit expulsion to the coming of the U.S. Army. Kessell provides exciting accounts of the explorations of Francisco Garcés, de Anza's expeditions, and the Yuma massacre. Drawing from widely scattered archival materials, he vividly describes the epic struggle between Bishop Reyes and Father President Barbastro, the missionary scandals of 1815–18, and the bloody victory of Mexican civilian volunteers over Apaches in Arivaipa Canyon in 1832. Numerous missionaries, presidials, and bureaucrats—nameless in histories until now—emerge as living, swearing, praying, individuals. This authoritative chronicle offers an engrossing picture of the continually threatened mission frontier. Reformers championing civil rights for mission Indians time and again challenged the friars' tight-fisted paternalistic control over their wards. Expansionists repeatedly saw their plans dashed by Indian raids, uncooperative military officials, or lack of financial support. *Friars, Soldiers, and Reformers* brings into sharp focus the long, blurry period between Jesuit Sonora and Territorial Arizona.

Plagiarism, Intellectual Property and the Teaching of L2 Writing Joel Bloch, 2012-03-23 Plagiarism and intellectual property law are two issues that affect every student and every teacher throughout the world. Both concepts are concerned with how we use texts - print, digital, visual, and aural - in the creation of new texts. And both have been viewed in strongly moral terms,

often as acts of 'theft'. However, they also reflect the contradictory views behind norms and values and therefore are essential to understand when using all forms of texts both inside and outside the classroom. This book discusses the current and historical relationship between these concepts and how they can be explicitly taught in an academic writing classroom.

The Mighty And The Almighty Nick Spencer, 2017-04-13 For a secular age, we have a lot of religious politicians. Theresa May, Vladimir Putin, Angela Merkel, even Donald Trump all profess Christianity, as did Obama, Brown, Sarkozy, Bush and Blair before them. Indeed, it is striking how many Christian Presidents and Prime Ministers have assumed the global stage over recent years. In spite of Alastair Campbell's oft- (and mis-) quoted line, 'We don't do God', it seems like we definitely do. But how sincere is this faith? Is not much of it simply window-dressing for the electorate, paste-on haloes to calm the moral majority? Conversely, how dangerous is it? If we elect our politicians to do our democratic will, do we really want them praying to God for advice? The Mighty and the Almighty looks at some of the biggest political figures of the past forty years - from Thatcher and Reagan, through Mandela and Clinton, to May and Trump - and looks at how they 'did God'. Did their faith actually shape their politics, and if so, how? Or did their politics shape their faith? And does it matter if it did? In an age when religion is more important on the global stage than anyone would have predicted fifty years ago, this book will tell you everything you want to know, and some things you won't, about how the Mighty get on with the Almighty.

Policing Futures Pamela Davies, Peter Francis, Victor Jupp, 1997-12-13 This innovative book offers a comprehensive assessment of policing in late modern Britain. The overall theme is that as we approach the end of the twentieth century, it is an appropriate time to review recent developments in policing and law enforcement and to consider future prospects. The areas covered include equal opportunities and public policework; perspectives on and politics of police policy making; the emergence and consequences of managerialism and privatisation; legitimacy, policing and human rights; crime control and surveillance in Northern Ireland; crime rates, victimisation and the provision of service; risk, late modernity and 'community policing'; regulating virtual communities and policing cybercrime; and the insights to be gained from comparative analysis. Thought-provoking and incisive, Policing Futures is an invaluable source of information, and will be essential reading for students, lecturers, researchers and practitioners in the fields of police studies, criminology, socio-legal studies, law, sociology, social policy, social work and related disciplines.

Political and Civic Leadership Richard A. Couto, 2010-09-14 I jumped at the chance to shepherd this collection. This was personal for me. In the past, when I had prepared to teach courses on political leadership, I had come up with a dearth of recent scholarly attention to the topic. Perhaps my perspective on politics and leadership exacerbated the difficulty of my search. I had in mind a politics that touched all aspects of power and authority in our lives (not just government), encouraged the moral imagination, and affirmed human agency that could make the future better than the present. I searched with limited success for material that would explain how all of us shape and are shaped by politics. My perspective on leadership may have also hindered my search. I had in mind the simple notion of taking

initiative on behalf of shared values. I found too little material about leadership that extended beyond the spectacle of authority and its assumption of hierarchy. I wanted to explain that each of us, regardless of our place in a hierarchy, has a calling to lead - to act on behalf of our moral imagination. Editing this volume permitted me the chance to develop the material I sought. I (as well as other teachers) no longer have a shortage of material relating politics and leadership with each other. From the Introduction

From Worlds Apart Billy Joe Neese,2009 This is a story of two families ? ordinary people intertwined with the dates, places, and extraordinary events of world history. Their names are not found in history books. Many, in the 18th century, could neither read nor write their names, but the Neeses and Falcons, despite any illiteracy, were part of the great movement of peoples from around the world who came to the New World to build the most powerful country on this planet. They established freedom as the bedrock upon which America stands. Our people endured much hardship and privation, but they did not give up in their determination to build America. Our people were among the pioneering immigrants who laid the foundation of our country ? the ideals of our country are steeped in the sweat and blood of these early Americans ? the Neeses and Falcons.
