Ukraine in Crisis Nicolai Petro, 2017-07-14 In this comprehensive volume, Canadian, Ukrainian, and American scholars examine various aspects of the Ukrainian crisis, and consider its impact on Europe. The chapters include topics such as: Russian narratives about Ukraine; the conflicting assumptions underlying their divergent nation-building agendas; new findings about the far right's involvement in the Maidan protests; the Ukrainian crisis from the perspective of Western grand strategy; the security implications of Russia's geopolitical agenda in Ukraine; the factors that contributed to the rise of separatism in Donbass; and the economic costs for Ukraine of choosing economic integration with Europe rather than Eurasia. This book demonstrates that the current crisis in Ukraine is much more complex than comes across in the media. It also explores the fact that, since Russia and Ukraine will always be neighbours, some sort of modus vivendi between them will have to be found. This book was originally published as a special issue of *European Politics and Society*.

Competing Without Fighting Seth G. Jones, Emily Harding, Catrina Doxsee, Jake Harrington, Riley McCabe, 2023-09-11 China is conducting an unprecedented campaign below the threshold of armed conflict to expand the influence of the Chinese Communist Party (CCP) and weaken the United States and its partners. This campaign involves sophisticated Chinese espionage activities, offensive cyber operations, disinformation on social media platforms, economic coercion, and influence operations targeting companies, universities, and other organizations. This report offers one of the most comprehensive analyses to date of Chinese political warfare activities and examines China's main actions, primary goals, and options for the United States and its partners. It sheds new light

on the scope and breadth of Chinese activities and comes to several conclusions.

The Cambridge Companion to International Theatre Festivals Ric Knowles,2020-06-11 The global rise of festival culture and experience has taken over that which used to merely be events. The Cambridge Companion to International Theatre Festivals provides an up-to-date, contextualized account of the worldwide reach and impact of the 'festivalization' of culture. It introduces new methodologies for the study of the global network of theatre production using digital humanities, raises questions about how alternative origin stories might impact the study of festivals, investigates the festivalized production of space in the world's 'Festival Cities', and re-examines the social role and cultural work of twenty-first-century theatre, performance, and multi-arts festivals. With chapters on festivals in Africa, Asia, Australia, the Arab world, the francophone world, Europe, North America, and Latin America it analyses festivals as sites of intercultural

negotiation and exchange.

Brazilian Telenovelas and the Myth of Racial Democracy

Samantha Nogueira Joyce, 2012 About the impact of a Brazilian telenovela dealing with race and racism.

Distortion and Subversion Rodrigo Lopes de Barros, 2022-10-15 An Open Access edition of this book will be available on the Liverpool University Press website and the OAPEN library. At the turn of the 21st century, the Brazilian punk and hardcore music scene joined forces with political militants to foster a new social movement that demanded the universal right to free public transportation. These groups collaborated in numerous venues and media: music shows, protests, festivals, conferences, radio stations, posters, albums, slogans, and digital and printed publications. Throughout this time, the single demand for free public transportation reconceptualized notions of urban space in Brazil and led masses of people across the country to protest. This book shows how the anti-capitalist, anti-bourgeoisie stance present in the discourse of a number of

Brazilian bands that performed from the late 1990s to the beginning of the 21st century in the underground music scenes of Florianópolis and São Paulo encountered a reverberation in the rhetoric emanating from the Campaign for the Free Fare, subsequently known as the Free Fare Movement (Movimento Passe Livre, or MPL). This allowed the engaged bands and the movement for free public transportation to contribute to each other's development. The book also includes reflections on the Bus Revolt that occurred in the northeastern city of Salvador, unveiling traces of the punk and anarcho-punk movements, and the Revolution Carnivals that occurred in the city of Belo Horizonte, an event that mixed lectures, vegetarianism, protests, soccer, and punk rock music.

Selfie of Success Burra Venkatesham IAS, 2019-07-07 So far, the Success books spoke on only achieving the desired visions and planned goals regarding wealth, prosperity, fame, establishment of business empires, big positions; or tips to achieve anything you want in life; completing the objectives; accomplishing the plans; reaching the career goals; accumulating abundance; the do's and don'ts, etc. But this book, 'Selfie of Success', speaks about Success in 360 degrees, which is its USP. It encompasses all the angles of success, providing various insights and comprehensive perspective of the world of Success. Everyone, who wants to reach Success, should read it to know the unimaginable and fascinating aspects of Success. 'Selfie of Success' presents a holistic view of the Success in a poetic and philosophical way, with fluid style. The aspirant of Success cannot so far imagine what the side effects of Success will be; and what the sins of Success will be. The succeeding real life stories highlight each concept in a subtle way. This is a unique book on Success, because the soul of Success itself speaks directly to you from the depths of its story. As Success speaks from its heart, it is like a face-to-face conversation with ease and grace. A must read for its lucid style and unique taking, as well as its

comprehensiveness.

Labor, Class Formation, and China's Informationized Policy of Economic Development Yu Hong, 2011-03-31 In *Labor, Class Formation, and China's Informationized Policy of Economic Development*, Yu Hong examines crucial connections between the evolving political economy of information and communications technology (ICT) and the reconstitution of class relations in China. Situating China's ICT development over the last thirty years at the intersection of transnational trends, domestic policies, and institutional arrangements, Hong shows how evolving class relations in the ICT sector are shaped by and shaping the transnational capitalist dynamics and domestic socio-economic transformations.

The Domestic Dynamics Of China's Energy Diplomacy Zhang Chi, 2015-09-17 Since the beginning of the 21st century, China's energy diplomacy has been expanding rapidly and the country is searching for energy resources worldwide. This movement has not only improved China's energy security and international relations, but also enabled the Chinese national oil companies (NOCs) to access new investment markets and implement development strategies. The Chinese government and the NOCs need each other's support to realise their respective interests. The interaction between the government and the NOCs will have a critical influence on China's energy diplomacy. The Domestic Dynamics of China's Energy Diplomacy explores the long-neglected domestic dynamics of China's energy diplomacy, in

particular the interaction of national and corporate interests. It argues that the convergence of national and corporate interests is the key momentum of China's energy diplomacy. It observes that the government-NOC relationship has been evolving with China's economic and enterprise reform. Finally, it tests the empirical evidence of the domestic dynamics of China's energy diplomacy against the three mainstream international political economy theories, showing their merits and shortcomings in explaining the phenomenon, before providing an alternative conceptualisation of the movement.

Poland's Security Policy Justyna Zając, 2016-11-02 This book examines how the changing post-Cold War order affected Poland's security policy and particularly how the West's weakening position and Russia's revisionist policy reinforced the traditional view of security in Poland. It addresses the reasons why Poland, a middle power in Central Europe, adopted a bridging strategy in the early 1990s; how this strategy changed along with the redistribution of power in the international system; why, after the 2008 Georgian-Russian War, Poland took steps to support NATO consolidation, strengthen relations with the USA, and expand its own military capabilities; and how the Ukraine crisis affected Poland's security. This overview is an invaluable resource for students of international and European studies, security studies, political science, as well as for decision-makers, politicians, EU staff, and anyone interested in international politics in Central Europe.

The Legacy ,

Marriage, Law and Modernity Julia Moses, 2017-11-16 Marriage, Law and Modernity offers a global perspective on the modern history of marriage. Widespread recent debate has focused on the changing nature of families, characterized by both the rise of unmarried cohabitation and the legalization of same-sex marriage. However, historical understanding of these developments remains limited. How has marriage come to be the

target of national legislation? Are recent policies on same-sex marriage part of a broader transformation? And, has marriage come to be similar across the globe despite claims about national, cultural and religious difference? This collection brings together scholars from across the world in order to offer a global perspective on the history of marriage. It unites legal, political and social history, and seeks to draw out commonalities and differences by exploring connections through empire, international law and international migration.

The Development of Eco Cities in China Juke Liu, Weiping Sun, Wenzhen Hu, 2016-10-17 This book presents an in-depth study on and summary of the current practice and theories for the construction of eco-cities in China in the context of the country's rapid urbanization. It argues that by 2020, 60% of China's population will live in cities. And the evolution from "green cities" to "eco-cities", and subsequently to "smart cities" is crucial to China's sustainable development. The book presents a feasible and objective quantitative evaluation system for the sustainable and healthy development of eco-cities. It summarizes the Chinese experience in building eco-cities as the coordinated development of economy, society, resources and environment, with the goal being "to make cities inclusive, safe, resilient and sustainable". This is essential to achieving a number of the United Nations' Sustainable Development Goals. In addition, the book defines the current stage of development Chinese cities have reached in terms of ecological construction, and offers guidance on selecting suitable urban ecological construction modes and improvement approaches. It provides a valuable reference source and guidebook for research on and the practice of eco-city construction. Accordingly, it will help other countries around the world, especially the developing countries, to benefit from China's successful experience.

Networking China Yu Hong, 2017-01-11 In recent years, China's leaders have taken decisive action to transform

information, communications, and technology (ICT) into the nation's next pillar industry. In *Networking China*, Yu Hong offers an overdue examination of that burgeoning sector's political economy. Hong focuses on how the state, in conjunction with market forces and class interests, is constructing and realigning its digitalized sector. State planners intend to build a more competitive ICT sector by modernizing the network infrastructure, corporatizing media-and-entertainment institutions, and by using ICT as a crosscutting catalyst for innovation, industrial modernization, and export upgrades. The goal: to end China's industrial and technological dependence upon foreign corporations while transforming itself into a global ICT leader. The project, though bright with possibilities, unleashes implications rife with contradiction and surprise. Hong analyzes the central role of information, communications, and culture in Chinese-style capitalism. She also argues that the state and elites have failed to challenge entrenched interests or redistribute power and resources, as promised. Instead, they prioritize information, communications, and culture as technological fixes to make pragmatic tradeoffs between economic growth and social justice.
