**United States and Pakistan in the 21st Century** Syed Tahseen Raza, 2020-11-11 This book historically maps and examines the evolving, contemporary geostrategic and geopolitical imperatives of the United States within Pakistan and the South Asian region, especially after September 11, 2001. It offers a detailed and theoretical account of the rapidly changing context of US foreign policy towards Pakistan after 2001. The history of the US-Pakistan relationship has been a complex and inscrutable mix of cooperation and conflict has turned even more challenging after 9/11. This book covers the latest developments and relevant themes from world politics as it discusses the impact of the unprecedented rise in religious extremism in Pakistan, stemming from the US War on Terror as well as Pakistan's economic vulnerability and military dictatorship, India's offer to support the US in its war in Afghanistan, Pakistan's nuclear capability, and the US administration's decision to end financial aid to Pakistan. The study highlights the fact that, from the receding of British influence in the region through the Cold War and post-Cold War phases to the post-9/11 period, US-South Asia policy has been informed by the theoretical paradigm of the grand strategy of primacy. This topical book will be useful to scholars and researchers of international relations, politics, political studies, strategic and defence studies, security and peace studies, foreign policy, area studies, and South Asian studies. It will also interest diplomats, politicians, policymakers, security experts, journalists, and think tanks interested in India, Pakistan, and the United States on issues of international politics, world affairs, and terrorism.

**Celebrities Against Violence** Truman R. Keys, 2022-03-04 Violence is more than an issue in America. It is a pandemic, its negative impacts and corrosive character are harming us whether we are a victim, a bystander or professional tasked with public health and safety. Violence affects us regardless of class or social standing. For decades, celebrities and well-known public figures have taken to the media to share their own experiences with violence. This book spotlights the celebrities and their loved ones who have survived self-harm, bullying, intimate partner violence, sexual assault, family abuse, home invasion, gun violence, or police brutality. Violence prevention experts increasingly recognize the influence of celebrities and work with them to spread

awareness. This collection of case studies aims to support this growing influence by documenting the effects of violence prevention through celebrity advocacy.

India's Undernourished Children ,2006 The prevalence of child undernutrition in India is among the highest in the world, nearly double that of Sub-Saharan Africa, with dire consequences for morbidity, mortality, productivity and economic growth. Drawing on qualitative studies and quantitative evidence from large household surveys, this book explores the dimensions of child undernutrition in India and examines the effectiveness of the Integrated Child Development Services (ICDS) program, India's main early child development intervention, in addressing it. Although levels of undernutrition in India declined modestly during the 1990s, the reductions lagged behind those achieved by other countries with similar economic growth. Nutritional inequalities across different states and socioeconomic and demographic groups remain large. Although the ICDS program appears to be well-designed and well-placed to address the multi-dimensional causes of malnutrition in India, several problems exist that prevent it from reaching its potential. The book concludes with a discussion of a number of concrete actions that can be taken to bridge the gap between the policy intentions of ICDS and its actual implementation.

**A Companion to Indian Cinema** Neepa Majumdar, Ranjani Mazumdar, 2022-08-09 A new collection in the Wiley Blackwell Companions to National Cinemas series, featuring the cinemas of India In A Companion to Indian Cinema, film scholars Neepa Majumdar and Ranjani Mazumdar along with 25 established and emerging scholars, deliver new research on contemporary and historical questions on Indian cinema. The collection considers Indian cinema's widespread presence both within and outside the country, and pays particular attention to regional cinemas such as Bhojpuri, Bengali, Malayalam, Manipuri, and Marathi. The volume also reflects on the changing dimensions of technology, aesthetics, and the archival impulse of film. The editors have included scholarship that discusses a range of films and film experiences that include commercial cinema, art cinema, and non-fiction film. Even as scholarship on earlier decades of Indian cinema is challenged by the absence of documentation and films, the innovative archival and field work in this Companion extends from cinema in early twentieth century India to a historicized engagement with new technologies and contemporary cinematic practices. There is a focus on production cultures and circulation, material cultures, media aesthetics, censorship, stardom, non-fiction practices, new technologies, and the transnational networks relevant to Indian cinema. Suitable for undergraduate and graduate students of film and media studies, South Asian studies, and history, A Companion to Indian Cinema is also an important new resource for scholars with an interest in the context and theoretical framework for the study of India's moving image cultures.

Critical Pedagogy for a Polymodal World Douglas J. Loveless, Bryant Griffith, 2014-11-04 This book explores the complexity of communication and understanding as a possible asset in formal education rather than a problem that needs to be "fixed". The authors examine the question and experience as pedagogical tools, challenging readers to play the critic and ask hard questions, beginning with: Why do the ideas discussed within the book matter? The digital information age with expanding ways of thinking, being, communicating, and learning complicates public education. So, what happens as diverse narratives collide in schools? To answer this question, the authors of this book delve into conflicting assumptions within the framework of complexity sciences and education in an attempt to explore space beyond positivist/anti-positivist debates. This involves examining the role of cultural and aesthetic narratives and cautionary tales as means of acknowledging possibilities in human experiences in education. These possibilities can facilitate praxis, as theory, research, and teaching become reflective practices, and as thinking about education broadens to include diverse methods of understanding and presenting complex phenomena.
