Emotional Labor: Putting the Service in Public Service Mary E. Guy, Meredith A. Newman, Sharon H. Mastracci, 2014-12-18 Most public service jobs require interpersonal contact that is either face-to-face or voice-to-voice - relational work that goes beyond testable job skills but is essential for job completion. This unique book focuses on this emotional labor and what it takes to perform it. The authors weave a powerful narrative of stories from the trenches gleaned through interviews, focus groups, and survey data. They go beyond the veneer of service delivery to the real, live, person-to-person interactions that give meaning to public service. For anyone who has ever felt apathetic toward government work, the words of caseworkers, investigators, administrators, attorneys, correctional staff, and 9/11 call-takers all show the human dimension of bureaucratic work and underscore what it means to work with feeling.

Leadership in Public Organizations Montgomery Van Wart, Paul Suino, 2017-02-17 Now in a completely revised and updated Third Edition, *Leadership in Public Organizations* provides a compact but complete analysis of leadership for students and practitioners who work in public and nonprofit organizations. Offering a comprehensive review of leadership theories in the field, from the classic to the cutting-edge, and how they relate specifically to the public sector context, this textbook covers the major competency clusters in detail, supported by research findings as well as practical guidelines for improvement. These competencies are graphically portrayed in a leadership action cycle that aids readers in visually connecting theory and practice. Including questions for discussion and analysis and hypothetical scenarios for each chapter, as well as an easily reproducible leadership assessment instrument students may use to apply the theories they've learned, this Third Edition also explores: The rise of e-leadership, or the relationship between leadership and information and communication technologies, as well as the role leaders play in selecting those technologies. The challenges of nonprofit management leadership, including an extensive case study designed to illustrate the differences between public and nonprofit sector leadership curricula. Separate, dedicated chapters on charismatic and transformational leadership; distributed leadership; ethics-based leadership; and power, world cultures, diversity, gender, complexity, social change, and strategy. *Leadership in Public Organizations* is an essential core text designed specifically with upper-level and graduate Public Administration courses on leadership in mind, but it has also proven an indispensable guidebook for professionals seeking insight into the role of successful leadership behavior in the public sector. It can further be used as supplementary reading in introductory courses examining management competencies, in leadership classes to provide practical self-help and improvement models, and in Organizational Theory classes that wish to balance organizational perspectives with individual development.

Administrative Leadership in the Public Sector Montgomery Van Wart, Lisa Dicke, 2016-07-22 *Administrative Leadership in the Public Sector* is an ideal resource for any Public Administration course involving leadership and public management. Each of the book's nine main sections begins with introductory text by the volume's editors, Monty Van Wart and Lisa Dicke, followed by relevant readings. The volume includes some of the most important readings on public leadership published in the last eight decades. More than just an anthology, *Administrative Leadership in the Public Sector* provides a unique and useful framework for understanding the vast subject of leadership.

Introducing Public Administration Jay M. Shafritz, E. W. Russell, Christopher P. Borick, 2015-07-17 Updated in its 8th edition, *Introducing Public Administration* provides readers with a solid, conceptual foundation in public administration, and contains the latest information on important trends in the discipline. Known for their lively and witty writing style, Shafritz, Russell, and Borick cover the most important issues in public

administration using examples from various disciplines and modern culture. This approach captivates readers and encourages them to think critically about the nature of public administration today.

Performance Analysis for Public and Nonprofit Organizations XiaoHu Wang, 2010 The book focuses on application of performance analysis tools, not the theory of performance management. This text is an effective learning tool for students in analytical technique courses in public administration and policy programs. With other texts, students may learn about a statistical concept and calculation, but still don't understand the managerial context where the statistical tool applies. Consequently, they often fail to understand the managerial importance of statistical tools they learn, and worse, fail to recognize the correct tool to use when a managerial issue rises. This book corrects this problem by providing a managerial context that bridges statistical concepts and the managerial reality. The managerial context is performance management, in which performance data are presented, monitored, and analyzed. It is in this performance management context that the usefulness and applicability of statistical tools are illuminated for the learner.--BOOK JACKET.

Lernstrategien des Wirtschaftsprüfers für die Fortbildung in IFRS Julia Füssel, 2010-11-18 Julia Füssel untersucht, wie Wirtschaftsprüfer in der Wissensdomäne IFRS Wissen erwerben und ihre Kenntnisse ausbauen. Es wird gezeigt, dass die Berufserfahrung die Lernstrategie signifikant beeinflusst und im IFRS-Kontext strategisches Lernen eine hohe Bedeutung besitzt.

Die Europäische Kommission als lernende Organisation? Tanja Kopp-Malek, Martin Koch, Alexandra Lindenthal, 2009-01-09 Die Europäische Kommission stellt einen zentralen Akteur der Europäischen Union dar. Sie wird mit zunehmend umfangreicheren und sich wandelnden Aufgaben konfrontiert, auf die die Europäische Kommission reagieren muss. Dieses Buch untersucht am Beispiel der Umsetzung des umweltpolitischen Integrationsprinzips innerhalb der Europäischen Kommission, inwiefern diese vor dem Hintergrund sich verändernder Umweltanforderungen in der Lage ist zu lernen. Dazu fußt die Untersuchung auf einer systematischen Beschäftigung mit Ansätzen organisationalen Lernens, die zur Anleitung der empirischen Untersuchung herangezogen werden.

Encyclopedia of Business and Finance: A-I Burton S. Kaliski, 2007 Contains over 315 alphabetically arranged articles that provide information about the major functional areas of business, covering accounting, economics, finance, information systems, law, management, and marketing, as well as organizations in business and government, and federal legislation.

Handbook of Conflict Management William J. Pammer, Jerri Killian, 2003-06-20 The Handbook of Conflict Management cuts across theoretical perspectives, strategic models, and situational contexts as the first all-encompassing conflict management reference. A young field in both research and practice, this foundational text sets precedents for furthering academic study and real-world progress in managing diverse instances of conflict. It draws on more than 600 references to probe sources of conflict and to prescribe means of reducing tension in organizational, institutional, and community settings. Introducing core themes and issues into the dialogue, the handbook provides techniques to promote peaceful negotiation, cooperation, and consensus.

The Contingency Theory of Organizations Lex Donaldson, 2001-02-20 Written by one of the foremost scholars in the field, this volume presents a comprehensive, in-depth analysis of the theories, evidence and methodological issues of contingency theory - one of the major theoretical lenses used to view organizations. It includes both an appreciation of the coherency of contingency theory overall and a frank recognition of some of the deficiencies in contingency theory research. The coherent underlying model provides the

platform from which to make good some of the deficiencies through a series of improvements in theory and method that chart the course for future research.

The Diddakoi Rumer Godden, 2011-08-11 Rumer Godden's *The Diddakoi* won the 1972 Whitbread Children's Book Award. Everyone in Kizzy's town hates her because she's half-gypsy - a diddakoi. But Kizzy doesn't care. All she needs is Gran and her horse, Joe. But when Gran dies and their wagon burns down, Kizzy is all alone. No one wants to look after her and her beloved Joe might get sent to the knacker's yard. Can Kizzy survive in a hostile world - and save Joe?

Encyclopedia of Business and Finance Burton S. Kaliski, 2001 A comprehensive reference guide covering five areas of business including, finance and banking, accounting, marketing, management, and information systems.

Images of Postmodern Society Norman K Denzin, 1991-09-26 By using a series of studies of contemporary mainstream Hollywood movies - *Blue Velvet*, *Wall Street*, *Crimes and Misdemeanors*, *When Harry Met Sally*, *sex lies and videotape*, *Do the Right Thing* - Norman K Denzin explores the tension between ideas of the postmodern, and traditional ways of analyzing society. The discussion moves between two forms of text: social theory and cinematic representations of contemporary life. Denzin analyzes the ideas of society embedded in poststructuralism, postmodernism, feminism, cultural studies and Marxism through the ideas of key theorists (Mills, Baudrillard, Barthes, Habermas, Jameson, Bourdieu, Derrida and others). He relates these ideas to the problematic of the postmodern self as e

Leadership and Innovation Jameson W. Doig, Erwin C. Hargrove, 1990-05-01 Jameson W. Doig and Erwin C. Hargrove outline a perspective on leadership in government that emphasizes entrepreneurship. They show how government executives' ability to set goals, generate support inside and outside the bureaucracy, and implement innovative ideas-- even at risk to their own careers-- can have a significant impact on their organizations and on society. In this abridged edition, biographical studies of David Lilienthal, Hyman Rickover, James Webb, Nancy Hanks, Robert McNamara, Wilbur Cohen, Robert Ball, and Austin Tobin illustrate a variety of skills and strategies used by effective executives. Doig and Hargrove describe their styles as ranging from rhetorical leaders to entrepreneurial administrators. Yet these diverse leaders share some important traits, including a capacity to see historical opportunity, the ability to mobilize constituencies, and a desire to make a difference.

Leadership James G. Hunt, 1991-05-24 Complementing other books published in the field of strategic management, *Leadership* emphasizes the differences in leadership requirements at multiple levels in an organization - a difference that is not just one of degree but also one of quantity. Hunt draws on stratified systems theory for the book's conceptual framework. He discusses various research strategies with a particular emphasis on time and explores practical leader training and development.

Leadership of Public Bureaucracies: The Administrator as Conservator Larry D. Terry, 2015-05-15 The revolution in public management has led many reformers to call for public managers to reinvent themselves as public entrepreneurs. Larry D. Terry opposes this view, and presents a normative theory of administrative leadership that integrates legal, sociological, and constitutional theory.

The Culture Industry Theodor W Adorno, 2020-07-24 The creation of the Frankfurt School of critical theory in the 1920s saw the birth of some of the most exciting and challenging writings of the twentieth century. It is out of this background that the great critic Theodor Adorno emerged. His finest essays are collected here, offering the reader

unparalleled insights into Adorno's thoughts on culture. He argued that the culture industry commodified and standardized all art. In turn this suffocated individuality and destroyed critical thinking. At the time, Adorno was accused of everything from overreaction to deranged hysteria by his many detractors. In today's world, where even the least cynical of consumers is aware of the influence of the media, Adorno's work takes on a more immediate significance. The Culture Industry is an unrivalled indictment of the banality of mass culture.
