The Mysterious Affair at Styles Agatha Christie, 1920 The heiress of Styles has been murdered, dying in agony from strychnine slipped into her coffee. And there are plenty who would gain from her death: the financially strapped stepson, the gold digging younger husband, and an embittered daughter-in-law. Agatha Christie's eccentric and hugely popular detective, Hercule Poirot, was introduced to the world in this book, which launched her career as the most famous and best loved of all mystery writers.

French-speaking Women Documentarians Janis L. Pallister, Ruth A. Hottell, 2005 *French-Speaking Women Documentarians* is a guide for teachers of French and others interested in selecting and researching the work of female French-speaking documentarians. Represented in this book are filmmakers from Canada, various African

nations, the Antilles, Lebanon, Switzerland, Belgium, and several other countries, with emphasis on Agnès Varda of France – arguably the greatest female documentarian of all. The book includes information on each filmmaker, classified by country of origin, and lists and describes her works, giving factual information such as date, duration, credits, and synopses, and pointing out critical treatments, both in English and in French, of her most important films. Shorts, docudramas, and works of animation are also discussed, as they, too, reflect history and culture. This guide will lead to the viewing of films that shed understanding on the culture being portrayed and to a greater appreciation of the contribution of French-speaking women filmmakers to this important, if not always objective, film genre.

Mon-Khmer: Peoples of the Mekong Region Ronald D. Renard, Kr. Anchalee Singhanetra Renard, 2015-03-01 The Mon-Khmer project took a long journey before it was turned into a final product—the first comprehensive collection of articles on Mon-Khmer peoples of the Mekong Region. The project was started in 2001 by the first editor of the book, Dr. Ronald D. Renard, who unfortunately did not see the final product of his valuable work. During 1995-1996, Dr. Ron Renard, as the manager of the UNDP Highland People project, and I travelled to Northeast Cambodia, Vietnam and Laos to explain to representatives of ethnic communities the aim of the project and how the ethnic minorities, many of whom are Mon-Khmer, could be involved and benefit from it. It may well be that this encounter with these ethnic groups made him expand his intellectual interest to study them in addition to the Karen in Thailand whose history of integration into the Siamese state he had studied for his dissertation completed in 1980. According to my last conversation with Ron, it was during the time when he worked for the Journal of Siam Society in the late 1990s that he decided to embark upon the Mon-Khmer project which preoccupied the last part of his academic life.

Rituals of Care Felicity Aulino, 2019-10-15 Aulino's work is a strong contribution to the study of aging in the field of medical anthropology specifically because of the focus on the embodied performativity of care evident in her research practice and analysis. *Rituals of Care* is an excellent book, which offers a thoughtful approach to everyday care in Thailand. – Anthropology & Aging End-of-life issues are increasingly central to discussions within medical anthropology, the anthropology of political action, and the study of Buddhist philosophy and practice. Felicity Aulino's *Rituals of Care* speaks directly to these important anthropological and existential conversations. Against the backdrop of global population aging and increased attention to care for the elderly, both personal and professional, Aulino challenges common presumptions about the universal nature of caring. The

way she examines particular sets of emotional and practical ways of being with people, and their specific historical lineages, allows Aulino to show an inseparable link between forms of social organization and forms of care. Unlike most accounts of the quotidian concerns of providing care in a rapidly aging society, *Rituals of Care* brings attention to corporeal processes. Moving from vivid descriptions of the embodied routines at the heart of home caregiving to depictions of care practices in more general ways—care for one's group, care of the polity—it develops the argument that religious, social, and political structures are embodied, through habituated action, in practices of providing for others. Under the watchful treatment of Aulino, care becomes a powerful foil for understanding recent political turmoil and structural change in Thailand, proving embodied practice to be a vital vantage point for phenomenological and political analyses alike.

The Strategy for Korea's Economic Success Hwy-Chang Moon, 2016-04-01 Korea's economic success has inspired numerous studies and research projects in past decades. Despite good efforts to analyze the strategy of Korea, earlier studies have not been able to comprehensively and systematically explain the country's miraculous growth. After thorough analysis of these earlier studies, a new model has been developed by showing that a country or firm does not have to be more innovative or possess more resources to have a competitive advantage over others. In *The Strategy for Korea's Economic Success*, Hwy-Chang Moon details four factors that comprise the ABCD model and illustrates how the Korean government, corporations, and people have exemplified these factors in achieving their current level of success. The four factors are agility (speed + precision), benchmarking (learning + best practices), convergence (mixing + synergy), and dedication (diligence + goal-orientation). Together, these factors have enabled Korea's economic success and will continue to drive the next level of growth. Anyone can become more competitive with proper implementation of the ABCDs. Korea's development strategy holds special value, because it is more practical and appropriate for many developing countries. For more developed countries, on the other hand, the ABCDs can be used to fast-track the next phase of growth. Moon also highlights the role of internationalization in broadening the scope of strategic choices, and shows how the combined implementation of internationalization and the ABCDs deepens the pool of strategic resources.

The Internationalization of Internal Conflicts Amy L. Freedman, 2016-04-29 Internal security crises, from environmental disaster, extreme poverty and deprivation, armed conflicts, or ethnic or religious conflict, provide sites of opportunity for those seeking to internationalize conflicts. Domestic conflicts in Africa, the Middle East, and Southeast Asia have started as internal problems, but have taken on regional and international dimensions as parties to the conflict within the country and sympathetic external forces have joined forces with each other for mutual gain. This book examines the international dimension to internal conflicts and asks: under what conditions do domestic conflicts become opportunities for regional or global actors to become involved? Why have some countries been able to successfully deal with this problem while others have not? Who are the actors who seek to internationalize conflicts? Why and with what means do they become involved and how do their agendas get internalized/localized? Cases include: the separatist movements in the Philippines, Southern Thailand, Aceh (Indonesia); and the civil wars in Rwanda/Congo, and Sierra Leone/Liberia, Lebanon, and Iraq. This book finds that a combination of greater democratization internally, coupled with constructive outside mediation efforts, can produce conditions necessary to prevent conflicts from escalating or diffusing, and can facilitate peace-building. Several chapters in this book were originally published as a special issue of *Asian Security*.

Aspects of Linguistic Variation Daniël Olmen, Tanja Mortelmans, Frank Brisard, 2018-12-03 Linguistic variation is a

topic of ongoing interest to the field. Its description and its explanations continue to intrigue scholars from many different backgrounds. By taking a deliberately broad perspective on the matter, covering not only crosslinguistic and diachronic but also intralinguistic and interspeaker variation and examining phenomena ranging from negation over connectives to definite articles in well- and lesser-known languages, the volume furthers our understanding of variation in general. The papers offer new insights into, among other things, the theoretical notion of comparative concepts, the social or mental nature of language structure, the areal factor in lexical typology and the diachronic implications of semantic maps. The collection will thus be of relevance to typologists and historical linguists, as well as to people studying variation within the areas of cognitive and functional linguistics.

Opposing Democracy in the Digital Age Aim Sinpeng, 2021-03-02 Opposing Democracy in the Digital Age is about why ordinary people in a democratizing state oppose democracy and how they leverage both traditional and social media to do so. Aim Sinpeng focuses on the people behind popular, large-scale antidemocratic movements that helped bring down democracy in 2006 and 2014 in Thailand. The yellow shirts (PAD—People's Alliance for Democracy) that are the focus of the book are antidemocratic movements grown out of democratic periods in Thailand, but became the catalyst for the country's democratic breakdown. Why, when, and how supporters of these movements mobilize offline and online to bring down democracy are some of the key questions that Sinpeng answers. While the book primarily uses a qualitative methodological approach, it also uses several quantitative tools to analyze social media data in the later chapters. This is one of few studies in the field of regime transition that focuses on antidemocratic mobilization and takes the role of social media seriously.

To Break Russia's Chains Vladimir Alexandrov, 2021-09-07 A brilliant examination of the enigmatic Russian revolutionary about whom Winston Churchill said few men tried more, gave more, dared more and suffered more for the Russian people, and who remains a legendary and controversial figure in his homeland today. Although now largely forgotten outside Russia, Boris Savinkov was famous, and notorious, both at home and abroad during his lifetime, which spans the end of the Russian Empire and the establishment of the Soviet Union. A complex and conflicted individual, he was a paradoxically moral revolutionary terrorist, a scandalous novelist, a friend of epoch-defining artists like Modigliani and Diego Rivera, a government minister, a tireless fighter against Lenin and the Bolsheviks, and an advisor to Churchill. At the end of his life, Savinkov conspired to be captured by the Soviet secret police, and as the country's most prized political prisoner made headlines around the world when he claimed that he accepted the Bolshevik state. But as this book argues, this was Savinkov's final play as a gambler and he had staked his life on a secret plan to strike one last blow against the tyrannical regime. Neither a Red nor a White, Savinkov lived an epic life that challenges many popular myths about the Russian Revolution, which was arguably the most important catalyst of twentieth-century world history. All of Savinkov's efforts were directed at transforming his homeland into a uniquely democratic, humane and enlightened state. There are aspects of his violent legacy that will, and should, remain frozen in the past as part of the historical record. But the support he received from many of his countrymen suggests that the paths Russia took during the twentieth and twenty-first centuries--the tyranny of communism, the authoritarianism of Putin's regime--were not the only ones written in her historical destiny. Savinkov's goals remain a poignant reminder of how things in Russia could have been, and how, perhaps, they may still become someday. Written with novelistic verve and filled with the triumphs, disasters, dramatic twists and contradictions that defined Savinkov's life, this book shines a light on an

extraordinary man who tried to change Russian and world history.
