Cancer and Pregnancy Eytan R. Barnea, Eric Jauniaux, Peter E.

Schwartz, 2012-12-06 Cancer and Pregnancy covers the clinical challenges to diagnosing and treating malignancies in the pregnant patient; however, the book also shows how an understanding of the common features of both processes (rapid cell proliferation) may lead to novel anti-cancer treatment options. The book should be read by obstetricians and gynaecologists, clinical oncologists, reproduction specialists, and those involved in investigation of development, biology, toxicology, immunology, as well as cancer research.

America's Secret Establishment Antony C. Sutton, 2017-01-27 Breaking 170 years of secrecy, this intriguing exposé takes a behind-the-scenes look at Yale's mysterious society, the Order of the Skull and Bones, and its prominent members, numbering among them Tafts, Rockefellers, Pillsburys, and Bushes. Explored is how Skull and Bones initiates have become senators, judges, cabinet secretaries, spies, titans of finance and industry, and even U.S. presidents, including George W. Bush. This book reveals that far from being a campus fraternity, the society is more concerned with the success of its members in the postcollegiate world. Included are a verified membership list, rare reprints of original Order materials revealing the interlocking power centers dominated by Bonesmen, and a peek inside the Tomb, their 140-year-old private clubhouse.

Geriatric Oncology Martine Extermann, 2020-01-30 This book is intended as a comprehensive resource for clinicians and researchers seeking in-depth information on geriatric oncology. The coverage encompasses epidemiology, the biology and (patho)physiology of aging and cancer, geriatric assessment and management, hematologic malignancies, solid tumors, issues in patient care,

and research methods. Since cancer is a disease of aging and people are living longer, most cancer patients are now aged 70 and older. Yet the more we age, the more diverse we become in terms of our health, biologic fitness, and cancer behavior. Typically, however, general oncology clinical trials address only a selected healthier and younger population of patients. Geriatric oncology is the area of oncology that addresses these issues but while a wealth of knowledge has been accumulated, information is often difficult to retrieve or insufficiently detailed. The SpringerReference program, in which this book is published, offers an ideal format for overcoming these limitations since it combines thorough coverage with access to living editions constantly updated chapter by chapter via a dynamic peer-review process, ensuring that information remains current and pertinent.

The Origin of Snakes Michael Wayne Caldwell, 2019-06-28 This book presents perspectives on the past and present state of the understanding of snake origins. It reviews and critiques data and ideas from paleontology and neontology (herpetology), as well as ideas from morphological and molecular phylogenetics. The author reviews the anatomy and morphology of extant snakes. Methods are also critiqued, including those empirical and theoretical methods employed to hypothesize ancestral ecologies for snakes. The modern debate on squamate phylogeny and snake ingroup phylogeny using molecules and morphology is examined critically to provide insights on origins and evolution. Key Features Important major evolutionary transformation in vertebrate evolution Continuing historical debate in vertebrate paleontology Of wide interest to a core audience of paleontologists, herpetologists, and morphologists Author acknowledged as prominent contributor to debate over snake origins Based on remarkable well preserved fossil specimens

"What Shall We Do with the Negro?" Paul D. Escott, 2009-03-03 Throughout the Civil War, newspaper headlines and stories repeatedly asked some variation of the question posed by the New York Times in 1862, What shall we do with the negro? The future status of African Americans was a pressing issue for those in both the North and in the South. Consulting a broad range of contemporary newspapers, magazines, books, army records, government documents, publications of citizens' organizations, letters, diaries, and other sources, Paul D. Escott examines the attitudes and actions of Northerners and Southerners regarding the future of African Americans after the end of slavery. What Shall We Do with the Negro? demonstrates how historians together with our larger national popular culture have wrenched the history of this period from its context in order to portray key figures as heroes or exemplars of national virtue. Escott gives especial critical attention to Abraham Lincoln. Since the civil rights movement, many popular books have treated Lincoln as an icon, a mythical leader with thoroughly modern views on all aspects of race. But, focusing on Lincoln's policies rather than attempting to divine Lincoln's intentions from his often ambiguous or cryptic statements, Escott reveals a president who placed a higher priority on reunion than on emancipation, who showed an enduring respect for states' rights, who assumed that the social status of African Americans would change very slowly in freedom, and who offered major incentives to white Southerners at the expense of the interests of blacks. Escott's approach reveals the depth of slavery's influence on society and the pervasiveness of assumptions of white supremacy. What Shall We Do with the Negro? serves as a corrective in offering a more realistic, more nuanced, and less celebratory approach to understanding this crucial period in American history.

Voices of My Comrades Carol Adele Kelly, 2007 Over the course of five years, the Reserve Officers Association of the United States--the nation's oldest such professional military organization--invited its members to write about their experiences in World War II. The response was an impressive outpouring of memories, now compiled here in an extraordinary record of courage, sacrifice, and commitment. Stories from 240 veterans--representing all theaters, ranks, and services--track the years of World War II month by month. From the young ensign's letter to his fianc e, describing his escape from the USS Cassin minutes before it explodes at Pearl Harbor, to the battle-seasoned colonel's account of his flyover at the peace-treaty signing aboard the USS Missouri, the stories give a human face to the moments of war, written by men and women who intimately lived those history-making days, on bombing missions and invasion duty, on front lines and the home front. Readers will meet a survivor of the USS Reuben James, sunk by a German U-boat before December 7, 1941, and eight D-Day invaders of Normandy, including Lieutenant Colonel J. Strom Thurmond, paratrooper. They will also meet a bodyguard to General Douglas MacArthur and the nurses who healed the fallen in huts on Bataan, the hospital ship Shamrock in the Mediterranean, and field hospitals in France. Here, too, are personal accounts by Women Airforce Service Pilots (WASPs) and the battlehardened engineers of the Seabees in the Pacific. Other veterans tell of surviving the sinking of the troopship Leopoldville, when 750 Americans died in the English Channel on Christmas Eve, 1944; the horrific discovery of the Nazi extermination camps; and the tragic bombings near war's end of unmarked Japanese ships transporting U.S.

POWs from the Philippines. Featuring photographs, a chronology, and historical introductions, this book--thanks to these stories by ordinary soldiers, sailors, airmen, marines, and nurses--is destined to become an enduring testimony to the American experience in World War II.

Truevine Beth Macy, 2016-10-18 NATIONAL BESTSELLER The true story of two African-American brothers who were kidnapped and displayed as circus freaks, and whose mother endured a 28-year struggle to get them back. The year was 1899 and the place a sweltering tobacco farm in the Jim Crow South town of Truevine, Virginia. George and Willie Muse were two little boys born to a sharecropper family. One day a white man offered them a piece of candy, setting off events that would take them around the world and change their lives forever. Captured into the circus, the Muse brothers performed for royalty at Buckingham Palace and headlined over a dozen sold-out shows at New York's Madison Square Garden. They were global superstars in a pre-broadcast era. But the very root of their success was in the color of their skin and in the outrageous caricatures they were forced to assume: supposed cannibals, sheep-headed freaks, even Ambassadors from Mars. Back home, their mother never accepted that they were gone and spent 28 years trying to get them back. Through hundreds of interviews and decades of research, Beth Macy expertly explores a central and difficult question: Where were the brothers better off? On the world stage as stars or in poverty at home? TRUEVINE is a compelling narrative rich in historical detail and rife with implications to race relations today.

Madison's Hand Mary Sarah Bilder, 2015-10-19 No document depicts the Constitutional Convention's charismatic figures, crushing disappointments, and miraculous triumphs with the force of Madison's Notes. But how reliable is this account? Drawing on digital technologies and textual analysis, Mary Sarah Bilder reveals that Madison revised to a far greater extent than previously recognized.

Little Anodynes Jon Pineda, 2015-03-31 The third collection by the prize-winning Asian American poet Jon Pineda, *Little Anodynes* is a sequence of lyrical, personal narratives that continue Pineda's exploration of his biracial identity, the haunting loss of his sister, and the joys—and fears—of fatherhood. With its title inspired by Emily Dickinson, *Little Anodynes* offers its poems as "respites," as breaks in the reader's life that serve as opportunities for discovery and healing. Pineda deftly uses shortened lines and natural pauses to create momentum, which allows the poems to play out in a manner evocative of fine cinema, as if someone had left a projector running and these narratives were flickering and blending endlessly in an experience shared by the viewer, the storyteller, and the story itself.

This Angel on My Chest Leslie Pietrzyk, 2015-11-06 WINNER OF THE 2015 DRUE HEINZ LITERATURE PRIZE Selected by Jill McCorkle *This Angel on My Chest* is a collection of unconventionally linked stories, each about a different young woman whose husband dies suddenly and unexpectedly. Ranging from traditional

stories to lists, a quiz, a YouTube link, and even a lecture about creative writing, the stories grasp to put into words the ways in which we all cope with unspeakable loss. Based on the author's own experience of losing her husband at age thirty-seven, this book explores the resulting grief, fury, and bewilderment, mirroring the obsessive nature of grieving. The stories examine the universal issues we face at a time of loss, as well as the specific concerns of a young widow: support groups, in-laws, insurance money, dating, and remarriage. This *Angel on My Chest* ultimately asks, how is it possible to move forward with life while "till death do you part" rings in your ears--and, how is it possible not to?

Genetics, Health, and Society Brea L. Perry, 2015-07-16 This volume focuses on critical issues surrounding the intersection of genetics, health, and society. It provides a critical examination of sociological and biomedical approaches to genomics, including strengths and limitations of each perspective.

The Fall of Princes Robert Goolrick, 2015-08-25 "A heart-wrenching, beautiful, darkly comic, deeply necessary tale that stuns again and again with razor-sharp prose and glittering wit. Robert Goolrick is, without question, one of the greatest storytellers of our time." --Téa Obreht, author of *The Tiger's Wife* In the spellbinding new novel from #1 New York Times bestselling author Robert Goolrick, 1980s Manhattan shimmers like the mirage it was, as money, power, and invincibility seduce a group of young Wall Street turks. Together they reach the pinnacle, achieving the kind of wealth that grants them access to anything--and anyone. Until, one by one, they fall. Goolrick's literary chops are on full display, painting an authentic portrait of a hedonistic era, tense and stylish, perfectly mixing adrenaline

and melancholy. Stunning in its acute observations about great wealth and its absence, and deeply moving in its depiction of the ways in which these men learn to cope with both extremes, it's a true tour de force. "An addictive slice of semiautobiographical fiction . . . Goolrick vividly plumbs the depths of fortune and regret. The result is a compulsively readable examination of the highs and lows of life in the big city." -Publishers Weekly "A compelling, wholly seductive narrative voice . . . Goolrick's stellar prose infuses this redemption story with a good deal of depth and despair, making it read like the literary version of The Wolf of Wall Street." -Booklist "A dark, intoxicating morality tale . . . With his impeccable prose, Goolrick focuses his unflinching eye on the grittiness beneath the sleek facade of nightclubs, fashion, and monied Manhattan extravagance. Beautifully crafted, seductive, and provocative." -Garth Stein, author of A Sudden Light and The Art of Racing in the Rain

History of Ritchie County Minnie Kendall Lowther, 1911

Portraits at an Exhibition Patrick E. Horrigan, 2014-11 An alienated young man searches for his life's purpose through a gallery of portraits at an exhibition. Afraid he may have contracted HIV the night before during a risky sexual encounter and only beginning to fathom the possible consequences, Robin winds his way through the rooms, studying the portraits of people from faraway places and times, looking for clues in the lives of others to the mystery of his own discontent. Several masterpieces of portrait painting, reproduced in the novel, become the focal-points of Robin's physical and spiritual journey; ranging from the Renaissance to the turn of the 21st century, they include works by such famous artists as Sandro Botticelli, Diego Velazquez, and John Singer Sargent. Each portrait opens like a time

capsule to Robin's gaze, releasing stories about the sitters, artists, and critics who, over the centuries, have turned their everyday struggles, disappointments, and dreams into transcendent works of art. In the gallery, Robins bumps into a flesh-and-blood stranger--an HIV-positive psychotherapist and former monk--with whom he feels an uncanny rapport. Their meeting could change his life, but first he will have to confront a disturbing truth about himself. Steeped in art history and rich in psychological intrigue, Portraits at an Exhibition plunges the reader directly into the mind of Robin, seeing as he sees, reading what he reads, and learning, along with him, the often unsettling life lessons that only the closest observation of great art can teach.

Maps That Changed The World John O. E. Clark, 2016-02-12 An ancient Chinese proverb suggests, They are wise parents who give their children roots and wings - and a map. Maps That Changed the World features some of the world's most famous maps, stretching back to a time when cartography was in its infancy and the 'edge of the world' was a barrier to exploration. The book includes details of how the Lewis and Clark Expedition helped map the American West, and how the British mapped India and Australia. Included are the beautifully engraved Dutch maps of the 16th century; the sinister Utopian maps of the Nazis; the maps that presaged brilliant military campaigns; charted the geology of a nation; and the ones that divided a continent up between its European conquerors. Organised by theme, the book shows the evolution of map-making from all corners of the globe, from ancient clay maps, to cartographic breakthroughs such as Harry Beck's map of the London underground. There are also famous fictional maps, including the maps of the lost continent of Atlantis and Tolkien's Middle Earth. With an introduction

written by acclaimed cartographic historian Jeremy Black.
