*Ethics and Electronic Information* Barbara Rockenbach, Tom Mendina, 2015-10-03  
Stephen Almagno's career as a professor of library science began at the University of Pittsburgh in 1971. In 1990, he became the first professor in the United States to teach an information ethics course in a library and information science program. Almagno's work in the area of information ethics was recognized at the 2001 "Ethics of Electronic Information in the 21st Century" symposium held at the University of Memphis on October 18–21, 2001, upon the occasion of his retirement from the University of Pittsburgh. The essays in this book were presented at the symposium honoring Almagno. The first section of the book features papers that pay special tribute to Almagno. The second contains papers on library issues and ethics, such as the ethics of electronic information in China and eastern Europe, the organizations that represent information professionals, the ethics of user privacy in the digital library, and ethical implications of e-commerce, to name just a few. The third section covers topical issues, such as Internet plagiarism, ethical hacking and the security justification, social democracy and information media policy, and the ethics of dialogue, among others.

**Reputation Management** John Doorley, Helio Fred Garcia, 2011-04-06 Reputation management is the most important theme in public relations and corporate communication today. John Doorley and Helio Fred Garcia argue that most CEOs don't actually pay much heed to reputation and this is to their peril. This book is a how-to guide for professionals and students in public relations and corporate communication, as well as for CEOs and other leaders. It rests on the premise that reputation can be measured, monitored, and managed. Organized by corporate communication units (media relations, employee communication, government relations, and investor relations, for example), the book provides a field-tested guide to corporate reputation problems such as leaked memos, unfair treatment by the press, and negative rumors – and it is this rare book that focuses on practical solutions. Each chapter is fleshed out with real-world experience by the authors and their contributors who come from a wide range of professional corporate communication backgrounds. This new edition features new and updated examples throughout, two new chapters on social media and public relations consulting, a new textbox feature in each chapter relating key communication theories to the practice of public relations and corporate communication, expanded coverage of global issues, and a new Companion Website at: [www.routledge.com/textbooks/doorley](http://www.routledge.com/textbooks/doorley), featuring lecture materials for instructors and extensive learning resources for students and professionals.

**Journalism Ethics and Regulation** Chris Frost, 2014-05-12 Technology, and the

democratising of news gathering, continue to change traditional journalistic practice making the path through ethical and regulatory frameworks tough to negotiate. As high-profile celebrity cases such as Max Mosley's vividly illustrate, conflicts between the law, ethics and the public's right and desire to be informed are not easily resolved. This comprehensive volume addresses the ethical considerations, dilemmas and challenges the practising journalist faces, each minute, every day. Providing context and practical advice, it explores an area of crucial importance for the 21st century, thoroughly equipping the reader with the information and tools to negotiate this challenging area knowledgeably, practically and responsibly. This book has been written for students and trainee journalists, working journalists and editors, and indeed for any student of the media.

This is an independent review prepared by an external consultant.

**The Testimonies of Russian and American Postmodern Poetry** Albena Lutzkanova-Vassileva, 2014-12-18 This book challenges the belief in the purely linguistic nature of contemporary poetry and offers an interpretation of late twentieth-century Russian poetry as a testimony to the unforeseen annulment of communist reality and its overnight displacement by a completely unfathomable post-totalitarian order. Albena Lutzkanova-Vassileva argues that, because of the sudden invalidation of a reality that had been largely seen as unattained and everlasting, this shift remained secluded from the

mind and totally resistant to cognition, thus causing a collectively traumatic psychological experience. The book proceeds by inquiring into a school of contemporary American poetry that has been likewise read as cut off from reality. Executing a comparative analysis, Vassileva advances a new understanding of this poetry as a testimony to the overwhelming and traumatic impact of contemporary media, which have assailed the mind with far more signals than it can register, digest and furnish with semantic weight.

Navigating Cross-Cultural Ethics Eileen Morgan, 2012-09-10 Through the personal stories of managers running global business, this book takes an inside look into the dilemmas of managers who are asked to make profits ethically according to the dictates of their company's ethics code. Thanks to the boost from the 1991 Sentencing Guidelines which minimizes penalties for companies with ethics codes caught in ethical wrongdoing, more than 85% of US companies and two thirds of all Canadian companies and half of all European companies now have Codes of Ethics. Yet, over and over, we hear of stories of personal dilemmas and conflicts experienced by individual managers navigating those business waters in other cultures
