A. Soofi, S. Ghazinoory

American Economic Policy in the 1990s Jeffrey A. Frankel, Peter R. Orszag, 2002 An examination of U.S. economic policy in the 1990s, by leading policy makers as well as academic economists.

**The Arabs and Arabia on the Eve of Islam** F.E. Peters, 2017-09-29 This volume examines the background to the rise of Islam. The opening essays consider the broad context of nomad-sedentary relations in the Near East; thereafter the focus is on the Arabian peninsula and the history of the Arab peoples. The following papers set out the political and economic structures of the pre-Islamic period, and are concerned to trace the evolution of religious beliefs in the area, looking in particular at the role of local traditions and the impact of Jewish and Christian influences.

**Organizing Grammar** Hans Broekhuis, 2005 Dutch linguist Riemsdijk is honored by scholars, presumably fellow linguists though they do not say so, with 71 papers. Among their topics are moving verbal complexes in Spanish, the notion of topic and the problem of quantification in Hungarian, enfoldment as economy, Quechua P-soup, a new perspective on event participants in psychological states and events, and circumstantial evidence for dative shift.

Arms Control and Missile Proliferation in the Middle East Bernd W. Kubbig, Sven-Eric Fikenscher, 2012-03-29 This edited volume provides a systematic analysis of the missile threat and proliferation issue in the Middle East region. The question of how to increase the level of security in the Middle East is not a new one, given the conflict-ridden nature of the region. The solution attempted for this predicament has typically revolved around intense arms build-ups, a strategy which can prove self-defeating due to the subsequent countermeasures employed by neighbouring states. Arms Control and Missile Proliferation in the Middle East focuses on the strategic proliferation of arms, with a specific emphasis on missiles. This unique emphasis enables the contributors to provide a dynamic new perspective on conceptual and political disarmament efforts, thereby distinguishing this volume from many other related works on the region, which deal mainly with weapons of mass destruction. The book also explores the possibility of a reduction in weapon arsenals, examining a more promising cooperative security concept which includes confidence- and security-building measures (CSBMs). This book will be of much interest to students of arms control, Middle Eastern politics, Gulf Security, war and conflict studies, security studies and IR.

**Home, School, and Community Partnerships** Larry E. Decker, Virginia A. Decker, 2003 This book will help educators weave some of the best ideas for creating and sustaining family and community engagement into a comprehensive home-school-community partnership program tailored to their individual communities.

*PeaceJam* Ivan Suvanjiëff, Dawn Gifford Engle, 2008 Presents a guide to the PeaceJam Foundation, combining profiles of Nobel Peace Laureates who have joined the PeaceJam Foundation in their Global Call to Action, tales from youth members around the world, and tips on how readers can get involved.

Mother of God Miri Rubin, 2009-04-21 A sweeping, ambitious study of the Virgin Mary's emergence and role throughout Western history. How did the Virgin Mary, about whom very little is said in the Gospels, become one of the most powerful and complex religious figures in the world? To arrive at the answers to this far-reaching question, one of our foremost medieval historians, Miri Rubin, investigates the ideas, practices, and images that have developed around the figure of Mary from the earliest decades of Christianity to around the year 1600. Drawing on an extraordinarily wide range of sources—including music, poetry, theology, art, scripture, and miracle tales—Rubin reveals how Mary became so embedded in our culture that it is impossible to conceive of Western history without her. In her rise to global prominence, Mary was continually remade and reimagined by wave after wave of devotees. Rubin shows how early Christians endowed Mary with a fine ancestry; why in early medieval Europe her roles as mother, bride, and companion came to the fore; and how the focus later shifted to her humanity and unparalleled purity. She also explores how indigenous people in Central America, Africa, and Asia remade Mary and so fit her into their own cultures. Beautifully written and finely illustrated, this book is a triumph of sympathy and intelligence. It demonstrates Mary's endless capacity to inspire and her profound presence in Christian cultures and beyond.

**The Reception of David Ricardo in Continental Europe and Japan** Gilbert Faccarello, Masashi Izumo, 2014-02-03 This book is a coherent and unique collection of chapters exploring the reception and diffusion of David Ricardo's writings in different languages. The book highlights the similarities and differences between them. This book seeks to delineate the diffusion of Ricardo's theory in various parts of Europe and Japan. While there may have been case studies about the reception of Ricardo's thoughts for several countries, there has not yet been a systematic study of the diffusion process under consideration as a whole. This book caters to all scholars dedicated to the history of economic thought and to students who are interested to learn about the peculiarities of the evolution of economic theories in different countries. This book is the first of its kind, with no known predecessor, and it aims to shed light on how and why some of Ricardo's writings were picked up and why others were not. Given Ricardo's importance in the field of economics, the book will be of interest to many.

Working Paper Series , 2001

*Between Meltdown and Moral Hazard* J. Bradford DeLong, Barry J. Eichengreen, 2001 We review and analyze the monetary and financial policies of the Clinton administration with a focus on the strong dollar policy, the Mexican rescue, the response to the Asian crisis, and the debate over reform of the international financial architecture. While we consider the role of ideas, interests and institutions in the formulation of policy, our emphasis here is on institutions, and specifically on how personnel and administrative arrangements allowed the Treasury department to exercise an unusually important influence in the development of these policies. This allowed a set of ideas imported by Treasury from academia and the markets to strongly influence the formulation of the international monetary and financial policies during the Clinton years.

See *No Evil* E. Banks, 2010-11-03 The story of the recent global economic crisis is told in the words of the main players in the drama. Including quotes from bankers, rating agencies, housing agencies, regulators, politicians and media figures. Erik Banks' latest book shows why we are doomed to experience further financial crises in the future.

*Science and Innovations in Iran* A. Soofi, S. Ghazinoory, 2013-01-07 This comprehensive book examines the Iranian government's mobilization of resources to develop science and technology, presenting an overview of the structure, dynamics, and outcomes of the government's science and technology policies. Authors are leaders in the industries they discuss and offer an unparalleled look into Iran's technology sector.

**Israeli National Security** Charles D. Freilich, 2018-03-08 National security has been at the forefront of the Israeli experience for seven decades, with threats ranging from terrorism, to vast rocket and missile arsenals, and even existential nuclear dangers. Yet, despite its overwhelming preoccupation with foreign and defense affairs, Israel does not have a formal national security strategy. In *Israeli National Security*, Chuck Freilich presents an authoritative analysis of the military, diplomatic, demographic, and societal challenges Israel faces today, to propose a comprehensive and long-term Israeli national security strategy. The heart of the new strategy places greater emphasis on restraint, defense, and diplomacy as means of addressing the challenges Israel faces, along with the military capacity to deter and, if necessary, defeat Israel's adversaries, while also maintaining the resolve of its society. By bringing Israel's most critical debates about the Palestinians, demography, Iran, Hezbollah, Hamas, US relations and nuclear strategy into sharp focus, the strategy Freilich proposes addresses the primary challenges Israel must address in order to chart its national course. The most comprehensive study of Israel's national security to date, this book presents the first public proposal for a comprehensive Israeli national security strategy and prescribes an actionable course forward.

**Qualitative Research in Education** Marilyn Lichtman, 2010 *Qualitative Research in Education: A User's Guide*, Second Edition brings together the essential elements of qualitative research, including traditions and influences in the field and practical, step-by-step coverage of each stage of the research process. Synthesizing the best thinking on conducting qualitative research in education, Marilyn Lichtman uses a conversational writing style that draws readers into the excitement of the research process. --from publisher description.
