Pagan Portals - Aos Sidhe Morgan Daimler, 2022-07-29 An introduction to the Aos Sidhe, the People of the fairy mounds, and to Irish fairy beliefs, this book takes readers on a journey to understand the place that fairies have had in Ireland across the millennia and into today. These beings can be found playing roles both significant and subtle in folk belief and their stories are part of the land itself, making them an intrinsic aspect of Ireland. And yet for those who haven't grown up with these beliefs there can be many misunderstandings and confusion surrounding who they are, and what they can do. /Pagan Portals - Aos Sidhe/ will help people new to the subject, as well as those with a wider knowledge, to understand the range and depth of the folk beliefs. Covering everything from myth and folklore to modern anecdotes and specific types of Irish fairies, this book provides a solid understanding of what can be a difficult subject.

Celtic Folk & Fairy Tales Joseph Jacobs, 2022-09-30 A definitive collection of stories from Celtic folklore told by a master storyteller. Drawing on the wonderful mythology of Ireland from traditional tales handed down in Gaelic through the generations, Celtic Fairy Tales features wondrous magic, beguiling witchcraft, conniving leprechauns, terrifying sea monsters and gallant heroes. This volume features 26 charming tales, including: • The

Shepherd of Myddvai • The Story of Deirdre • The Sea-Maiden • Beth Gellert •
The Battle of the Birds

**Aided Derbforgaill "The Violent Death of Derbforgaill" : A Critical Edition
with Introduction, Translation and Textual Notes** Kicki Ingridsson, 2009

This dissertation contains a critical edition of the early Irish tale Aided Derbforgaill the violent death of Derbforgaill. It includes an introduction discussing the main thematic components of the tale as well as intertextuality, transmission and manuscript relationship. The edition is accompanied by transcripts from the three manuscript copies of the tale and textual notes. Aided Derbforgaill is an Ulster Cycle tale and belongs to a category of tales describing the death of prominent heroes, rarely heroines, in early Irish literature. Arriving in the shape of a bird to mate with the greatest of all heroes, Cú Chulainn, Derbforgaill is refused by Cú Chulainn on account of him having sucked her blood. Forced to enter a urination competition between women, and upon winning this, Derbforgaill is mutilated by the other competitors. The tale ends with two poems lamenting the death of Derbforgaill. This very short tale is complex, not only in its subject matter, but in the elliptical language of the poetry. Thematically the tale is a combination of very common motifs found elsewhere in early Irish literature, such as the Otherworld, metamorphosis and the love of someone unseen, and some rare motifs that are almost unique to this tale, such as blood sucking and the urination competition. The text also have clear sexual

overtones.

Hotshot Julie Garwood, 2013-08-06 When a woman's dream for the future turns into a nightmare, a handsome FBI agent makes her vulnerable to more than she ever imagined in this novel from #1 New York Times bestselling author Julie Garwood. Peyton Lockhart and her sisters have just inherited Bishop's Cove, a charming oceanfront resort. But it comes with a condition: They must run the resort for one year and show a profit—only then will they own it. Peyton welcomes the challenge, yet has no idea how many people want to sabotage her success—including her vindictive cousins and the powerful land developers who have an eye on the coveted beachfront property. But when the threats against Peyton escalate into dangerous territory, she enlists the help of her childhood friend, FBI agent Finn MacBain. Finn saved her life once before. Peyton has no choice but to trust him to do it again.

Ideology and Power in the Viking and Middle Ages , 2011-04-21 This book analyses the Nordic pre-Christian ideology of rulership, and its confrontation with, survival into and adaptation to the European Christian ideals during the transition from the Viking to the Middle Ages from the ninth to the thirteenth century.

Solar Resources Roland Hulstrom,1989 Solar Resources takes stock of the resource - sunlight - on which any plan for solar heat conversion technologies must be based. It describes the evolution of theoretical models, algorithms, and equipment for measuring, analyzing, and predicting the quantity and composition of solar radiation, and it reviews and directs readers to insolation databases and other references that have been compiled since 1975. Following an overview of solar energy research by the editor, Raymond J. Bahm presents a comprehensive guide to available insolation databases and other information resources in the United States. Charles M.

Randall and Richard Bird discuss the theoretical models and algorithms used to characterize the transference of solar radiation through the earth's atmosphere. Their chapter also addresses the important question of the accuracy of the data sets produced by the various modeling methods and algorithms. The National Weather Service (NWS) monitoring network and other major monitoring networks in the United States are discussed by Kirby Hanson and Thomas Stoffel. And Eugene Zerlaut covers the instrumentation used to measure total solar irradiance and spectral solar irradiance; he describes types of equipment, their manufacturers, procedures for calibration, and the accuracy of the data produced. Richard Bird and Carol Riordan explain the nature of spectral solar irradiance at the earth's surface, and John Jensenius describes the NWS Operational Solar Insolation Forecast System, which predicts the daily total global-horizontal insolation for two days. In the concluding chapter, Claude Robbins summarizes daylighting models and resources, and details methods for converting insolation data to illuminance data. Solar Resources is volume 2 in the series Solar Heat Technologies: Fundamentals and Applications, edited by Charles A. Bankston

Tales of the Elders of Ireland Harry Roe, Ann Dooley, 1999 Tales of the Elders of Ireland is the first complete translation of the late Middle-Irish *Acallam na Sen rach*, the largest literary text surviving from twelfth-century Ireland. It contains the earliest and most comprehensive collection of Fenian stories and poetry, intermingling the contemporary Christian world of Saint Patrick with his scribes; clerics; occasional angels and souls rescued from Hell; the earlier pagan world of the ancient, giant Fenians and Irish kings; and the parallel, timeless Otherworld (peopled by ever-young, shape-shifting fairies). This readable, lucid new translation is based on existing manuscript sources and is richly annotated, complete with an Introduction discussing the place of the *Acallam* in Irish tradition and the impact of the Fenian or Ossianic tradition on English and European literature. About the Series: For over 100 years Oxford World's Classics has made available the broadest spectrum of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, voluminous notes to clarify the text, up-to-date bibliographies for further study, and much more.
