Discourse in Action Rodney H Jones, Sigrid Norris, 2005-09-21

From emails relating to adoption over the Internet to discussions in the airline cockpit, the spoken or written texts we produce can have significant social consequences. The area of Mediated Discourse Analysis considers texts in their social and cultural contexts to explore the actions individuals take with texts - and the consequences of those actions. *Discourse in Action*: brings together leading scholars from around the world in the area of Mediated Discourse Analysis reveals ways in which its theory and methodology can be used in research into contemporary social situations explores real situations and draws on real data in each chapter shows how analysis of texts in their social contexts broadens our understanding of the real world. Taken together, the chapters provide a comprehensive overview to the field and present a range of current studies that address some of the most important questions facing students and researchers in linguistics, education, communication studies and other fields.

Survival Migration Alexander Betts, 2013-07-12 International treaties, conventions, and organizations to protect refugees were established in the aftermath of World War II to protect people escaping targeted persecution by their own governments. However, the nature of cross-border displacement has transformed dramatically since then. Such threats as environmental change, food insecurity, and generalized violence force massive numbers of people to flee states that are unable or unwilling to ensure their basic rights, as do conditions in failed and fragile states that make possible human rights deprivations. Because these reasons do not meet the legal understanding of persecution, the victims of these circumstances are not usually recognized as "refugees," preventing current institutions from ensuring their protection. In this book, Alexander Betts develops the concept of "survival migration" to highlight the crisis in which these people find themselves. Examining flight from three of the

most fragile states in Africa—Zimbabwe, the Democratic Republic of Congo, and Somalia—Betts explains variation in institutional responses across the neighboring host states. There is massive inconsistency. Some survival migrants are offered asylum as refugees; others are rounded up, detained, and deported, often in brutal conditions. The inadequacies of the current refugee regime are a disaster for human rights and gravely threaten international security. In *Survival Migration*, Betts outlines these failings, illustrates the enormous human suffering that results, and argues strongly for an expansion of protected categories.

Deuteronomy and the Death of Moses Dennis T.

Olson, 2005-01-26 This overture provides the interested reader with a fresh approach to commentary writing, one that engages all the traditional concern with total coverage of the text in question, but with the added feature of uniting that commentary under a single set of larger working concerns. The first-time reader of Deuteronomy is introduced both to the standard critical issues and to the text itself, but within the context of a concern to understand the book's abiding theological legacy. Christopher R. Seitz, from the Editor's Foreword

Treaty of the Great King Meredith G. Kline, 2012-01-16 In *Treaty of the Great King*, Kline gives a detailed analysis and strong evidence for supporting the interpretation of Deuteronomy as being a legal document between Israel and YHWH that was patterned after ancient Near Eastern treaties, with Moses as its primary compiler. These studies were foundational in Kline's career as a covenant theologian.

América: La última esperanza (Volumen II) William J.

Bennett, 2014-04-08 El respetado erudito William Bennett vuelve a poner al corriente a Estados Unidos con su herencia en el segundo volumen de América: La última esperanza. Esta interesante narrativa corta las telarañas del tiempo, la memoria y

el preponderante cinismo para dar un nuevo ímpetu a Estados Unidos mediante un patriotismo informado. El segundo volumen de Bennett continúa la historia norteamericana donde la dejó el volumen 1, en los albores de la Primera Guerra Mundial. La historia conmovedora de Bennett lleva a los lectores a través de días lúgubres, resaltando las tragedias, los triunfos, el sacrificio y las secuelas que estremecen al mundo. Relata los disturbios de la Gran Depresión y la Segunda Guerra Mundial destacando el liderazgo y heroísmo de hombres como Franklin Delano Roosevelt y Winston Churchill. Después de los grandes cambios políticos y culturales del movimiento por los derechos civiles y la guerra fría, Bennett trae la historia de Estados Unidos hasta el final del segundo gobierno de Reagan y la victoria final sobre el comunismo, cuando éste fue eclipsado por un movimiento por la libertad a nivel mundial dirigido por Estados Unidos.

The Fall of Advertising and the Rise of PR Al Ries, Laura Ries, 2009-03-17 Bestselling authors and world-renowned marketing strategists Al and Laura Ries usher in the new era of public relations. Today's major brands are born with publicity, not advertising. A closer look at the history of the most successful modern brands shows this to be true. In fact, an astonishing number of brands, including Palm, Starbucks, the Body Shop, Wal-Mart, Red Bull and Zara have been built with virtually no advertising. Using in-depth case histories of successful PR campaigns coupled with those of unsuccessful advertising campaigns, The Fall of Advertising provides valuable ideas for marketers -- all the while demonstrating why advertising lacks credibility, the crucial ingredient in brand building, and how only PR can supply that credibility; the big bang approach advocated by advertising people should be abandoned in favor of a slow build-up by PR; advertising should only be used to maintain brands once they have been established through publicity. Bold and accessible, The Fall of Advertising is bound to turn the world of marketing upside down.

Politie en rechtsstaat in de gedigitaliseerde samenleving Auke van Dijk, Philippe De Baets, Lodewijk Gunther Moor, Elke Devroe, Stavros Zouridis, 2022-01-28 Informatie- en communicatietechnologie is in hoge mate grenzeloos en relateert het belang van territorialiteit. Het handelingsvermogen van de staat, in het bijzonder waar het gaat om de handhaving van de rechtsorde, komt daardoor onder druk te staan. De criminaliteit – waaronder cybercriminaliteit – als gevolg van deze grensoverschrijdende technologische ontwikkelingen krijgt doorgaans voldoende aandacht. Veel minder aandacht gaat echter naar ondermijning van rechtsstatelijke waarborgen. Zo ontbreekt vaak toetsing door het openbaar ministerie, komen zaken niet altijd meer voor de (Europese) rechter, worden opsporingsbevoegdheden ingezet voor andere doelen, of is er sprake van een vervaging tussen de politie- en de inlichtingenfunctie. Wat betekent dit alles voor de ontwikkeling van de politiefunctie? Hoe verhouden handhavingsoportunities en efficiëntiewinsten voor de bijzondere inspectiediensten zich met de bescherming van de persoonlijke levenssfeer?

Women and Educational Leadership Margaret Grogan, Charol Shakeshaft, 2010-11-11 This groundbreaking book presents a new way of looking at leadership that is anchored in research on women leaders in education. The authors examine how successful women in education lead and offer suggestions and ideas for developing and honing these exemplary leadership practices. *Women and Educational Leadership* shows how the qualities that characterize women's approaches to leadership differ from traditional approaches?whether the traditional leader is a woman or a man. The authors reveal that women leaders are more collaborative by nature and demonstrate a commitment to social justice. They tend to bring an instructional focus to leadership, include spiritual dimensions in their work, and strive for balance between the personal and professional. This important book offers a new model of leadership that shifts away from the traditional heroic notion of leadership to the collective account of leadership that focuses on leadership for a specific purpose—like social justice. The authors include illustrative examples of leaders who have brought diverse groups to work toward common ground. They also show how leadership is a way to facilitate and support the work of organizational members. The ideas and suggestions presented throughout the book can help the next generation fulfill the promise of a new tradition of leadership. *Women and Educational Leadership* is part of the Jossey-Bass Leadership Library in Education series.

The Philistines and Other “Sea Peoples” in Text and Archaeology Ann E. Killebrew, 2013-04-21 The search for the biblical Philistines, one of ancient Israel's most storied enemies, has long intrigued both scholars and the public. Archaeological and

textual evidence examined in its broader eastern Mediterranean context reveals that the Philistines, well-known from biblical and extrabiblical texts, together with other related groups of “Sea Peoples,” played a transformative role in the development of new ethnic groups and polities that emerged from the ruins of the Late Bronze Age empires. The essays in this book, representing recent research in the fields of archaeology, Bible, and history, reassess the origins, identity, material culture, and impact of the Philistines and other Sea Peoples on the Iron Age cultures and peoples of the eastern Mediterranean. The contributors are Matthew J. Adams, Michal Artzy, Tristan J. Barako, David Ben-Shlomo, Mario Benzi, Margaret E. Cohen, Anat Cohen-Weinberger, Trude Dothan, Elizabeth French, Marie-Henriette Gates, Hermann Genz, Ayelet Gilboa, Maria Iacovou, Ann E. Killebrew, Sabine Laemmel, Gunnar Lehmann, Aren M. Maeir, Amihai Mazar, Linda Meiberg, Penelope A. Mountjoy, Hermann Michael Niemann, Jeremy B. Rutter, Ilan Sharon, Susan Sherratt, Neil Asher Silberman, and Itamar Singer.

The Mobility of Displaced Syrians World Bank,2020-01-27 The war in Syria, now in its eighth year, continues to take its toll on the Syrian people. More than half of the population of Syria remains displaced; 5.6 million persons are registered as refugees outside of the country and another 6.2 million are displaced within Syria's borders. The internally displaced persons include 2 million school-age children; of these, less than half attend school. Another 739,000 Syrian children are out of school in the five neighborhood countries that host Syria's refugees. The loss of human capital is staggering, and it will create permanent hardships for generations of Syrians going forward. Despite the tragic prospects for renewed fighting in certain parts of the country, an overall reduction in armed conflict is possible going forward. However, international experience shows that the absence of fighting is rarely a singular

trigger for the return of displaced people. Numerous other factors—including improved security and socioeconomic conditions in origin states, access to property and assets, the availability of key services, and restitution in home areas—play important roles in shaping the scale and composition of the returns. Overall, refugees have their own calculus of return that considers all of these factors and assesses available options. The Mobility of Displaced Syrians: An Economic and Social Analysis sheds light on the 'mobility calculus' of Syrian refugees. While dismissing any policies that imply wrongful practices involving forced repatriation, the study analyzes factors that may be considered by refugees in their own decisions to relocate. It provides a conceptual framework, supported by data and analysis, to facilitate an impartial conversation about refugees and their mobility choices. It also explores the diversified policy toolkit that the international community has available—and the most effective ways in which the toolkit can be adapted—to maximize the well-being of refugees, host countries, and the people in Syria.
