Cow Care in Hindu Animal Ethics Kenneth R. Valpey,2019-11-02 This open access book provides both a broad perspective and a focused examination of cow care as a subject of widespread ethical concern in India, and increasingly in other parts of the world. In the face of what has persisted as a highly charged political issue over cow protection in India, intellectual space must be made to bring the wealth of Indian traditional ethical discourse to bear on the realities of current human-animal relationships, particularly those of humans with cows. Dharma, yoga, and bhakti paradigms serve as starting points for bringing Hindu—particularly Vaishnava Hindu—animal ethics into conversation with contemporary Western animal ethics. The author argues that a culture of bhakti—the inclusive, empathetic practice of spirituality centered in Krishna as the beloved cowherd of Vraja—can complement recently developed ethics-of-care thinking to create a solid basis for sustaining all kinds of cow care communities.

The Changing Face of Government Information Suhasini L. Kumar,2013-10-28 Learn what innovative changes lie in the future of government information The Changing Face of Government Information comprehensively examines the way government documents' librarians acquire, provide access, and provide reference services in the new electronic environment. Noted experts discuss the impact electronic materials have had on the Government Printing Office (GPO), the reference services within the Federal Depository Library Program (FDLP), and the new opportunities in the transition from paper-based information policy to an electronic e-government. This source reveals the latest changes in the field of government documents librarianship and the knowledge and expertise needed to teach users how to access what they need from this enormous wealth of government information. Major changes have taken place in the way government information is created, disseminated, accessed, and preserved. The Changing Face of

Government Information explains in detail the tremendous change taking place in libraries and government documents librarianship. Topics include the increasing accessibility to the federally funded technical report literature, information on the Patriot Act's effect on the status of libraries in the aftermath of 9/11, the uses of Documents Data Miner®, and information about catalogs, indexes, and full text databases. This book also provides a selective bibliography of print and electronic sources about Native Americans and the Federal Government, as well as specific sources for information about the environment, such as EPA air data, DOE energy information, information on flora and fauna, hazardous waste, land use, and water. Each chapter is extensively referenced and several chapters use appendixes, tables, and charts to ensure understanding of data. This useful book gives readers the opportunity to learn: how the University of Oregon successfully integrated its business reference service and map collection into its government documents collection the results of a survey of FDLP institutions identifying the factors contributing to the reorganization of services details of the pilot project undertaken by the University of Arizona Library along with the United States Government Printing Office's Library Programs Service to create a model for a virtual depository library which critical features are missing in today's e-government reference service models details of the GPO's plans to provide perpetual access to both electronic and tangible information resources—and the strategies to authenticate government publications on the Internet The Changing Face of Government Information is stimulating, horizon-expanding reading for librarians, professors, students, and researchers.

Uniformity and Fragmentation of the 1999 Montreal Convention on International Air Carrier Liability Cyril-Igor Grigorieff, 2022-05-12 The 1999 Montreal Convention is the most recent in-force treaty to regulate several important aspects of international air carrier liability in a uniform manner. This book examines in detail to what extent the 1999 Montreal Convention's aim of uniformity has been achieved. To this end, it scrutinizes the exact scope of this aim and analyses the factors that may have prevented it from being fully achieved. It studies the wording of the treaty and its predecessors, their travaux préparatoires, the judicial decisions of numerous civil and common law jurisdictions, as well as various other interpretative tools. Among many others, themes addressed in this study include: exclusivity; the autonomy of terms used; translation issues; accident; bodily injury; damage; delay; consumer rights; the 1969 Vienna Convention on the Law of Treaties; hermeneutics; the Warsaw System; regional air law (including EU Regulation 261/2004); and algorithms. The study also suggests ways to reduce the fragmentation of the 1999 Montreal Convention with a series of directly applicable recommendations, and an analysis of what Artificial Intelligence could mean for the future. This book, which is intended to be practical, is aimed at all lawyers well-versed in aviation law as well as aviation enthusiasts. They will find it a useful tool for interpreting the 1999 Montreal Convention in a manner consistent with its ambition, as well as recent case law from all continents on hot topics.

The Path to Becoming a Data-Driven Public Sector Oecd, Organisation for Economic Co-operation and Development, 2019-11-28 Twenty-first century governments must keep pace with the expectations of their citizens and deliver on the

promise of the digital age. Data-driven approaches are particularly effective for meeting those expectations and rethinking the way governments and citizens interact. This report highlights the important role data can play in creating conditions that improve public services, increase the effectiveness of public spending and inform ethical and privacy considerations. It presents a data-driven public sector framework that can help countries or organisations assess the elements needed for using data to make better-informed decisions across public sectors.

How Children Learn Language William O'Grady, 2005-01-06 Adults tend to take language for granted - until they have to learn a new one. Then they realize how difficult it is to get the pronunciation right, to acquire the meaning of thousands of new words, and to learn how those words are put together to form sentences. Children, however, have mastered language before they can tie their shoes. In this engaging and accessible book, William O'Grady explains how this happens, discussing how children learn to produce and distinguish among sounds, their acquisition of words and meanings, and their mastery of the rules for building sentences. *How Children Learn Language* provides readers with a highly readable overview not only of the language acquisition process itself, but also of the ingenious experiments and techniques that researchers use to investigate this mysterious phenomenon. It will be of great interest to anyone - parent or student - wishing to find out how children acquire language.

The Library as Place John E. Buschman, Gloria J. Leckie, 2007 Libraries, as a component of cultural space, are ubiquitous to almost every society during almost every time period. However, as places of cultural and symbolic and intellectual meaning, they have varied greatly. To capture both aspects, this collection of 14 original papers covers library spaces old and new, real and imagined, large and small, public and private. Contributions range from a consideration of the Garrison library in the British Empire, to the Carnegie library as a social institution, to the imagined library in *Buffy the Vampire Slayer*. The result is a fascinating look at the library as a physical, social, and intellectual place within the hearts and minds of its clientele and the public at large.
