Implementing Sustainability in the Curriculum of Universities Walter Leal Filho,2017-11-17 This book presents sustainable development themes across universities and introduces methodological approaches and projects to the teaching staff. It has been prepared against this background, to identify ways to better teach about sustainability issues in a university context. It contains a set of papers presented at a Symposium with the same title, held at Manchester Metropolitan University (UK) in March 2017. The event was attended by a number of institutions of higher education active in this field. It involved researchers in the field of sustainable development in the widest sense, from business and economics, to arts and fashion, administration, environment, languages and media studies. Sustainability is seldom systematically embedded in the curriculum at higher education institutions. Yet, proper provisions for curricular integration of sustainability issues as part of teaching programmes across universities are an important element towards curriculum greening. The aims of this book are: (i) to provide teaching staff at universities active and/or interested in teaching sustainable development themes with an opportunity to document and disseminate their works (i.e. curriculum innovation, empirical work, activities, case studies practical projects); (ii) to promote information, ideas and experiences acquired in the execution of teaching courses, especially successful initiatives and good practice; (iii) to introduce methodological approaches and projects which aim to offer a better understanding of how matters related to sustainable development can be tackled in university teaching. Last but not least, a further aim of this book, prepared by the Inter-University Sustainable Development Research Programme (IUSDRP) and the World Sustainable Development Research and Transfer Centre (WSD-RTC), is to catalyse a debate on the need to promote sustainable development teaching today.

Film's Musical Moments Ian Conrich,2006-07-14 The scope of this collection is indicative of the breadth and diversity of music's role in cinema, as is its emphasis on musical contributions to 'non-musical' films. By bringing together chapters that are concerned both with the relationship between performance, music and film and the specificity of national, historical, social, and cultural contexts, Film's Musical Moments will be of equal importance to students of film studies, cultural studies and music. The book is organised into four sections: Music, Film, Culture focuses on cinema representations of music forms; Stars, Performance and Reception explores stars, fan cultures and intertextuality; The Post-Classical Hollywood Musical considers the importance of popular music to contemporary cinema; and Beyond Hollywood looks to specific national contexts.

Nutrition in Pregnancy Janna L. Morrison,Timothy R. H. Regnault,2017-04-21 Maternal nutrition during pregnancy is of considerable interest to women, their partners and their health care professionals. In developing countries, maternal undernutrition is a major concern. However, with the increased prevalence of abundant high calorie diets, their impact upon pregnancy outcome is of concern. In addition to the amount of nutrition available and its macronutrient composition within a diet, there is emerging evidence highlighting important roles for the lesser studied micronutrients. Added to this complexity is the distinction between maternal and fetal nutrition and the impact the placenta plays in nutrient metabolism and overall nutrient supply to the fetus. Together, these many variables contribute to placental development and function, fetal growth, and, where placental/fetal nutrition and growth is compromised, through poor maternal diet, and/or diet induced alterations in placental metabolism, the impact is dramatic and can lead to lifelong implications for the offspring. This Special Issue book aims to highlight research in many of these areas.

Abdominal X-Rays Made Easy James D. Begg,2006-08-15 This lively and entertaining manual on how to interpret abdominal radiographs will be invaluable to all medical students and junior doctors and has been written by a practising radiologist with many years' experience of teaching the subject. It outlines the few simple rules you need to follow, then explains how to sort out the initial and apparently overwhelming jumble of information which constitutes the abdominal X-ray. Knowledge of its contents will provide a secure base for tackling exams and the subsequent challenges of clinical practice. A comprehensive guide to all the common and serious conditions which are likely to be detected on a plain abdominal x-ray. Explains both how to look and what to look for on an abdominal film. Addresses exam technique to assist students preparing for clinical and OSCE exams. Fully updated including developments in the use of digital radiography and new legislation on radiation exposure. New additional illustrations of other complimentary forms of imaging such as the use of CT in suspected renal colic.

Suppression and Regulation of Immune Responses Maria Cristina Cuturi,Ignacio Anegon,2015-11-07 This second volume expands upon the previous edition with new research and objectives in immunoregulation and immune tolerance. Chapters cover topics ranging from new molecular and cellular mechanisms of tolerance; generation and characterization of mice regulatory macrophages; recent advances in the treatment of immune-mediated inflammatory disorders; and novel mechanisms and therapeutic perspectives on food allergies. Written in the highly successful Methods in Molecular Biology series format, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. Authoritative and cutting-edge, *Suppression and Regulation of Immune Responses: Methods and Protocols, Volume II* is a great resource for current research and inspiration for new studies in immune tolerance.

The Contemporary British City Paul Lawless,Colin Raban,1986-05-28 The Contemporary British City locates aspects of urban governance within the broader debates about the welfare state in Britain. Local economic development, inner city policy, housing, transport, welfare and education are dealt with in terms of a variety of economic, political, financial and sociodemographic factors. Each chapter addresses issues relating to the effectiveness and equity of intervention in the postwar period; the tension between political rhetoric and policy reality; and the degree to which debate between and within political parties has modified policy implementation.

Ecto-ATPases Liselotte Plesner,Terence L. Kirley,Aileen F. Knowles,2012-12-06 Proceedings of the First International Workshop held in Mar de Plata, Argentina, August 26-30, 1996

Nutrient Power William Walsh,2014-05-06 A veteran research scientist who has spent decades establishing biochemical treatment protocols for patients with ADHD, Alzheimer's disease and various mental disorders challenges popular opinions about psychiatric drugs to make recommendations for drug-free nutrient therapies that normalize the brain without producing serious side effects. 15,000 first printing.

Aquatic Oligochaetes Brenda M. Healy,Trefor B. Reynoldson,K. A. Coates,1999 The book contains papers on the biology of aquatic oligochaetes and some related groups. They cover a wide range of topics including phylogeny, taxonomy, geographic distribution, freshwater and marine ecology population dynamics, histology and ultrastructure, physiology and behaviour. The wide scope is in line with recent trends in annelid research with less emphasis on pollution studies and faunistics and a renewed interest in experimental biology using new techniques.

Flora Mclvor Donald Smith,2017-06-03 On the Feast Day of Bride, The Daughter of Ivor, Shall come from her mound, In the rocks amongst the heather. I will not touch Ivor's daughter, Nor shall she harm me. Two extraordinary women come back to full-bodied life. Flora Mclvor has been rescued from the pages of Sir Walter Scott, who sent her to a nunnery. Her close friend, the real life Clementina Walkinshaw, was the love of Bonnie Prince Charlie, and mother of his only child. Both are caught up in a tangle of espionage and treachery following the defeat of the 1745 Jacobite Rising in Scotland.

Education and Sustainability International Union for Conservation of Nature and Natural Resources. Commission on Education and Communication,2002 A publication from IUCN's Commission on Education and Communication (CEC), this book tells the stories of people who work with communities to motivate them to create a more sustainable future. The accounts range from engaging communities through theatre to a revival of indigenous stories to pass on good environmental practice. The publication was produced both to share what educators around the world have learnt and to give them a platform to tell their stories.

Boas and Pythons of the World Mark O'Shea,2011 Renowned snake expert Mark O'Shea takes readers on an exciting continent-by-continent journey to look at these snakes in their native habitats. Stunning color photographs and intriguing stories from O'Shea's encounters with these snakes in the wild bring these reptiles to life -- from cover.

New Zealand Inventory of Biodiversity Dennis P. Gordon,2009 New Zealand is the first country to have compiled a checklist of its entire living and fossil biota. This trilogy provides a review and inventory of New Zealand's entire living and fossil biodiversity - an international effort involving 238 New

Zealand and overseas specialists and the most comprehensive of its kind in the world. Together, the three volumes list every one of the approximately 56,120 living and 14,700 fossil species of New Zealand's plants, animal, fungi, and micro-organisms. These volumes are affiliated with Species 2000, an international scientific project with the long-term goal of enumerating all described species on Earth into one seamless list - the Catalogue of Life, a kind of online biological telephone directory.

The Mississippi Burning Trial Bill Scheppler,2003-12-15 Looks at the events of the freedom summer of 1964, the disappearance and murder of civil rights workers James Earl Chaney, Andrew Goodman, and Michael Schwerner, and the federal civil rights case against several local whites.

Extracellular Nucleotides and Nucleosides: Release, Receptors, and Physiological & Pathophysiological Effects ,2003-09-10 Purinergic receptors are proteins that bind ATP as their extracellular ligand. Once thought only as an intracellular molecule that provides energy, ATP is also now considered an essential autocrine/paracrine agonist that acts extracellularly within tissues and tissue microenvironments. Receptors for ATP and its metabolites, so-called purinergic receptors, are essential membrane receptors that transduce the extracellular signal carried by ATP. Many cell types or tissues express multiple types of these receptors, often on the same cell. This volume will cover the history and overall impact of extracellular ATP signaling, methods to detect ATP release and signaling, the molecular and cell biology of purinergic receptors, the pharmacology of purinergic receptors, the ion channel biophysics and biochemistry of P2X purinergic receptor channels, and the physiology and pathophysiology of purinergic receptors. Key Features * Organized and written by world-renowned experts * Covers state-of-the-art experimental methods * Has broad appeal to basic and clinical scientists, the biotech industry and pharmaceutical research companies

Music, Sound and Multimedia Jamie Sexton,2007-11-14 This new series aims to explore the area of "screen music",. Volume topics will include multimedia music, music and television, Hollywood film music, and the music of Bollywood cinema.Music and other sound effects have been central to a whole host of media forms throughout the twentieth century, either as background, accompaniment, or main driving force. Such interactions will continue to mutate in new directions, with the widespread growth of digital technologies. Despite the expansion of research into the use of music and sound in film, the investigation of sonic interactions with other media forms has been a largely under-researched area. Music, Sound and Multimedia provides a unique study of how music and other sounds play a central part in our understandings and uses of a variety of communications media. It focuses on four areas of sound and music within broader multimedia forms - music videos, video game music, performance and presentation, and production and consumption - and addresses the centrality of such aural concerns within our everyday experiences. Charting historical developments, mapping contemporary patterns, and speculating on future possibilities, this book is essential for courses on sound and media within media and communications studies, cultural studies and popular music studies.Key features* Charts a number of key developments in music and multimedia interactions* Provides both historical overviews and theoretical analyses* Features a number of in-depth case studies of important issues.
