*The Cinema of Clint Eastwood* David Sterritt, 2014-11-25 He became a movie star playing The Man With No Name, and today his name is known around the world. Measured by longevity, productivity, and profits, Clint Eastwood is the most successful actor-director-producer in American film history. This book examines the major elements of his career, focusing primarily on his work as a director but also exploring the evolution of his acting style, his long association with screen violence, his interest in jazz, and the political views – sometimes hotly controversial – reflected in his films and public statements. Especially fascinating is the pivotal question that divides critics and moviegoers to this day: is Eastwood a capable director with a photogenic face, a modest acting talent, and a flair for marketing his image? Or is he a true cinematic auteur with a distinctive vision of America's history, traditions, and values? From *A Fistful of Dollars* and *Dirty Harry* to *Million Dollar Baby* and beyond, *The Cinema of Clint Eastwood* takes a close-up look at one of the screen's most influential and charismatic stars.

*Clint Eastwood's Cinema of Trauma* Charles R. Hamilton, Allen H. Redmon, 2017-09-29 Throughout his directorial career, Clint Eastwood's movies have presented sympathetic narratives of characters enduring personal trauma as they turn to violence to survive calamity or sustain social order--a choice that leaves them marginalized rather than redeemed. In this collection of new essays, contributors examine his films--from *The Outlaw Josey Wales* to *Sully*--as studies on PTSD that expose the social conditions that tolerate or trigger traumatization and (in his more recent work) imagine a way through

individual and collective trauma.

Barack Obama Burton I. Kaufman, 2022-03-15 In this insightful biography, Burton I. Kaufman explores how the political career of Barack Obama was marked by conservative tendencies that frustrated his progressive supporters and gave the lie to socialist fearmongering on the right. Obama's was a landmark presidency that paradoxically, Kaufman shows, resulted in few, if any, radical shifts in policy. Following his election, President Obama's supporters and detractors anticipated radical reform. As the first African American to serve as president, he reached the White House on a campaign promise of change. But Kaufman finds in Obama clear patterns of classical conservatism of an ideological sort and basic policy-making pragmatism. His commitment to usher in a multiracial, multiethnic, and multicultural society was fundamentally connected to opening up, but not radically altering, the existing free enterprise system. The Affordable Care Act, arguably President Obama's greatest policy achievement, was a distillation of his complex motivations for policy. More conservative than radical, the ACA fitted the expansion of health insurance into the existing system. Similarly, in foreign policy, Obama eschewed the use of force to affect regime change. Yet he kept boots on the ground in the Middle East and supported ballot-box revolts geared toward achieving in foreign countries the same principles of liberalism, free enterprise, and

competition that existed in the United States. In estimating the course and impact of Obama's full political life, Kaufman makes clear that both the desire for and fear of change in the American polity affected the popular perception but not the course of action of the forty-fourth US president.

**Videohound's Golden Movie Retriever, 1997** Visible Ink, Craddock, 1996-08 The alternative life raft in a sea of similarity, VideoHound competes on content, categories, and indexing, but the dramatic difference is the attitude. Irreverent, slightly tongue-in-cheek, the Hound never takes himself too seriously. The 1997 edition, fully expanded and updated with 1,000 new entries, provides information and opinions on 22,000-plus videos--more than any other guide on the market--including documentaries, made-for-TV movies, and animated features. Chronicle of a Camera Norris Pope, 2013-03-01 This volume provides a history of the most consequential 35mm motion picture camera introduced in North America in the quarter century following the Second World War: the Arriflex 35. It traces the North American history of this camera from 1945 through 1972—when the first lightweight, self-blimped 35mm cameras became available. Chronicle of a Camera emphasizes theatrical film production, documenting the Arriflex's increasingly important role in expanding the range of production choices, styles, and even content of American motion pictures in this period. The book's exploration culminates most strikingly in examples found in feature films dating from the 1960s and early 1970s, including a number of films associated with what came to be known as the “Hollywood New Wave.” The author shows that the Arriflex prompted important innovation in three key areas: it greatly facilitated and encouraged location shooting; it gave cinematographers new options for intensifying visual style and content; and it stimulated low-budget and independent production. Films in which the Arriflex played an absolutely central role

include Bullitt, The French Connection, and, most significantly, Easy Rider. Using an Arriflex for car-mounted shots, hand-held shots, and zoom-lens shots led to greater cinematic realism and personal expression.

*The Films of Clint Eastwood* Matt Wanat,Leonard Engel,2018 The indefatigable Clint Eastwood, the great old man of American film, is still controversial after all these years. Many of the critical essays in this collection focus on Eastwood's 2014 American Sniper, a particularly controversial film and a devastating personal account of the horrors of war. Additional essays within the collection address his films that deserve more recognition than they have received to date. The chapters vary by topic and identify themes ranging from aging, race, and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work. As a collection, these essays show that none of these themes account for Eastwood's entire vision, which is multifaceted and often contradictory, dramatizing complex issues in powerful, character-driven narratives.

*Eastwood's Iwo Jima* Anne Gjelsvik,Rikke Schubart,2013-07-09 Together, Flags of our Fathers and Letters from Iwo Jima tell the story behind one of history's most famous photographs, Leo Rosenthal's 'Raising the Flag on Iwo Jima'.

Clint Eastwood's America Sam B. Girgus,2013-11-22 The steady rise of Clint Eastwood's career parallels a pressing desire in American society over the past five decades for a figure and story of

purpose, meaning, and redemption. Eastwood has not only told and filmed that story, he has come to embody it for many in his public image and film persona. Eastwood responds to a national yearning for a vision of individual action and initiative, personal responsibility, and potential for renewal. An iconic director and star for his westerns, urban thrillers, and adventure stories, Eastwood has taken film art to new horizons of meaning in a series of masterpieces that engage the ethical and moral consciousness of our times, including *Unforgiven*, *Million Dollar Baby*, and *Mystic River*. He revolutionized the war film with the unprecedented achievement of filming the opposing sides of the same historic battle in *Flags of Our Fathers* and *Letters from Iwo Jima*, using this saga to present a sharply critical representation of the new America that emerged out of the war, a society of images and spectacles. This timely examination of Clint Eastwood's oeuvre against the backdrop of contemporary America will be fascinating reading for students of film and popular culture, as well as readers with interests in Eastwood's work, and American film and culture.

**Law and Ethics for Today's Journalist** Joe Mathewson, 2014-12-18 Law and Ethics for Today's Journalist offers aspiring and working journalists the practical understanding of law and ethics they must have to succeed at their craft. Instead of covering every nuance of media law for diverse communications majors, Mathewson focuses exclusively on what's relevant for journalists. Even though media law and media ethics are closely linked together in daily journalistic practice, they are usually covered in separate volumes. Mathewson brings them together in a clear and colourful way that practicing journalists will find more useful. Everything a journalist needs to know about legal protections, limitations, and risks inherent in workaday reporting is illustrated with highlights from major court opinions. Mathewson advises journalists who must often make ethical decisions on the spot with no time for the elaborate, multi-faceted analysis. The book assigns to journalists the hard decisions on ethical questions such as whether to go undercover or otherwise misrepresent themselves in order to get a big story. The ethics chapter precedes the law chapters because ethical standards should underlie a journalist's work at all times. There may be occasions when ethics and law are not parallel, thus calling for the journalist to make a personal judgment. Law and Ethics for Today's Journalist is user-friendly, written in clear, direct, understandable language on issues that

really matter to a working journalist. Supplementary reading of the actual court cases is recommended and links to most cases are provided in the text. The text includes a fine (but purposely not exhaustive) bibliography listing important and useful legal cases, including instructive appellate and trial court opinions, state as well as federal.

**The Very Best of Clint Eastwood** David Graham, 2014-09-22 Clint Eastwood is one of Hollywood's biggest successes. Originally known for his roles in westerns, he has since demonstrated his versatility in a range of genres and has proven to be as talented a director as he is an actor. Outside of his work, Eastwood is renowned as a strong personality who is never one to hide his views. This book brings together many of his best quotes and provides an extensive insight into one of the most interesting characters in showbiz.

**Celebrity Influence** Mark Harvey, 2018-01-12 Why should we listen to celebrities like Bono or Angelina Jolie when they endorse a politician or take a position on an issue? Do we listen to them? Despite their lack of public policy experience, celebrities are certainly everywhere in the media, appealing on behalf of the oppressed, advocating policy change—even, in one spectacular case, leading the birther movement all the way to the White House. In this book Mark Harvey takes a close look into the phenomenon of celebrity advocacy in an attempt to determine the nature of celebrity influence, and the source and extent of its power. Focusing on two specific kinds of power—the ability to spotlight issues in the media and to persuade audiences—Harvey searches out the sources of celebrity influence and compares them directly to the sources of politicians' influence. In a number of case studies—such as Jolie and Ben Affleck drawing media attention to the civil war in the Democratic Republic of Congo; Bob Marley uniting warring factions in Jamaica; John Lennon networking with the

new left to oppose Richard Nixon's re-election; Elvis Presley working with Nixon to counter anti-war activism—he details the role of celebrities working with advocacy groups and lobbying politicians to affect public opinion and influence policy. A series of psychological experiments demonstrate that celebrities can persuade people to accept their policy positions, even on national security issues. Harvey's analysis of news sources reveals that when celebrities speak about issues of public importance, they get disproportionately more coverage than politicians. Further, his reading of surveys tells us that people find politicians no more or less credible than celebrities—except politicians from the opposing party, who are judged less credible. At a time when the distinctions between politicians and celebrities are increasingly blurred, the insights into celebrity influence presented in this volume are as relevant as they are compelling.
