Washington Information Directory 2019-2020 CQ Press,2019-07-03 The Washington Information Directory is the essential one-stop source for information on U.S. governmental and nongovernmental agencies and organizations. This thoroughly researched guide provides capsule descriptions that help users quickly and easily find the right person at the right organization. The Washington Information Directory offers three easy ways to find information: by name, by organization, and through detailed subject indexes. Although it is a “directory, the volume is topically organized, and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization (whether government or nongovernmental) does related to that topic. It is focused on Washington—in order to be listed, an organization must have an office in the Washington metropolitan area. These descriptions are not boilerplate advertising material from the organizations; rather, they are hand-crafted by a talented freelance research team. In addition, the Washington Information Directory pulls together 55 organization charts for federal agencies, congressional resources related to each chapter topic, hotline and contact information for various specific areas of interest (from Food Safety Resources to internships in Washington), and an extensive list of active congressional caucuses and contact details. It has two appendices, one with thorough information on congresspersons and committees, and the second with governors and embassies. With more than 10,000 listing and coverage of the new presidential administration, the 2019-2020 Edition features contact information for the following: • 116th Congress and federal agencies • Nongovernmental organizations • Policy groups, foundations, and institutions • Governors and other state officials • U.S. ambassadors and foreign diplomats • Congressional caucuses

Twenty-Five Ghost Stories W. BOB HOLLAND,2021-01-01 *Twenty-Five Ghost Stories* BY W. BOB HOLLAND This collection of ghost stories owes its publication to an interest that I have long felt in the supernatural and in works of the imagination. As a child I was deeply concerned in tales of spooks, haunted houses, wraiths and specters and stories of weird experiences, clanking chains, ghostly sights and gruesome sounds always held me spellbound and breathless. Experiences in editorial offices taught me that I was not alone in liking stories of mystery. The desire to know something of that existence that is veiled by Death is equally potent in old age and in youth, and men, women and children like to be thrilled and to have a “creepy” feeling along the spinal column as the result of reading of a visitor from beyond the grave. This volume contains the most famous of the weird stories of Edgar Allan Poe, that master of this form of literature. “The Black Cat” contains all the needed element of mystery and supernatural, and yet the feline acts in a natural manner all of the time, and the story is quite possibly true. It is only in the manner of its{6} telling that the tale becomes one that fittingly finds its place in this collection. Guy de Maupassant, the clever Frenchman, is also represented by two effective bits of work, and other less widely known writers have also contributed stories that are worth reading, and when once read will be remembered. There is not a story among the twenty-five that is not worthy of close reading. There has recently been a revival in interest in ghost stories. Many of the high-class magazines have within a few months printed stories with supernatural incidents, and writers whose names are known to all who read have turned their attention to this form of literature. Whether or not the reader believe in ghosts, he cannot fail to be interested in this little book. Without venturing to express a positive opinion either way, I will only say with Hamlet: “There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy.” *Twenty-Five Ghost Stories* BY W. BOB HOLLAND

A Bloody Day at Gaines' Mill Elmer R. Woodard, III,2019-01-10 In the summer of 1862, two great armies met outside of Richmond in a series of battles that would determine the course of the Civil War. The Union had time, men and materiel on its side, while the Confederates had mobility, esprit de corps and aggressive leadership. Untried General Robert E. Lee was tasked with driving the Yankees from their almost impregnable positions to save Richmond and end the war. Lee planned to isolate part of the Union Army, crush it, and then destroy the only supply base the remaining Federals had. To do so, he had to move thousands of troops hundreds of miles, bringing multiple forces together with intricate timing, all without the Yankees or their spies finding out. The largest and most important of these battles occurred at Gaines' Mill.

10,000 Famous Freemasons William Denslow,2007-06 This is volume one of four. This very rare and long out of print biographical work is a must for any Mason with a desire for Masonic research. This is NOT a photocopy of the original work, but a completely new, re-type set edition. While a few editorial changes have been made the work is for the most part as it was when first published. The largest change is the addenda that was at the end of the 4th edition. The addenda was a collection of corrections and additions to the work. We have incorporated the corrections and additions into the work itself removing the need for the addenda. DON'T FORGET: This is a FOUR book set with each book sold separately. The ISBNs are: 1887560319, 1887560793, 1887560424 & 1887560068.
