**A Sociology of Religious Emotion** Ole Riis, Linda Woodhead, 2010-06-24 This timely book aims to change the way we think about religion by putting emotion back onto the agenda. It challenges a tendency to over-emphasise rational aspects of religion, and rehabilitates its embodied, visceral and affective dimensions. Against the view that religious emotion is a purely private matter, it offers a new framework which shows how religious emotions arise in the varied interactions between human agents and religious communities, human agents and objects of devotion, and communities and sacred symbols. It presents parallels and contrasts between religious emotions in European and American history, in other cultures, and in contemporary western societies. By taking emotions seriously, *A Sociology of Religious Emotion* sheds new light on the power of religion to shape fundamental human orientations and motivations: hopes and fears, joys and sorrows, loves and hatreds.

*Catholic Identity* Michele Dillon, 1999-08-13 Michele Dillon investigates why pro-change Catholics continue to remain actively involved with the Church.

Evolving Visions of the Priesthood Dean R. Hoge, Jacqueline E. Wenger, 2003 *Evolving Visions of the Priesthood* traces the movement of the Church in the United States during the first forty years of the implementation of Vatican II. This research gives the U.S. Church a good picture of itself and its struggles during the post-conciliar period. These studies are important for what they tell us of priests who were already ministering the theology of the Council, at the time of the Council, and also consider those priests ordained more recently and their perspectives on Vatican II. How the different groups of priests perceive each other in their respective desires to be faithful to God offers the reader insight into today's presbyterate. By following what has been happening we get a glimpse

of what the future holds. Given the struggles of the scandals recently confronting the Church, the studies also offer indications of why the particular problems arose so suddenly and why they were so related to a given time frame. Chapters are The American Priesthood After the 1960s, \*Characteristics of Priests in 2001, - \*The Shifting Emphasis in Ecclesiology, - \*The New Priests, - \*Issues and Needs Felt by Priests, - \*The Question of Homosexual Subcultures, - \*Understanding the Changes, - and \*Recommendations Made by the Priests. - Includes an epilogue, \*Effects of the 2002 Sexual Misconduct Crisis. - Dean R. Hoge is a professor in the department of sociology at The Catholic University of America in Washington, D.C. He has done sociological research serving American churches for 32 years and has authored several books and articles on American religion including *The First Five Years of the Priesthood*, published by Liturgical Press. Jacqueline E. Wenger is a graduate student in sociology at The Catholic University of America and a licensed clinical social worker.

*The First Five Years of the Priesthood* Dean R. Hoge, 2002 *The First Five Years of the Priesthood* reports what was learned from interviews with five hundred priests who were within five years of ordination and seventy-two recently ordained priests who had resigned. The research indicated that 10 to 15 percent of priests resigned within the first five years of their ministry due to loneliness, feelings of being unappreciated, problems of celibacy, and disillusionment. The priests who remained active reported that satisfaction with their ministry came particularly from presiding at the Eucharist, preaching, and teaching.

*Russia's Balkan Entanglements, 1806-1914* Barbara Jelavich, 2004-03-11 This book examines the reason for the Russian involvement in the Balkan peninsula.

Hidden Richard Giannone, 2012 A raw, piercing, and courageously open self-scrutiny that

merges the author's distinct worlds of being gay, Catholic, and a devoted son and brother to his dying mother and sister.

**Naked Parish Priest** Stephen Loudon, Leslie J. Francis, 2003-08-01 Based on a survey sent out to Catholic clergy in the UK, this study is a major contribution from empirical theology towards interpreting the health and potential of the priesthood today. The issues raised by this new study concern the nature and health of the priesthood, a topic of most urgent concern at a time of clerical scandal and abuse. The conclusions of this book are extremely revealing but fundamentally positive for anyone concerned with the future of the Christian Church at the start of a new millennium.

The Oxford Handbook of Religion and Emotion John Corrigan, 2008 This volume collects essays under four categories: religious traditions, religious life, emotional states, and historical and theoretical perspectives. They describe the ways in which emotions affect various world religions, and analyse the manner in which certain components of religious represent and shape emotional performance.

**The Balkans Since the Second World War** R. J. Crampton, 2014-07-15 Since the collapse of Eastern European communism, the Balkans have been more prominent in world affairs than at any time since before the First World War. Crises in the area have led NATO to fire its first ever shots in anger, whilst international forces have been deployed on a scale and in a manner unprecedented in Europe since World War Two. An understanding of why this happened is impossible without some knowledge of the history of the area before the fall of communism, of how the communists came to power and how they used their authority thereafter. Covering the communist states of Albania, Bulgaria, Romania and Yugoslavia, and including Greece, Richard Crampton provides a highly readable introduction to that history, one that will be read by journalists, diplomats and anyone

interested in the region and its impact on world politics today.

**The Establishment of the Balkan National States, 1804-1920** Charles Jelavich, Barbara Jelavich, 2012-09-20 This highly readable and thoroughly researched volume offers an excellent account of the development of seven Balkan peoples during the nineteenth and the first part of the twentieth centuries. Professors Charles and Barbara Jelavich have brought their rich knowledge of the Albanians, Bulgarians, Croatians, Greeks, Romanians, Serbians, and Slovenes to bear on every aspect of the area's history--political, diplomatic, economic, social and cultural. It took more than a century after the first Balkan uprising, that of the Serbians in 1804, for the Balkan people to free themselves from Ottoman and Habsburg rule. The Serbians and the Greeks were the first to do so; the Albanians, the Croatians, and the Slovenes the last. For each people the national revival took its own form and independence was achieved in its own way. The authors explore the contrasts and similarities among the peoples, within the context of the Ottoman Empire and Europe.

**Jihad Beyond Islam** Gabriele Marranci, 2006-08-07 By observing the current crisis of identity among ordinary Muslims, this book explores why, and in what circumstances Muslims speak of jihad. In the end, jihad is what Muslims say it is. Marranci offers us a nuanced and anthropological understanding of Muslims' lives beyond the predictable clichés.

*American Catholic* Martin Greeley, 1978-10-12 Discusses the social and religious lives of modern American Catholics in contrast to the distortions of the media.
