How Real Is Race? Carol C. Mukhopadhyay, Rosemary Henze, Yolanda T. Moses, 2013-12-11 How real is race? What is biological fact, what is fiction, and where does culture enter? What do we mean by a "colorblind" or "postracial" society, or when we say that race is a "social construction"? If race is an invention, can we eliminate it? This book, now in its second edition, employs an activity-oriented approach to address these questions and engage readers in unraveling—and rethinking—the contradictory messages we so often hear about race. The authors systematically cover the myth of

race as biology and the reality of race as a cultural invention, drawing on biocultural and cross-cultural perspectives. They then extend the discussion to hot-button issues that arise in tandem with the concept of race, such as educational inequalities; slurs and racialized labels; and interracial relationships. In so doing, they shed light on the intricate, dynamic interplay among race, culture, and biology. For an online supplement to *How Real Is Race?* Second Edition, [click here](#).

Schooltalk Mica Pollock,2017-02-07 Words matter. Every day in schools, language is used—whether in the classroom, in a student-teacher meeting, or by principals, guidance counselors, or other school professionals—implying, intentionally or not, that some subset of students have little potential. As a result, countless students “underachieve,” others become disengaged, and, ultimately, we all lose. Mica Pollock, editor of *Everyday Antiracism*—the progressive teacher’s must-have resource—now turns to what it takes for those working in schools to match their speech to their values, giving all students an equal opportunity to thrive. By juxtaposing common scenarios with useful exercises, concrete actions, and resources, *Schooltalk* describes how the devil is in the oft-dismissed details: the tossed-off remark to a student or parent about the community in which she lives; the way groups—based on race, ability, and income—are discussed in faculty meetings about test scores and data; the assumptions and communication breakdowns between counselors,

teachers, and other staff that cause kids to fall needlessly through the cracks; or the deflating comment to a young person about her college or career prospects. Schooltalk will empower educators of every ilk, revealing to them an incredibly effective tool at their disposal to support the success of all students every day: their words.

Social Studies for Secondary Schools Alan J. Singer, 2003-04-02 Social Studies for Secondary Schools: Teaching to Learn, Learning to Teach, Second Edition integrates discussions of educational goals and the nature of history and social studies with practical ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme woven throughout the text is that what we choose to teach and the way we teach reflect our broader understanding of society, history, and the purposes of social studies education. Each chapter opens with a broad question about social studies education; provides many examples of lessons, including lesson ideas developed by new and experienced middle school and high school social

studies teachers; features a rich variety of teaching, learning, and classroom activities designed to provoke discussion and illustrate different approaches to teaching social studies; and concludes with essays about related social studies topics. Part I focuses on philosophical issues, social studies goals and standards, and the design of social studies curricula. Part II examines and offers examples of strategies for planning units and lessons. Part III explores topics, such as thematic and interdisciplinary teaching, a project approach to social studies, as well as assesses student learning and one's own performance as a teacher, and provides a guide to social studies resource materials and organizations. New in the Second Edition: *Every chapter has been updated and includes a number of new lesson ideas. *The lesson ideas are designed especially to help beginning teachers address learning standards; work in inclusive settings; and promote literacy and the use of technology in social studies classrooms. *Sample activities developed with members of the Hofstra New Teachers Network reflect the current focus on document-based instruction and assessment, and can serve as tools for assessing student learning. *Increased attention is given to project-based social studies instruction and to multicultural education. Intended as a text for undergraduate and graduate preservice social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking

their teaching practice.
