Seeing Eye Stephen R. George,2016-07-25 **BLINDSIGHT** When an accident destroyed his eyesight a year ago, Campbell Knight resigned himself to endless darkness. Then suddenly he's handed a miracle: a once-in-a-lifetime chance to restore his vision. It's a secret experiment in which implants in his brain are linked to the optic nerves of Shadow, a seeing-eye dog. The operation is a success. There's just one unusual side effect. Campbell isn't viewing the world through his own eyes; he's seeing the world through Shadow's ...

An Eye for an Eye Clarence Darrow,2023-10-31 *An Eye for an Eye* by Clarence Darrow. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten-or yet undiscovered gems-of world literature, we issue the books that need to be read. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Eyes Have It Evan Marshall,2003 There is no better way to read behavior and the human personality than by observing the human eye. For centuries, people have studied eye language to discover hidden motivations and personality traits (lie-detector tests now use movement of the eyes as a detection of guilt). The movement and characteristics of the eye play a crucial role in successes in love, career, and every aspect of life. Now, readers can master this important part of nonverbal communication with *The Eyes Have It*. Individual chapters explore loving and lying eyes, the etiquette of staring, the evil eye, pupillometry, iridology, trends in eye adornment, and the vital blink. Also included are surprising analyses of some of the world's most famous eyes. In this enlightening guide to understanding one of the world's most subtle and effective forms of language, *The Eyes Have It* reveals fascinating tips such as: -- A drooping eyelid signifies a person with sex appeal, preoccupied with the chase, but who is apt to be cold-hearted - Long thin eyebrows denote the superior intellect of an artist or scholar -- A large iris indicates an affectionate and family-oriented person -- The green-

eyed person possesses creativity and originality, and is believed to be the happiest of the color-groups

Your Eyes Thomas Chalkley,2000

The Eye Book John Eden,1978

Eyes on Ice & No Blind Mice Saad Shaikh M. D.,Saad Shaikh,2007 A travelogue full of adventure, *A Place to Belong* is the story of a young teenage boy's search for self worth and faith in a cruel world. Paul Miller was eight years old when his parents took him on a mystifying, zigzagging journey, from Detroit to Florida, to California and back again. His father's tenuous grip on reality becomes as changeable as the landscapes they travel through. Paul's simple questions are ignored or answered by the back of his Father's hand. Paul jumps the roof-tops of Detroit slums, butts heads with the gangs of Los Angeles and gets caught up in a world of petty theft. Life hangs by bus fare, the surprising kindness of a loving family, a filthy motorist with a penchant for young boys, the kiss of a young girl. Along the way, Noah, a wise fisherman, shows Paul that God isn't some imperious judge sitting on top of a throne, but can become your best friend, a buddy you can talk to. But can such a simple view account for all the misery Paul experiences? In this captivating and at turns humorous story, a young man travels into the depths of despair and back again to find a place he can call home. I got hooked and couldn't stop. This is a splendidly written story and quite a story to tell. So candid, unpretentious, and courageous. David Morris, Senior Editor Guideposts Books. Miller tells a remarkable story, one that is in a sense an American Angela's Ashes but with the added element of faith as a factor in surviving an incredibly rough childhood. Michael Wilt, Editor, Nimble Spirit.

The Doctor with an Eye for Eyes Julia Finley Mosca,2017 As a girl coming of age during the era of civil rights, Patricia Bath made it her mission to become a doctor. When obstacles like racism, poverty, and sexism threatened this goal, she persevered--brightening the world with a game-changing treatment for blindness. Illustrations.x 10.

Eyes Carol Ballard,2009-07-01 Discusses how the eyes work, their structure, and problems, illness, and disease that affect the eyes.

Through My Eyes Vendon Wright,2014-07-25 When I was six years old, I started wearing glasses to correct my short sight. My view of my low vision quickly changed when I was twenty years old and found out that my brother had suddenly gone blind. He was told that he was suffering from Retinitis Pigmentosa (RP), a disorder that slowly destroys the pigment cells in the eyes. So far, there are no known cures. At the tender age of twenty-one, I was also diagnosed with RP. Since then, I have been slowly going blind, not knowing when my world would finally fade away forever. Battling against such a crippling disease led me through a labyrinth of challenges. Having to constantly adapt my lifestyle to fit the changes to my vision became almost unbearable. During my journey, I experienced a wide range of emotions as I fought to find a way to deal with my disability. After a long hard battle, overcoming huge obstacles, I finally learned to embrace my medical condition. Despite the problems it has caused me, I have managed to keep a positive attitude towards life. Now I would like to pass on my strengths to other people.

All Kinds of Eyes Sara Freeman,1996

An Eye for an Eye Anthony Trollope,2013-06-13 At a private asylum in the west of England there lives, and has lived for some years past, an unfortunate lady, as to whom there has long since ceased to be any hope that she should ever live elsewhere. Indeed, there is no one left belonging to her by whom the indulgence of such a hope on her behalf could be cherished. Friends she has none; and her own condition is such, that she reckes nothing of confinement and does not even sigh for release. And yet her mind is ever at work, -as is doubtless always the case with the insane. She has present to her, apparently in every waking moment of her existence, an object of intense interest, and at that she works with a constancy which never wearies herself, however fatiguing it may be to those who are near her. She is ever justifying some past action of her life. An eye for an eye, she says, and a tooth for a tooth. Is it not the law? And these words she will repeat daily, almost from morn till night. It has been said that this poor lady has no friends. Friends who would be anxious for her recovery, who

would care to see her even in her wretched condition, who might try to soothe her harassed heart with words of love, she has none. Such is her condition now, and her temperament, that it may be doubted whether any words of love, however tender, could be efficacious with her. She is always demanding justification, and as those who are around her never thwart her she has probably all the solace which kindness could give her.
