Upton Sinclair

The Jungle Upton Sinclair, 2010-08-19 A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

ULYSSES (Modern Classics Series) James Joyce, 2024-01-10 This carefully crafted ebook: *ULYSSES (Modern Classics Series)* is formatted for your eReader with a functional and detailed table of contents. *Ulysses* is a modernist novel by Irish writer James Joyce. It is considered to be one of the most important works of modernist literature, and has been called a demonstration and summation of the entire movement. *Ulysses* chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. *Ulysses* is the Latinised name of Odysseus, the hero of Homer's epic poem *Odyssey*, and the novel establishes a series of parallels between its characters and events and those of the poem (the correspondence of Leopold Bloom to Odysseus, Molly Bloom to Penelope, and Stephen Dedalus to Telemachus). Joyce divided *Ulysses* into 18 chapters or episodes. At first glance much of the book may appear unstructured and chaotic; Joyce once said that he had put in so many enigmas and puzzles that it will keep the professors busy for centuries arguing over what I meant, which would earn the novel immortality. James Joyce (1882-1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for *Ulysses*, the short-story collection *Dubliners*, and the novels *A Portrait of the Artist as a Young Man* and *Finnegans Wake*.

40 Ways to Diversify the History Curriculum Elena Stevens, 2022-07-14 In writing this book, Elena Stevens' aim is to respond to calls for a more diverse, decolonised curriculum - calls which have become more insistent following the reinvigoration of the Black Lives Matter movement, the #MeToo movement and other landmark events. Highlighting the lived experiences of women, the working classes, and BAME and LGBTQ+ communities in particular, *40 Ways to Diversify the History Curriculum* draws upon a wide range of personal stories to exemplify significant historical moments and shed new light on topics that have traditionally been taught through narrower lenses. The book serves as a resource bank for teachers wishing to enliven and diversify history lessons at Key Stages 2-3, GCSE, A level and beyond. Elena helpfully opens with a discussion of the theoretical/historiographical developments that lay behind calls to diversify the curriculum - and, to accompany each of the 40 historical case studies, she provides ideas and activities for translating the case studies into lesson plans and enquiries. Furthermore, Elena also guides teachers in shaping new enquiries from scratch. Suitable for teachers of secondary school and Key Stage 2 history.

Dubliners James Joyce, 2014-05-25T00:00:00Z *Dubliners* is a collection of picturesque short stories that paint a portrait of life in middle-class Dublin in the early 20th century. Joyce, a Dublin native, was careful to use actual locations and settings in the city, as well

as language and slang in use at the time, to make the stories directly relatable to those who lived there. The collection had a rocky publication history, with the stories being initially rejected over eighteen times before being provisionally accepted by a publisher—then later rejected again, multiple times. It took Joyce nine years to finally see his stories in print, but not before seeing a printer burn all but one copy of the proofs. Today *Dubliners* survives as a rich example of not just literary excellence, but of what everyday life was like for average Dubliners in their day. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

A Philosophical Exploration of the Humanities and Social Sciences Giorgio Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune's slings and arrows cause inevitably, if not incessantly, to each and every one of us. In mundane life, having a sense of humor is seen not only as a positive trait of character, but as a social prerequisite, without which a person's career and mating prospects are severely diminished, if not annihilated. However, humor is much more than this, and so much else. In particular, humor can accompany cruelty, inform it, sustain it, and exemplify it. Therefore, in this book, we provide a comprehensive, reasoned exploration of the vast literature on the concepts of humor and cruelty, as these have been tackled in Western philosophy, humanities, and social sciences, especially psychology. Also, the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common-sense concepts, in line with the understanding of concepts developed by M. Polanyi in the 20th century. Thus, a thorough, nuanced grasp of their complex mutual relationship is established, and many platitudes affecting today's received views, and scholarship, are cast aside.

Participant Observers Freddy Foks, 2023 By the 1950s, social anthropologists were at the forefront of debates about culture, society, and the limits to economic development in Britain and the British Empire. This book explains how anthropology rose to such prominence and how its influence dispersed across the humanities and social sciences. Part institutional history of social anthropology's imperial formation, part cultural history of the discipline's impact, this is the first account of social anthropology's pivotal role in Britain's midcentury intellectual culture--

The Caribbean Story Finder Sharon Barcan Elswit, 2017-09-11 The Caribbean islands have a vibrant oral folklore. In Jamaica, the clever spider Anansi, who outsmarts stronger animals, is a symbol of triumph by the weak over the powerful. The fables of the foolish Juan Bobo, who tries to bring milk home in a burlap bag, illustrate facets of traditional Puerto Rican life. Conflict over status, identity and power is a recurring theme—in a story from Trinidad, a young bull, raised by his mother in secret, challenges his tyrannical father who has killed all the other males in the herd. One in a series of folklore reference guides by the author, this volume shares summaries of 438 tales—some in danger of disappearing—retold in English and Creole from West African, European, and slave indigenous cultures in 24 countries and territories. Tales are grouped in themed sections with a detailed subject index and extensive links to online sources.

Beat Myths in Literature Estíbaliz Encarnación-Pinedo, 2023-09-22 Beat Myths in Literature reassesses the work of women poets associated with the Beat Generation from the critical lens of revisionist discourses. Using the metaphor and the critical lens of looking back, an act infused with feminist implications after Adrienne Rich (1972), the volume focuses on poetry, fiction, and autobiographical writing to analyze the different ways in which Beat women used revisionist discourses to refashion the Beat Generation and establish themselves as literary and artistic subjects. Offering the first comprehensive study of the use of mythology in the Beat Generation, *Beath Myths in Literature: Revisionist Strategies in Beat Women* focuses on the specific re-writing or revisioning of

mythical texts. As such, it studies the ways in which Beat poets incorporate mythology into their works, both through the feminist reinvention or appropriation of ancient myths, but also by debunking more contemporary myths used to contain women in particular social and artistic roles. Furthermore, this volume expands Rich's notion of re-vision, considering memoirs and autobiographies as factual and fictional re-interpretations of history. Seen through the eyes of revisionist studies and the poets' investment in "personal myth", the book establishes new points of entrance into works that allow us to explore the feminist, political, and poetical relevance of the work of Beat women.

Freckles Gene Stratton-Porter, 2016 Freckles, a nameless Irish waif when the story opens, moved by the power of a mighty love, takes hold of his life, performs deeds of heroism in his guardianship of the Limberlost timber leases, and at length, through the help of the woman he loves, comes into possession of his name and patrimony. Other characters, only a little less interesting, are McLean, a member of the Grand Rapids Lumber Co., Freckles' friend and boss; Lord O'More, who seeks a lost relative and finds him in the hero, and Black Jack, a handsome villain, whose thought of repentance comes too late.

Mediating Peace Sebastian Kim, Pauline Kollontai, Sue Yore, 2016-01-14 This volume examines the role and contributions of art, music and film in peace-building and reconciliation, offering a distinctive approach in various forms of art in peace-building in a wide range of conflict situations, particularly in religiously plural contexts. As such, it provides readers with a comprehensive perspective on the subject. The contributors are composed of prominent scholars and artists who examine theoretical, professional and practical perspectives and debates, and address three central research questions, which form the theoretical basis of this project: namely, 'In what way have particular forms of art enhanced peace-building in conflict situations?', 'How do artistic forms become a public demonstration and expression of a particular socio-political context?', and 'In what way have the arts played the role of catalyst for peace-building, and, if not, why not?' This volume demonstrates that art contributes in conflict and post-conflict situations in three main ways: transformation at an individual level; peace-building between communities; and bridging justice and peace for sustainable reconciliation.

Food on Foot Demet Güzey, 2017-04-01 What did great adventurers eat during their expeditions to the far corners of the world? How did they view the role of food in their survival and wellbeing? What about hikers and backpackers today who set out to enjoy nature, pushing their own boundaries of comfort for adventure. How does food impact their experience? And what do they have in common with pilgrims and soldiers? Food is a significant element of our relationship with nature. Whether a historical expedition or a weekend camping trip, a journey made on foot requires sustenance. Without mastering our relationship with food we would have not been to the South Pole or summited Mt. Everest or expanded to the west of America. However, in the reporting of these expeditions so far food has rarely taken a central role. It is possible to take a different stance and look at our time on trails with food as the leading character. Here, Demet Güzey offers a fun and interesting read on the social and cultural history, developments and challenges in food on trails and in the wild. She explores personal accounts, news articles and anecdotes to highlight how food has accompanied us in mountaineering, desert travel, and pilgrimage, in the army or on the street. From tinned foods to foraging in the wild, worm-infested hardtack to palate-dulling army rations, loss of appetite in high altitude to starvation at the trenches, no stone is left unturned in this tour of how we manage food on foot, and how disasters happen when we do not manage it so well. Readers will delight in both the stories of many of the famous explorations and the more current journeys.

Straight Skin, Gay Masks and Pretending to be Gay on Screen Gilad

Padva,2020-05-11 Straight Skin, Gay Masks and Pretending to Be Gay on Screen examines cinematic depictions of pretending-to-be-gay, assessing performances that not only reflect heteronormative and explicitly homophobic attitudes, but also offer depictions of gay selfhood with more nuanced multidirectional identifications. The case of straight protagonists pretending to be gay on screen is the ideal context in which to study unanticipated progressivity and dissidence in regard to cultural construction of human sexualities in the face of theatricalized epistemological collapse. Teasing apart the dynamics of depictions of both sexual stability and fluidity in cinematic images of men pretending to be gay offers new insights into such salient issues as sexual vulnerability and dynamics and long-term queer visibility in a politically complicated mass culture which is mostly produced in a heteronormative and even hostile cultural environment. Additionally, this book initially examines queer uses of sexuality masquerade in Alternate Gay World Cinema that allegorically features a world pretending to be gay, in which straights are harassed and persecuted, in order to expose the tragic consequences of sexual intolerance. Films and TV series examined as part of the analysis include The Gay Deceivers, Victor/Victoria, Happy Texas, William Friedkin's Cruising and many other straight and gay screens. This is a fascinating and important study relevant to students and researchers in Film Studies, Media Studies, Gender Studies, Queer Studies, Sexuality Studies, Communication Studies and Cultural Studies.

The White Peacock D. H. Lawrence,2023-05 The White Peacock is a novel by D. H. Lawrence published in 1911. The story revolves around the relationship between two young people, George and Lettie, who fall in love in the English countryside. George is the nephew of a wealthy landowner, and Lettie is the daughter of a poor farmer. The novel explores themes of love, class, and the struggle for self-expression. The plot is centered around the courtship of George and Lettie, who come from vastly different backgrounds. George struggles with his privileged upbringing and a desire to break free from his family's expectations, while Lettie is confined by her poverty and the limited opportunities available to her. As their relationship progresses, they face challenges and obstacles that threaten to tear them apart. The novel is also notable for its vivid descriptions of the natural world, particularly the lush English countryside. Lawrence's prose captures the beauty and complexity of the landscape, and his characters are deeply connected to the natural world around them. In the end, the novel is a poignant exploration of the complexities of human relationships, the struggle for self-discovery and the consequences of social and economic divisions.

The research included here illustrates events ranging from the evolution of the English Crown and the building of North America to the American Revolution and the American Civil War. Interesting and informative, When Clans Collide explores the history of one surname and provides a foundation and plan for making the connection to your own ancestral heritage through your surname.
