*To the Front and Back, Please* Carsten Stormer, Roger Gwynn, 2014-05-28 I had just completed my journalism course and was firmly convinced that the media were waiting for me with bated breath. I am ready, I thought. I was fairly sure I would win the Pulitzer prize that same year; I was brimming with self confidence and eagerness. At last I could swap book-learning for reality and actually feel the pulse of life. A war was going on in Afghanistan; what then could be better than to start my career as a journalist there? At long last I could sally forth and do what countless men had done before me: I would go to war." 'To the Front and Back' are tales from ten years on world's frontlines. From Afghanistan to Darfur, from Somalia to Iraq, the Democratic Republic of Congo, Burma and the Philippines. This is a personal journey of a young, naïve, adventure seeking man desperately trying to fill his life with a purpose. And to finally find it in journalism: To tell stories and be the voice for those who have no one to speak for them. Carsten Stormer's story is one of passion, pain and truth. This is a testament to those who risk their lives everyday. For those who make it out, and for those whose memory will live on through this remarkable memoir. In these notes from the early years of his career, German journalist Carsten Stormer offers an amusing and often deeply moving account of the thrills, anguish and self-torment which fill the life of a tyro reporter let loose in the chaotic backyard of the unreported world. A young man's introduction to the stark realities of the human condition.

*Just Behind the Front in France (1918)* Noble Foster Hoggson, 2008-10-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

*Reporting from the Front* Judith L. Sylvester, Suzanne Huffman, 2005 During what some have called the 'most televised war in history, ' did journalistic objectivity fall by the wayside? Were the experiences of embedded journalists in Iraq markedly different from reporters who went on their own? *Reporting from the Front* is a provocative look at media and the Iraq War-spanning issues from basic reporting and coverage to ethical dilemmas, personal safety, and training with the military. Featuring interviews with journalists such as Anne Garrels and Ivan Watson of NPR and Bob Schieffer and Byron Pitts of CBS, among others, *Reporting from the Front* offers personal insights from a wide range of correspondents, producers, editors, photojournalists, media managers, and military and defense officials about reporting on Iraq as well as on previous wars and other conflicts

**From the Front** Michael S. Sweeney, 2002 In this gripping archive of war, Michael S. Sweeney presents a fascinating history of the evolution of warfare and of war correspondenceUfrom soldiers working double-duty as recorders of war to today' s journalists who don helmets in pursuit of their story. Along the way, readers will discover the important role photographers and writers have played in influencing war, its strategies, and its outcomes. From the Crimean War in 1854 to the ongoing war against terrorism in the 21st century, discover the story of war in all its horror, triumph, and global impact. Then see it brought to life from the home frontUand recorded for posterity--by

correspondents reporting from the front lines. In *From the Front*, Sweeney takes readers to witness war through astonishing photography, maps, artwork, and compelling text. In addition, he features the vivid, first-hand accounts of the journalists who captured war. Among its memorable moments, the book reveals a close-up view of the ill-fated charge of the Light Brigade and, later, Custer's last stand; remembers the Spanish Civil War, featuring accounts of Ernest Hemingway; relives the London Blitz, with a focus on broadcaster Edward Murrow; and forever documents obscure Vietnam battlefields through the lens of Larry Burrows. The first book of its kind, *From the Front* fosters rare insight into the telling of war, and shows, in exquisite detail, how the tales have shaped our lives.

*Love–The Keystone of Life* Harold Klemp,2023-08-17 From the time of ancient Rome, the keystone has symbolized something strong upon which everything else can depend for support. This is the way love works in our lives. This is the way God works in our lives—for God is love. The more we can learn to love and respect each other, the more we allow God's love into our lives. Love is based on respecting each other's right to spiritual freedom. To keep in touch with ourself as Soul, our highest self, it's vital to recognize the opportunity to give love wherever and whenever we can. This is the Law of Love.

*Agrarian Women* Deborah Fink,1992 *Agrarian Women* challenges the widely held assumption that frontier farm life in the United States made it easier for women to achieve rough equality with men. Using as her example the family farm in rural Nebraska from the 1880s until the eve of Wo

**Inside the Smart Home** Richard Harper,2006-04-18 Using clear and accessible language this book examines the growing field of 'smart technology' for the home. The author first introduces the field before exploring the various background issues, including how the home differs from other environments. He then shows how these background issues affect the design and usability of these technologies. A detailed case study looks at the use of handheld and wearable digital technology in sheltered housing. The last section examines what it is like to live in a smart home and why they have so far failed to reach the levels of success originally predicted. Invaluable reading for anybody interested in designing smart technologies for the home.

*Tectonic Geomorphology of Mountains* William B. Bull,2008-04-15 With a balance of theory and practical applications, *Tectonic Geomorphology of Mountains* is essential reading for research geologists and upper-level undergraduate and graduate students in the earth sciences. This book describes how tectonic events influence geomorphic processes and explores how landscapes respond to tectonic deformation in the ways in which they are

weathered, washed, and abraded Uses new approaches to enhance theoretical models of landscape evolution and to solve practical problems such as the assessment of earthquake hazards Includes previously unpublished research and theory Examines how to use key landforms as reference levels in changing landscapes, estimate rates of mountain-range uplift, and map seismic shaking caused by prehistorical earthquakes Presents a diverse range of examples from around the world

**Montana Women Homesteaders** Sarah Carter,2009 By shedding light on Montana's first women homesteaders--determined 19th- and early 20th-century pioneers--Carter reveals inspiring stories filled with joy, tragedy, and redemption.

*The Language of Soul* Harold Klemp,2003 A spiritual prescription for what ails a troubled world, this practical, accessible book is a golden beacon aimed at the heart of truth. Harold Klemp knows the language that helps readers discover what they've always known in their hearts: We don't have a soul. We are soul.

**Long Vistas** Katherine Harris,1993 Long Vistas describes an era before and after the turn of the century when women and families homesteaded the grasslands of northeastern Colorado. With Congress's passage of the Homestead Act in 1862, women as well as men were entitled to claim 160 acres of the nation's hinterlands. What the act's supporters had not anticipated, however, was the effect homesteading would have on women. For the first time, in a nation whose founders linked land with wealth and political power, large numbers of women had access to landownership and to a taste of the empowerment that it could bring. Long Vistas presents the stories of women who claimed land, and of other women who helped earn patents on land claimed by their husbands and fathers. Regardless of whose name appeared on a land claim, homesteading required the cooperation of family and neighbors. Women, men, and children worked, prayed, and played together. Mingling freely, homesteaders lowered barriers of age and gender, undermining time-honored hierarchies governing family and community life. The presence of landowning women reinforced this easy sociability by demonstrating a fuller range of options for what women and girls could do and be. Drawing on reminiscences and never-before published oral histories, personal papers, and land records, historian Katherine Harris takes a fresh, sometimes controversial, look at the impact of homesteading on gender roles and the distribution of economic power between women and men.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
