**Amitabh** Susmita Dasgupta,2006-08-04 A remarkable insight into the films and times of India's greatest star-actor In an industry where fashions change every Friday, Amitabh Bachchan has been synonymous with cinematic

entertainment for over thirty years. But beyond the labels of 'one-man industry' and 'star of the millennium', a number of issues pertaining to the star, his films and his era remain largely unaddressed. What is it that makes Amitabh Bachchan the star he is? Is it his undeniable genius as an actor, his ability to connect with the masses and the classes alike, or is it his writers and directors who project him in varied roles? Did his films in his heyday reflect the angst of his time, or did they ferment the spirit of anger and rebellion in the first place? Was he really the rebel as his 'angry young man' image suggests, or was there, behind all the sound and fury, a conformist subtext that called for restoration of the status quo? How relevant is Amitabh Bachchan today? In *Amitabh: The Making of a Superstar*, Susmita Dasgupta answers these and other questions that lie buried in the trail of glory the star blazed. In a warm and insightful analysis, the author traces the world-view and philosophy that have shaped the films of Amitabh Bachchan—from the angry young man of Zanjeer, the tragic antihero of Deewar and the entertainer of Amar Akbar Anthony to his more conservative turns in Mahabbatein and Kabhi Khushi Kabhie Gham. In the process, she not only chronicles the star's journey from a flop actor to a national icon but also brings to life a period in the history of Indian cinema which altered forever the economics of film-making in the country.

The launch of a number of national translation projects, policies and awards in a number of Arab countries, together with the increasing translation from Arabic in a wide range of subject areas outside the Arab World – especially in the aftermath of the Arab Spring – have complicated and diversified the dynamics of the translation industry involving Arabic. The Routledge Handbook of Arabic Translation seeks to explicate Arabic translation practice, pedagogy and scholarship, with the aim of producing a state-of-the-art reference book that maps out these areas and meets the pedagogical and research needs of advanced undergraduate and postgraduate students, as well as active researchers.

Philosophical Issues in Indian Cinema MK Raghavendra,2020-12-13 This book interrogates the vocabulary used in theorizing about Indian cinema to reach into the deeper cultural meanings of philosophies and traditions from which it derives its influences. It re-examines terms and concepts used in film criticism and contextualizes them within the aesthetics, poetics and politics of Indian cinema. The book looks at terms and concepts borrowed from the scholarship on American and world cinema and explores their use and relevance in describing the characteristics and evolution of cinema in India. It highlights how realism, romance and melodrama in the context of India appear in a culturally singular way and how the aggregation of constituent elements – like songs, action, comedy – in Indian film can be traced to classical theatre and other diverse religious and philosophical influences. These influences have characterized popular film and drama in India which present all aspects of life for a diverse nation. The author explores concepts like ‘fantasy’, ‘family’ and ‘patriotism’ by using various examples from films in India and outside, as well as practices in the other arts. He identifies the fundamental logic behind the choices made by film-makers in India and discusses concepts which allow for a fresh theorizing on Indian cinema’s characteristics. This book will be of great interest to students and researchers of film studies, media studies, cultural studies, literature, cultural history and South Asian studies. It will also be useful for general readers who are interested in learning more about Indian cinema, its forms, origins and influences.
