40: A Doonesbury Retrospective 1980 to 1989 G. B. Trudeau, 2012-06-12 The second volume of this retrospective anthology covers the Pulitzer prize-winning cartoon strip from 1980 to 1989. On October 26, 1970, G.B. Trudeau introduced the world to a college jock named B.D. and his inept and geeky roommate, Mike Doonesbury. Fourteen thousand strips later, Doonesbury has become one of the most beloved and acclaimed comic strips in history. Over the years, the world of Doonesbury grew uniquely vast, sustained by an intricately woven web of relationships—over forty major characters spanning three generations. The complete *40: A Doonesbury Anthology* presents more than 1,800 comic strips that chart key adventures and cast connections over the last four decades. Dropped in throughout this rolling narrative are twenty detailed essays in which Trudeau contemplates his characters, including portraits of core characters such as Duke and Honey, Zonker, Joanie, and Rev. Sloan, as well as more recent additions, such as Zipper, Alex, and Toggle. Trudeau also includes an annotated diagram that maps the mind-boggling matrix of character relationships. This second volume of the four-volume e-book edition of *40* covers the years 1980 to 1989 for the celebrated cartoon strip.

Hacker, Hoaxer, Whistleblower, Spy Gabriella Coleman, 2015-10-06 The ultimate book on the worldwide movement of hackers, pranksters, and activists collectively known as Anonymous—by the writer the Huffington Post says “knows all of Anonymous’ deepest, darkest secrets” “A work of anthropology that sometimes echoes a John le Carré novel.” —Wired Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She

ended up becoming so closely connected to Anonymous that the tricky story of her inside–outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of “trolling,” the ethics and metaphysics of hacking, and the origins and manifold meanings of “the lulz.”

Northern Plains Native Americans Shane Balkowitsch, 2023-10-17 North Dakotan Shane Balkowitsch's quest to take 1000 Native American wet-plates portraits in the present day is one step closer with this second volume. In this series of wet-plate collodion book of portraits of Northern Plains Native Americans, the photographer/author continues with his distinctive and unique presentation that is the only one to have ever been instigated or created for this particular group of Native Americans. The technique he uses, wet-plate collodion and the eye of the author align to present a masterful, unique, and respectful array that is sumptuous and compelling. Here the subjects are presented in their native garb, giving he subjects the opportunity explore their self-image, in a safe space where who they are how they see themselves are certain to be respected and admired. Wet-plate collodion is one of the earliest forms of photography. A wet-plate photographer makes a film based on a piece of glass or metal using collodion, submerges it in a silver nitrate solution to make it light sensitive, and then exposes the photograph usually in an old style wood bellows camera box and antique brass lens from the 1800's. The end result is a one-of-a-kind, archival object of art that will last many lifetimes. Shane and his Native American sitters have collaborated in the creation of a piece of contemporary history using classical methodology. The

legacy he has created is indeed, who they were, what they were like, and what they did. There is nothing like it in the library of Native American portraiture in the modern era. The photographer's effort is to show that his subjects are still here--with their culture, dignity, and traditions.

Let's Pretend This Never Happened Jenny Lawson, 2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Anything of Which a Woman Is Capable Mary M. McGlone, 2017-12-15 The title, *Anything of Which a Woman is Capable*, comes from Father Jean Pierre Médaille, the Jesuit who brought together the first Sisters of St. Joseph in the mid-seventeenth century. Since 1650, congregations of St. Joseph have grown in Europe, the Americas, India and the Orient, all attracting women who are called to do anything of which they are capable to serve their dear neighbor. This volume tells stories of the foundations of congregations in France and then, beginning in 1836, in the United States. It introduces the reader to intrepid women whose willingness to serve knew no boundaries and whose strong personalities provided an ample match for Church leaders who either encouraged or tried to control their zeal. The copious footnotes make this a valuable addition to the history of Catholic women religious in the United States as well as to the history of Catholicism.

Community Practice Skills Dorothy N. Gamble, Marie Weil, 2010 Dorothy N. Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities. Presenting eight distinct models grounded in current practice and targeted toward specific goals, Gamble and Weil take an unusually inclusive step, combining their own extensive experience with numerous case and practice examples from talented

practitioners in international and domestic settings. The authors open with a discussion of the theories for community work and the values of social justice and human rights, concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr. to Cesar Chavez, Wangari Maathai, and Vandana Shiva. They survey the concepts, knowledge, and perspectives influencing community practice and evaluation strategies. Descriptions of eight practice models follow, incorporating real-life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles, competencies, and skills used by the practitioner. Complexities and variations encourage readers to determine, through comparative analysis, which model at which time best fits the goals of a community group or organization, given the context, culture, social, economic, and environmental issues and opportunities for change. An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press.

Empirical Futures George Baca,Aisha Khan,Stephan Palmié,2010-05-07 Since the 1950s, anthropologist Sidney W. Mintz has been at the forefront of efforts to integrate the disciplines of anthropology and history. Author of *Sweetness and Power: The Place of Sugar in Modern History* and other groundbreaking works, he was one of the first scholars to anticipate and critique "globalization studies." However, a strong tradition of epistemologically sophisticated and theoretically informed empiricism of the sort advanced by Mintz has yet to become a cornerstone of contemporary anthropological scholarship. This collection of essays by leading anthropologists and historians serves as an intervention that rests on Mintz's rigorously historicist ethnographic work, which has long predicted the methodological crisis in anthropology today. Contributors to this volume build on Mintzean interdisciplinarity to provide productive ways to theorize the everyday life of local groups and communities, nation-states, and regions and the interconnections among them.

Consisting of theoretical and case studies of Latin America, North America, the Caribbean, and Papua New Guinea, *Empirical Futures* demonstrates how Mintzean perspectives advance our understanding of the relationship among empirical approaches, the uses of ethnographic and historical data and theory-building, and the study of these from both local and global vantage points.

Principles of Management David S. Bright, Anastasia H. Cortes, Eva Hartmann, 2023-05-16 Black & white print. *Principles of Management* is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the *Principles of Management* course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

The Genealogy of a Gene Myles W. Jackson, 2015-03-06 The history of the CCR5 gene as a lens through which to view such issues as intellectual property, Big Pharma, personalized medicine, and race and genomics. In *The Genealogy of a Gene*, Myles Jackson uses the story of the CCR5 gene to investigate the interrelationships among science, technology, and society. Mapping the varied “genealogy” of CCR5—intellectual property, natural selection, Big and Small Pharma, human diversity studies, personalized medicine, ancestry studies, and race and genomics—Jackson links a myriad of diverse topics. The history of CCR5 from the 1990s to the present offers a vivid illustration of how intellectual property law has changed the conduct and content of scientific knowledge, and the social, political, and ethical implications of such a transformation. The CCR5 gene began as a small sequence of DNA, became a patented product of a corporation, and then, when it was found to

be an AIDS virus co-receptor with a key role in the immune system, it became part of the biomedical research world—and a potential moneymaker for the pharmaceutical industry. When it was further discovered that a mutation of the gene found in certain populations conferred near-immunity to the AIDS virus, questions about race and genetics arose. Jackson describes these developments in the context of larger issues, including the rise of “biocapitalism,” the patentability of products of nature, the difference between U.S. and European patenting approaches, and the relevance of race and ethnicity to medical research.

Structural Foundations of Monetary Policy Michael Bordo,John Cochrane,Amit Seru,2018-03-01 In The Structural Foundations of Monetary Policy, Michael D. Bordo, John H. Cochrane, and Amit Seru bring together discussions and presentations from the Hoover Institution's annual monetary policy conference. The conference participants discuss long-run monetary issues facing the world economy, with an emphasis on deep, unresolved structural questions. They explore vital issues affecting the Federal Reserve, the United States' central bank. They voice concern over the Fed's independence, governance, and ability to withstand future shocks and analyze the effects of its monetary policies and growing balance sheet in the wake of the 2008 financial crisis. The authors ask a range of questions that get to the heart of twenty-first-century monetary policy. Finally they propose reforms to ensure that the Fed will remain independent, stable, strong, and resilient in an unpredictable world.

Women Warriors in Southeast Asia Vina A. Lanzona,Frederik Rettig,2020-01-07 This book brings together a wide range of case studies to explore the experiences and significance of women warriors in Southeast Asian history from ancient to contemporary times. Using a number of sources,

including royal chronicles, diaries, memoirs and interviews, the book discusses why women warriors were active in a domain traditionally preserved for men, and how they arguably transgressed peacetime gender boundaries as agents of violence. From multidisciplinary perspectives, the chapters assess what drove women to take on a variety of roles, namely palace guards, guerrillas and war leaders, and to what extent their experiences were different to those of men. The reader is taken on an almost 1,500-year long journey through a crossroads region well-known for the diversity of its peoples and cultures, but also their ability to creatively graft foreign ideas onto existing ones. The book also explores the re-integration of women into post-conflict Southeast Asian societies, including the impact (or lack thereof) of newly established international norms, and the frequent turn towards pre-conflict gender roles in these societies. Written by an international team of scholars, this book will be of interest to academics working on Southeast Asian Studies, Gender Studies, low-intensity conflicts and revolutions, and War, Conflict, and Peace Studies.
