The Coming Storm Regina M. Hansen, 2022-06-07 Music, myth, and horror blend in this romantic, “eerie...atmospheric” (Publishers Weekly) fantasy debut about a teen girl who must fight a powerful evil that’s invaded her Prince Edward Island home—perfect for fans of *An Enchantment of Ravens*. There’s a certain wild magic in the salt air and the thrum of the sea. Beet MacNeill has known this all her life. It added spice to her childhood adventures with her older cousin, Gerry, the two of them thick as thieves as they explored their Prince Edward Island home. So when Gerry comes up the path one early spring morning, Beet thinks nothing of it at first. But he is soaking wet and silent, and he plays a haunting tune on his fiddle that chills Beet to the bone. Something is very, very wrong. Things only get worse when Marina Shaw saunters into town and takes an unsettling interest in Gerry’s new baby. Local lore is filled with tales of a vicious shape-shifting sea creature and the cold, beautiful woman who controls him—a woman who bears a striking resemblance to Marina. Beet is determined to find out what happened to her beloved cousin, and to prevent the same fate from befalling the handsome new boy in town who is winning her heart, whether she wants him to or not. Yet the sea always exacts a price...

Reading the Family Dance John V. Knapp, Kenneth Womack, 2003 The development in recent years of the intersections between the family and literary study continues to emerge as one of the most productive and illuminating arenas of contemporary critique. In addition to addressing the family dynamic through which a given literary character develops a fully realized sense of self, family systems therapy allows readers to examine the patterns by which characters function in their larger intimate systems, whether those systems be social, institutional, or even global. As the intellectual foundation for the forms of therapy practiced by the majority of contemporary American and European psychotherapists, the study of family systems theory and its intersections with literary works affords readers with an illuminating glimpse into the terminology and processes involved in this dynamic form of critique. Perhaps most significantly, family systems therapy allows critics to consider the distinctly social interactions that characterise our pathways to interpersonal development and selfhood. John V. Knapp is Professor of English, with a joint appointment in modern literature and in teacher education, at Northern Illinois University. Kenneth Womack is Assist

Failing Desire Karmen MacKendrick, 2017-12-04 Draws on theology and queer theory to argue for the power of humiliating pleasures in a culture oriented very strongly to denying any enjoyment that is not about success. Luckily for human diversity, we are perfectly capable of desiring impossible things. *Failing Desire* explores a particular set of these impossibilities, those connected to humiliation. These include the failure of autonomy in submission, of inward privacy in confession, of visual modesty in exhibition, and of dignity in playing various roles. Historically, those who find pleasure in these failures range from ancient Cynics through early Christian monks to those now drawn by queer or perverse eroticism. As Judith Halberstam pointed out in *The Queer Art of Failure*, failure can actually be a mode of resistance to demands for what a culture defines as success. Karmen MacKendrick draws on this interest in queer refusals. To value, desire, or seek humiliation undercuts any striving for success, but it draws our attention particularly to the failures of knowledge as a form of power, whether that knowledge is of one body or of a population. How can we understand will that seeks not to govern itself, psychology that constructs inwardness by telling all, blushing shame that delights in exposure, or dignity that refuses its lofty position? *Failing Desire* suggests that the power of these desires and pleasures comes out of the very realization that this question can never quite be answered. Karmen MacKendrick is Professor of Philosophy at Le Moyne College. She is the author of several books, including *Counterpleasures* and *Immemorial Silence*, both also published by SUNY Press.

Teaching with Digital Humanities Jennifer Travis, Jessica DeSpain, 2018-11-15 Jennifer Travis and Jessica DeSpain present a long-overdue collection of theoretical perspectives and case studies aimed at teaching nineteenth-century American literature using digital humanities tools and methods. Scholars foundational to the development of digital humanities join educators who have made digital methods central to their practices. Together they discuss and illustrate how digital pedagogies deepen student learning. The collection's innovative approach allows the works to be read in any order. Dividing the essays into five sections, Travis and DeSpain curate conversations on the value of project-based, collaborative learning; examples of real-world assignments where students combine close, collaborative, and computational reading; how digital humanities aids in the consideration of marginal texts; the ways in which an ethics of care can help students organize artifacts; and how an activist approach

affects debates central to the study of difference in the nineteenth century.

To Live in the New World Judith K. Major,1997 While most historians and critics have focused on the treatise, Judith Major gives equal emphasis to Downing's spirited monthly editorials in the Horticulturist. In the journal, Downing spoke American and encouraged his countrymen and women to practice economy, to use America's rich natural resources wisely yet artfully, to be content with a little cottage and a few fine native trees.

Northern Plains Native Americans Shane Balkowitsch,2023-10-17 North Dakotan Shane Balkowitsch's quest to take 1000 Native American wet-plates portraits in the present day is one step closer with this second volume. In this series of wet-plate collodion book of portraits of Northern Plains Native Americans, the photographer/author continues with his distinctive and unique presentation that is the only one to have ever been instigated or created for this particular group of Native Americans. The technique he uses, wet-plate collodion and the eye of the author align to present a masterful, unique, and respectful array that is sumptuous and compelling. Here the subjects are presented in their native garb, giving he subjects the opportunity explore their self-image, in a safe space where who they are how they see themselves are certain to be respected and admired. Wet-plate collodion is one of the earliest forms of photography. A wet-plate photographer makes a film based on a piece of glass or metal using collodion, submerges it in a silver nitrate solution to make it light sensitive, and then exposes the photograph usually in an old style wood bellows camera box and antique brass lens from the 1800's. The end result is a one-of-a-kind, archival object of art that will last many lifetimes. Shane and his Native American sitters have collaborated in the creation of a piece of contemporary history using classical methodology. The legacy he has created is indeed, who they were, what they were like, and what they did. There is nothing like it in the library of Native American portraiture in the modern era. The photographer's effort is to show that his subjects are still here--with their culture, dignity, and traditions.

The Teeny Tiny Ghost Kay Winters,1999-08-25 Each day the teeny tiny ghost goes to haunting school to try to become scarier. It's hard work, though -- especially since he's frightened by his own screams! Then, one bat-black October night, the teeny tiny ghost is floating in his teeny tiny home when he hears a RAP TAP TAP on the door. And then he knows it's up to him to keep himself and his teeny tiny cats safe. But what are the chances that a teeny tiny timid ghost will really be able to scare someone away?

Transcultural Encounters amongst Women Gabrielle Carty,Patricia O’Byrne,2010-05-11 Traditionally women have found recourse in artistic means to interrogate change and upheaval. This volume explores the experiences of women from Spain, Portugal and Latin America in the twentieth and twenty-first centuries who themselves have crossed cultural boundaries or have described this experience in their literature and film. Areas investigated in this collection of essays include the experience of the exiled or the immigrant and their personal or collective response to displacement and adaptation: the transcultural potential of cyberspace for women, how patterns and styles of the fashion industry have crossed borders, how women have crossed canonical cultural boundaries in search of identity and meaning, how global cultural influences have manifested in Hispanic and Lusophone cultural practices and production by or about women, and the challenging question of whether canine writing can be considered a branch of feminist theory. Common to most of the essays are the central issues of identity, values, conflict and interconnectedness and an analysis of the patterns that result from the transcultural encounter of these aspects.

A Cultural History of Fairy Tales in the Middle Ages Susan Aronstein,2021-07-15 How have fairy tales from around the world changed over the centuries? What do they tell us about different cultures and societies? Spanning the years from 900 to 1500 and traversing geographical borders, from England to France and India to China, this book uniquely examines the tales told, translated, adapted and circulated during the period known as the Middle Ages.
