Gabrielle Cherie Claire,2016-02-16 Years have passed since the Acadian Gallant family was separated from their patriarch during the British exile from Nova Scotia, but Gabrielle and her mother refuse to give up. Franco-American Identity, Community, and La Guiannee Anna Servaes,2015-04-10 French traditions in America do not live solely in Louisiana. Franco-American Identity, Community, and La Guiannee travels to Ste. Genevieve, Missouri, and Prairie du Rocher, Illinois, to mark the Franco-American traditions still practiced in both these Midwestern towns. This Franco-American cultural identity has continued for over 250 years, surviving language loss, extreme sociopolitical pressures, and the American Midwest's demands for conformity. Ethnic identity presents itself in many forms, including festivals and traditional celebrations, which take on an even more profound and visible role when language loss occurs. On New Year's Eve, the guionneurs, revelers who participate in the celebration, disguise themselves in eighteenth- and nineteenth-century costume and travel

throughout their town, singing and wishing New Year's greetings to other members of the community. This celebration, like such others as Cajun Mardi Gras in Louisiana, Mumming in Ireland and Newfoundland, as well as the Carnaval de Binche, belongs to a category of begging quest festivals that have endured since the Medieval Age. These festivals may have also adapted or evolved from pre-Christian pagan rituals. Anna Servaes produces a historical context for both the development of French American culture as well as La Guiannee in order to understand contemporary identity. She analyzes the celebration, which affirms ethnic community, drawing upon theories by influential anthropologist Victor Turner. In addition, Servaes discusses cultural continuity and its relationship to language, revealing contemporary expressions of Franco-American identity.

A Creole Lexicon Jay Edwards,Nicolas Kariouk Pecquet du Bellay de Verton,2004-09-01 Throughout Louisiana's colonial and postcolonial periods, there evolved a highly specialized vocabulary for describing the region's buildings, people, and cultural landscapes. This creolized language -- a unique combination of localisms and words borrowed from French, Spanish, English, Indian, and Caribbean sources -- developed to suit the multiethnic needs of settlers, planters, explorers, builders, surveyors, and government officials. Today, this historic vernacular is often opaque to historians, architects, attorneys, geographers, scholars, and the general public who need to understand its meanings. With A Creole Lexicon, Jay Edwards and Nicolas Kariouk provide a highly organized resource for its recovery. Here are definitions for thousands of previously lost or misapplied terms, including watercraft and land vehicles, furniture, housetypes unique to Louisiana, people, and social categories. Drawn directly from travelers' accounts, historic maps, and legal documents, the volume's copious entries document what would actually have been heard and seen by the peoples of the Louisiana territory. Newly produced diagrams and drawings as well as reproductions of original eighteenth- and nineteenth-century documents and Historic American Buildings Surveys enhance understanding. Sixteen subject indexes list equivalent English words for easy access to appropriate Creole translations. A Creole Lexicon is an invaluable resource for exploring and preserving Louisiana's cultural heritage.

What If? 2 Randall Munroe,2022-09-13 AN INSTANT NEW YORK TIMES BESTSELLER! The questions throughout What If? 2 are equal parts brilliant, gross, and wonderfully absurd and the answers are thorough, deeply researched, and great fun. . . . Science isn't easy, but in Munroe's capable hands, it surely can be fun. —TIME The #1 New York Times bestselling author of What If? and How To answers more of the weirdest questions you never thought to ask The millions of people around the world who read and loved What If? still have questions, and those questions are getting stranger. Thank goodness xkcd creator Randall Munroe is here to help. Planning to ride a fire pole from the Moon back to Earth? The hardest part is sticking the landing. Hoping to cool the atmosphere by opening everyone's freezer door at the same time? Maybe it's time for a brief introduction to thermodynamics. Want to know what would happen if you rode a helicopter blade, built a billion-story building, made a lava lamp out of lava, or jumped on a geyser as it erupted? Okay, if you insist. Before you go on a cosmic road trip, feed the residents of New York City to a T. rex, or fill every church with bananas, be sure to consult this practical guide for impractical ideas. Unfazed by absurdity, Munroe consults the latest research on everything from swing-set physics to airliner catapult-design to answer his readers' questions, clearly and concisely, with illuminating and occasionally terrifying illustrations. As he consistently demonstrates, you can learn a lot from examining how the world might work in very specific extreme circumstances.

Mississippi River Tragedies Christine A Klein,Sandra B Zellmer,2017-08-01 Read a free excerpt here! American engineers have done astounding things to bend the Mississippi River to their will: forcing one of its tributaries to flow uphill, transforming over a thousand miles of roiling currents into a placid staircase of water, and wresting the lower half of the river apart from its floodplain. American law has aided and abetted these feats. But despite our best efforts, so-called "natural disasters" continue to strike the Mississippi basin, as raging floodwaters decimate waterfront communities and abandoned towns literally crumble into the Gulf of Mexico. In some places, only the tombstones remain, leaning at odd angles as the underlying soil erodes away. Mississippi River Tragedies reveals that it is seductively deceptive—but horribly misleading—to call such catastrophes "natural." Authors Christine A. Klein and Sandra B. Zellmer present a sympathetic account of the human dreams, pride, and foibles that got us to this point, weaving together engaging historical narratives and accessible law stories drawn from actual courtroom dramas. The authors deftly uncover the larger story of how the law reflects and even amplifies our ambivalent attitude toward nature—simultaneously revering wild rivers and places for what they are, while working feverishly to change them into something else. Despite their sobering revelations, the authors' final message is one of hope. Although the acknowledgement of human responsibility for unnatural disasters can lead to blame, guilt, and liability, it can also prod us to confront the consequences of our actions, leading to a liberating sense of possibility and to the knowledge necessary to avoid future disasters.

Between Distant Modernities Brittany Powell Kennedy,2015-02-12 For centuries, Spain and the South have stood out as the exceptional other within US and European nationalisms. During Franco's regime and the Jim Crow era both violently asserted a haunting brand of national selfhood. Both areas shared a loss of splendor and a fraught relation with modernization and retained a sense of defeat. Brittany Powell Kennedy explores this paradox not simply to compare two apparently similar cultures but to reveal how we construct difference around this self/other dichotomy. She charts a transatlantic link between two cultures whose performances of otherness as assertions of selfhood enact and subvert their claims to exceptionality. Perhaps the greatest example of this transatlantic link remains the War of 1898, when the South tried to extract itself from but was implicated in US imperial expansion and nation-building. Simultaneously, the South participated in the end of Spain as an imperial power. Given the War of 1898 as a climactic moment, Kennedy explores the writings of those who come directly after this period and who attempted to regenerate what was perceived as traditional in an agrarian past. That desire recurs over the century in novels from writers as diverse as William Faulkner, Camilo José Cela, Walker Percy, Eudora Welty, Federico García Lorca, and Ralph Ellison. As these writers wrestle with ideas of Spain and the South, they also engage questions of how national identity is affirmed and contested. Kennedy compares these cultures across the twentieth century to show the ways in which they express national authenticity. Thus she explores not only Francoism and Jim Crow, but varied attempts to define nationhood via exceptionalism, suggesting a model of performativity that relates to other exceptional geographies.

Dirty Harry's America Joe Street,2018-03-01 “Street provides a crucial critical and cultural service by not only studying Eastwood’s individual films in sharp detail but also by providing a close and serious analysis of the cultural and historic times of the films.”—Sam B. Girgus, author of Clint Eastwood’s America “By far the most comprehensive, sustained, and detailed discussion of the Dirty Harry phenomenon. A thorough and engaging account of how a fictitious renegade cop became an enduring icon of the angry conservative backlash that sought to halt 1960s liberalism in its tracks.”—Nick Heffernan, author of Culture, Environment and Ecopolitics Clint Eastwood’s Dirty Harry became the prototype for a new kind of movie cop—an antihero in pursuit of his own vision of justice. The Dirty Harry series helped cement Eastwood and his character, Harry Callahan, as central figures in 1970s and 1980s Hollywood cinema. In Dirty Harry’s America, Joe Street argues that the movies shed critical light on the culture and politics of the post-1960s era and locates San Francisco as the symbolic cultural battleground of the time. Across the entire series, conservative anger and moral outrage confront elitist liberalism and moral relativism. Paying particular attention the films’ representation of crime, family and community, sexuality, and race, Street maintains that through referencing real events and political struggles, the films themselves became active participants in the culture wars. Unapologetic carrier of right and might, Harry Callahan becomes America’s Ur-conservative: “unbending, moral, incorruptible, and most important, always right.” Long after the series, Callahan’s legacy remains strong in American political discourse, cinema, and pop culture, and he continues to shape Eastwood’s later political and cinematic career.

Love Under the Skin Cécile Coquet-Mokoko,2020-04-15 The rising visibility of interracial couples calls for increased attention to the overlapping of culture and race, in safe spaces centered on small-group dynamics, or in public spaces where peoples of African descent are under the public gaze. This comparative study seeks to de-center the U.S.-centered viewpoint common to much of the literature on black/white relations. Based on nine years of fieldwork in the American South and in France, Coquet shows many unexpected parallels between the two societies. Gendered perceptions of cultural authenticity and sexual ethics are a guiding thread, being inseparable from the historical and political contingencies (re-)defining acceptable forms of dating, marrying, and parenting among cis-heterosexual couples in both societies. Her account emphasizes resilience and agency as couples seek to protect themselves and their children, while their extended or symbolic kinship networks help white partners acknowledge the existence of racial privilege.

Sabotaged James Pratt,2020-03 Alongside the various people moving into and through the nineteenth-century Texas frontier was a group of European intellectuals bent on establishing a socialist utopia near the hamlet of Dallas. Their inspiration, French philosopher Charles Fourier, envisioned a society in which basic human ambitions would be expressed and cultivated, tied together by the bonds of emotion. Fourier’s self-appointed

disciple Victor Considerant led the establishment of La Réunion in 1855, organized under a Paris stock company. James Pratt weaves together the dramatic story of this utopia: the complex tale of a diverse group of Europeans who sought a new society but were forced to face the realities of life in nineteenth-century Texas. Considerant's followers endured a long ocean voyage with Spanish gunboats following in their Caribbean wake. They brushed blooming magnolias through Buffalo Bayou between Galveston Bay and Houston—so narrow a channel that two ships could not pass simultaneously. They walked for three weeks across barren country, came into conflict with the Texas legislature over land, and had to buy their stolen horses back from Chief Ned, a famous Delaware Indian living in Texas. They were buffeted in the rising political winds of abolition, and droughts ruined their crops. In the end, however, it was their flamboyant leader Victor Considerant who sabotaged their dream.

Routledge Handbook on Offenders with Special Needs Kimberly D. Dodson, 2018-05-11 Current estimates indicate that approximately 2.2 million people are incarcerated in federal, state, and local correctional facilities across the United States. There are another 5 million under community correctional supervision. Many of these individuals fall into the classification of special needs or special populations (e.g., women, juveniles, substance abusers, mentally ill, aging, chronically or terminally ill offenders). Medical care and treatment costs represent the largest portion of correctional budgets, and estimates suggest that these costs will continue to rise. In the community, probation and parole officers are responsible for helping special needs offenders find appropriate treatment resources. Therefore, it is important to understand the needs of these special populations and how to effectively care for and address their individual concerns. The Routledge Handbook of Offenders with Special Needs is an in-depth examination of offenders with special needs, such as those who are learning-challenged, developmentally disabled, and mentally ill, as well as substance abusers, sex offenders, women, juveniles, and chronically and terminally ill offenders. Areas that previously have been unexamined (or examined in a limited way) are explored. For example, this text carefully examines the treatment of gay, lesbian, bisexual, and transgender offenders, and racial and gender disparities in health care delivery, as well as pregnancy and parenthood behind bars, homelessness, and the incarceration of veterans and immigrants. In addition, the book presents legal and management issues related to the treatment and rehabilitation of special populations in prisons/jails and the community, including police-citizen interactions, diversion through specialty courts, obstacles and challenges related to reentry and reintegration, and the need for the development and implementation of evidence-based criminal justice policies and practices. This is a key collection for students taking courses in prisons, penology, criminal justice, criminology, and related areas of study, and an essential resource for academics and practitioners working with offenders with special needs.

Black Gathering Sarah Jane Cervenak, 2021-08-09 In *Black Gathering* Sarah Jane Cervenak engages with Black artists and writers who create alternative spaces for Black people to gather free from interruption or regulation. Drawing together Black feminist theory, critical theories of ecology and ecoaesthetics, and Black aesthetics, Cervenak shows how novelists, poets, and visual artists such as Gayl Jones, Toni Morrison, Clementine Hunter, Samiya Bashir, and Leonardo Drew advance an ecological imagination that unsettles Western philosophical ideas of the earth as given to humans. In their aestheticization and conceptualization of gathering, these artists investigate the relationships among art, the environment, home, and forms of Black togetherness. Cervenak argues that by offering a formal and conceptual praxis of gathering, Black artists imagine liberation and alternative ways of being in the world that exist beyond those Enlightenment philosophies that presume Black people and earth as given to enclosure and ownership.
