Courage After Fire Keith Armstrong, Suzanne Best, Paula Domenici, 2006 Offers soldiers and their families a comprehensive guide to dealing with the all-too-common repercussions of combat duty, including posttraumatic stress symptoms, anxiety, depression, and substance abuse.

The Routledge Handbook of Disability and Sexuality Russell Shuttleworth, Linda Mona, 2020-12-29 This handbook provides a much-needed holistic overview of disability and sexuality research and scholarship. With authors from a wide range of disciplines and representing a diversity of nationalities, it provides a multi-perspectival view that fully captures the diversity of issues and outlooks. Organised into six parts, the contributors explore long-standing issues such as the psychological, interpersonal, social, political and cultural barriers to sexual access that disabled people face and their struggle for sexual rights and participation. The volume also engages issues that have been on the periphery of the discourse, such as sexual accommodations and support aimed at facilitating disabled people's sexual well-being; the socio-sexual tensions confronting disabled people with intersecting stigmatised identities such as LGBTBI or asexual; and the sexual concerns of disabled people in the Global South. It interrogates disability and sexuality from diverse perspectives, from more traditional psychological and sociological models, to various subversive and post-theoretical perspectives and queer theory. This handbook examines the cutting-edge, and sometimes ethically contentious, concerns that have been repressed in the field. With current, international and comprehensive content, this book is essential reading for students, academics and researchers in the areas of disability, gender and sexuality, as well as applied disciplines such as healthcare practitioners, counsellors, psychology trainees and social workers.

Abnormal Psychology Ronald J. Comer, 2010-07-27 Taking a look at the field of abnormal psychology, including major theoretical models of abnormality, research directions, clinical experiences, therapies and controversies, this book covers personality disorders, the psychodynamic perspective, neuroscience, the 'empirically-based treatment' movement, and more.

Abroad Katie Crouch, 2014-06-17 Not since Donna Tartt's *The Secret History* has a novel this intoxicating captured the headiness and dark temptations of university life. The old Etruscan city of Grifonia swarms with year-abroad students—thousands of them from all over. Ostensibly, they've come to study. But really they are here to reinvent themselves, to shuck their identities and buck constraints far from the watchful eyes of parents and others who know them too well. There's a reason Henry James's young ladies went to Europe with chaperones. Today's young ladies don't. In *Abroad*, the bestselling novelist Katie Crouch—whose *Girls in Trucks* brilliantly portrayed the cruelties of postcollege New York life on a Southern girl trying to make her way—tears a story from international headlines and transforms it into a page-turning parable of modern girlhood, full of longing and reckless behavior. As the heroine (and the reader) of *Abroad* will soon discover, Grifonia is a city filled with dangerous secrets of many kinds: ancient, eternal, infernal. Prepare to have your heart broken while laughing out loud at this breathtaking, scathingly sardonic novel, wrote *People* magazine's reviewer about Crouch's *Men and Dogs*. From her opening line. . . Crouch grabs you and never lets go. In *Abroad*, Crouch's mesmerizing talents are again on full display.

Coping with Anxiety Edmund J. Bournes, 2011-06-09 Want quick, effective and easy-to-learn solutions to problem anxiety? *Coping with Anxiety* offers the most effective strategies for overcoming the physical, mental, and emotional symptoms of anxiety, distilled into ten clear and simple solutions. Each of the ten solutions includes step-by-step exercises for combating a particular feature of anxiety, written in a concise, reader-friendly style. Each of the strategies provides something you can do in the moment, without having to work through the finer points of the most often used therapies for treating anxiety: cognitive therapy and desensitization. Theoretical text is limited to that information necessary for understanding the goal of the solutions, which include body relaxation, mental relaxation, facing fears, changing diet, turning off worry, and much more.

Vivir una vida sana con dolor crónico Sandra LeFort, Lisa Webster, Virginia González, Kate Lorig, Halsted Holman, David Sobel, Diana Laurent, Marian Minor, 2016-09-29 This is a culturally sensitive Spanish translation of *Living a Healthy Life with Chronic Pain*. Chronic pain includes many types of conditions from a variety of causes. This book is designed to help those suffering from chronic pain learn to better manage pain so they can get on with living a satisfying, fulfilling life. This resource stresses four concepts: each person with chronic pain is unique, and there is no one treatment or approach that is right for everybody; there are many things people with chronic pain can do to feel better and become more active and involved in life; with knowledge and experimentation, each individual is the best judge of which self-management tools and techniques are best for him or her; and, the responsibility for managing chronic pain on a daily basis rests with the individual and no one else. Acknowledging that overcoming chronic pain is a daily challenge, this workbook provides readers with the tools to overcome that test. A Moving Easy Program CD, which offers a set of easy-to-follow exercises that can be performed at home, is also included.

Conflict and Controversy in Small Cinemas Janina Falkowska, Krzysztof Loska, 2018 This book presents first-of-a-kind studies of films dealing with events of the recent past. The authors point to new phenomena which have been exposed by film directors. They deal with timely and important topics such as migration, diasporas, gender and stereotypes, post-communist political myths, social and political problems people face today.

Valutazione ambientale strategica nella pianificazione territoriale (La) Corrado Zoppi, Maurizio Garano, 2012-04-16T00:00:00+02:00 La valutazione ambientale strategica (VAS), il cui significato in termini normativi nella legislazione italiana andrà, nel breve periodo, definito attraverso opportuni atti legislativi, è, già da tempo, una procedura, o, forse meglio, un orizzonte concettuale, molto importante per le valutazioni ex ante, in itinere ed ex post della definizione, gestione ed attuazione delle politiche del territorio. Di particolare rilievo, metodologico e pratico, è il “rapporto ambientale”, definito ai sensi dell'art. 5 della Direttiva 2001/42/CE del Parlamento europeo e del Consiglio sulla VAS, concernente la valutazione degli effetti di determinati piani e programmi sull'ambiente. La VAS rappresenta, sostanzialmente, una risposta articolata,

complessa e qualificata alle esigenze che si riconoscono nella riflessione corrente sulle problematiche dello sviluppo sostenibile in rapporto alla valutazione delle ricadute territoriali delle politiche di investimento pubblico dell'Unione Europea.

The Hidden History of the JFK Assassination Lamar Waldron,2013-10-21 November 22, 2013 marks the 50th anniversary of the tragedy that has haunted America ever since. For the first time, this concise and compelling book pierces the veil of secrecy to fully document the small, tightly-held conspiracy that killed President John F. Kennedy. It explains why he was murdered, and how it was done in a way that forced many records to remain secret for almost fifty years. The Hidden History of JFK's Assassination draws on exclusive interviews with more than two dozen associates of John and Robert Kennedy, in addition to former FBI, Secret Service, military intelligence, and Congressional personnel, who provided critical first-hand information. The book also uses government files—including the detailed FBI confession of notorious Mafia godfather Carlos Marcello—to simply and clearly reveal exactly who killed JFK. Using information never published before, the book uses Marcello's own words to his closest associates to describe the plot. His confession is also backed up by a wealth of independent documentation. This book builds on the work of the last Congressional committee to investigate JFK's murder, which concluded that JFK ‘was probably assassinated as a result of a conspiracy, and that godfathers [Santo] Trafficante [and Carlos] Marcello had the motive, means, and opportunity to assassinate President Kennedy. However, it also draws on exclusive files and information not available to Congress, that have only emerged in recent years, to fully explain for the first time how Marcello and Trafficante committed—and got away with—the crime of the 20th century. Some of the book's revelations will be dramatized in the upcoming Warner Brothers film Legacy of Secrecy, produced by and starring Leonardo DiCaprio, which also stars Robert De Niro as Carlos Marcello. The Hidden History of JFK's Assassination is the definitive account of the crime and the secrecy which has surrounded it.

Landscape as Infrastructure Pierre Belanger,2016-11-10 As ecology becomes the new engineering, the projection of landscape as infrastructure—the contemporary alignment of the disciplines of landscape architecture, civil engineering, and urban planning— has become pressing. Predominant challenges facing urban regions and territories today—including shifting climates, material flows, and population mobilities, are addressed and strategized here. Responding to the under-performance of master planning and over-exertion of technological systems at the end of twentieth century, this book argues for the strategic design of infrastructural ecologies, describing a synthetic landscape of living, biophysical systems that operate as urban infrastructures to shape and direct the future of urban economies and cultures into the 21st century. Pierre Bélanger is Associate Professor of Landscape Architecture and Co-Director of the Master in Design Studies Program at Harvard University’s Graduate School of Design. As part of the Department of Landscape Architecture and the Advansed Studies Program, Bélanger teaches and coordinates graduate courses on the convergence of ecology, infrastructure and urbanism in the interrelated fields of design, planning and engineering. Dr. Bélanger is author of the 35th edition of the Pamphlet Architecture Series from Princeton Architectural Press, GOING LIVE: from States to Systems (pa35.net), co-editor with Jennifer Sigler of the 39th issue of Harvard Design Magazine, Wet Matter, and co-author of the forthcoming volume ECOLOGIES OF POWER: Mapping Military Geographies & Logistical Landscapes of the U.S. Department of Defense. As a landscape architect and urbanist, he is the recipient of the 2008 Canada Prix de Rome in Architecture and the Curator for the Canada Pavilion ad Canadian Exhibition, EXTRACTION, at the 2016 Venice Architecture Biennale (extraction.ca).

Free Speech on Campus Erwin Chemerinsky,Howard Gillman,2017-09-12 Can free speech coexist with an inclusive campus environment? Hardly a week goes by without another controversy over free speech on college campuses. On one side, there are increased demands to censor hateful, disrespectful, and bullying expression and to ensure an inclusive and nondiscriminatory learning environment. On the other side are traditional free speech advocates who charge that recent demands for censorship coddle students and threaten free inquiry. In this clear and carefully reasoned book, a university chancellor and a law school dean—both constitutional scholars who teach a course in free speech to undergraduates—argue that campuses must provide supportive learning environments for an increasingly diverse student body but can never restrict the expression of ideas. This book provides the background necessary to understanding the importance of free speech on campus and offers clear prescriptions for what colleges can and can’t do when dealing with free speech controversies.
