Secret Lives of the Underground Railroad in New York City Don Papson, Tom Calarco, 2015-01-28 During the fourteen years Sydney Howard Gay edited the American Anti-Slavery Society's National Anti-Slavery Standard in New York City, he worked with some of the most important Underground agents in the eastern United States, including Thomas Garrett, William Still and James Miller McKim. Gay's closest associate was Louis Napoleon, a free black man who played a major role in the James Kirk and Lemmon cases. For more than two years, Gay kept a record of the fugitives he and Napoleon aided. These never before published records are annotated in this book. Revealing how Gay was drawn into the bitter division between Frederick Douglass and William Lloyd Garrison, the work exposes the private opinions that divided abolitionists. It describes the network of black and white men and women who were vital links in the extensive Underground Railroad, conclusively confirming a daily reality.

Bryan Prince's Underground Railroad 2-Book Bundle Bryan Prince, 2016-06-13 Award-winning author Bryan Prince portrays the experiences of slaves and former slaves in these compelling histories of the Underground Railroad and American Civil War. This special two-book collection includes: *My Brother's Keeper: African Canadians and the American Civil War* The stirring story of African Canadians who had fled slavery and oppression in the United States but returned to enlist in the Union forces in the American Civil War. *One More River to Cross* Accused of the attempted murder of a plantation owner in Maryland during the early 1800s, Isaac Brown, a slave, survived harsh punishment, escaped, was recaptured, escaped again, and in the face of multiple challenges, ultimately made his way to freedom in Canada. This is his story.

Slavery in America Dorothy Schneider, Carl J. Schneider, 2014-05-14 Presents the history of slavery in America from colonial times through the U.S. Civil War.

Virtual and Mixed Reality - Systems and Applications Randall Shumaker, 2011-06-27 The two-volume set LNCS 6773-6774 constitutes the refereed proceedings of the International Conference on Virtual and Mixed Reality 2011, held as Part of HCI International 2011, in Orlando, FL, USA, in July 2011, jointly with 10 other conferences addressing the latest research and development efforts and highlighting the human aspects of design and use of computing systems. The 47 revised papers included in the first volume were carefully reviewed and selected from numerous submissions. The papers are organized in the following topical sections: VR in education, training and health; VR for culture and entertainment; virtual humans and avatars; developing virtual and mixed environments.

The Worldwide List of Alternative Theories and Critics Jean de Climont, 2020-11-01 This Worldwide List of Alternative Theories and Critics (only available in english language) includes scientists involved in scientific fields. The 2023 issue of this directory includes the scientists found in the Internet. The scientists of the directory are only those involved in physics (natural philosophy). The list includes 9700 names of scientists (doctors or diploma engineers for more than 70%). Their position is shortly presented together with their proposed alternative theory when applicable. There are nearly 3500 authors of such theories, all amazingly very different from one another. The main categories of theories are presented in an other book of Jean de Climont THE ALTERNATIVE THEORIES

Infectious Diseases Lin Hwei Chen, Patricia Schlagenhauf-Lawlor, Eskild Petersen, 2011-04-22 This concise and practical guide describes infections in geographical areas and provides information on disease risk, concomitant infections (such as co-prevalence of HIV and tuberculosis) and emerging bacterial, viral and parasitic infections in a given geographical area of the world. *Infectious Diseases: A Geographic Guide* is divided according to United Nations world regions and addresses geographic disease profiles, presenting symptoms and incubation periods of infections. Each chapter contains a section on the coverage of the childhood vaccination programs in the countries included in that region. Chapters also include descriptions of infectious disease risk and problems with resistant bacteria in each region (e.g. antibiotic resistance in Salmonella infections in Southeast Asia). For the clinician, this book is a tool to generate differential diagnoses by considering the geographical history, as well the presenting symptoms and duration of illness. For the travel medicine specialist, this book provides information on risks of different diseases at various destinations and is particularly useful in advising long-term travelers.

Opening the Doors of Wonder Arthur Magida, 2006-10-18 This bold, pioneering book explores rites of passage in America by sifting through the accounts of influential thinkers who experienced them. Arthur J. Magida explains the underlying theologies, evolution, and actual practice of Jewish bar and bat mitzvahs, Christian confirmations, Hindu sacred thread ceremonies, Muslim shahadas and Zen jukai ceremonies. In rare interviews, renowned artists and intellectuals such as Nobel laureate Elie Wiesel, holistic guru Deepak Chopra, singer Yusuf Islam (Cat Stevens), actress/comedienne Julia Sweeney, cartoonist Roz Chast, interfaith maven Huston Smith, and many more talk intimately about their religious backgrounds, the rites of passage they went through, and how these events shaped who they are today. Magida compares these coming of age ceremonies' origins and evolution, considers their ultimate meaning and purpose, and gauges how their meaning changes with individuals over time. He also examines innovative rites of passage that are now being invented in the United States. Passionate and lyrical, this absorbing book reveals our deep, ultimate need for coming-of-age events, especially in a society as fluid as ours. *Conversations with: Bob Abernethy, Huston Smith, Julia Sweeney, Roz Chast, Harold Kushner, Ram Dass, Elie Wiesel, Deepak Chopra, Robert Thurman, Coleman Barks, Yusuf Islam (Cat Stevens), And others*

Dreams of Africa in Alabama Sylviane A. Diouf, 2009-02-18 In the summer of 1860, more than fifty years after the United States legally abolished the international slave trade, 110 men, women, and children from Benin and Nigeria were brought ashore in Alabama under cover of night. They were the last recorded group of Africans deported to the United States as slaves. Timothy Meaher, an established Mobile businessman, sent the slave ship, the *Clotilda*, to Africa, on a bet that he could bring a shipful of niggers right into Mobile Bay under the officers' noses. He won the bet. This book reconstructs the lives of the people in West Africa, recounts their capture and passage in the slave pen in Ouidah, and describes their experience of slavery alongside American-born enslaved men and women. After emancipation, the group reunited from various plantations, bought land, and founded their own settlement, known as African Town. They ruled it according to customary African laws, spoke their own regional language and, when giving interviews, insisted that writers use their African names so that their families would know that they were still alive. The last survivor of the *Clotilda* died in 1935, but African Town is still home to a community of *Clotilda* descendants. The publication of *Dreams of Africa in Alabama* marks the 200th anniversary of the abolition of the transatlantic slave trade. Winner of the Wesley-Logan Prize of the American Historical Association (2007)

Cultural Ecstasies Ilana Mountian, 2013 In this important contribution to the study of drugs and addiction Ilana Mountian critically analyses discourses surrounding drugs, drug treatment, and drug prevention, and develops alternative conceptual and methodological perspectives to current psychological approaches to drug use.

Sounds of the Borderland Catherine Baker, 2016-04-01 *Sounds of the Borderland* is the first book-length study of how popular music became a medium for political communication and contested identification during and after Croatia's war of independence from Yugoslavia. It extends existing cultural studies literature on music, politics and the state, which has largely been grounded in Western European and North American political systems. It also responds to an emerging fascination with the culture and politics of contemporary south-east Europe, expanding scholarship on the

post-Yugoslav conflicts by going on to encompass significant social and political changes into the present day. The outbreak of war in 1991 saw almost every professional musician in Croatia take part in a wave of patriotic music-making and the powerful state television system strive to bring popular music under its control. As the political imperative shifted from securing national survival to consolidating a homogenous nation-state, the music industry responded with several strategies for creating a national popular music, producing messages about the nation and, in the ongoing debates over the origins of the folk music that inspired many songs, a way to define the nation by expressing what Croatia was not. The war on ethnic ambiguity which cut through individuals' social and creative lives played out across the airwaves, sales racks and gossip columns of a small country that imagined itself a historical and cultural borderland. These explicit and implicit narratives of nationhood connect many political phases: the months of fiercest fighting, the stabilised front, the uneasy post-war years when the symbolic frontline region of eastern Slavonia had still not returned to Croatian sovereignty, the euphoria and instability after the end of the Tudjman regime in 2000, and Croatia's fraught journey towards the European Union. Baker's book provides valuable insight into the role of music in a wartime and post-conflict society and will be essential reading for researchers and students interested in south-east Europe or the transformation of entertainment during and after conflict.

A Socio-cultural Perspective on Patient Safety Dr Emma Rowley, Dr Justin Waring, 2012-10-01 This edited volume of original chapters brings together researchers from around the world who are exploring the facets of health care organization and delivery that are sometimes marginal to mainstream patient safety theories and methodologies but offer important insights into the socio-cultural and organizational context of patient safety. By examining these critical insights or perspectives and drawing upon theories and methodologies often neglected by mainstream safety researchers, this collection shows we can learn more about not only the barriers and drivers to implementing patient safety programmes, but also about the more fundamental issues that shape notions of safety, alternate strategies for enhancing safety, and the wider implications of the safety agenda on the future of health care delivery. In so doing, *A Socio-cultural Perspective on Patient Safety* challenges the taken-for-granted assumptions around fundamental philosophical and political issues upon which mainstream orthodoxy relies. The book draws upon a range of theoretical and empirical approaches from across the social sciences to investigate and question the patient safety movement. Each chapter takes as its focus and question a particular aspect of the patient safety reforms, from its policy context and theoretical foundations to its practical application and manifestation in clinical practice, whilst also considering the wider implications for the organization and delivery of health care services. Accordingly, the chapters each draw upon a distinct theoretical or methodological approach to critically explore specific dimensions of the patient safety agenda. Taken as a whole, the collection advances a strong, coherent argument that is much needed to counter some of the uncritical assumptions that need to be described and analyzed if patient safety is indeed to be achieved.

Primary Care Medicine Allan Goroll, 2020-09-02 Long regarded as “the book” in the field for in-depth learning as well as decision support at the point of care, *Primary Care Medicine*, 8th Edition, continues its tradition as a comprehensive, evidence-based, action-oriented information resource. Presented in companion electronic format updated quarterly, its problem-based orientation spans the full spectrum of problems encountered in adult primary care practice. Chapters address screening, diagnosis, prevention and management, including indications for referral and approaches to patient education and shared decision making. Clear, practical, bulleted recommendations and an extensive annotated bibliography of best references follow detailed discussions of pathophysiology, clinical presentation, differential diagnosis, and strategies for workup and treatment. Now with its 40th-anniversary edition, this exceptional text is a must-have resource for physicians, nurse practitioners, physician assistants, students, and residents- offering the most complete and up-to-date resource available for primary care education and practice.

Sex and Society in Early Twentieth Century Spain Alison Sinclair, 2007-09-15 This book examines issues of sex and society in early twentieth-century Spain, with particular emphasis on eugenics and the sex reform movement. As a central narrative thread it uses the specific case history of Hildegart Rodriguez (1914-33), a 'eugenic' child who came to be one of the central players in the Spanish chapter of the World League for Sexual Reform (WLSR) and was made tragically famous when murdered by her mother. In the last two years of her life Hildegart was in correspondence with the English sexologist Havelock Ellis. Her letters to him, reproduced in the appendix, provide a unique source for understanding the WLSR in Spain, its complexities, and its relationship to similar movements elsewhere in Europe. The letters also make it possible to glimpse in poignant and dramatic detail the personal tensions and anxieties in the life of this young woman that was brought to such a premature end.
