The Texas Landscape Project David A. Todd, Jonathan Ogren, 2016-06-14 The Texas Landscape Project explores conservation and ecology in Texas by presenting a highly visual and deeply researched view of the widespread changes that have affected the state as its population and economy have boomed and as Texans have worked ever harder to safeguard its bountiful but limited natural resources. Covering the entire state, from Pineywoods bottomlands and Panhandle playas to Hill Country springs and Big Bend canyons, the project examines a host of familiar and not so familiar environmental issues. A companion volume to The Texas Legacy Project, this book tracks specific environmental changes that have occurred in Texas using more than 300 color maps, expertly crafted by cartographer Jonathan Ogren, and over 100 photographs that coalesce to fashion a broad portrait of the modern Texas landscape. The rich data, compiled by author David Todd, are presented in clearly written yet marvelously detailed text that gives historical context and contemporary statistics for environmental trends connected to the land, water, air, energy, and built world of the second-largest and second-most populated state in the nation. An engaging read for any environmentalist or conscientious citizen, The Texas Landscape Project provides a true sense of the grand scope of the Lone Star State and the high stakes of protecting it. Healing with Poisons Yan Liu, 2021-06-22 Open access edition: DOI 10.6069/9780295749013 At first glance, medicine and poison might seem to be opposites. But in China's formative era of pharmacy (200–800 CE), poisons were strategically employed as healing agents to cure everything from abdominal pain to epidemic disease. *Healing with Poisons* explores the ways physicians, religious figures, court officials, and laypersons used toxic substances to both relieve acute illnesses and enhance life. It illustrates how the Chinese concept of du—a word carrying a core meaning of “potency”—led practitioners to devise a variety of methods to transform dangerous poisons into effective medicines. Recounting scandals and controversies involving poisons from the Era of Division to the Tang, historian Yan Liu considers how the concept of du was central to how the people of medieval China perceived both their bodies and the body politic. He also examines the wide range of toxic minerals, plants, and animal products used in classical Chinese pharmacy, including everything from the herb aconite to the popular recreational drug Five-Stone Powder. By recovering alternative modes of understanding wellness and the body's interaction with foreign substances, this study cautions against arbitrary classifications and exemplifies the importance of paying attention to the technical, political, and cultural conditions in which substances become truly meaningful. *Healing with Poisons* is freely available in an open access edition thanks to TOME (Toward an Open Monograph Ecosystem) and the generous support of the University of Buffalo.

Praying for America Dr. Robert Jeffress, 2020-06-02 Discover how to pray powerful prayers for God to bless and unite America in this inspiring guide from the Senior Pastor of First Baptist Church. The most patriotic thing you can do for America is pray for America. In times of division and disaster, our country has a long history of turning to God. Robert Jeffress, the senior pastor of a 14,000-member church in Dallas, Texas, and a Fox News contributor, believes it should be no different today. When we seek God's help and pray about the issues that affect our lives, writes Jeffress, we influence the fate of our families, our churches, and our nation. It has happened before in history, and it can happen again. Each chapter of this uplifting book includes an inspiring story demonstrating the power of faith in the life of our nation, a prayer, and a relevant passage of Scripture to inspire and encourage you in praying intently for our country. In these increasingly divided times, *Praying for America* will serve as a very necessary and timely reminder that In God, we trust.

The Big Gamble Milena Belloni, 2019-12-17 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Tens of thousands of Eritreans make perilous voyages across Africa and the Mediterranean Sea every year. Why do they risk their lives to reach European countries where so many more hardships await them? By visiting family homes in Eritrea and living with refugees in camps and urban peripheries across Ethiopia, Sudan, and Italy, Milena Belloni untangles the reasons behind one of the most under-researched refugee populations today. Balancing encounters with refugees and their families, smugglers, and visa officers, *The Big Gamble* contributes to ongoing debates about blurred boundaries between forced and voluntary migration, the complications of transnational marriages, the social matrix of smuggling, and the role of family expectations, emotions, and values in migrants' choices of destinations.

White Ghetto Star Parker, 2009-11-23 Decaying values. Sexually transmitted diseases. Fatherless homes. Rampant drug use. These aren't just problems for today's inner cities. It's the plight of all America. Much has been said about Bill Cosby's incendiary remarks about urban black culture and its dirty laundry. But in this provocative book, Star Parker, one of today's most controversial commentators, goes even further, proving that urban plight simply reveals a decay that is gnawing its way throughout American society as a whole. The sexual chaos, values disorientation, and social turmoil we see in our inner cities, Parker argues, is just a magnified reflection of the moral collapse happening all over America: in our schools, our churches, our homes. And this slide toward moral decrepitude is all due to a flagrant dismissal of and assault on America's tried-and-true values. With startling statistics and disturbing stories about the increasing secularization and criminalization of the middle class, Parker holds a cracked mirror up to suburbia. Taking on tough subjects such as abortion, drug abuse, sexual politics, and religion, she offers a rousing exploration of the raging cultural war-taking you on a wild, eye-opening tour through the White Ghetto. Star Parker is the founder and president of CURE, the Coalition on Urban Renewal & Education, a nonprofit organization that provides national dialogue on issues of race and poverty in the media, inner city neighborhoods, and public policy. Star is a regular commentator on CNN, MSNBC, Fox News, and the BBC, which reaches 300 million homes worldwide. Her articles and quotes have also appeared in major publications including the Wall Street Journal, the Washington Post, and the New York Times, and is currently a weekly syndicated columnist for Scripps Howard News Service. Star is the author of *Pimps, Whores, and Welfare Brats* and *Uncle Sam's Plantation*.

New Vampire Cinema Ken Gelder, 2017-11-07 *New Vampire Cinema* lifts the coffin lid on forty contemporary vampire films, from 1992 to the present day, charting the evolution of a genre that is, rather like its subject, at once exhausted and vibrant, inauthentic and 'original', insubstantial and self-sustaining. Ken Gelder's fascinating study begins by looking at Francis Ford Coppola's Bram Stoker's *Dracula* and Fran Rubel Kuzui's *Buffy the Vampire Slayer* – films that seemed for a moment to take vampire cinema in completely opposite directions. *New Vampire Cinema* then examines what happened afterwards, across a remarkable range of reiterations of the vampire that take it far beyond its original Transylvanian setting: the suburbs of Sweden (*Let the Right One In*), the forests of North America (the *Twilight* films), New York City (*Nadja*, *The Addiction*), Mexico (*Cronos*, *From Dusk Till Dawn*), Japan (*Blood: The Last Vampire*,

The Shadow Scholar Dave Tomar, 2012-09-18 “[A] stunning tale of academic fraud . . . shocking and compelling.”-The Washington Post Dave Tomar

wrote term papers for a living. Technically, the papers were “study guides,” and the companies he wrote for-there are quite a few-are completely aboveboard and easily found with a quick web search. For as little as ten dollars a page, these paper mills provide a custom essay, written to the specifics of any course assignment. During Tomar's career as an academic surrogate, he wrote made-to-order papers for everything from introductory college courses to Ph.D. dissertations. There was never a shortage of demand for his services. The Shadow Scholar is the story of this dubious but all-too-common career. In turns shocking, absurd, and ultimately sobering, Tomar explores not merely his own misdeeds but the bureaucratic and cash-hungry colleges, lazy students, and even misguided parents who help make it all possible.

Antibiotic Discovery and Development Thomas J. Dougherty, Michael J. Pucci, 2011-12-18 This volume covers all aspects of the antibiotic discovery and development process through Phase II/III. The contributors, a group of highly experienced individuals in both academics and industry, include chapters on the need for new antibiotic compounds, strategies for screening for new antibiotics, sources of novel synthetic and natural antibiotics, discovery phases of lead development and optimization, and candidate compound nominations into development. Beyond discovery, the handbook will cover all of the studies to prepare for IND submission: Phase I (safety and dose ranging), progression to Phase II (efficacy), and Phase III (capturing desired initial indications). This book walks the reader through all aspects of the process, which has never been done before in a single reference. With the rise of antibiotic resistance and the increasing view that a crisis may be looming in infectious diseases, there are strong signs of renewed emphasis in antibiotic research. The purpose of the handbook is to offer a detailed overview of all aspects of the problem posed by antibiotic discovery and development.

The concerns include bullying and harassment, exclusion of LGBT topics from school curricula and resources, restrictions on LGBT student groups, and discrimination and bigotry from both classmates and school personnel on the basis of sexual orientation and gender identity--Publisher's description.

The Shepherd's Daughter Lynn Winchester, 2016-09-27 Ray MacAdams and Billy Ducharme have been best friends since her family moved to his ranch fourteen years ago to start a new sheep ranching operation. Through thick and thin, good and bad, fire and rain, their friendship has only gotten stronger-so strong that nothing could possibly break their bond, a bond that for Ray has suddenly changed from simply friends to something deeper... Something that makes her dream of days and nights beside the man she loves, something that makes her wish she were more than just the shepherd's daughter. Then Billy's mail order bride arrives. Rebecca DuCastille is everything Ray is not: refined, well-mannered, and pretty as a porcelain tea cup. How can Ray possibly compete for Billy's heart when his new bride is everything he could want in a proper wife? Can the shepherd's daughter convince her childhood friend that their love for one another goes beyond friendship, or will Billy marry the pretty interloper and leave Ray out to pasture?

Antarcticness Ilan Kelman, 2022-02-08 Antarcticness joins disciplines, communication approaches and ideas to explore meanings and depictions of Antarctica. Personal and professional words in poetry and prose, plus images, present and represent Antarctica, as presumed and as imagined, alongside what is experienced around the continent and by those watching from afar. These understandings explain how the Antarctic is viewed and managed while identifying aspects which should be more prominent in policy and practice. The authors and artists place Antarctica, and the perceptions and knowledge through Antarcticness, within inspirations and imaginations, without losing sight of the multiple interests pushing the continent's governance as it goes through rapid political and environmental changes. Given the diversity and disparity of the influences and changes, the book's contributions connect to provide a more coherent and encompassing perspective of how society views Antarctica, scientifically and artistically, and what the continent provides and could provide politically, culturally and environmentally. Offering original research, art and interpretations of different experiences and explorations of Antarctica, explanations meld with narratives while academic analyses overlap with first-hand experiences of what Antarctica does and does not - could and could not - bring to the world.
