Technological Innovation in the Teaching and Processing of LspS: Proceedings of Tislid'10 Noa Talaván Zanón, Elena Martín Monje, Francisco Palazón Romero, 2011-03-10 The present book is a compilation of articles corresponding to the papers presented at TISLID ?10, the First International Workshop on Technological Innovations for Specialised Linguistic Domains, which took place in Spain on October 21-22, 2010. The program of TISLID?10 was established to offer the research and teaching community an opportunity to exchange knowledge and experiences and promote face-to-face academic debate on effective and innovative ways to design and develop CALL systems and NLP systems for sublanguages or specialized linguistic domains. The inclusion of basic research undertaken in educational institutions and research centers, together with the applied research and commercial development undertaken by publishers, e-Learning companies, etc. was considered a priority.

Building Effective Governments Marianela Armijo, Juan Pablo Cuesta, Osvaldo Néstor Feinstein, Roberto García López, Mauricio García Moreno, Jorge Kaufmann, Marcos Pedro Makón, Carlos Pimenta, Mario Sanginés, Héctor Sanín Ángel, Carlos Santiso, Francisco Javier Urrea, Marco Varea, 2015-07-09 Improving public services, using State resources efficiently, and managing State agencies effectively have been ongoing concerns of Latin American and Caribbean (LAC) governments since the beginning of this century. Government officials are now paying closer attention to the

results obtained by their administrations. Citizens are now demanding not only universality but also quality in the services that the State provides (e.g., education, healthcare, and legal services). To meet this growing demand for public sector effectiveness, governments have formulated new laws, created or modified institutions, and implemented innovative management methodologies and instruments. Based on data gathered in 24 countries, this book analyzes the current situation, the progress made, and the challenges still facing the governments of the region in their efforts to achieve more effective public administrations.

**Hydraulics of Steady Flow in Open Channels
(Classic Reprint)** Sherman Melville

Woodward, 2018-10-08 Excerpt from Hydraulics of
Steady Flow in Open Channels A clear conception Of
the meaning of the many terms used in the study of
the flow of water in open channels is of utmost
importance for progress in understanding the
subject. A larger number Of fundamental variables
is necessary than in the study Of flow in closed
conduits or pipes. It is therefore possible to
devise more derived variables. Many Of these, such
as velocity head, total head, and hydraulic
radius, are essential. The use of too many derived
variables, however, is confusing. Only those
which have proven significant, and have been
generally accepted, will be used in this book. Any
elongated depression through which water flows may
be termed a channel. The flow is said to be Open
Channel flow if the water has a free surface. Thus
the flow in a pipe flowing part full is open channel
flow. The sides and bottom Of the channel are
considered to be impervious. If the cross section
Of the channel does not change along its length,
and the channel is straight in alignment and on

constant grade, it is said to be a uniform channel. Natural watercourses are never truly uniform, but if exceptionally regular, they may be considered to be uniform for some purposes. The grade of a uniform channel is its slope, referred to the horizontal. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Understanding Marilynne Robinson Alexander John Engebretson, 2017-11-06 A comprehensive study of the award-winning Midwestern author of fiction and nonfiction Alex Engebretson offers the first comprehensive study of Marilynne Robinson's fiction and essays to date, providing an overview of the author's life, themes, and literary and religious influences. *Understanding Marilynne Robinson* examines this author of three highly acclaimed novels and recipient of the National Book Critics Circle Award for fiction, the Pulitzer Prize for fiction, the Orange Prize for fiction, and the National Humanities Medal. Through close readings of the novels and essay

collections, Engebretson uncovers the unifying elements of Robinson's work: a dialogue with liberal Protestantism, an emphasis on regional settings, the marked influence of nineteenth-century American literature, and the theme of home. The study begins with *Housekeeping*, Robinson's haunting debut novel, which undertakes a feminist revision of the Western genre. Twenty-four years later Robinson began a literary project that would bring her national recognition, three novels set in a small, rural Iowa town. The first was *Gilead*, which took up the major American themes of race, the legacy of the Civil War, and the tensions between secular and religious lives. Two more *Gilead* novels followed, *Home* and *Lila*, both of which display Robinson's gift for capturing the mysterious dynamics of sin and grace. In *Understanding Marilynne Robinson*, Engebretson also reviews her substantial body of non-fiction, which demonstrates a dazzling intellectual range, from the contemporary science-religion debates, to Shakespeare, to the fate of liberal democracy. Throughout this study Engebretson makes the argument for Marilynne Robinson as an essential, deeply unfashionable, visionary presence within today's literary scene.

Why We Fought Peter C. Rollins, John E. O'Connor, 2008-07-25 A "wide-ranging and sophisticated anthology" comparing theaters of war to wars in the movie theater (Dennis Showalter, author of Patton and Rommel). Why We Fought makes a powerful case that film can be as valuable a tool as primary documents for improving our understanding of the causes and consequences of war. A comprehensive look at war films, from depictions of the American Revolution to portrayals of September 11 and its aftermath, this volume contrasts recognized history and historical fiction with the versions appearing on the big screen. The text considers a selection of the pivotal war films of all time, including All Quiet on the Western Front, Sands of Iwo Jima, Apocalypse Now, Platoon, and Saving Private Ryan—revealing how film depictions of the country's wars have shaped our values, politics, and culture, and offering a unique lens through which to view American history. Researching the Art of Teaching Peter

Woods,2013-09-27 This book is a follow-up to Inside Schools. It reviews the position of ethnography in educational research in the light of current issues and of the author's own research over the past ten years. Starting from an analysis of teaching as science and as art, Peter Woods goes on to review the general interactionist framework in which his own work is situated, and how this relates to postmodernist trends in qualitative research. The approach is illustrated through reference to the author's own personal history and research career, and his recent research on creative teaching, critical events, and his teachers reactions to school inspections. How to represent such research is a central feature, and includes a consideration of the tools used in that task and how they relate to the ethnographer's self, whatever forms of representation are selected, however, the audiences' own concerns will guide them in their interpretation of the work. Prominent themes include: * the person of the ethnographer in research * the art of teaching and new ways of representing it, while not forgetting the science of teaching and of research * research for educational use, and the uses of educational research * collaborative work between researchers and teachers The issues covered include such matters as research purposes, research design, research careers, access, data collection, data analysis, truth criteria, the relationship between theory and research methods, writing-up, and dissemination.

Tell Me I'm Here Anne Deveson,1998 This is the

compelling story of Jonathan, a charming teenager who turns into a fearful and tormented young man; it is also the heart-rending story of a mother facing the realisation that her child is going mad. First published in 1991, this book has become a classic, and is as moving and as relevant today as it ever was. This 1998 edition has been updated with a new Foreword from the author detailing the effects this book has had on society, both in Australia and worldwide; a new Afterword which discusses the advances in treatments for schizophrenia and developments in community attitudes and programs for mental illnesses in general; and a new, up-to-date section on Where to Go for Help.

Planetary Modernisms Susan Stanford Friedman, 2015-08-18 Drawing on a vast archive of world history, anthropology, geography, cultural theory, postcolonial studies, gender studies, literature, and art, Susan Stanford Friedman recasts modernity as a networked, circulating, and recurrent phenomenon producing multiple aesthetic innovations across millennia. Considering cosmopolitan as well as nomadic and oceanic worlds, she radically revises the scope of modernist critique and opens the practice to more integrated study. Friedman moves from large-scale instances of pre-1500 modernities, such as Tang Dynasty China and the Mongol Empire, to small-

scale instances of modernisms, including the poetry of Du Fu and Kabir and Abbasid ceramic art. She maps the interconnected modernisms of the long twentieth century, pairing Joseph Conrad with Tayeb Salih, E. M. Forster with Arundhati Roy, Virginia Woolf with the Tagores, and Aimé Césaire with Theresa Hak Kyung Cha. She reads postcolonial works from Sudan and India and engages with the idea of Négritude. Rejecting the modernist concepts of marginality, othering, and major/minor, Friedman instead favors rupture, mobility, speed, networks, and divergence, elevating the agencies and creative capacities of all cultures not only in the past and present but also in the century to come.

Institutional Theory in Political Science B. Guy Peters, 2011-12-15 Institutional Theory in Political Science provides an in-depth analysis of contemporary institutional theory, an essential tool to understand the world of politics and government. Written by B. Guy Peters, a prominent expert in the field, the book argues that the new institutionalism comprises eight variations on the theme of institutional analysis. Through a series of questions, the author assesses the possibility of a unified theory within institutionalism and its potential as a paradigm for political science. This new edition incorporates the most recent developments in the research on the various institutionalisms. It also includes a new chapter that brings into the discussion themes of discursive politics and constructivism. Although the focus is on political science, attention is paid to institutionalism in other disciplines.

Institutional Theory in Political Science, 3rd Edition, reflects the state of the field today while building on the foundations set in the previous editions. This unique work will be of value to anyone studying institutionalism, as well as political institutions, and public administration.

Water Policy in Spain Alberto Garrido, M. Ramon Llamas, 2017-05-22 Water policy in Spain has been the focus of Spanish-speaking scholars for decades, yet a comprehensive treatment of the subject has never before been published in English. This book fills this gap by providing a comprehensive, detailed account of the history of water policy in Spain from the beginnings of the 20th century to the present day. It presents a synopsis of the physical, economic, environmental, and climatic bases of Spain, highlighting corresponding political topics. It then covers the major constraints and opportunities influencing major water policy challenges and includes an in-depth account of water policy.

Psychology Down the Ages Charles Spearman, 1937

Schnitzler's Century Peter Gay, 2002 We have always believed that Queen Victoria defined the mores of the nineteenth century. Yet Peter Gay, one of our most eminent cultural historians, asserts in this radical work that it is the sexually emboldened Viennese playwright Arthur Schnitzler (1862-1931), the most influential Austrian writer of his time, who provides a better

symbol for the age. In a set of nine closely linked chapters, each focusing on major topics of bourgeois life, Gay synthesizes three decades of far-ranging research, presenting a lucid reinterpretation of the nineteenth-century middle class - its passions, politics, religion, and anxieties - that we can only think we know well. Extending his examination back to 1815, at the close of the age of Napoleon, Gay chronicles a hundred-year period that witnessed not only the emergence of the middle class but also the birth of a culture that remains vital today. Throughout Schnitzler's Century, he does justice to the complexity of the era, showing that there was superstition as well as science, cruelty as well as humanity, anxiety as well as Eros. But digging deep into bourgeois life all the way from Philadelphia to Moscow, London to Rome, he has recognized a general Victorian style through the Western world, however colored each country was by characteristic local habits. Schnitzler's Century is not revision for its own sake, but for the sake of the truth about the past. With the daring Viennese playwright Arthur Schnitzler as his companion, Gay provides startling perspectives on once-familiar subjects. Schnitzler's Century provides astonishing insights into an age that made us largely what we are today.--BOOK

Imaginary Bodies Moira Gatens, 2013-01-11 Moira Gatens investigates the ways in which differently sexed bodies can occupy the same social or political space. Representations of sexual

difference have unacknowledged philosophical roots which cannot be dismissed as a superficial bias on the part of the philosopher, nor removed without destroying the coherence of the philosophical system concerned. The deep structural bias against women extends beyond metaphysics and its effects are felt in epistemology, moral, social and political theory. The idea of sexual difference is contextualised in *Imaginary Bodies* and traced through the history of philosophy. Using her work on Spinoza, Gatens develops alternative conceptions of power, new ways of conceiving women's embodiment and their legal, political and ethical status.

Discovered by Martha Divine in the backstreets of San Juan, picking over garbage, drugged out of his mind and singing boleros that transfix the listener, a fifteen year old hustler is transformed into Sirena Selena, a diva whose uncanny beauty and irresistible voice will be their ticket to fame and fortune. Auditioning for one of the luxury hotels in the Dominican Republic, Selena casts her spell over Hugo Graubel, one of the hotel's rich investors.
