American Public Administration Robert A. Cropf,2015-09-04 In addition to addressing the basics, *American Public Administration: Public Service for the 21st Century* stands out from other books in the market by offering a broader context in which to understand public administration and by devoting comprehensive coverage to current topics and trends, many of which are given chapter-length treatment (e.g., civil society, privatization, management information systems, and ethics). The most recent and compelling research is woven throughout every chapter to give students a useful, in-depth understanding of the field today. Real-world case studies and vignettes, helpful chapter pedagogy, an abundance of charts and graphs, and numerous Web listings help students learn and engage them in the text.

Learning to Kneel Carrie J. Preston,2016-08-16 In this inventive mix of criticism, scholarship, and personal reflection, Carrie J. Preston explores the nature of cross-cultural teaching, learning, and performance. Throughout the twentieth century, Japanese noh was a major creative catalyst for American and European writers, dancers, and composers. The noh theater's stylized choreography, poetic chant, spectacular costumes and masks, and engagement with history inspired Western artists as they reimagined new approaches to tradition and form. In *Learning to Kneel*, Preston locates noh's important influence on such canonical figures as Pound, Yeats, Brecht, Britten, and Beckett. These writers learned about noh from an international cast of collaborators, and Preston traces the ways in which Japanese and Western artists influenced one another. Preston's critical work was profoundly shaped by her own training in noh performance technique under a professional actor in Tokyo, who taught her to kneel, bow, chant, and submit to the teachings of a conservative tradition. This encounter challenged Preston's assumptions about effective teaching, particularly her inclinations to emphasize Western ideas of innovation and subversion and to overlook the complex ranges of agency experienced by teachers and students. It also inspired new perspectives regarding the generative relationship between Western writers and Japanese performers. Pound, Yeats, Brecht, and others are often criticized for their orientalist tendencies and misappropriation of noh, but Preston's analysis and her journey reflect a more nuanced understanding of cultural exchange.

Freefall of the American University Jim Nelson Black,2012-12-03 It's happening in colleges all across the country. Instead of being educational institutions designed to encourage the free discussion of ideas, universities have become prisons of propaganda, indoctrinating students with politically correct (and often morally repugnant) ideas about American life and culture. This book exposes the liberal bias in today's universities, providing hard evidence, in clear and unimpeachable terms, that shows how today's colleges are

covertly and overtly proselytizing with leftist slants on sexuality, politics, and lifestyles. By naming names and providing specific and credible insights from faculty members, administrators, professional observers, and analysts who have witnessed and chronicled the intellectual and ethical collapse taking place within the academy, this book offers a broad overview of the issues, the history of the problems, analysis from a broad range of academics and professionals, and also observations of the university students themselves, in their own words, from schools all across the nation.

Civic Engagement in Global Contexts Jim Bowman, Jennifer deWinter, 2021-12-01 This volume examines the role of writing, rhetoric, and literacy programs and approaches in the practice of civic engagement in global contexts. Writing programs have experience in civic engagement and service learning projects in their local communities, and their work is central to developing students' literacy practices. Further, writing programs compel student writers to attend to audience needs and rhetorical exigencies as well as reflect on their own subject positions. Thus, they are particularly situated to partner with other units on college campuses engaged in global partnerships. *Civic Engagement in Global Contexts* provides examples and evidence of the critical self-reflection and iteration with community partners that make these projects important and valuable. Throughout its thirteen chapters, this collection provides practical pedagogical and administrative approaches for writing studies faculty engaging with global learning projects, as well as nuanced insight into how to navigate contact zones from the planning stages of projects to the hard work of self-reflection and change. Partnerships and projects across national borders compel the field of rhetoric and composition to think through the ethics of writing studies program design and teaching practices. Doing this difficult work can disrupt presumptive notions of ownership that faculty and administrators hold concerning the fields involved in these projects and can even lead to decentering rhetoric/composition and other assumptions held by US-based institutions of higher education. *Civic Engagement in Global Contexts* will be useful to instructors, advisors, and project managers of students in faculty-led project learning in overseas settings, international service learning through foreign study programs, and foreign study itself and to faculty members introducing civic engagement and community-based learning projects with foreign students in overseas institutions. Contributors: Olga Aksakalova, James Austin, Maria de Lourdes Caudillo Zambrano, Rebecca Charry Roje, Patricia M. Dyer, Tara E. Friedman, Bruce Horner, Kathryn Johnson Gindlesparger, Adela C. Licon, Ian Mauer, Joyce Meier, Susan V. Meyers, Sadia Mir, Stephen T. Russell

A New Vision, a New Heart, a Renewed Call David Claydon, 2005

White Robes and Burning Crosses Michael Newton, 2016-04-14 With its fiery crosses and nightriders in pointed hoods and flowing robes, the Ku Klux Klan remains a recurring nightmare in American life. What began in the earliest post-Civil War days as a

social group engaging in drunken hijinks at the expense of perceived inferiors soon turned into a murderous paramilitary organization determined to resist the “evils” of radical Reconstruction. For six generations and counting, the Klan has inflicted misery and death on countless victims nationwide and since the early 1920s, has expanded into distant corners of the globe. From the Klan’s post-Civil War lynchings in support of Jim Crow laws, to its bloody stand against desegregation during the 1960s, to its continued violence in the militia movement at the turn of the 21st century, this revealing volume chronicles the complete history of the world’s oldest surviving terrorist organization from 1866 to the present. The story is told without embellishment because, as this work demonstrates, the truth about the Ku Klux Klan is grim enough.

Fierce History is a collection of bizarre, grotesque and unexpected episodes from history from all over the world, and from ancient to more modern including: Siblings of famous people - Al Capone's brother who hunted down illegal distillers - Irishman Frank Shackleton, brother of legendary Antarctic explorer Ernest, who was pretty much rubbish at everything, and may have stolen the Irish Crown Jewels - Napoleon's sex-maniac sister Weird historical incidents - Flaming camels of war, - Living turkey parachutes; - Crazy assassination attempts Bizarre medical practices: - Dr Evan O'Neill Kane, who in 1921 performed an appendectomy on himself. - 'Radioactive water' to cure arthritis, gout, neuralgias, poor circulation and a variety of other illnesses - eh, no, it just kills you. Remarkable children: - William Rowan Hamilton by the age of twelve could speak fourteen languages, and went on to discover the quaternion, essential to the development of modern theories of electromagnetism and quantum mechanics, scratching his new mathematical formula on to the side of Broom Bridge in north Dublin

The Many Faces of Sacha Baron Cohen Robert A. Saunders, 2008 In his various guises, the British comedian Sacha Baron Cohen has threatened Uzbekistan with catapults, driven a U.N. Secretary-General to profanity, and ruined New York's Fashion Week. Evincing shades of Jonathan Swift, Monty Python, and Andy Kaufman, Baron Cohen has consistently demonstrated a singular talent for crafting outrageous personae, a ruthless dedication to staying in character, and an uncanny ability to parlay controversy into professional success. Now, in his lively and often humorous study *The Many Faces of Sacha Baron Cohen: Politics, Parody, and the Battle over Borat*, Robert A. Saunders explores the striking cultural resonance and far-reaching political ramifications of Baron Cohen's portrayals of Borat, Ali G, and Bruno. In Ali G, a wannabe gangsta rapper from the leafy English suburb of Staines, the Cambridge-educated humorist tackled the prickly questions of race, ethnicity, and identity in 'Cool Britannia.' As Bruno, a campy Austrian fashionista with a Nazi fetish, he tapped into a wellspring of homophobia simmering beneath the sheen of political correctness. Most dramatically, as the roving Kazakhstani reporter Borat, Baron Cohen offended the world's ninth largest nation, provoked the ire of the Anti-Defamation League, triggered dozens of lawsuits, and became the subject of presidential summits. Part biography and part political analysis, Saunders traces Baron Cohen's rise from a small-time comedian-one who might have easily been forgotten in the pre-Internet era-to a cultural lightning rod who set tongues wagging from Vancouver to Vladivostok. Through a probing discussion of the identity politics that mold

this jester's unique brand of humor, the author navigates the eclectic socio-political climate that gave rise to the cable television hit *Da Ali G Show* and the international blockbuster *Borat: Cultural Learnings of America for Make Benefit Glorious Nation of Kazakhstan*. The end result is a sublime synthesis of cultural history and contemporary politics that affirms the undeniable power of imagery in the global village.

Crises and Integration in European Banking Union Christopher Mitchell, 2023-12-21 It is conventional wisdom among scholars, policymakers, and other observers that crises are one of the primary drivers of European integration. However, while many crises have indeed spurred deeper integration, there is also no shortage of crises that failed to produce meaningful deepening, or even led to disintegration. The literature on European integration has to date failed to develop a theory to identify *ex ante* which crises are most likely to produce integrating reform. *Crises and Integration in European Banking Union* addresses that gap, building a theory of how the combination of crisis severity and origin indicates whether a crisis will produce deep reform, modest reform, or a persistence of the pre-crisis status quo. Mitchell does so by examining the relative impact of a series of crises on the centralization of European financial regulation in the 21st century, including the 2007-09 Banking Crisis, 2010-14 Debt Crisis, the Brexit shock, and the 2020-21 COVID-19 Pandemic. It thus also makes an important contribution to the literature on European financial regulation and the steps needed to complete a European banking and capital markets union. The volume not only addresses a significant theoretical gap, but also provides a foundation for policymaking in response to future crises by building a framework to identify which challenges are most likely to provide an opportunity for deeper integration.

Film England Andrew Higson, 2010-12-30 In a film business increasingly transnational in its production arrangements and global in its scope, what space is there for culturally English filmmaking? In this groundbreaking book, Andrew Higson demonstrates how a variety of Englishnesses have appeared on screen since 1990, and surveys the genres and production modes that have captured those representations. He looks at the industrial circumstances of the film business in the UK, government film policy and the emergence of the UK Film Council. He examines several contemporary 'English' dramas that embody the transnationalism of contemporary cinema, from 'Notting Hill' to 'The Constant Gardener'. He surveys the array of contemporary fiction that has been re-worked for the big screen, and the pervasive - and successful - Jane Austen adaptation business. Finally, he considers the period's diverse films about the English past, including big-budget, Hollywood-led action-adventure films about medieval heroes, intimate costume dramas of the modern past, such as 'Pride and Prejudice', and films about the very recent past, such as 'This is England'.
