**The Poisonous Mushroom: Der Giftpilz** Ernst Hiemer, 2020-05-09 Among the most controversial of Nazi publications was a book for children, published in 1938 under the title *Der Giftpilz*-or, *The Poisonous Mushroom*. Here, the Jewish threat to German society was portrayed in the most simplistic and elemental terms. The author, Ernst Hiemer, put together 17 short vignettes or morality stories intended to warn children of the dangers posed by Jews. Jews were depicted as conniving, thieving, treacherous liars who would do anything for personal gain. 'Avoid Jews at all costs, ' was Hiemer's underlying message. Though aimed at children aged roughly 8 to 14, Hiemer's lessons were intended for all readers-older siblings, parents, and grandparents. Following Hitler's lead, and not without justification, Jews were presented as a profound threat to German society; they had to be shunned and ultimately removed from the nation, if the German people were to flourish. Long out of circulation, and banned in Germany and elsewhere, this new edition reproduces a work of historical importance-including full color artwork by German cartoonist Philipp Rupprecht (Fips). The book was repeatedly cited at the Nuremberg Trials as evidence of 'Nazi cruelty', and was used by prosecutors to justify a death sentence for its publisher, Julius Streicher. If only for the sake of history, the reading public should have access to one of the more intriguing and notorious publications of the Third Reich.

*Introduction to Interlinguistics* Federico Gobbo, 2020-01-25 Script from the year 2020 in the subject Speech Science / Linguistics, grade: 1.0, University of Amsterdam (ACLC), course: Introduction to Interlinguistics (105218036Y), language: English, abstract: This book is the result of the Lecture Notes produced for the class Introduction to Interlinguistics held at the University of Amsterdam during my first mandate as Special Chair holder there (2014-2019). This means that the intended readers are my students, who may come from the Humanities, such as English Studies or Philosophy, as well as from more formally oriented curricula, such as Logic or Artificial Intelligence. The structure of the volume follows the structure of the class: there are seven chapters that correspond to the seven weeks of contact hours. Thus, the expression in this chapter is equivalent to in this week. The first three chapters form Part I, which gives the theoretical basis, while the second three chapters of Part II apply the theory to major case studies in Interlinguistics. Please note that there is more material than I succeed to cover in the classroom - I am very ambitious - and that I explain in class the content of this book. This means that some sections may be skipped, depending on the specific class. For details, please pay attention to the official communication sent to class members. In studying this book you will acquire the conceptual toolbox of the working interlinguist. Technical terms and important names are indicated in bold and referred to the index by the end of the book, to facilitate students. Readers who do not belong to my students' cohorts may also appreciate, as - to the best of my knowledge - there is no such book published in English yet. Comparable published works in other languages are: first, the book by Barandovska [1995], written for advanced Esperanto speakers enrolled the programme in Interlinguistics Studies at the Adam Mickiewicz University in Poznan ; second, my short textbook in Italian [Gobbo, 2009],

**The Creators** Daniel J. Boorstin, 2012-04-11 By piecing the lives of selected individuals into a grand mosaic, Pulitzer Prize-winning historian Daniel J. Boorstin explores the development of artistic innovation over 3,000 years. A hugely ambitious chronicle of the arts that Boorstin delivers with the scope that made his *Discoverers* a national bestseller. Even as he tells the stories of such individual creators as Homer, Joyce, Giotto, Picasso, Handel, Wagner, and Virginia Woolf, Boorstin assembles them into a grand mosaic of aesthetic and intellectual invention. In the process he tells us not only how great art (and great architecture and philosophy) is created, but where it comes from and how it has shaped and mirrored societies from Vedic India to the twentieth-century United States.

**Multilingualism and Applied Comparative Linguistics (Volume II)** Frank Boers, Jeroen Darquennes, Koen Kerremans, 2009-10-02 In February 2006 the first international conference on Multilingualism and Applied Comparative Linguistics (MACL) was held in Brussels, Belgium. The aim of the MACL conference was to bring together scholars from various branches of applied linguistics with a shared interest in cross-linguistic and cross-cultural communication. The conference thus fostered an exchange of knowledge and expertise among researchers from various disciplines, including educational linguistics, cultural linguistics, terminography, translation studies and studies of specialised languages. The present book is the second of two volumes containing a selection from the approximately 120 papers that were presented at that three-day event. The book comprises five chapters, reflecting different research perspectives on cross-linguistic and cross-cultural communication. The first chapter covers research articles on metaphors and planned languages. The second chapter comprises articles dealing with language attitudes, language proficiency and language practices in cross-linguistic and cross-cultural, communicative contexts. Chapter three features articles in the field of discourse-analysis research. In the fourth chapter research is presented that pertains to terminology and specialised languages. Finally, chapter five deals with translation studies.

De-constructing Dahl Laura Viñas Valle, 2016-01-14 This is the first single-authored monograph on Roald Dahl since 1994. Remarkably, in spite of Dahl's commercial success, and the divided opinions he generates, very little scholarly work on the author has been produced. In the light of sociocultural constructivist theory, *De-constructing Dahl* focuses on the critical context, texts and paratexts that make up the packaging of "Dahl." It offers the first

thorough overview of the criticism and the language employed to discuss Dahl since the 1970s, the difficulties that using such language entails, and how it still permeates current criticism. It delves into the relationship between Dahl's children's and adult fiction by drawing comparisons and contrasts and exploring the common traits and patterns that bring his whole work together. It also examines how Dahl constructed himself as a children's writer; how his publishing house and allies contribute to mediating and sustaining the Dahl public persona; the ways that marketing strategies are responsible for the identity of his books; and how editorial decisions about the age range, and, therefore, how the classification of a manuscript as a book for children or for adults constructs particular ideas of what "children's literature" is, and what is considered "appropriate" or "unsuitable" for children to read.

*Work and Health in the EU* European Commission, 2004 This report contains data on occupational safety and health issues in the EU, including characteristics of the European labour force, the importance of ill-health due to work-related aspects, risk factors and outcomes of health and safety at work, occupational and work-related diseases, as well as violence, intimidation and discrimination in the workplace. This publication provides the first joint analysis of various European statistical data sources on health and safety at work (including the Labour Force Survey, European statistics on accidents at work and the 3rd European survey on working conditions) and is expected to provide useful added value for policy monitoring and identification of preventative needs.

**Woman's Role in Economic Development** Ester Boserup, 2007 First Published in 2007. Routledge is an imprint of Taylor & Francis, an informa company.

*The Making of the State Writer* , 2001 This book completes the author's study of the sociology of the literary process in Soviet Russia, begun in *The Making of the State Reader: Social and Aesthetic Contexts of the Reception of Soviet Literature* (Stanford, 1997). The author demonstrates that Socialist Realism is not so much directed as it is self-directed; the transformation of the author into his own censor is the true history of Soviet literature.

*Cultural Exchange and the Cold War* Yale Richmond, 2010-11-01 Some fifty thousand Soviets visited the United States under various exchange programs between 1958 and 1988. They came as scholars and students, scientists and engineers, writers and journalists, government and party officials, musicians, dancers, and athletes—and among them were more than a few KGB officers. They came, they saw, they were conquered, and the Soviet Union would never again be the same. *Cultural Exchange and the Cold War* describes how these exchange programs (which brought an even larger number of Americans to the Soviet Union) raised the Iron Curtain and fostered changes that prepared the way for Gorbachev's glasnost, perestroika, and the end of the Cold War. This study is based upon interviews with Russian and American participants as well as the personal experiences of the author and others who were involved in or administered such exchanges. *Cultural Exchange and the Cold War* demonstrates that the best policy to pursue with countries we disagree with is not isolation but engagement.

**How to Write a Thesis** Umberto Eco, 2015-02-27 Umberto Eco's wise and witty guide to researching and writing a thesis, published in English for the first time. By the time Umberto Eco published his best-selling novel *The Name of the Rose*, he was one of Italy's most celebrated intellectuals, a distinguished academic and the author of influential works on semiotics. Some

years before that, in 1977, Eco published a little book for his students, *How to Write a Thesis*, in which he offered useful advice on all the steps involved in researching and writing a thesis—from choosing a topic to organizing a work schedule to writing the final draft. Now in its twenty-third edition in Italy and translated into seventeen languages, *How to Write a Thesis* has become a classic. Remarkably, this is its first, long overdue publication in English. Eco's approach is anything but dry and academic. He not only offers practical advice but also considers larger questions about the value of the thesis-writing exercise. *How to Write a Thesis* is unlike any other writing manual. It reads like a novel. It is opinionated. It is frequently irreverent, sometimes polemical, and often hilarious. Eco advises students how to avoid “thesis neurosis” and he answers the important question “Must You Read Books?” He reminds students “You are not Proust” and “Write everything that comes into your head, but only in the first draft.” Of course, there was no Internet in 1977, but Eco's index card research system offers important lessons about critical thinking and information curating for students of today who may be burdened by Big Data. *How to Write a Thesis* belongs on the bookshelves of students, teachers, writers, and Eco fans everywhere. Already a classic, it would fit nicely between two other classics: *Strunk and White* and *The Name of the Rose*. Contents The Definition and Purpose of a Thesis • Choosing the Topic • Conducting Research • The Work Plan and the Index Cards • Writing the Thesis • The Final Draft

**Now Zen** Charlotte Joko Beck, 1994-12 Here is cut-to-the-chase Zen by the beloved, no-nonsense teacher whose *Everyday Zen* and *Nothing Special* have become underground classics, with more than 120,000 copies sold. With wit and shining insight, *Now Zen* is a concise rendering of the foundational ideas of Joko Beck's teaching, which shows how to live with mindfulness, awareness, honesty, and integrity.
