New Trends and Opportunities for Central and Eastern European Tourism Nistoreanu, Puiu, 2019-12-13 Within the past decade, there has been a re-emergence of tourism in Europe, especially in the central and eastern regions. With socialism becoming a distant memory, these former communist countries are now attractive destinations for travel. Research on this current phenomenon is essential, as professionals and scientists must stay informed on the modern development of this global region. *New Trends and Opportunities for Central and Eastern European Tourism* provides emerging research exploring the theoretical and practical aspects of contemporary tourism in Eastern Europe and its effect on economics and sociology. Featuring coverage on a broad range of topics such as monument protection, economic features, and socialist architecture, this book is ideally designed for travel agents, tour developers, restaurateurs, hotel management, economic analysts, government officials, policymakers, tourism journalists, tourism practitioners, researchers, and professors seeking current research on the development of travel in Eastern and Central Europe.

No Rule of Law, No Democracy Cristina Nicolescu-Waggonner, 2016-11-10 Argues that new democracies face consolidation challenges due to campaign finance corruption and the unwillingness of politicians to reform rule of law enforcement. Mainstream theories assert that democracy cures corruption. In market economies, however, elections are expensive and parties, with ever-thinning memberships, cannot legally acquire the necessary campaign funds. In order to secure electoral funds, a large number of politicians misappropriate public funds. Due to the illicit character of these transactions, high officials with conflicts of interest prefer to leave anticorruption enforcement mechanisms unreformed and reserve the right to intervene in the judicial process, with dire consequences for the rule of law. In *No Rule of Law, No Democracy*, Cristina Nicolescu-Waggonner demonstrates that when corrupt politicians are in power—true of nearly all new democracies—they will protect their office and fail to implement rule of law reforms. Consequently, these polities never reach a point where democracy could and would cure corruption. This dysfunction is tested in one hundred cases over sixteen years with significant results. In the case of the Czech Republic, for example, which is regarded as a consolidated democracy, there is systematic corruption, misappropriation of state funds, an unreformed judiciary, and arbitrary application of law. The only solution is a powerful, independent, well-funded anticorruption agency. Romania, one of the most corrupt countries in Europe, established, at the European Union's request, powerful anticorruption bodies and punished corrupt leaders, which created the predictability of enforcement. It is the certainty of punishment that curtails corruption and establishes true rule of law.

Orthodox Religion and Politics in Contemporary Eastern Europe Tobias Koellner, 2018-12-07 This book explores the relationship between Orthodox religion and politics in Eastern Europe, Russia and Georgia. It demonstrates how as these societies undergo substantial transformation Orthodox religion can be both a limiting and an enabling factor, how the relationship between religion and politics is complex, and how the spheres of religion and politics complement, reinforce, influence, and sometimes contradict each other. Considering a range of thematic issues, with examples from a wide range of countries with significant Orthodox religious groups, and setting the present situation in its full historical context the book provides a rich picture of a subject which has been too often oversimplified.

Regional Development: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2012-04-30 From domestic to international settings, aid and assistance to less-developed areas has recently been bolstered by a boom in technological advances and new research. *Regional Development: Concepts, Methodologies, Tools, and Applications* presents a vital compendium of research detailing the latest case studies, architectures, frameworks, methodologies, and research on regional development. With over 100 chapters from authors from around the world, this three volume collection presents the most sophisticated research and developments from the field, relevant to researchers, academics, and practitioners alike. In order to stay abreast of the latest research, this book affords a vital look into regional development research.

include biological control with fungi and viruses, conservation of natural predators, use of botanicals and how effective pest management can help promote food security. In the broader context of agriculture, sustainability and environmental protection, the book provides a multidisciplinary and multinational perspective on integrated pest management useful to researchers in entomology, crop protection, environmental sciences and pest management.

Integrated Pest Management Dharam P. Abrol, Uma Shankar, 2012 Providing a critical evaluation of the management strategies involved in ecologically-based pest management, this book presents a balanced overview of environmentally safe and ecologically sound approaches. Topics covered include biological control with fungi and viruses, conservation of natural predators, use of botanicals and how effective pest management can help promote food security. In the broader context of agriculture, sustainability and environmental protection, the book provides a multidisciplinary and multinational perspective on integrated pest management useful to researchers in e.
