The Oxford Handbook of Musical Theatre Screen Adaptations Dominic McHugh,2019 Hollywood's conversion to sound in the 1920s created an early peak in the film musical, following the immense success of *The Jazz Singer*. The opportunity to synchronize moving pictures with a soundtrack suited the musical in particular, since the heightened experience of song and dance drew attention to the novelty of the technological development. Until the near-collapse of the genre in the 1960s, the film musical enjoyed around thirty years of development, as landmarks such as *The Wizard of Oz*, *Meet Me in St Louis*, *Singin' in the Rain*, and *Gigi* showed the exciting possibilities of putting musicals on the silver screen. The Oxford Handbook of Musical Theatre Screen Adaptations traces how the genre of the stage-to-screen musical has evolved, starting with screen adaptations of operettas such as *The Desert Song* and *Rio Rita*, and looks at how the Hollywood studios in the 1930s exploited the publication of sheet music as part of their income. Numerous chapters examine specific screen adaptations in depth, including not only favorites such as *Annie* and *Kiss Me, Kate* but also some of the lesser-known titles like *Li'l Abner* and *Roberta* and problematic adaptations such as *Carousel* and *Paint Your Wagon*. Together, the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future

studies.

Recalling Deeds Immortal William B.

Lees, Frederick P. Gaske, 2014-10-07 One hundred and fifty years ago, Florida was shaken by battle, blockade, economic deprivation, and the death of native sons both within and far outside its borders. Today, tributes to the valor and sacrifice of Florida's soldiers, sailors, and civilians can be found from the Panhandle to the Keys. Authors Lees and Gaske look at the diversity of Civil War monuments built in Florida between Reconstruction and the present day, elucidating their emblematic and social dimensions. Most monuments built in Florida honor the Confederacy, praising the valor of Southern soldiers and often extolling the righteousness of their "Lost Cause." At the same time, a fascinating minority of Union monuments also exists in the state—and these bear notably muted messages. *Recalling Deeds Immortal* shows how the creation of these bronze and stone monuments created new social battlegrounds as, over the years, groups such as the Ladies' Memorial Associations, United Daughters of the Confederacy, and the Grand Army of the Republic competed to control the messages behind the memorialization of fallen soldiers and veterans. Examining the evolution of Civil War monuments, the authors demonstrate that the construction of these memorials is itself an important part of Civil War and post-Civil War history.

International Organizations and the Law of the Sea 1999 Barbara Kwiatkowska, Harm Dotinga, Merel Molenaar, Alex G. Oude Elferink, Alfred H.A. Soons, 2022-07-11 Now in its 15th year, The NILOS

Documentary Yearbook provides the reader with an excellent collection of documents related to ocean affairs and the law of the sea, issued each year by organizations, organs and bodies of the United Nations system. Documents of the UN General Assembly, Meeting of State Parties to the 1982 UN Law of the Sea Convention, CLCS, ISBA, ITLOS, Follow-Up to the UN Straddling Fish Stocks and Small Island States Conferences, ECOSOC, UNEP, and UNCTAD are included first, followed by the documents of FAO, IAEA, IMO, and UNESCO/IOC. As in the previous volumes, documents which were issued in the course of 1999 are reproduced, while other relevant documents are listed. The NILOS Documentary Yearbook has proved to be of invaluable assistance in facilitating access by the community of scholars and practitioners in ocean affairs and the law of the sea to essential documentation. The entry of the 1982 UN Law of the Sea Convention into force on 16th November 1994 and of the Part XI Agreement on 28 July 1996, and progress in the implementation of Chapter 17 of Agenda 21, to be assessed at the 2002 Johannesburg World Summit, make continuation of this assistance of particular significance in the years to come. The members of the Yearbook's Advisory Board are: Judges Abdul Koroma and Shigeru Oda of the ICJ, Judges Thomas Mensah, Dolliver Nelson, and Tullio Treves of the ITLOS, as well as Rosalie Balkin, Edward Brown, Lee Kimball, Bernard Oxman, and Shabtai Rosenne.

The End of Grand Strategy Simon Reich, Peter Dombrowski, 2018-01-15 In 'The End of Grand Strategy', Simon Reich and Peter Dombrowski

challenge this common view. They eschew prescription in favour of describing and explaining what America's military actually does. They argue that each presidential administration inevitably resorts to each of the six variant of grand strategy that they implement simultaneously as a result of a series of fundamental recent changes - what they term 'calibrated strategies.' Reich and Dombrowski support their controversial argument by examining six major maritime operations, stretching from America's shores to every region of the globe. Each of these operations reflects one major variant of strategy. They conclude that grand strategy, as we know it, is dead.

Grand Strategy in Theory and Practice William C. Martel, 2015-01-12 This book explores fundamental questions about grand strategy, as it has evolved across generations and countries. It provides an overview of the ancient era of grand strategy and a detailed discussion of its philosophical, military, and economic foundations in the modern era. The author investigates these aspects through the lenses of four approaches - those of historians, social scientists, practitioners, and military strategists. The main goal is to provide contemporary policy makers and scholars with a historic and analytic framework in which to evaluate and conduct grand strategy. By providing greater analytical clarity about grand strategy and describing its nature and its utility for the state, this book presents a comprehensive theory on the practice of grand strategy in order to articulate the United States' past, present, and

future purpose and position on the world stage.

The Pacific Islands in China's Grand Strategy J. Yang, 2011-11-07 This book looks at Chinese policy towards the South Pacific in the context of China's grand strategy. Analysts are divided on the implications of China's deepening involvement in the region and the study of Chinese involvement in the South Pacific is a part of the great debate on the rise of China.

Chinese Grand Strategy and Maritime Power Thomas M. Kane, 2016-05-06 This challenging new book argues that the People's Republic of China is pursuing a long-term strategy to extend its national power by sea.

League of American Bicyclists , 2000

American Military History Volume 1 Army Center of Military History, 2016-06-05 American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and

missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.

Urban Issues CQ Researcher, 2016-08-30 What are the driving forces behind Smart Cities? What are the ramifications of increasing the minimum wage? What are the causes of aging infrastructure and how should they be addressed? These are just some of the provocative questions that are considered in the new edition of Urban Issues. For current coverage of urban politics, readers will appreciate the balanced and unbiased reporting of CQ Researcher. Urban Issues provides a window into how policy is created and implemented in America's cities and is sure to spark classroom discussions. Each chapter examines the key players, stakes, background, and lessons for the future, while covering the range of facts, analyses, and

opinions surrounding each issue.

The Whirlwind War Frank N. Schubert, 1995 CMH Publication 70-30. Edited by Frank N. Schubert and Theresa L. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

Caesar Ate My Jesus Meg Gorzycki, 2017-06-09 What the hell happened on the way to making the world a better place? We boomers were told our success would be unlimited. We had democracy and capitalism, and God was on our side. We took our religious teachings seriously, and set out to end bigotry, violence, and destitution. Inevitably, we collided with American Caesars, whose power and wealth was sufficient to dominate national and international affairs. Political and religious Caesars appropriated Jesus and used him to justify war, sexism, racism, dictatorships, and poverty.

What were the faithful to do? Lots of boomers I know tossed the spiritual baby out with the religious institution's bathwater, and became cynical about civic engagement. It is not time to abandon hope in our goodness, however, and it is not time to surrender our conscience to Caesar. Our experiences as boomers teach us that it is possible to bring the love of God to bear in our lives, despite Caesar's constant pressure to cherish power, wealth, celebrity, and things more than we cherish people. This book is for folks who are ready to get off Caesar's treadmill and dig deeply into their hearts and minds to see what remains of the Kingdom of God within.

China and Latin America Chris Alden, Alvaro Mendez, 2022-12-29 China's role as an economic powerhouse in Latin America is reshaping a region on the cusp of development and change. Since the turn of the century, bilateral trade between China and Latin America has increased massively, going from \$12.17 billion in 2000 to \$307.94 billion in 2019. From the pampas of Argentina and the vast Brazilian Amazon to Panama's canal and Jamaica's coastal waters, China is financing roads, railways, dams and ports that are transforming regional economies and societies. Beyond China's global search for resources and markets, Beijing's engagement with Latin America is amplified by cutting-edge technologies and a growing assertiveness in regional diplomatic and military affairs. The United States, once complacent in its dominant position over its proverbial 'backyard', is increasingly alarmed by the spectacle of deepening Chinese involvement in this part of the

Western hemisphere. What are we to make of these shifting dynamics? In this detailed and up-to-the-minute investigation, Chris Alden, author of the critically acclaimed *China in Africa*, and Alvaro Mendez, leading expert in the international relations of Latin America, look at the interests, strategies and practices of China's incoming power. The book starts by unpacking the historical links between Imperial China and Colonial Latin America through the 19th century, then turns to the revolutionary role played by Mao's China during the Cold War. Next, it turns to global China's contemporary expansion into Latin America by focusing on the development dimensions of engagement in individual countries, and concurrently, on the exercise of agency by Latin American governments and societies intent on managing Chinese interests to their advantage. Finally, the book addresses these relationships in the context of heightened global competition between China and the United States, which in Latin America manifests as sharpened contestation over everything from investment in lithium mining to the promotion of Covid vaccines.
