Gregory of Nyssa Against Eunomius Saint Gregory of Nyssa, Aeterna Press, It seems that the wish to benefit all, and to lavish indiscriminately upon the first comer one's own gifts, was not a thing altogether commendable, or even free from reproach in the eyes of the many; seeing that the gratuitous waste of many prepared drugs on the incurably-diseased produces no result worth caring about, either in the way of gain to the recipient, or reputation to the would-be benefactor. Rather such an attempt becomes in many cases the occasion of a change for the worse. The hopelessly-diseased and now dying patient receives only a speedier end from the more active medicines; the fierce unreasonable temper is only made worse by the kindness of the lavished pearls, as the Gospel tells us. I think it best, therefore, in accordance with the Divine command, for any one to separate the valuable from the worthless when either have to be given away, and to avoid the pain which a generous giver must receive from one who treads upon his pearl,' and insults him by his utter want of feeling for its beauty.

Pastoral Rule Gregory the Great, Wyatt North, 2020 Pastoral Rule, written around 590 A.D. by Pope Gregory I, outlines the role of the clergy. It was immensely influential, and Byzantine Emperor Maurice ordered that it be translated into Greek and given to every bishop.

Admirals of the World William Stewart, 2014-11-26 This work provides biographies of more than 500 men and women who have served as admiral, vice admiral, or rear admiral. While officers from the U.S., British, French and Japanese navies make up the bulk of the work, officers from 22 countries, including Australia, Canada, Germany, India, Italy, the Netherlands, Russia, and Spain, are also included. The main criterion for inclusion is that each person must have actively served in the rank of at least rear admiral, but not necessarily in enemy action. This effectively rules out people who were granted the rank on retirement, as a courtesy title or posthumously. The book also includes lists of admirals organized by nationality and by year of birth.

Tennessee Tragedies Allen R. Coggins, 2012-01-15 A one-of-a-kind reference book, Tennessee Tragedies examines a wide variety of disasters that have occurred in the Volunteer State over the past several centuries. Intended for both general readers and emergency management professionals, it covers natural disasters such as floods, tornadoes, and earthquakes; technological events such as

explosions, transportation wrecks, and structure fires; and societal incidents including labor strikes, political violence, lynchings, and other hate crimes. At the center of the book are descriptive accounts of 150 of the state's most severe events. These range from smallpox epidemics in the eighteenth century to the epic floods of 1936-37, from the Sultana riverboat disaster of 1865 (the worst inland marine accident in U.S. history) to the 1968 assassination of Dr. Martin Luther King Jr. Included as well are stories of plane crashes, train wrecks, droughts, economic panics, and race riots. An extensive chronology provides further details on more than 900 incidents, the most complete listing ever compiled for a single state. The book's introduction examines topics that include our fascination with such tragedies; major causes of death, injury, and destruction; and the daunting problems of producing accurate accountings of a disaster's effects, whether in numbers of dead and injured or of economic impact. Among the other features are a comprehensive glossary that defines various technical terms and concepts and tables illustrating earthquake, drought, disease, and tornado intensity scales. A work of great historical interest that brings together for the first time an impressive array of information, *Tennessee Tragedies* will prove exceptionally useful for those who must respond to inevitable future disasters.

Catastrophe, Gender and Urban Experience, 1648-1920 Deborah Simonton, Hannu Salmi, 2016-10-04 As Enlightenment notions of predictability, progress and the sense that humans could control and shape their environments informed European thought, catastrophes shook many towns to the core, challenging the new world view with dramatic impact. This book concentrates on a period marked by passage from a society of scarcity to one of expenditure and accumulation, from ranks and orders to greater social mobility, from traditional village life to new bourgeois and even individualistic urbanism. The volume employs a broad definition of catastrophe, as it examines how

urban communities conceived, adapted to, and were transformed by catastrophes, both natural and human-made. Competing views of gender figure in the telling and retelling of these analyses: women as scapegoats, as vulnerable, as victims, even as cannibals or conversely as defenders, organizers of assistance, inspirers of men; and men in varied guises as protectors, governors and police, heroes, leaders, negotiators and honorable men. Gender is also deployed linguistically to feminize activities or even countries. Inevitably, however, these tragedies are mediated by myth and memory. They are not neutral events whose retelling is a simple narrative. Through a varied array of urban catastrophes, this book is a nuanced account that physically and metaphorically maps men and women into the urban landscape and the worlds of catastrophe.

Trust in Electronic Commerce: The Role of Trust from a Legal, an Organizational, and a Technical Point of View J. E. J. Prins, P. M. A. Ribbers, Henk C. A. Van Tilborg, 2002-07-03 Electronic commerce is here to stay. No matter how big the dot-com crisis was or how far the e-entrepreneurs' shares fell in the market, the fact remains that there is still confidence in electronic trading. At least it would appear that investors are confident in e-companies again. However, not only trust of venture capitalists is of importance -- consumers also have to have faith in on-line business. After all, without consumers there is no e-business. Interacting lawyers, technicians and economists are needed to create a trustworthy electronic commerce environment. To achieve this environment, thorough and inter-disciplinary research is required and that is exactly what this book is about. Researchers of the project Enabling Electronic Commerce from the Dutch universities of Tilburg and Eindhoven have chosen a number of e-topics to elaborate on trust from their point of view. This volume makes clear that the various disciplines can and will play a role in developing conditions for trust and thus contribute to a successful electronic market.

Pastoral Theology in the Classical Tradition Andrew Purves, 2001-11-01 Too often pastoral care is uninformed by historical practice and is overly influenced by psychological theory and practice, according to Andrew Purves. At least one consequence of this is that it is often disaffiliated from the church's theological heritage. Purves examines Christian writers from the past who represent the classical tradition in pastoral theology--classical in the sense that they and their texts have shaped the minds and practices of pastors in enduring ways. He reflects on texts from Gregory Nazianzus, John Chrysostom, Gregory the Great, Martin Bucer, and Richard Baxter. He includes a brief biography of each author, introduces the major themes in the writer's theology, and discusses the issues arising for pastoral work.

Been Coming through Some Hard Times Jack Glazier, 2013-03-30 “This book is a unique study of race and racism across two centuries in the hinterland of the upper South. Its implications are at once depressingly familiar and distinctly fresh.” —W. Fitzhugh Brundage, author of *Lynching in the New South: Georgia and Virginia, 1880-1930* From the earliest days when slaves were brought to western Kentucky, the descendants of both slaves and slave owners in Hopkinsville, Kentucky, have continued to inhabit the same social and historic space. Part ethnography and part historical narrative, *Been Coming through Some Hard Times* offers a penetrating look at this southern town and the surrounding counties, delving particularly into the ways in which its inhabitants have remembered and publicly represented race relations in their community. Neither Deep South nor Appalachian, this western Kentucky borderland presented unique opportunities for African American communities and also deep, lasting tensions with powerful whites. Glazier conducted fieldwork in Hopkinsville for some ten months, examining historical evidence, oral histories, and the racialized hierarchy found in the final resting places of black and white citizens. His analysis shows how structural inequality continues to prevail in Hopkinsville. The book’s ethnographic vignettes of worship services, school policy disputes, segregated cemeteries, a “dressing like our ancestors” day at an elementary school, and black family reunions poignantly illustrate the ongoing debate over the public control of memory. Ultimately, the book critiques the lethargy of white Americans who still fail to recognize the persistence of white privilege and therefore stunt the development of a truly multicultural society. Glazier’s personal investment in this subject is clear. *Been Coming through Some Hard Times* began as an exploration of the life of James

Bass, an African American who settled in Hopkinsville in 1890 and whose daughter, Idella Bass, cared for Glazier as a child. Her remarkable life profoundly influenced Glazier and led him to investigate her family's roots in the town. This personal dimension makes Glazier's ethnohistorical account especially nuanced and moving. Here is a uniquely revealing look at how the racial injustices of the past impinge quietly but insidiously upon the present in a distinctive, understudied region. JACK GLAZIER is a professor of anthropology at Oberlin College. He is the author of *Dispersing the Ghetto: The Relocation of Jewish Immigrants across America* and *Land and the Uses of Tradition among the Mbeere of Kenya*.

God's Reflections Ronald Ian Phillips, Ernest Schmidt, David Grotzke, Seth Grotzke, 2022-04-07 Using a unique and ground-breaking approach that combines religion with American history, these four authors masterfully present a thoroughly researched and captivating account of fifty-two inspirational stories of America's exceptionalism intricately woven with God's truths. Each story connects the life-giving honesty of the American people with a life-shaping application from the gospel. Individuals interested in the history of the United States or Christianity and looking for an overarching account of what unites us as Americans and believers will be enthralled by these inspiring stories of struggles and triumphs. We are not the light, just the reflection if we stand close enough to the Source. The further we move away from God's will for our lives, the more we stumble in the dark. But as believers we know there is an all-powerful force that will lift us up and help us to walk in the light. The goal of *God's Reflections: Biblical Insight from America's Story* is to draw Christians closer to the light source, so they can radiate brighter in their service to God and their country and be part of the greatest rescue mission of all: making disciples for Jesus Christ!

Local Identities in Late Medieval and Early Modern England Daniel Woolf, 2007-10-17
Inspired by the path-breaking work of Robert Tittler, the authors explore late Medieval and Early Modern community and identity across England. They examine the decline of neighbourliness, the politics of market towns, clerical status, charity, crime, and ways in which overlapping communities of court and country, London and Lancashire, relate.

Palgrave Dictionary of Emerging Markets and Transition Economics Jens Hölscher, Horst Tomann, 2015-10-21
The period of transition from socialism to capitalism in parts of Europe and Asia over the past 25 years has attracted considerable interest in academia and beyond. From the Editors of Palgrave's iconic series 'Studies in Economic Transition' comes the Palgrave Dictionary of Emerging Markets and Transition Economics. This dictionary addresses the needs of students, lecturers and the interested general public to quickly find definitions and explanations of topics, institutions, personalities and processes in this historical phase of changing societies, which as such is not concluded. Today newly emerging market economies try to learn from the experiences of transition economies. Those who love The New Palgrave Dictionary of Economics will enjoy the format of this Dictionary, which uses an encyclopaedia-based approach, where articles not only define the terms but provide an overview of the evolution of the term or theory and also touch on the current debates.

Crime and Punishment in Tudor England April Taylor, 2023-10-31
Crime and Punishment in Tudor England tells the story of the enactment of law and its penalties from Henry VII to Elizabeth I. The sixteenth century was remarkable in many ways. In England, it was the century of the Tudor Dynasty. It heralded the Reformation, William Shakespeare, the first appearance of bottled beer in

London pubs, Sir Francis Drake, and the Renaissance. Oh, and the Spanish Armadas—all five of them! Yes, five armadas and all failures. It was a watershed century for crime and punishment. Henry VII's paranoia about the loyalty of the nobility led to military-trained vagrants causing mayhem and murder. Henry VIII's Reformation meant executions of those refusing to take the Oath of Supremacy. State-controlled religion—summed up through the five reigns as Roman Catholic; Anglo-Catholic; Protestant; Roman Catholic, and Sort of Protestant but I don't mind so long as you swear the Oath of Supremacy—became an increasingly complex, not to say confusing, issue for ordinary people. Although primary sources are rare and sometimes incomplete, the life of criminals and the punishments meted out to them still fascinates. Read about John Daniell and how he tried to blackmail the Earl of Essex; the Stafford insurrection of 1486, the first serious opposition to the new king; the activities of con-man extraordinaire, Gregory Wisdom, and many more. Crime and punishment didn't start with the Tudors and this book summarizes judicial practices built on tradition from the Roman occupation. It covers often gory details—what happens to the body when it is beheaded, burned, boiled, or hanged? Arranged in alphabetical order of crimes, it recounts tales of blackmail, infanticide, kidnapping, heresy, and sumptuary laws. Told with occasional low-key humor, the book also includes Tavern Talk, snippets of quirky information. Dip into it at your pleasure.
