Gerald A. McWorter,Kate Williams

Only Revolutions Mark Z. Danielewski, 2006 Moving back and forth in American history, a kaleidoscopic novel follows Hailey and Sam, two wayward teenagers, as they crash New Orleans parties, barrel up the Mississippi, head through the Badlands, and take on other adventures.

New Philadelphia Gerald A. McWorter, Kate Williams, 2018 New Philadelphia chronicles the history of a town founded in 1836 in Central Illinois by a freed slave. The book covers the history of the town, the inhabitants, their descendants, and the archeological digs.

On Paradise Drive David Brooks, 2004-06-02 The author of the acclaimed bestseller *Bobos in Paradise*, which hilariously described the upscale American culture, takes a witty look at how being American shapes us, and how America's suburban civilization will shape the world's future. Take a look at Americans in their natural habitat. You see suburban guys at Home Depot doing that special manly, waddling walk that American men do in the presence of large amounts of lumber; super-efficient ubermoms who chair school auctions, organize the PTA, and weigh less than their children; workaholic corporate types boarding airplanes while talking on their cell phones in a sort of panic because they know that when the door closes they have to turn their precious phone off and it will be like somebody stepped on their trachea. Looking at all this, you might come to the conclusion that we Americans are not the most profound people on earth. Indeed, there are millions around the world who regard us as the great bimbos of the globe: hardworking and fun, but also materialistic and spiritually shallow. They've got a point. As you drive through the sprawling suburbs or eat in the suburban chain restaurants (which if they merged would be called Chili's Olive Garden Hard Rock Outback Cantina), questions do occur. Are we really as shallow as we look? Is there anything that unites us across the divides of politics, race, class, and geography? What does it mean to be American? Well, mentality matters, and sometimes mentality is all that matters. As diverse as we are, as complacent as we sometimes seem, Americans are united by a common mentality, which we have inherited from our ancestors and pass on, sometimes unreflectingly, to our kids. We are united by future-mindedness. We see the present from the vantage point of the future. We are tantalized, at every second of every day, by the awareness of grand possibilities ahead of us, by the bounty we can realize just over the next ridge. This mentality leads us to work feverishly hard, move more than any other people on earth, switch jobs, switch religions. It makes us anxious and optimistic, manic and discombobulating. Even in the superficiality of modern suburban life, there is some deeper impulse still throbbing in the heart of average Americans. That impulse is the subject of this book.

Challenged by Coeducation Leslie Miller-Bernal, Susan L. Poulson, 2007-01-22 Challenged by Coeducation details the responses of women's colleges to the most recent wave of Women's colleges originated in the mid-nineteenth century as a response to women's exclusion from higher education. Women's academic successes and their persistent struggles to enter men's colleges resulted in coeducation rapidly becoming the norm, however. Still, many prestigious institutions remained single-sex, notably most of the Ivy League and all of the Seven Sisters colleges. In the mid-twentieth century colleges' concerns about finances and enrollments, as well as ideological pressures to integrate formerly separate social groups, led men's colleges, and some women's colleges, to become coeducational. The admission of women to practically all men's colleges created a serious challenge for women's colleges. Most people no longer believed women's colleges were necessary since women had virtually unlimited access to higher education. Even though research spawned by the women's movement indicated the benefits to women of a room of their own, few young women remained interested in applying to women's colleges. Challenged by Coeducation details the responses of women's colleges to this latest wave of coeducation. Case studies written expressly for this volume include many types of women's colleges-Catholic and secular; Seven Sisters and less prestigious; private and state; liberal arts and more applied; northern, southern, and western; urban and rural; independent and coordinated with a coeducational institution. They demonstrate the principal ways women's colleges have adapted to the new coeducational era: some have been taken over or closed, but most have changed by admitting men and thereby becoming coeducational, or by offering new programs to different populations. Some women's colleges, mostly those that are in cities, connected to other colleges, and prestigious with a high endowment, still enjoy success. Despite their dramatic drop in numbers, from 250 to fewer than 60 today, women's colleges are still important, editors Miller-Bernal and Poulson argue. With their commitment to enhancing women's lives, women's colleges and formerly women's colleges can serve as models of egalitarian coeducation.

Free Frank Juliet E.K. Walker, 2021-10-21 The story of Free Frank is not only a testament to human courage and resourcefulness but affords new insight into the American frontier. Born a slave in the South Carolina piedmont in 1777, Frank died a free man in 1854 in a town he had founded in western Illinois. His accomplishments, creditable for any frontiersman, were for a black man extraordinary. We first learn details of Frank's life when in 1795 his owner moved to Pulaski County, Kentucky. We know that he married Lucy, a slave on a neighboring farm, in 1799. Later he was allowed to hire out his time, and when his owner moved to Tennessee, Frank was left in charge of the Kentucky farm. During the War of 1812, he set up his own saltpeter works, an enterprise he maintained until he left Kentucky. In 1817 he purchased his wife's freedom for \$800; two years later he bought his own liberty for the same price. Now free, he expanded his activities, purchasing land and dealing in livestock. With his wife and four of his children, Free Frank left Kentucky in 1830 to settle on a new frontier. In Pike County, Illinois, he purchased a farm and later, in 1836, platted and successfully promoted the town of New Philadelphia. The desire for freedom was an obvious spur to his commercial efforts. Through his lifetime of work he purchased the liberty of sixteen members of his family at a cost of nearly \$14,000. Goods and services commanded a premium in the life of the frontier. Free Frank's career shows what an exceptional man, through working against great odds, could accomplish through industry, acumen, and aggressiveness. His story suggests a great deal about business activity and legal practices, as well as racial conditions, on the frontier. Juliet Walker has performed a task of historical detection in recreating the life of Free Frank from family traditions, limited personal papers, public documents, and secondary sources. In doing so, she has added a significant chapter to the history of African Americans.

Nikki Haley's Lessons from the New South Wanda Little Fenimore,2023-05-30 In this book, Wanda Little Fenimore traces the resurrection of the phrase "New South" with South Carolina's governor, Nikki Haley. Through analyzing speeches, Fenimore demonstrates how politicians use historical terms in new ways that obscure their roots, but remain oppressive in the twenty-first century.

Invertebrate America E. N. Haley,2004-09 Invertebrate America (IA) gives an overview of America's declining moral and spiritual values from a biblical perspective. It explains God's impending judgement on a nation that calls evil good and good evil vis-a-vis: same sex marriage, homosexuality, corporate greed, secret societies surreptitiously influencing business, education, and government. It shares how biblical prophecy is being fulfilled right before our very eyes. Read the books of Daniel, Zechariah, Ezekiel, Isaiah, Matthew and Revelation. It sheds some light on the coming one world government and one world religion. In short IA is a wakeup call to those who are searching for the truth and purpose of this world's existence! Learn why George Washington was leery of a two party dominated political system.

Adolescent Health Services Institute of Medicine,National Research Council,Board on Children, Youth, and Families,Committee on Adolescent Health Care Services and Models of Care for Treatment, Prevention, and Healthy Development,2009-01-03 Adolescence is a time of major transition, however, health care services in the United States today are not designed to help young people develop healthy routines, behaviors, and relationships that they can carry into their adult lives. While most adolescents at this stage of life are thriving, many of them have difficulty gaining access to necessary services; other engage in risky behaviors that can jeopardize their health during these formative years and also contribute to poor health outcomes in adulthood. Missed opportunities for disease prevention and health promotion are two major problematic features of our nation's health services system for adolescents. Recognizing that health care providers play an important role in fostering healthy behaviors among adolescents, Adolescent Health Services examines the health status of adolescents and reviews the separate and uncoordinated programs and services delivered in multiple public and private health care settings. The book provides guidance to administrators in public and private health care agencies, health care workers, guidance counselors, parents, school administrators, and policy makers on investing in, strengthening, and improving an integrated health system for adolescents.

La tirannia degli esperti William Easterly,2015-03-01T00:00:00+01:00 L'approccio tecnocratico non si cura della vera causa della povertà: il potere senza controlli dello Stato a danno di cittadini poveri e senza diritti. Easterly dimostra che una crescita economica più rapida non può essere la motivazione per calpestare i diritti degli individui e i valori democratici. Joseph Stiglitz, Premio Nobel per l'Economia L'approccio tecnocratico allo sviluppo poggia su una premessa sbagliata: che gli abitanti dei paesi poveri siano troppo inaffidabili per lasciare che prendano da soli le proprie decisioni. Easterly dimostra che questo presupposto è doppiamente errato: è moralmente offensivo e politicamente sbagliato. Paul Romer, New York University Easterly è semplicemente l'economista più interessante e provocatorio fra tutti quelli che oggi scrivono di tematiche legate allo sviluppo. Francis Fukuyama, Stanford University William Easterly ricostruisce le politiche per lo sviluppo economico messe in atto in Asia, Africa e America Latina da organizzazioni come la Banca Mondiale, le Nazioni Unite, la Gates Foundation, le agenzie di aiuti più note. La sua analisi evidenzia i gravi errori dell'approccio tecnocratico.

Muhammad Ali Barbara L. Tischler,2015-10-30 Muhammad Ali was not only a champion athlete, but a cultural icon. While his skill as a boxer made him famous, his strong personality and his identity as a black man in a country in the midst of the struggle for civil rights made him an enduring symbol. From his youth in segregated Louisville, Kentucky, to his victory in the 1960 Olympics, to the controversy that surrounded his conversion to Islam and refusal of the draft during the Vietnam War, Ali's life was closely linked to the major social and political struggles of the 1960s and 70s. The story of his struggles, failures, and triumphs sheds light on issues of race, class, religion, dissent, and the role of sports in American society that affected all Americans. In this lively, concise biography, Barbara L. Tischler introduces students to Ali's life in social and political context, and explores his enduring significance as a symbol of resistance. Muhammad Ali: A Many of Many Voices offers the perfect introduction to this extraordinary American and his times.

Aerial Robotics in Agriculture K. R. Krishna,2021-04-15 This important volume provides a plethora of information on aerial vehicles and their possible roles in revolutionizing agricultural procedures through spectral analysis of terrains, soils, crops, water resources, diseases, floods, drought, and farm activities. There are several semi-autonomous and autonomous (robotic) aerial vehicles that are examined for their efficiency in offering detailed spectral data about agrarian regions and individual farms. Among them, small drone aircrafts such as fixed-winged and copter models have already caught the imagination of farmers. They are spreading fast in every nook and corner of the farm world. However, there are many more aerial robots that are utilized in greater detail during farming. In this volume, the focus is on aerial vehicles such as parafoils, blimps, aerostats, and kites, and how they are being evaluated for use in experimental farms and fields. A few aerial vehicles, such as robotic parafoils, have been adopted to procure aerial spectral data and visual imagery to aid agronomic procedures. These and other aerial robots are expected to change and improve the use of the sky in agricultural endeavors and the way we conduct agronomic procedures in the very near future. This volume is a timely resource for agricultural researchers, professors and students, and the general public who are interested in aerial vehicles.

The Whirlwind War Frank N. Schubert,1995 CMH Publication 70-30. Edited by Frank N. Schubert and TheresaL. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index.

Media and the Affective Life of Slavery Allison Page,2022-03-08 How media shapes our actions and feelings about race Amid fervent conversations about antiracism and police violence, *Media and the Affective Life of Slavery* delivers vital new ideas about how our feelings about race are governed and normalized by our media landscape. Allison Page examines U.S. media from the 1960s to today, analyzing how media culture instructs viewers to act and feel in accordance with new racial norms created for an era supposedly defined by an end to legal racism. From the classic television miniseries *Roots* to the edutainment video game *Mission 2: Flight to Freedom* and the popular website slaveryfootprint.org, *Media and the Affective Life of Slavery* provides an in-depth look at the capitalist and cultural artifacts that teach the U.S. public about slavery. Page theorizes media not only as a system of representation but also as a technology of citizenship and subjectivity, wherein race is seen as a problem to be solved. Ultimately, she argues that visual culture works through emotion, a powerful lever for shaping and managing racialized subjectivity. *Media and the Affective Life of Slavery* delivers compelling, provocative material and includes a wealth of archival research into such realms as news, entertainment, television, curricula, video games, and digital apps, providing new and innovative scholarship where none currently exists.

Strategies of Dominance P. Edward Haley,2006-05-30 In a critical overview of U.S. foreign policy since the end of the Cold War, P. Edward Haley draws surprising connections between key elements of George W. Bush's foreign policy and those of his predecessor, Bill Clinton. This is the only book covering the foreign policies of all three post--Cold War presidents -- George H. W. Bush, William J. Clinton, and George W. Bush.

Georgia O'Keeffe, A Private Friendship, Part I Nancy Hopkin Reily,2014-12-01 The time is 1887. From any window in Georgia O'Keeffe's Sun Prairie, Wisconsin birthplace home she only saw the Wisconsin prairie with its traces of roads veering around the flat marshlands and a vast sky that lifted her soul. At twelve years of age Georgia had a defining moment when she declared, "I want to be an artist." Years later from her east-facing window in Canyon, Texas she observed the Texas Panhandle sky with its focus points on the plains and a great canyon of earth history colors streaking across the flat land. Georgia's love of the vast, colorful prairie, plains and sky again gave definition to her life when she discovered Ghost Ranch north of Abiquiu, New Mexico. She fell prey to its charms which were not long removed from the echoes of the "Wild West." These views of prairie, plains and sky became Georgia's muses as she embarked on her step-by-step path with her role models--Alon Bement, Arthur Jerome Dow and Wassily Kandinsky. In this two-part biography of which this is Part I covering the period 1887--1945, Nancy Hopkins Reily "walks the Sun Prairie Land," as if in Georgia's day as a prologue to her family's friendship with Georgia in the 1940s and 1950s. Reily chronicles Georgia's defining days within the arenas of landscape, culture, people and the history surrounding each, a discourse level that Georgia would easily recognize.
