Breast Reconstruction Aldona Spiegel,2013-07-31 In breast reconstruction, flap based procedures and implant based procedures are the two major modalities that have emerged as surgical options for patients. These are both continuing to evolve as new, innovative techniques help to improve outcomes and patient satisfaction. This book is divided into four sections. The first section includes overviews of mastectomy options and considerations in breast reconstruction procedure selection. The next section comprises non microsurgical reconstruction options which include implant based reconstruction refinements, the emerging role of fat grafting, and a novel technique of robotic latissimus flap harvesting. The third section is devoted to microsurgical reconstruction including flap refinements, tips and tricks, as well as advice on handling difficult situations. The final section includes the growing field of lymphedema surgery which is an important addition to breast reconstruction.

Freedom Journey Edythe Ann Quinn,2015-01-31 The story of thirty-six African American men who drew upon their shared community of The Hills for support as they fought in the Civil War. Through wonderfully detailed letters, recruit rosters, and pension records, Edythe Ann Quinn shares the story of thirty-five African American Civil War soldiers and the United States Colored Troop (USCT) regiments with which they served. Associated with The Hills community in Westchester County, New York, the soldiers served in three regiments: the 29th Connecticut Infantry, 14th Rhode Island Heavy Artillery (11th USCT), and the 20th USCT. The thirty-sixth Hills man served in the Navy. Their ties to family, land, church, school, and occupational experiences at home buffered the brutal indifference of boredom and battle, the ravages of illness, the deprivations of unequal pay, and the hostility of some commissioned officers and white troops. At the same time, their service among kith and kin bolstered their determination and pride. They marched together, first as raw recruits, and finally as seasoned veterans, welcomed home by generals, politicians, and above all, their families and friends. Edythe Ann Quinn is Professor of History at Hartwick College.

**Web Journalism** James Glen Stovall,2004 Journalism on the Web explores the current practices and future possibilities of Web journalism and examines the characteristics of the Web that distinguish it from traditional media. The author guides students through discussion of the traditional practices of journalism, such as reporting, editing, photojournalism, and design, while showing how the distinguishing features of the Web -- capacity,

immediacy, flexibility, permanency, and interactivity - offer new storytelling possibilities. The traditional principles of journalism, particularly journalistic writing that emphasizes accuracy, clarity, precision and efficiency, are emphasized throughout the text. Features The first three chapters offer an in-depth examination of the Web as an individual news medium, taking students beyond the idea that Web news is simply a newspaper on screen. An inside look at MSNBC provides students with an idea of what it's like to be inside a 24-hour Web news organization (Ch. 13). Three chapters on lateral thinking ask students to think beyond the traditional narrative storytelling forms of the inverted pyramid and present a variety of forms and structures to present information (4, 5, & 6). Cool Ideas sidebars, located throughout the book, offer short descriptions of innovative ideas of Web journalism, to stimulate creative thinking. Web site references at the end of each chapter provide professors with the best sites available for keeping up with advances in Web journalism.

**The Global Muslim Brotherhood in Britain** Damon L. Perry,2018-07-17 Since 2011, with the British Government's counter-radicalisation strategy, Prevent, non-violent Islamist groups have been considered a security risk for spreading a divisive ideology that can lead to radicalisation and violence. More recently, the Government has expressed concerns about their impact on social cohesion, entryism, and women's rights. The key protagonists of non-violent Islamist 'extremism' allegedly include groups and individuals associated with the Muslim Brotherhood and Jama'at-i-Islami. They have been described as part of the 'global Muslim Brotherhood', but do they constitute a singular phenomenon, a social movement? This book shows that such groups and individuals do indeed comprise a movement in Britain, one dedicated to an Islamic 'revival'. It shows how they are networked organisationally, bonded through ideological and cultural kinship, and united in a conflict of values with the British society and state. Using original interviews with prominent revivalist leaders, as well as primary sources, the book also shows how the movement is not so much 'Islamist' in aspiring for an Islamic state, but concerned with institutionalising an Islamic worldview and moral framework throughout society. The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields, including education, governance, law, and counterterrorism. But this does not simply concern the direction of Government policy or the control of state institutions. It most fundamentally concerns the symbolic authority to legitimise a way of seeing, thinking and living. By assessing this multifaceted conflict, the book presents an exhaustive and up-to-date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities. It will be useful for anyone studying Islam in the West, government counter-terrorism and counter-extremism policy, multiculturalism and social cohesion.

Kill It to Save It Dolgon, Corey,2017-04-05 How have powerful Americans convinced their fellow citizens to support policies beneficial only to the

wealthy? Why have so many given up on public education, safe food and safe streets, living wages – even on democracy itself? Kill it to Save it lays bare the hypocrisy of US political discourse by documenting the story of capitalism's triumph over democracy. As the Progressive Left tries to understand how President Trump came to power, Corey Dolgon documents his historical, political and cultural road map. Dolgon argues that American citizens now accept policies that destroy the public sector and promote political stories that feel right "in the gut", regardless of science or facts. Covering the post-Vietnam era to present day, Dolgon dismantles US common sense cultural discourse and explains why the endless crisis in US policy will continue until American citizens recognize what has been lost, and in whose interest.

**Cooking Up the Past** Christopher Mee,Josette Renard (Prof.),2007 This volume focuses on the ways in which the production and consumption of

food developed in the Aegean region in the Neolithic and Early Bronze Age, to see how this was linked to the appearance of more complex forms of social organisation. Sites from Macedonia in the north of Greece down to Crete are discussed and chronologically the papers cover not only the Neolithic and Early Bronze Age but extend into the Middle and Late Bronze Age and Classical period as well. The evidence from human remains, animal and fish bones, cultivated and wild plants, hearths and ovens, ceramics and literary texts is interpreted through a range of techniques, such as residue and stable isotope analysis. A number of key themes emerge, for example the changes in the types of food that were produced around the time of the Final Neolithic-Early Bronze Age transition, which is seen as a particularly critical period, the ways in which foodstuffs were stored and cooked, the significance of culinary innovations and the social role of consumption.

In this widely acclaimed book, Ted Halstead and Michael Lind explain why today’s ideologies and institutions are so ill-suited to the Information Age, and offer a groundbreaking blueprint for updating all sectors of America society. Taking on partisans and experts on both sides of the political divide, they propose far-reaching reforms for the way we provide health and retirement security, collect taxes, organize elections, enforce civil rights, and educate our children. Twice before the United States has dramatically reconfigured itself, shifting from an agrarian to an industrial society after the Civil War and successfully adapting to the massive technological and demographic changes of the early twentieth century during the New Deal era. Uniting a sweeping historical vision with bold policy proposals, *The Radical Center* shows us how to reinvent our nation once again so that all Americans can reap the benefits of the Information Age.
