Dynamic Web Development Prof. Hardik K. Molia, 2014-05-12 This book presents a theoretical as well as practical approach to the Dynamic Web Development. It is intended to provide the readers not only with a good understanding of all the components of ASP programming, but also with a real sense of how they actually fit together to make a web application. The simple yet strong, easy yet effective, compact yet complete descriptions of every topic will surely help students to build confidence and interest towards the web programming. The book gives a large number of ready to code examples in a simplest language which helps students to digest well.

Emerging Business and Trade Opportunities Between Oceania and Asia Hooke, Angus, Vachharajani, Hardik, Kaur, Harpreet, Dow, Kevin E., 2020-09-25 Asia and Oceania are close geographically, have complementary trade and investment opportunities, and have developed strong business relationships during recent decades. The rapid growth of Asia has provided huge two-way opportunities in trade and investment for businesses in these areas. In the coming decades, continued strong growth in East Asia is likely to be accompanied by even stronger growth in South Asia. Businesses in Oceania are generally better placed than those of Western Europe and North America to take early advantage of the burgeoning opportunities in Asia. *Emerging Business and Trade Opportunities Between Oceania and Asia* is a comprehensive reference that comprises research on the latest business ventures and developments that are being forged between countries that include Australia, China, and India. This book provides insight into general knowledge about the trade and investment policies and patterns of the two areas and specific knowledge about

more targeted trade and investment opportunities. Covering a plethora of topics such as economic development, knowledge management, and start-ups across a wide range of industries that include tourism and hospitality, elderly care services, and information technology sectors, it is ideal for existing and new business entrepreneurs in Oceania and Asia; economic and political commentators; and researchers, academics, and students working in the fields of economics and business-oriented disciplines. Additionally, business professionals and financial investors can use the book to gain a deeper understanding of investment opportunities in areas such as health and tourism, and business consultants can utilize it to develop road maps for their clients of future business opportunities in what will continue to be the largest and most rapidly growing part of the world economy.

The Belt and Road Initiative Faisal Ahmed, Alexandre Lambert, 2021-11-29 This book studies the geopolitical and geoeconomic aspects of China's Belt and Road Initiative (BRI). It argues that the BRI has the potential to redesign the spatial and territorial dimensions of governance and effectively counterbalance the hitherto predominant hegemonies of the Anglo-American sea power. The volume: Highlights the main geopolitical patterns, including geographical, economic, financial, technological, and strategic factors guiding the BRI on a global scale Presents a historical account of the development of the Silk Road and underlines its contemporary relevance Traces China's growing influence from Eurasia to America Discusses how the Initiative is likely to transform international relations by the middle of the 21st century. A comprehensive guide to China's rise as the new centre of gravity in global geopolitics, the book will be indispensable for students of political studies, geopolitics, international relations, and foreign policy. It will also be useful for policymakers,

strategic investors, think tanks, and government officials.

Treatise - the London Diaries Dr. Anupama Rajesh, Dr. Gurinder Singh, Dr. Sanjeev Bansal, Prateek Mangal, Nirav Sahni, 2018-05-09 London, the very name of this iconic capital of United Kingdom evokes strong emotions and associations, wanderlust, fashion shopping, a plush lifestyle, land of the rich and famous, architecture dated back hundreds of years, rainy days, teatime; well, the list is endless. Wonders and joys of living in a multicultural, multiethnic, international city like London abound. This book, *Treatise - the London Diaries* is a compendium of scholarly articles, experiences, viewpoints, research reports, and even some historical accounts all with a perspective to London and United Kingdom and is intended for a very wholistic reading experience.

Machine Learning with Health Care Perspective Vishal Jain, Jyotir Moy Chatterjee, 2020-03-09 This unique book introduces a variety of techniques designed to represent, enhance and empower multi-disciplinary and multi-institutional machine learning research in healthcare informatics. Providing a unique compendium of current and emerging machine learning paradigms for healthcare informatics, it reflects the diversity, complexity, and the depth and breadth of this multi-disciplinary area. Further, it describes techniques for applying machine learning within organizations and explains how to evaluate the efficacy, suitability, and efficiency of such applications. Featuring illustrative case studies, including how chronic disease is being redefined through patient-led data learning, the book offers a guided tour of machine learning algorithms, architecture design, and applications of learning in healthcare challenges.

Fine Particle (2.5 microns) Emissions John D. McKenna,James H. Turner,James P. McKenna, Jr.,2008-09-17 Research has shown that inhaling fine particles is a greater health risk than breathing larger particles. Title is very timely...needed NOW, according to one reviewer Covers a controversial but important topic, for which there is a lack of literature and hence guidance for those professionals affected by it Covers legislative background and gives insight into regulatory and technical matters such as measurement and control of fine particle emissions Combines the practical, theoretical, and regulatory areas of fine particulate monitoring, with reference to the regulated community Written by a recognized authority with over 30 years of pollution control experience

Advances in Manufacturing Systems Shailendra Kumar,K. P. Rajurkar,2021-02-25 This book presents the select proceedings of the International Conference on Recent Advances in Manufacturing (RAM 2020). The volume focuses on latest research trends in manufacturing systems such as CAE, CAD/CAM, robotics and automation, reverse engineering, resource planning and simulation, computer-integrated manufacturing (CIM) systems, product life-cycle management, collaborative engineering, process monitoring

control and traceability technologies, supply chain management, environment risk analysis, and manufacturing systems of renewable energy devices. The topics covered also include emerging fields of the fourth industrial revolution such cyber physical systems and cyber security, and wireless sensors and sensor networks for manufacturing. This book will be of interest to researchers and practitioners interested in latest developments in the field of manufacturing systems.

Soft Computing: Theories and Applications Millie Pant, Tarun K. Sharma, Om Prakash Verma, Rajesh Singla, Afzal Sikander, 2020-02-24 The book focuses on soft computing and its applications to solve real-world problems in different domains, ranging from medicine and health care, to supply chain management, image processing and cryptanalysis. It includes high-quality papers presented at the International Conference on Soft Computing: Theories and Applications (SoCTA 2018), organized by Dr. B. R. Ambedkar National Institute of Technology, Jalandhar, Punjab, India. Offering significant insights into soft computing for teachers and researchers alike, the book inspires more researchers to work in the field of soft computing.

Minimally Invasive Glaucoma Surgery Chelvin C. A. Sng, Keith Barton, 2021 The book is provided open access under a CC BY 4.0 license. This book covers all aspects of minimally invasive glaucoma surgery (MIGS) and provides detailed information on each MIGS device, including its mechanism of action; patient selection; implantation techniques; post-operative management; and a review of the existing literature. Step-by-step descriptions are provided for the surgical technique used in implanting each MIGS device, accompanied

by clear photographs of each surgical stage. Other areas covered include intra-operative gonioscopy (with tips on optimising the view of the anterior chamber angle) and the management of the intra-operative and post-operative complications. Essential information on the anatomy and physiology of the different aqueous outflow pathways is also included. A separate chapter addresses the introduction of MIGS globally, including the consideration of different reimbursement environments and the different types of glaucoma, e.g. angle closure glaucoma. This book will assist both glaucoma surgeons and general ophthalmologists in overcoming the learning curve involved in performed MIGS, by providing valuable and practical clinical pearls.

Information and Communication Technology for Intelligent Systems Tomonobu Senjyu, Parikshit N. Mahalle, Thinagaran Perumal, Amit Joshi, 2020-10-29 This book gathers papers addressing state-of-the-art research in all areas of information and communication technologies and their applications in intelligent computing, cloud storage, data mining and software analysis. It presents the outcomes of the Fourth International Conference on Information and Communication Technology for Intelligent Systems, which was held in Ahmedabad, India. Divided into two volumes, the book discusses the fundamentals of various data analysis techniques and algorithms, making it a valuable resource for researchers and practitioners alike.

ICRRM 2019 – System Reliability, Quality Control, Safety, Maintenance and Management Vinit Kumar Gunjan, Sri Niwas Singh, Tran Duc-Tan, Gloria Jeanette Rincon Aponte, Amit Kumar, 2019-06-13 Content of this proceedings discusses emerging trends in structural reliability, safety and disaster management, covering topics like total quality

management, risk maintenance and design for reliability. Some papers also address chemical process reliability, reliability analysis and engineering applications in chemical process equipment systems and includes a chapter on reliability evaluation models of chemical systems. Accepted papers from 2019 International Conference on Reliability, Risk Maintenance and Engineering Management (ICRRM 2019) are part of this conference proceeding. It offers useful insights to road safety engineers, disaster management professionals involved in product design and probabilistic methods in manufacturing systems.

Advanced Informatics for Computing Research Dharm Singh, Balasubramanian Raman, Ashish Kumar Luhach, Pawan Lingras, 2017-07-21 This book constitutes the refereed proceedings of the First International Conference on Advanced Informatics for Computing Research, ICAICR 2017, held in Jalandhar, India, in March 2017. The 32 revised full papers presented were carefully reviewed and selected from 312 submissions. The papers are organized in topical sections on computing methodologies, information systems, security and privacy, network services.

Eleven Gods and a Billion Indians Boria Majumdar, 2018-04-06 *Eleven Gods and a Billion Indians* goes deep into every Indian cricket tour since 1886—taking the reader backstage to when India played its first test in 1932, and bringing the story forward to the more contemporary IPL—to provide a complex and nuanced understanding of the evolution and maturity of the game. Equally, it comes with material that has never entered the public domain so far—going behind the scenes of cases like Monkeygate, the suspension of Lalit Modi, spot-fixing, and the phase of judicial intervention. It carries not just reportage

and analysis, but also player reminiscences, personal interviews, photographs and letters never known or discussed so far in Indian sporting discourse. Weaving together such material, *Eleven Gods and a Billion Indians* unflinchingly confronts questions that demand answering, among them: Has internal bickering impacted the on field performance of the Indian cricket team? Did some of our icons fail the country and the sport by trying to conceal important facts during the spot-fixing investigation? And does it matter to the ordinary fan who heads the BCCI as long as there is transparency and accountability in the system? In the end, in telling the story of the role of cricket in colonial and post-colonial Indian life, and the inter-relationship between those who patronize, promote, play and view the sport. *Eleven Gods and a Billion Indians* unravels the story of a nation now considered the financial nerve centre of world cricket.

Learning Tableau 2019 Joshua N. Milligan, 2019-03-27 Create powerful data visualizations and unlock intelligent business insights with Tableau Key Features Explore all the latest Tableau 2019 features and redefine business analytics for your organization Create impressive data visualizations and interactive dashboards to get insights from your data Learn effective data storytelling to transform how your business leverages data and makes decisions Book Description Tableau is the gold standard of business intelligence and visual analytics tools in every industry. It enables rapid data visualization and interpretation with charts, graphs, dashboards, and much more. Updated with the latest features of Tableau, this book takes you from the foundations of the Tableau 2019 paradigm through to advanced topics. This third edition of the bestselling guide by Tableau Zen Master, Joshua Milligan, will help you come to grips with updated features,

such as set actions and transparent views. Beginning with installation, you'll create your first visualizations with Tableau and then explore practical examples and advanced techniques. You'll create bar charts, tree maps, scatterplots, time series, and a variety of other visualizations. Next, you'll discover techniques to overcome challenges presented by data structure and quality and engage in effective data storytelling and decision making with business critical information. Finally, you'll be introduced to Tableau Prep, and learn how to use it to integrate and shape data for analysis. By the end of this book, you will be equipped to leverage the powerful features of Tableau 2019 for decision making. What you will learn

- Develop stunning visualizations that explain complexity with clarity
- Explore the exciting new features of Tableau Desktop and Tableau Prep
- Connect to various data sources to bring all your data together
- Uncover techniques to prep and structure your data for easy analysis
- Create and use calculations to solve problems and enrich analytics
- Master advanced topics such as sets, LOD calcs, and much more
- Enable smart decisions with clustering, distribution, and forecasting
- Share your data stories to build a culture of trust and action

Who this book is for This Tableau book is for anyone who wants to understand data. If you're new to Tableau, don't worry. This book builds on the foundations to help you understand how Tableau really works and then builds on that knowledge with practical examples before moving on to advanced techniques. Working experience with databases will be useful but is not necessary to get the most out of this book.

14 MeV Neutrons Vladivoj Valkovic, 2015-08-25 Despite the often difficult and time-consuming effort of performing experiments with fast (14 MeV) neutrons, these neutrons can offer special insight into nucleus and other materials because of the absence of charge.

14 MeV Neutrons: Physics and Applications explores fast neutrons in basic science and applications to problems in medicine, the environment, and security. Drawing on his more than 50 years of experience working with 14 MeV neutrons, the author focuses on: Sources of 14 MeV neutrons, including laboratory size accelerators, small and sealed tube generators, well logging sealed tube accelerators, neutron generators with detection of associated alpha particles, plasma devices, high flux sources, and laser-generated neutron sources Nuclear reactions with 14 MeV neutrons, including measurements of energy spectra, angular distributions, and deductions of reaction mechanism Nuclear reactions with three particles in the final state induced by neutrons and the identification of effects of final state interaction, quasi-free scattering, and charge-dependence of nuclear forces Charged particle and neutron detection methods, particularly position-sensitive detectors Industrial applications of nuclear analytical methods, especially in the metallurgy and coal industries Quality assurance and quality control measures for nuclear analytical methods Nuclear and atomic physics-based technology for combating illicit trafficking and terrorism Medical applications, including radiography, radiotherapy, in vivo neutron activation analysis, boron neutron therapy, collimated neutron beams, and dosimetry This book reflects the exciting developments in both fundamental nuclear physics and the application of fast neutrons to many practical problems. The book shows how 14 MeV neutrons are used in materials detection and analysis to effectively inspect large volumes in complex environments.

Pipe Inspection Robots for Structural Health and Condition Monitoring Harutoshi Ogai, Bishakh Bhattacharya, 2017-11-02 This book highlights the state-of-the-art with regard

to inline pipe investigation and structural health monitoring of pipes. The book begins with applications of pipe inspection robots, and goes on to discuss robots that are developed for a mobile platform, various sensors employed to sense defects, and different data storage/communication systems employed for damage prognosis. The book also introduces smart materials and smart sensors for use in pipe inspection robots. The contents of this book will be useful to researchers and professionals alike. The structure of the book enables its use as a text in professional training and development coursework.

Cricket 2.0 Tim Wigmore, Freddie Wilde, 2019-10-10 WISDEN BOOK OF THE YEAR 2020 Winner of The Telegraph Sports Book Awards 2020 Heartaches Cricket Book of the Year 'Fascinating . . . essential reading' - Scyld Berry 'A fascinating book, essential for anyone who wishes to understand cricket's new age' - Alex Massie, Wisden Cricketers' Almanack 'An invaluable guide' - Mike Atherton, The Times 'excellent . . . both breezily engaging, and full of the format's latest, best and nerdiest thinking' - Gideon Haigh, The Australian 'The century's most original cricket book . . . An absorbing ride . . . some of their revelations come with the startling force of unexpected thunder on a still night' - Suresh Menon, editor Wisden India Almanack Cricket 2.0 is the multi award-winning story of how an old, traditional game was revolutionised by a new format: Twenty20 cricket. The winner of the

Wisden Almanack Book of the Year award, the Telegraph Sports Book Awards' Cricket Book of the Year and selected as one of The Cricketer's greatest cricket books of all time, Cricket 2.0 is an essential read both for Test and T20 cricket lovers alike, and all those interested in modern sport. Using exclusive interviews with over 80 leading players and coaches – including Jos Buttler, Ricky Ponting, Kieron Pollard, Eoin Morgan, Brendon McCullum and Rashid Khan – Tim Wigmore and Freddie Wilde chronicle this revolution with insight, forensic analysis and story-telling verve. In the process, they reveal how cricket has been transformed, both on and off the field. Told with vivid clarity and insight, this is the extraordinary and previously misunderstood story of Twenty20, how it is reshaping the sport – and what the future of cricket will look like. Readers will never watch a T20 game in quite the same way again. For people that love cricket it's really important to read it, said Miles Jupp. I found it extraordinary.
