Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Fun, Taste, & Games John Sharp,David Thomas,2019-03-12 Reclaiming fun as a meaningful concept for understanding games and play. “Fun” is somewhat ambiguous. If something is fun, is it pleasant? Entertaining? Silly? A way to trick students into learning? Fun also has baggage—it seems inconsequential, embarrassing, child's play. In *Fun, Taste, & Games*, John Sharp and David Thomas reclaim fun as a productive and meaningful tool for understanding and appreciating play and games. They position fun at the heart of the aesthetics of games. As beauty was to art, they argue, fun is to play and games—the aesthetic goal that we measure our experiences and interpretations against. Sharp and Thomas use this fun-centered aesthetic framework to explore a range of games and game issues—from workplace bingo to Meow Wolf, from basketball to *Myst*, from the consumer marketplace to Marcel Duchamp. They begin by outlining three elements for understanding the drive, creation, and experience of fun: set-outsideness, ludic forms,

and ambiguity. Moving from theory to practice and back again, they explore the complicated relationships among the titular fun, taste, and games. They consider, among other things, the dismissal of fun by game journalists and designers; the seminal but underinfluential game *Myst*, and how tastes change over time; the shattering of the gamer community in Gamergate; and an aesthetics of play that goes beyond games.

Unlimited Players Holly Ryan,Stephanie Vie,2022-06-15 Unlimited Players provides writing center scholars with new approaches to engaging with multimodality in the writing center through the lenses of games, play, and digital literacies. Considering how game scholarship can productively deepen existing writing center conversations regarding the role of creativity, play, and engagement, this book helps practitioners approach a variety of practices, such as starting new writing centers, engaging tutors and writers, developing tutor education programs, developing new ways to approach multimodal and digital compositions brought to the writing center, and engaging with ongoing scholarly conversations in the field. The collection opens with theoretically driven chapters that approach writing center work through the lens of games and play. These chapters cover a range of topics, including considerations of identity, empathy, and power; productive language play during tutoring sessions; and writing center heuristics. The last section of the book includes games, written in the form of tabletop game directions, that directors can use for staff development or tutors can play with writers to help them develop their skills and practices. No other text offers a theoretical and practical approach to theorizing and using games in the writing center. Unlimited Players provides a new perspective on the long-standing challenges facing writing center scholars and offers insight into the complex questions raised in issues of multimodality, emerging technologies, tutor education, identity construction, and many more. It will be significant to writing center directors and administrators and those who teach tutor training courses.

Except that right now, he doesn’t know that. He can’t even remember his own name, let alone the nature of his assignment or how to complete it. All he knows is that he’s been asleep for a very, very long time. And he’s just been awakened to find himself millions of miles from home, with nothing but two corpses for company. His crewmates dead, his memories fuzzily returning, Ryland realizes that an impossible task now confronts him. Hurtling through space on this tiny ship, it’s up to him to puzzle out an impossible scientific mystery—and conquer an extinction-level threat to our species. And with the clock ticking down and the nearest human being light-years away, he’s got to do it all alone. Or does he? An irresistible interstellar adventure as only Andy Weir could deliver, *Project Hail Mary* is a tale of discovery, speculation, and survival to rival *The Martian*—while taking us to places it never dreamed of going.

They Like Jesus but Not the Church Dan Kimball,2009-05-26 Many people today, especially among emerging generations, don’t resonate with the church and organized Christianity. Some are leaving the church and others were never part of the church in the first place. Sometimes it’s because of misperceptions about the church. Yet often they are still spiritually open and fascinated with Jesus. This is a ministry resource book exploring six of the most common objects and misunderstandings emerging generations have about the church and Christianity. The objections come from conversations and interviews the church has had with unchurched twenty and thirty-somethings at coffee houses. Each chapter raises the objection using a conversational approach, provides the biblical answers to that objection, gives examples of how churches are addressing this objection, and concludes with follow-through projection suggestions, discussion questions, and resource listings.

Crafting Contemporary Pagan Identities in a Catholic Society Kathryn Rountree,2016-05-13 Contemporary western Paganism is now a global religious phenomenon with Pagans in many parts of the world sharing much in common - from a nature-revering worldview and lifestyle to a host of chants, invocations, ritual tools and magical practices. But there are also locally-specific differences. Local religious contexts, landscapes, histories, traditions, politics, values and norms all impact on local Paganisms. This is nowhere more evident than in a strongly Catholic society, where religion and culture are deeply entwined. Taking the Mediterranean society of Malta as a case study, this book invites readers inside the world of a small, hidden sub-culture. Showing what it is like being Pagan in a society where the vast majority of the population is Roman Catholic, and Catholicism permeates every sphere of public and domestic, social and political life, Rountree reveals that Paganism here is a unique brew of indigenous and global influences. Pagans employ both creativity and borrowing in constructing identities within a cultural context characterized by antagonism as well as continuity. This book explores the intersections of religious and cultural identity, the global and local, Paganism and Christianity, with insights grounded in rich ethnographic detail based on long-term fieldwork. Rountree makes invaluable comparisons with other studies of modern Pagans and their various worlds.

North of Empire Jody Berland,2009-10-07 For nearly two decades, Jody Berland has been a leading voice in cultural studies and the field of communications. In *North of Empire*, she brings together and reflects on ten of her pioneering essays. Demonstrating the importance of space to understanding culture, Berland investigates how media technologies have shaped locality, territory, landscape, boundary, nature, music, and time. Her analysis begins with the media landscape of Canada, a country that offers a unique perspective for apprehending the power of media technologies to shape subjectivities and everyday lives, and to render territorial borders both more and less meaningful. Canada is a settler nation and world power often dwarfed by the U.S. cultural juggernaut. It possesses a voluminous archive of inquiry on culture, politics, and the technologies of space. Berland revisits this tradition in the context of a rich interdisciplinary study of contemporary media culture. Berland explores how understandings of space and time, empire and margin, embodiment and technology, and nature and culture are shaped by broadly conceived communications technologies including pianos, radio, television, the Web, and satellite imaging. Along the way, she provides a useful overview of the assumptions driving communications research on both sides of the U.S.-Canadian border, and she highlights the distinctive contributions of the Canadian communication theorists Harold Innis and Marshall McLuhan. Berland argues that electronic mediation is central to the construction of social space and therefore to anti-imperialist critique. She illuminates crucial links between how space is traversed, how it is narrated, and how it is used. Making an important contribution to scholarship on globalization, Berland calls for more sophisticated accounts of media and cultural technologies and their complex “geographies of influence.”

End of Oblivion: The Great Deceit and Why We Need to Reclaim Our Spiritual Evolution Aleksandar Ostojic,2019-08-08 *End of Oblivion: The Great Deceit and Why We Need to Reclaim Our Spiritual Evolution* is an informal overview of the current state of humanity and the world, and delves into how our perceptions of reality have been drastically distorted to the point where the majority of the population cannot perceive distortion any longer. Deceit is present in every area of our lives, but beneath these secular manifestations, deeper metaphysical undercurrents are interlacing with our spiritual, evolutionary direction. Armed with a wealth of factual evidence as well as personal observations, the author puts forth a compelling explanation as to who is really behind this great deceit and offers choices on how to break free for those curious enough to ponder. It is time to remove our blindfolds, to consciously choose our path, and to reclaim the true purpose of our being - our spiritual evolution. The book reflects on the Law of One material.

Linguistic Justice on Campus Brooke R. Schreiber,Eunjeong Lee,Jennifer T. Johnson,Norah Fahim,2021-12-06 This book supports writing educators on college campuses to work towards linguistic equity and social justice for multilingual students. It demonstrates how recent advances in theories on language, literacy, and race can be translated into pedagogical and administrative practice in a variety of contexts within US higher educational institutions. The chapters are split across three thematic sections: translingual and anti-discriminatory pedagogy and practices; professional development and administrative work; and advocacy in the writing center. The book offers practice-based examples which aim to counter linguistic racism and promote language pluralism in and out of classrooms, including: teacher training, creating pedagogical spaces for multilingual students to negotiate language standards, and enacting anti-racist and translingual pedagogies across disciplines and in writing centers.
