Ancient Rome Monica M. Bontty,2020-03-17 This book shares little-known facts from and excerpts of primary source documents to correct popular misconceptions about Ancient Rome and to show how those misconceptions became widespread. Roman personalities and history have always had a larger-than-life profile in American popular culture, but most people think of this ancient civilization as merely decadent, cruel, and elitist. Most of our stereotypical conceptions of the empire and its people, however, are wrong. This book corrects popular misconceptions about the ancient Roman world, thus making ancient history relevant and accessible to modern readers and allowing modern critics of American politics and society to draw accurate comparisons. Each chapter discusses how a particular misconception developed, spread, and evolved into what we now believe to be the historical truth. Topics discussed

include crucifixion, the destruction of Carthage, Julius Caesar's last words, and Roman hygiene. Excerpts from primary source documents provide evidence of both the rise of the historical fictions and the truths behind the myths.

99 Jumpstarts for Kids Peggy Whitley, Susan Williams Goodwin, 2003-09-30 Similar to the previous 99 Jumpstarts to Research but designed for younger students, this book helps teachers and librarians to teach basic research and information literacy skills to children. This book will be an invaluable tool to help school librarians and teachers broach the difficult task of beginning to teach the research process. Grades 3-8.

Interpersonal Criminology K. Jaishankar, 2016-08-05 Based on peer-reviewed articles from the Second International Conference of the South Asian Society of Criminology and Victimology, Interpersonal Criminology investigates the roots of crime and victimization, rather than dissecting criminal behavior after the fact. The book divides crime by type, covering crimes against women, crimes against children and youths, culture conflict and victimization of groups, and interpersonal cybercrimes. Perfect for criminal justice practitioners and advanced human rights, criminology, and victimology students, Interpersonal Criminology explores the complexities of crime and interpersonal events in both established and emerging fields of criminology, including those concerning women and minorities.

Attachments to War Jennifer Terry, 2017-10-20 In Attachments to War Jennifer Terry traces how biomedical logics entangle Americans in a perpetual state of war. Focusing on the Afghanistan and Iraq wars between 2002 and 2014, Terry identifies the presence of a biomedicine-war nexus in which new forms of wounding provoke the continual development of complex treatment, rehabilitation, and prosthetic technologies. At the same time, the U.S. military rationalizes violence and military occupation as necessary conditions for advancing medical knowledge and saving lives. Terry examines the treatment of war-generated polytrauma, postinjury bionic prosthetics design, and the development of defenses against infectious pathogens, showing how the interdependence between war and biomedicine is interwoven with neoliberal ideals of freedom, democracy, and prosperity. She also outlines the ways in which military-sponsored biomedicine relies on racialized logics that devalue the lives of Afghan and Iraqi citizens and U.S. veterans of color. Uncovering the mechanisms that attach all Americans to war and highlighting their embeddedness and institutionalization in everyday life via the government, media, biotechnology, finance, and higher education, Terry helps lay the foundation for a more meaningful opposition to war.
