Markets, Minds, and Money Miguel Urquiola, 2020 Free markets made US universities world leaders in research. Economist Miguel Urquiola argues that in the late nineteenth century, entrepreneurial universities saw they could meet the industrializing country's demand for expertise. They moved away from religiously inspired teaching, and market dynamics allowed them to surpass European competitors.

Literary Depictions of Dangerous Reading Kevin R. West, 2019-04-15 This book explores how American and European books represent reading as a dangerous act. It studies works that stage depictions of reading in such a way that readers suffer actual harm from the magical or supernatural qualities of a given text. Such dangerous reading fascinates by exaggerating the dangers that inhabit real experiences of reading.

Autoimmunities Stefan Herbrechter, Michelle Jamieson, 2019-12-13 Autoimmunity refers to the phenomenon whereby an organism or body mounts an immune response against its own tissues. As a medical term, autoimmunity is today used to account for any instance in which the body fails to recognise its own constituents as 'self', an error that results in the paradoxical situation in which self-defense (immunity, protection) manifests as self-harm (pathology). As a result, the very possibility of autoimmunity poses a problem for the notion of immunity and the concept of identity that underpins it: if self-protection can just as readily take the form of self-destruction, then it seems that the very identity of the self, and thus the boundary between self and other, is in question. Conceptually, autoimmunity thus challenges us to think critically about the nature of any sovereign entity or identity, be they human or nonhuman, cells, nations, or other forms of community. This volume reflects and engages with different disciplinary approaches to autoimmunity in the theoretical, medical or posthumanities, social and political theory, and critical science studies. It aims to provide a topical intervention within the current discussion on biopolitical thought and critical posthumanist futures. This book was originally published as a special issue of Parallax.

Call Centers and the Global Division of Labor Andrew J.R. Stevens, 2014-03-26 Call centers have come, in the last three decades, to define the interaction between corporations, governments, and other institutions and their respective customers, citizens, and members. The offshoring and outsourcing of call center employment, part of the larger information technology and information-technology-enabled services sectors, continues to be a growing practice amongst governments and corporations in their attempts at controlling costs and providing new services. While incredible advances in technology have permitted the use of distant and offshore labor forces, the grander reshaping of an international political economy of communications has allowed for the acceleration of these processes. New and established labor unions have responded to these changes in the global regimes of work by seeking to organize call center workers. These efforts have been assisted by a range of forces, not least of which is the condition of work itself, but also attempts by global union federations to build a bridge between international unionism and local organizing campaigns in the Global

South and Global North. Through an examination of trade union interventions in the call center industries located in Canada and India, this book contributes to research on post-industrial employment by using political economy as a juncture between development studies, the sociology of work, and labor studies.

Death by a Thousand Cuts Michael J. Graetz, Ian Shapiro, 2011-01-11 This fast-paced book by Yale professors Michael Graetz and Ian Shapiro unravels the following mystery: How is it that the estate tax, which has been on the books continuously since 1916 and is paid by only the wealthiest two percent of Americans, was repealed in 2001 with broad bipartisan support? The mystery is all the more striking because the repeal was not done in the dead of night, like a congressional pay raise. It came at the end of a multiyear populist campaign launched by a few individuals, and was heralded by its supporters as a signal achievement for Americans who are committed to the work ethic and the American Dream. Graetz and Shapiro conducted wide-ranging interviews with the relevant players: members of congress, senators, staffers from the key committees and the Bush White House, civil servants, think tank and interest group representatives, and many others. The result is a unique portrait of American politics as viewed through the lens of the death tax repeal saga. Graetz and Shapiro brilliantly illuminate the repeal campaign's many fascinating and unexpected turns--particularly the odd end result whereby the repeal is slated to self-destruct a decade after its passage. They show that the stakes in this fight are exceedingly high; the very survival of the long standing American consensus on progressive taxation is being threatened. Graetz and Shapiro's rich narrative reads more like a political drama than a conventional work of scholarship. Yet every page is suffused by their intimate knowledge of the history of the tax code, the transformation of American conservatism over the past three decades, and the wider political implications of battles over tax policy.

The North American West in the Twenty-First Century Brenden W. Rensink, 2022 This edited volume takes stories from the modern West of the late twentieth century and carefully pulls them toward the present--explicitly tracing continuity with and unexpected divergence from trajectories established in the 1980s and 1990s.

Four Overarching Patterns of Culture Robert Strauss, Christopher Strauss, 2019-08-20 Justice has been the dominant cultural framework of people in the West for two centuries, ever since the rise of constitutional democracies. Consciously or not, most people in the West have a strong awareness of right and wrong. Their sense of morality is generally rooted in an obligation to the rule of law. In democratic societies, the rule of law ultimately relies on constitutional documents ratified by a widely-accepted process of development and implementation. For millennia, honor has been the dominant cultural framework of most people in the East and Middle East. Here, people know that speech and behavior display respect or disrespect. While pervasive in all relationships, honor and shame are most important in the family, extended family, and local community. In the East, honor is not necessarily an internal feeling, as it is in a justice culture. Honor is more often an external attribution bestowed by others rather than claimed by oneself. Harmony is prevalent globally in indigenous cultures. Many indigenous peoples do not distinguish between the supernatural and natural worlds. All aspects of life are connected. Interactions with spirit beings are the key to maintaining harmony in order to be secure. Reciprocity is a common cultural framework in the Global South. Here, one learns to develop connections with the right people in given circumstances for needed resources. These connections may or may not be characterized as friendships and provide not so much close friendships as reciprocal exchange. In some places, reciprocity is the means whereby one survives.

Brexit and the Migrant Voice Christine Berberich, 2022-09-30 Brexit and the Migrant Voice provides a platform for the

perspectives of European citizens and migrants living and working in the UK by assessing their representation in British and European cultural productions (literature, drama, the media) and by foregrounding their attitudes, their fears, and their concerns about Brexit. The book looks at Brexit through the eyes of Britain's European citizens ('Europe in Britain'), while also looking at European perceptions of Britain as a nation ('Britain in Europe'), via a geographical journey – from West to East – across Europe. The book assesses how these countries, their citizens, and their cultural productions engage with the questions and challenges posed by Brexit. It brings together an exciting line-up of European academics and scholars, both early-career and well-established, from a variety of subject disciplines. Some live and work within UK Higher Education Institutions and thus look at Britain from within, while others reside within their countries of origin and look at Britain from the outside. Their chapters assess Brexit via a plethora of cultural outputs – Brexit fiction from their individual countries, opinion pieces, press discussions, but also narratives of compatriots affected by the UK's decision to leave the European Union. The authors' individual focal points on fiction, journalism, blog posts, theatre performances, and other cultural productions offer an innovative and comprehensive picture about thoughts on Brexit from around Europe that will fill an important gap in the market. This book will appeal to the academic market at undergraduate, postgraduate, and academic researcher level in a wide variety of disciplines including Literature, Politics and International Relations, European Studies, History, Cultural Studies, Sociology, and Media Studies.

Contemporary Musical Expressions in Canada Anna Hoefnagels, Judith Klassen, Sherry Johnson, 2020-01-09 Music and dance in Canada today are diverse and expansive, reflecting histories of travel, exchange, and interpretation and challenging conceptions of expressive culture that are bounded and static. Reflecting current trends in ethnomusicology, *Contemporary Musical Expressions in Canada* examines cultural continuity, disjuncture, intersection, and interplay in music and dance across the country. Essays reconsider conceptual frameworks through which cultural forms are viewed, critique policies meant to encourage crosscultural sharing, and address ways in which traditional forms of expression have changed to reflect new contexts and audiences. From North Indian kathak dance, Chinese lion dance, early Toronto hip hop, and contemporary cantor practices within the Byzantine Ukrainian Church in Canada to folk music performances in twentieth-century Quebec, Gaelic milling songs in Cape Breton, and Mennonite songs in rural Manitoba, this collection offers detailed portraits of contemporary music practices and how they engage with diverse cultural expressions and identities. At a historical moment when identity politics, multiculturalism, diversity, immigration, and border crossings are debated around the world, *Contemporary Musical Expressions in Canada* demonstrates the many ways that music and dance practices in Canada engage with these broader global processes. Contributors include Rebecca Draisey-Collishaw (Queen's University), Meghan Forsyth (Memorial University of Newfoundland), Monique Giroux (University of Lethbridge), Ian Hayes (Memorial University of Newfoundland), Anna Hoefnagels (Carleton University), Judith Klassen (Canadian Museum of History), Chris McDonald (Cape Breton University), Colin McGuire (University College Cork), Marcia Ostashevski (Cape Breton University), Laura Risk (McGill University), Neil Scobie (University Western Ontario), Gordon Smith (Queen's University), Heather Sparling (Cape Breton University), Jesse Stewart (Carleton University), Janice Esther Tulk (Cape Breton University), Margaret Walker (Queen's University), and Louise Wrazen (York University).

The London Olympics and Urban Development Gavin Poynter, Valerie Viehoff, Yang Li, 2015-07-24 As London sought to use the Olympics to achieve an ambitious programme of urban renewal in the relatively socially deprived East London it attracted global attention and sparked debate. This book provides an in-depth study of the transformation of East London as a result of the 2012

Summer Olympic and Paralympic Games. Government and event organisers use legacies of urban renewal to justify hosting the world's leading sports mega-event, this book examines and evaluates those legacies. The London Olympics and Urban Development: the mega-event city is composed of new research, conducted by academics and policy makers. It combines case study analysis with conceptual insight into the role of a sports mega-events in transforming the city. It critically assesses the narrative of legacy as a framework for legitimizing urban changes and examines the use of this framework as a means of evaluating the outcomes achieved. This book is about that process of renewal, with a focus on the period following the 2012 Games and the diverse social, political and cultural implications of London's use of the narrative of legacy.

Debatable Space Philip Palmer,2009-05-30 Flanagan (who is, for want of a better word, a pirate) has a plan. It seems relatively simple: kidnap Lena, the Cheo's daughter, demand a vast ransom for her safe return, sit back and wait. Only the Cheo, despotic ruler of the known universe, isn't playing ball. Flanagan and his crew have seen this before, of course, but since they've learned a few tricks from the bad old days and since they know something about Lena that should make the plan foolproof, the Cheo's defiance is a major setback. It is a situation that calls for extreme measures. Luckily, Flanagan has considerable experience in this area . . .

Stakeknife's Dirty War Richard O'Rawe,2023-09-14 In this sensational exposé of British Intelligence's top informer in the upper ranks of the IRA, Richard O'Rawe delivers the most definitive account yet of the Troubles' most enigmatic, notorious and sinister figure, Freddie Scappaticci. Codenamed Stakeknife, from the late 1970s through to his eventual exposure in 2003 he was the 'jewel in the crown' of a British infiltration system designed to cause mayhem and chaos in the IRA's military operations. O'Rawe gained unprecedented access to Scappaticci's former comrades, who reveal extraordinary details of the inner workings of the IRA's Internal Security Unit. Headed by Scappaticci, this secretive group was known locally as the 'Nutting Squad' owing to its fearsome reputation for the abduction, interrogation, torture and execution of volunteers suspected of working for the British or the RUC. The political scandal at the heart of this story is that Scappaticci's intelligence handlers were aware of almost every abduction and execution he carried out prior to it taking place; a scandal that became the subject of the British government sponsored inquiry, Operation Kenova. In this compelling and extraordinary story of state-sanctioned murder and extreme moral ambiguity in the overriding quest for the protection of 'national security', the truth is truly stranger than fiction.

Toll the Hounds Steven Erikson,2008-09-16 A thrilling, harrowing novel of war, intrigue and dark, uncontrollable magic, Toll the Hounds is the new chapter in Erikson's monumental series - epic fantasy at its most imaginative and storytelling at its most exciting. In Darujhistan, the city of blue fire, it is said that love and death shall arrive dancing. It is summer and the heat is oppressive, but for the small round man in the faded red waistcoat, discomfort is not just because of the sun. All is not well. Dire portents plague his nights and haunt the city streets like fiends of shadow. Assassins skulk in alleyways, but the quarry has turned and the hunters become the hunted. Hidden hands pluck the strings of tyranny like a fell chorus. While the bards sing their tragic tales, somewhere in the distance can be heard the baying of Hounds...And in the distant city of Black Coral, where rules Anomander Rake, Son of Darkness, ancient crimes awaken, intent on revenge. It seems Love and Death are indeed about to arrive...hand in hand, dancing. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

It's Not Over Michelangelo Signorile,2015 The best-selling author of Queer in America challenges popular misconceptions to assess the present and future of gay rights, arguing that long-standing prejudices and an imminent religious conservative backlash are

compromising equality. 25,000 first printing.

The "tinkers" in Irish Literature José Lanfers,2008 Irish travellers or 'tinkers' have appeared as characters in Irish literature since the early nineteenth century. Representations of this semi-nomadic cultural and ethnic minority in works by non-traveller authors almost invariably function in some way within the context of Irish identity politics, whereby the 'tinker' often serves as a 'primitive' Other to a modern, civilized Irish Self. This study considers the 'tinker' character in a large body of serious and popular literary texts, some well known, others rarely if ever discussed, and traces how the literary construct of the 'tinker' figure as domestic or foreign Other evolves over time. Three chapters concentrate on specific historical contexts, as the 'tinker' shifts from being a relatively straightforward scapegoat in the literature of the early nineteenth century, to being a more complex and ambiguous embodiment of both the aspirations and anxieties of the Anglo-Irish writers of the Revival, to being a barometer of aspects of modernity and regression in the mid-twentieth-century Irish Republic. Three further chapters focus on thematic contexts that have particular relevance for the development of the 'tinker' figure: children's literature from and about Ireland; fabulist narratives, particularly those with plot configurations derived from Celtic mythology; and crime and detective fiction set in Ireland. Finally the way in which individual travellers represent themselves in autobiographical narratives of the late twentieth century is considered, often in response to the fictional 'tinker' stereotype that has persisted in sedentary society and its cultural expressions for centuries.

The SAGE Handbook of Human Rights Anja Mihr,Mark Gibney,2014-07-21 The SAGE Handbook of Human Rights will comprise a two volume set consisting of more than 50 original chapters that clarify and analyze human rights issues of both contemporary and future importance. The Handbook will take an inter-disciplinary approach, combining work in such traditional fields as law, political science and philosophy with such non-traditional subjects as climate change, demography, economics, geography, urban studies, mass communication, and business and marketing. In addition, one of the aspects of mainstreaming is the manner in which human rights has come to play a prominent role in popular culture, and there will be a section on human rights in art, film, music and literature. Not only

will the Handbook provide a state of the art analysis of the discipline that addresses the history and development of human rights standards and its movements, mechanisms and institutions, but it will seek to go beyond this and produce a book that will help lead to prospective thinking.
