Transfer Pricing Documentation and Country-by-country Reporting, Action 13, 2015 Final Report OCDE, 2015 This report contains revised standards for transfer pricing documentation incorporating a master file, local file, and a template for country-by-country reporting of revenues, profits, taxes paid and certain measures of economic activity. The revised standardised approach will require taxpayers to articulate consistent transfer pricing positions and will provide tax administrations with useful information to assess transfer pricing and other BEPS risks, make determinations about where audit resources can most effectively be deployed, and, in the event audits are called for, provide information to commence and target audit enquiries. Country-by-country reports will be disseminated through an automatic government-to-government exchange mechanism. The implementation package included in this report sets out guidance to ensure that the reports are provided in a timely manner, that confidentiality is preserved and that the information is used appropriately, by incorporating model legislation and model Competent Authority Agreements forming the basis for government-to-government exchanges of the reports

Build a Co-Parenting Team Peter K. Gerlach, MSW, Peter K. Msw, 2003-03-24 Note: links below connect to the non-profit educational Break the Cycle! Web site (Formerly Stepfamily inFormation). Close the pages or use your browser's back button to return here. Typical multi-home stepfamilies are riddled with conflicts between three or more co-parents and their relatives over child discipline, nutrition, visitations, custody, hygiene, religion, schooling, holidays, loyalties, expenses, names, responsibilities, and other topics. The scope, complexity, and persistence of these disputes among ex mates, stepparents, and relatives can significantly contribute to eventual re/divorce. (The / notes it may be a stepparent's first union). This guidebook is part of a series intended to help co-parents and supporters overcome five common hazards that combine to (1) promote epidemic U.S. re/divorce, and (2) pass on significant psychological wounds to vulnerable children. The hazards are: co-parents' shared unawarenesses and ignorance of key information; plus... unseen psychological wounds from low-nurturance childhoods; plus... incomplete or blocked grief in kids and/or adults, which inhibits new bonds and adult intimacy; plus... courtship neediness and romantic illusions; plus... little informed stepfamily help in the media and local community. Typical nuclear stepfamilies include three or more co-parents (bioparents and stepparents) and several minor kids shuttling between two or more homes: Parenting effectively in this environment is far more complex than in traditional intact biological families - which catches typical co-parents and relatives by surprise. Why this book (and series)? Families exist to nurture - i.e. to fill key needs of their kids and adults. Most U.S. stepfamilies follow the divorce of one or both new mates, most of whom are parents. Divorce suggests that their kids weren't well nurtured in their first family, and have many concurrent developmental + special needs to fill in their complex stepfamily.

Ruth Elizabeth Gaskell, 2008-12-01 If you want to whip me, uncle, you may do it. I don't much mind. Put in this form, it was impossible to carry out his intentions; and so Mr. Benson told the lad he might go—that he would speak to him another time. Leonard went away, more subdued in spirit than if he had been whipped. Sally lingered for a moment. She stopped to add: I think it's for them without sin to throw stones at a poor child, and cut up good laburnum branches to whip him. I only do as my betters do, when I call Leonard's mother Mrs. Denbigh. The moment she had said this she was sorry; it was an ungenerous advantage after the enemy had acknowledged himself defeated. Mr. Benson dropped his head upon his hands, and hid his face, and sighed deeply. -Chapter XIX: After Five Years As interest in 19th-century English literature by women has been reinvigorated by a resurgence in popularity of the works of Jane Austen, readers are rediscovering a writer whose fiction, once widely beloved, fell by the wayside. British novelist ELIZABETH CLEGHORN GASKELL (1810-1865)-whose books were sometimes initially credited to, simply, Mrs. Gaskell-is now recognized as having created some of the most complex and progressive depictions of women in the literature of the age, and is today justly celebrated for her precocious use of the regional dialect and slang of England's industrial North. *Ruth*-Gaskell's third novel, first published in three volumes in 1853-is notable as one of the rare instances in the fiction of the era of a positive portrayal of unwed motherhood and for its thematic condemnation of the social stigma of illegitimacy. The tale of a young woman seduced and abandoned by her lover, then taken in and protected by a kindly minister and his sister, it is remarkably progressive for the period. Friend and literary companion to the likes of Charles Dickens and Charlotte Brontë-the latter of whom Gaskell wrote an acclaimed 1857 biography-Gaskell is today being restored to her rightful

place alongside them. This charming replica volume is an excellent opportunity for 21st-century fans of British literature to embrace one of its most unjustly forgotten authors.

Captain James Cook and the Search for Antarctica James C. Hamilton,2020-05-30 A fascinating account of the famous explorer's voyages through the southern Pacific and Antarctic Oceans, based on firsthand journals and logbooks. In the mid-18th century, Captain James Cook undertook extraordinary voyages of navigation and maritime exploration to discover the Unknown Southern Continent. He accomplished and encountered much during his three voyages through the uncharted southern waters, yet his Antarctic voyages are perhaps the least studied of all his remarkable travels. Now James Hamilton's gripping and scholarly study brings together the stories of Cook's Antarctic journeys into a single volume. Using Cook's journals and the logbooks of officers who sailed with him, this volume sets his Antarctic explorations within the context of his historic voyages. Captain James Cook and the Search for Antarctica offers fascinating insight into Cook the seaman and explorer. The exceptional navigational skills of Cook and his crew are vividly depicted as they survive foul weather across uncharted and inhospitable seas.

Germanic Magic Gunivortus Goos,2019-09-27 The three parts of the book are separated fields and deal with different facets of the runes. Part 1 gives, among other things, a fair summarizing historical overview, whereby corresponding finds and their possible interpretations are not left out. Part 2 offers many passages in related mythology and the Norse sagas where runes occur, the corresponding quotes are included. These two parts form an important foundation for the third part, which deals with the use of runes in modern magical-practical usage. After decades of study of various western streams and schools of magic and a thorough study of the runes, the author has managed to combine both. The result is a unique modern rune magic, which is presented in the third part of the book.

Young Offenders on Community Orders Dianna T. Kenny,Paul K. Nelson,Istvan Schreiner,Christopher J. Lennings,Tony Butler,2008 Offending behaviour in childhood is a significant predictor of subsequent offending, offending in adulthood and chronic offending. Intervention provided at an early age and stage of offending is more effective than that provided later in the offending history. This research aimed to advance understanding of juvenile crime, its health and substance abuse patterns, cognitive correlates and offence trajectories, thereby facilitating effective policies and practices to reduce recidivism, improve health and create prosocial alternatives for young Australians at risk of a criminal career.
