**Text, Context and Performance** James A. Kapaló,2011-09-23 This ethnographic study of Gagauz religion offers an original perspective on 'folk religion' as discourse and object of study. It is also the first monograph published in a Western language on this little-known European people's history and culture.

**Charms and Charming in Europe** J. Roper,2004-11-12 Historical records of charms, the verbal element of vernacular magic, date back at least as far as the late middle ages, and charming has continued to be practiced until recently in most parts of Europe. And yet, the topic has received only scattered scholarly attention to date. By bringing together many of the leading authorities on charms and charming from Europe and North America, this book aims to rectify this neglect, and by presenting discussions covering a variety of periods and of locations - from Finland to France, and from Hungary to England - it forms an essential reader on the topic.

**Eastern Orthodoxy in a Global Age** Victor Roudometof,Alexander Agadjanian,Jerry Pankhurst,2005-06-28 Despite over 200 million adherents, Eastern Orthodox Christianity attracts little scholarly attention. While more-covered religions emerge as powerful transnational forces, Eastern Orthodoxy appears doggedly local, linked to the ethnicity and land of the now marginalized Eastern Europe. But Eastern Orthodoxy in a Global Age brings together new and nuanced understandings of the Orthodox churches—inside and outside of Eastern Europe—as they negotiate an increasingly networked world. The picture that emerges is less of a people stubbornly refusing modernization, more of a people seeking to maintain a stable Orthodox identity in an unstable world. For anyone interested in the role of Eastern Orthodoxy in the 21st century, this volume provides the place to begin.

**Orthodox Russia: Belief and Practice Under the Tsars** ,

**Theorising Religion** John Walliss,2017-10-24 Religion is controversial and challenging. Whilst religious forces are powerful in numerous societies, they have little or no significance for wide swaths of public or private life in other places. The task of theoretical work in the sociology of religion is, therefore, to make sense of this apparently paradoxical situation in which religion is simultaneously significant and insignificant. The chapters of Part One consider the classical roots of ideas about religion that dominated sociological ways of thinking about it for most of the twentieth century. Each chapter offers sound reasons for continuing to find theoretical inspiration and challenge in the sociological classics whilst also seeking ways of enhancing and extending their relevance to religion today. Part Two contains chapters that open up fresh perspectives on aspects of modern, post-modern and ultra-modern religion without necessarily ignoring the classical legacy. The chapters of Part Three chart new directions for the sociological analysis of religion by fundamentally re-thinking its theoretical basis, by extending its disciplinary boundaries and by examining previously overlooked topics.

*Fearful Hope* Christopher Kleinhenz,Fannie LeMoine,1999 Papers from conference Waiting in Fearful Hope--Madison, Wis., 21-24 September 1997.

**Conjuring Hope** Galina Lindquist,2006 Notions of magic and healing have been changing over past years and are now understood as reflecting local ideas of power and agency, as well as structures of self, subjectivity and affect. This study focuses on contemporary urban Russia and, through exploring social conditions, conveys the experience of living that makes magic logical. By following people's own interpretations of the work of magic, the author succeeds in unraveling the logic of local practice and local understanding of affliction, commonly used to diagnose the experiences of illness and misfortune.

**Letters from Heaven** John-Paul Himka,Andriy Zayarnyuk,2006 Letters from Heaven features an international group of scholars investigating the place and function of 'popular' religion in Eastern Slavic cultures. The contributors examine popular religious practices in Russia and Ukraine from the middle ages to the present, considering the cultural contexts of death rituals, miracles, sin and virtue, cults of the saints, and icons. The collection not only fills a void in religious scholarship, but also responds to current theoretical challenges. Reflecting critically on the heuristic value of popular religion and on the concept of popular culture in general, Letters from Heaven is characterized by a shift of focus from churches, institutions, and theological discourse to the religious practices themselves and their interconnections with the culture, mentality, and social structures of the societies in question. An important contribution to the fields of religion and Eastern Slavic studies, this volume challenges readers to rethink old pieties and to reconsider the function of religion.

**Religion in the Soviet Union** Walter Kolarz,2003

*Folklore, Nationalism, and Politics* Felix J. Oinas,1978

**Folklore in the Modern World** Richard M. Dorson,2011-05-12 Papers presented at the 9th International Congress of Anthropological and Ethnological Sciences, Chicago, 1973.

*The Orthodox Church* Sergii Bulgakov,1988 A classic introduction to the Orthodox Church written from within the context of the ecumenical community, addressing key doctrinal issues and providing a basis for Western Christians to understand their brothers and sisters in the Eastern Church.

*Bourdieu on Religion* Terry Rey,2014-12-05 Pierre Bourdieu was one of the most influential social theorists of our time. He developed a series of concepts to uncover the way society works and to challenge assumptions about what society is. His ideas illuminate how individuals and groups find value and meaning and so have rapidly come to be seen as hugely productive in analysing how religion works in society. 'Bourdieu on Religion' introduces students to Bourdieu's key concepts: cultural, social and symbolic capital; habitus and field; and his challenge to the structures of social inequality. This study will be invaluable to any student interested in the relationships between religion, class and social power.

*Beyond Phenomenology* Gavin Flood,1999-10-01 This book argues that the understanding and explanation of religion is always historically contingent. Grounded in the work of Bakhtin and Ricoeur, Flood positions the academic study of religion within contemporary debates in the social sciences and humanities concerning modernity and postmodernity, particularly contested issues regarding truth and knowledge. It challenges the view that religions are privileged, epistemic objects, argues for the importance of metatheory, and presents an argument for the dialogical nature of inquiry. The study of religion should begin with language and culture, and this shift in emphasis to the philosophy of the sign in hermeneutics and away from the philosophy of consciousness in phenomenology has far-reaching implications. It means a new ethic of practice which is sensitive to the power relationship in any epistemology; it opens the door to feminist and postcolonial critique, and it provides a methodology which allows for the interface between religious studies, theology, and the social sciences.

*Russian Orthodoxy on the Eve of Revolution* Vera Shevzov,2007-06 Explores sacred community, and how it functioned (or sometimes did not) in Russian Orthodoxy before the fateful historic events of the 1917 Russian Revolution.

**The Russian Annexation of Bessarabia, 1774-1828** George F. Jewsbury,1976 An exhaustive and comprehensive study of Russian foreign policy and imperialism from 1774 to 1828 focussing on Russo-Romanian relations and the ever present and controversial Bessarabian Question.

**The Bessarabian Question in Communist Historiography** Wim P. van Meurs,1994

**Global Religions** Mark Juergensmeyer,2003-03-20 Can Islam be located on a map? Is Europe the center of the Christian world? Is India a Hindu nation? While decades ago these questions were often answered in the affirmative, the truth has never been that simple. Not only are adherents of particular faiths spread across the globe, but there are many variations of a particular faith practiced side by side. This has only become more true in recent years as the pace of globalization has quickened. The essays collected here provide brief and accessible introductions to the major world religions in their global contexts. The volume begins with an introduction to the globalization of religion by Mark Juergensmeyer, and is followed by individual essays on Christianity, Islam, Judaism, Hinduism, Buddhism, and local religious societies. The book concludes with three essays reflecting on the global religious scene. Taken together, these essays provide a concise, authoritative, and highly readable introduction to the state of worldwide religion in the 21st century.

**Cultural Politics in Greater Romania** Irina Livezeanu,2018-08-06 Since the fall of the Ceausescu regime, Romanian politics have been haunted by unresolved issues of the past. Irina Livezeanu examines a critical chapter in Eastern European history–the trajectory of the aggressive nationalism that dominated Romania between the world wars.
