Jabari Tries Gaia Cornwall, 2022-02-01 Jabari is inventing a machine that will fly all the way across the yard! But making it go from CRASH to WHOOSH will take grit, patience, and maybe even a little help from his sister. Jabari is making a flying machine in his backyard! "It'll be easy. I don't need any help," he declares. But it doesn't work! Jabari is frustrated. Good thing Dad is there for a pep talk and his little sister, Nika, is there to assist, fairy wings and all. With the endearing father-child dynamic of *Jabari Jumps* and engaging mixed-media illustrations, Gaia Cornwall's tale shows that through perseverance and flexibility, an inventive thought can become a brilliant reality.

Charting the Afrofuturist Imaginary in African American Art Elizabeth Carmel Hamilton, 2022-08-12 This book examines Afrofuturism in African American art, focusing specifically on images of black women and how those images expand the discourse of representation in visual culture of the United States. This volume defines a visual language of Afrofuturism that includes materiality, temporality, and black liberation. Elizabeth Hamilton discusses the visual progenitors of Afrofuturism. In the artworks of Pierre Bennu, Sanford Biggers, Alison Saar, Mequitta Ahuja, Robert Pruitt, Renee Cox, Dawolu Jabari Anderson, Alma Thomas, and Harriet Powers, the fantastic narratives of Afrofuturism are uncovered through in-depth case studies. These case studies engage with Afrofuturism as a black

feminist visual theory that helps to unburden the images of black women from the stereotypical visual scripts that are so common in contemporary visual culture of the United States. The book will be of interest to scholars working in art history, visual studies, American literature, gender studies, popular culture, and African American studies.

Save Baseball Larry Hausner, 2024-02-09 Major League Baseball has been in crisis in recent years. Game attendance is down by millions and fan interest is in free fall. The future of the game is in jeopardy. While the League acknowledges the issues, many are stumped as to how to address them. This book explores in detail the critical challenges facing MLB, and their ramifications, along with some potential solutions. Interviews with baseball insiders, players to executives, give a perspective on baseball's struggle to reinvent itself for future generations.

Jabari Ras Dennis Jabari Reynolds, 2006

A Taste of Honey Jabari Asim, 2010 The author of *What Obama Means* presents a series of tales set in a small Midwestern community ravaged by the events of 1968, where the second-generation offspring of the Great Migrants struggle with personal challenges, police brutality and the civil rights movement. Original.

Glazed America Paul R. Mullins, 2008-09-07 Everybody loves a good doughnut. The magic combination of soft dough, hot oil, and sugar coating--with or without sprinkles--inspires a wide range of surprisingly powerful memories and cravings. Yet we are embarrassed by our desire;

the favorite food of Homer Simpson, caricatured as the dietary cornerstone of cops, a symbol of our collective descent into obesity, doughnuts are, in the words of one California consumer, a food of shame. Paul Mullins turns his attention to the simple doughnut in order to learn more about North American culture and society. Both a breakfast staple and a snack to eat any time of day or night, doughnuts cross lines of gender, class, and race like no other food item. Favorite doughnut shops that were once neighborhood institutions remain unchanged--even as their surrounding neighborhoods have morphed into strip clubs, empty lots, and abandoned housing. Blending solid scholarship with humorous insights, Mullins offers a look into doughnut production, marketing, and consumption. He confronts head-on the question of why we often paint doughnuts in moral terms, and shows how the seemingly simple food reveals deep and complex social conflicts over body image and class structure. In Mullins's skillful hands, this simple pastry provides surprisingly compelling insights into our eating habits, our identity, and modern consumer culture.

Ecoliterate Daniel Goleman, Lisa Bennett, Zenobia Barlow, 2012-07-31 A new integration of Goleman's emotional, social, and ecological intelligence Hopeful, eloquent, and bold, Ecoliterate offers inspiring stories, practical guidance, and an exciting new model of education that builds - in vitally important ways - on the success of social and emotional learning by addressing today's most important ecological issues. This book shares stories of pioneering educators, students,

and activists engaged in issues related to food, water, oil, and coal in communities from the mountains of Appalachia to a small village in the Arctic; the deserts of New Mexico to the coast of New Orleans; and the streets of Oakland, California to the hills of South Carolina. Ecoliterate marks a rich collaboration between Daniel Goleman and the Center for Ecoliteracy, an organization best known for its pioneering work with school gardens, school lunches, and integrating ecological principles and sustainability into school curricula. For nearly twenty years the Center has worked with schools and organizations in more than 400 communities across the United States and numerous other countries. Ecoliterate also presents five core practices of emotionally and socially engaged ecoliteracy and a professional development guide.

Global Issues 2020 Edition CQ

The 2020 edition of this annual reader looks at new topics that peak student interest that are relevant in today's current events, including changes in U.S. foreign policy, tensions within the European Union, cryptocurrency, the 5G revolution, global fishing controversies, and the rise in extreme weather events. And because it's CQ Researcher, the reports are expertly researched and written. Each chapter identifies the key players, explores what's at stake, and offers the background and analysis necessary to understand how past and current developments impact the

future of each issue.

Jabari Jumps Gaia Cornwall, 2020-10-06 Working up the courage to take a big, important leap is hard, but Jabari is almost absolutely ready to make a giant splash. Jabari is definitely ready to jump off the diving board. He's finished his swimming lessons and passed his swim test, and he's a great jumper, so he's not scared at all. "Looks easy," says Jabari, watching the other kids take their turns. But when his dad squeezes his hand, Jabari squeezes back. He needs to figure out what kind of special jump to do anyway, and he should probably do some stretches before climbing up onto the diving board. In a sweetly appealing tale of overcoming your fears, newcomer Gaia Cornwall captures a moment between a patient and encouraging father and a determined little boy you can't help but root for.

Safe Spaces Annemarie Vaccaro, Gerri August, Megan S. Kennedy, 2011-11-02 Based on extensive research, recent events, and numerous first-person accounts, this revealing book illuminates both the challenges and triumphs of lesbian, gay, bisexual, and transgender youth, and offers effective strategies for combating LGBT marginalization in our nation's schools and communities. Safe Spaces: Making Schools and Communities Welcoming to LGBT Youth is the first book to offer a comprehensive view of the complex lives of LGBT youth of all ages, from kindergarten through college. Drawing on a wealth of research collected from first-person accounts of students, family, educators, and community members, the authors not only chronicle the struggles of LGBT youth but also

describe models of inclusive school and community environments. The authors address the breadth of experiences of LGBT youth—in and out of the classroom, at home and in the community, and in personal interactions with allies and antagonists. They also reveal how these young people, their friends and families, teachers, and dedicated allies stem the tide of LGBT exclusion. Most important, *Safe Spaces* offers action steps for readers who want to make their own homes, schools, and communities safe and welcoming spaces for LGBT youth.

Financing the Flames Edwin Black, 2013-10-30
Financing the Flames pulls the cover off the robust use of US tax-exempt, tax-subsidized, and public monies to foment agitation, systematically destabilize the Israel Defense Forces, and finance terrorists in Israel. In a far-flung investigation in the United States, Israel and the West Bank, human-rights investigative reporter Edwin Black documents that it is actually the highly politicized human rights organizations and NGOs themselves all American taxpayer supported which are financing the flames that make peace in Israel difficult if not impossible. Black spotlights key charitable organizations such as the Ford Foundation, George Soros's Open Society Foundations, the New Israel Fund, and many others, as well as American taxpayers as a group. Instead of promoting peace and reconciliation between Arabs and Israelis, a variety of taxpayer-subsidized organizations have funded a culture where peace does not pay, but warfare and confrontation do. Ironically, several Jewish

organizations, scooping up millions in tax-subsidized donations, stand at the forefront of the problem. At the same time, the author details at great length the laudable and helpful activities of such groups as the New Israel Fund; he chronicles a heartbreaking conflict between stated intent and true impact on the ground. In addition to documenting questionable 501(c)(3) activity, Black documents the direct relationship between taxpayer assistance to the Palestinian Authority and individuals engaged in terrorism against civilians.

Game On David Bockino,

Only the Strong Jabari Asim, 2015 The lives of a reformed hit man, a crusading doctor, a genteel mobster, and a headstrong college student cross in a sweltering Midwestern city in 1970--

The N Word Jabari Asim, 2008-08-04 A renowned cultural critic untangles the twisted history and future of racism through its most volatile word. The N Word reveals how the term "nigger" has both reflected and spread the scourge of bigotry in America over the four hundred years since it was first spoken on our shores. Jabari Asim pinpoints Thomas Jefferson as the source of our enduring image of the "nigger." In a seminal but now obscure essay, Jefferson marshaled a welter of pseudoscience to define the stereotype of a shiftless child-man with huge appetites and stunted self-control. Asim reveals how nineteenth-century "science" then colluded with popular culture to amplify this slander. What began as false generalizations became institutionalized in every corner of our society: the arts and

sciences, sports, the law, and on the streets. Asim's conclusion is as original as his premise. He argues that even when uttered with the opposite intent by hipsters and hip-hop icons, the slur helps keep blacks at the bottom of America's socioeconomic ladder. But Asim also proves there is a place for the word in the mouths and on the pens of those who truly understand its twisted history—from Mark Twain to Dave Chappelle to Mos Def. Only when we know its legacy can we loosen this slur's grip on our national psyche.

Digital Tools in Urban Schools Jabari

Mahiri, 2011-07-28 Today there is massive interest in how digital tools and popular culture are transforming learning out of school and lots of dismay at how digitally lost our schools are. Jabari Mahiri works his usual magic and here shows us how to cross this divide in a solidly grounded and beautifully written book. ---James Paul Gee, Fulton Presidential Professor of Literacy Studies, Arizona State University *Digital Tools in Urban Schools* is a profoundly sobering yet inspiring depiction of the potential for committed educators to change the lives of urban youth, with the assistance of a new set of technical capabilities. ---Mimi Ito, Professor in Residence and MacArthur Foundation Chair in Digital Media and Learning, Departments of Informatics and Anthropology, University of California, Irvine An uplifting book that addresses a critical gap in existing literature by providing rich and important insights into ways teachers, administrators, and members of the wider community can work together with students previously alienated---even

excluded---from formal education to enhance classroom learning with appropriate digital tools and achieve inspiring results under challenging circumstances. ---Colin Lankshear, James Cook University, and Michele Knobel, Montclair State University *Digital Tools in Urban Schools* demonstrates significant ways in which high school teachers in the complex educational setting of an urban public high school in northern California extended their own professional learning to revitalize learning in their classrooms. Through a novel research collaboration between a university and this public school, these teachers were supported and guided in developing the skills necessary to take greater advantage of new media and new information sources to increase student learning while making connections to their relevant experiences and interests. Jabari Mahiri draws on extensive qualitative data---including blogs, podcasts, and other digital media---to document, describe, and analyze how the learning of both students and teachers was dramatically transformed as they utilized digital media in their classrooms. *Digital Tools in Urban Schools* will interest instructional leaders and participants in teacher preparation and professional development programs, education and social science researchers and scholars, graduate and undergraduate programs and classes emphasizing literacy and learning, and those focused on urban education issues and conditions.

Hamas Jennifer Jefferis,2016-02-12 Structured around key elements at the regional, political, institutional, and personal levels of analysis, this is a complete and forward-leaning view of Hamas that provides a deep and detailed examination of the history, ideology, political prospects, and regional opportunities of an often poorly understood organization that is redefining 21st-century terrorism. The Palestinian resistance movement Hamas has long been an influential player in the tumultuous Middle East, but as the region's instability grows, so does the importance and potential influence of this organization. The fact that the Hamas of today defies most of the traditional categorizations of both terrorist organizations and political parties makes the group an ideal study on how states in the Middle East are likely to continue to change. This book offers a clear picture of how Hamas fits into a dramatically evolving region, enabling readers to see how Hamas itself has evolved ideologically, militarily, and politically as well as how it will continue to shape and be shaped by the broader Middle East region. Author Jennifer Jefferis, PhD, provides the first comprehensive consideration of

Hamas in the context of the post-Arab Spring climate, the rise of ISIS, and the consequential emerging politics of the region, presenting information that is highly detailed yet written to be accessible to all audiences whether or not they have previous knowledge of the organization. The book provides coverage of Hamas's current relationship with Israel and its impact on the Palestinian territories while focusing on the significance of the organization's role in the broader region—particularly critical in light of the recent political uprisings in Egypt, Tunisia, Libya, and Syria.
