AFRICAN TEARS Catherine Buckle,2002 In 1990 the author became the proud owners of Stow Farm, with the approval of the Zanu-PF government. In February 2000 a mob of 'veterans' claimed the farm was now their property. This is the account of what then happened, her family's experiences when their home, livelihood and investment is taken from them.

Abstract Data Types Nell Dale, Henry M. Walker,1996 Since 1985 Nell Dale's texts have helped shape the way computer science is taught. Now she and Henry Walker, an accomplished instructor and author in his own right, are proposing a new focus for the junior/senior level data structures course. A timely response to the prevalence of object-oriented programming, this new text expands the focus of the advanced data structures course to examine not only the structure of a data object but also its type. This new focus gives students the opportunity to look at data objects from the point of view of both user and implementer.

Beginning Database Design Gavin Powell,2006 From the #1 source for computing information, trusted by more than six million readers worldwide.

Capability-Based Computer Systems Henry M. Levy,2014-05-16 Capability-Based Computer Systems focuses on computer programs and their capabilities. The text first elaborates capability- and object-based system concepts, including capability-based systems, object-based approach, and summary. The book then describes early descriptor architectures and explains the Burroughs B5000, Rice University Computer, and Basic Language Machine. The text also focuses on early capability architectures. Dennis and Van Horn's Supervisor; CAL-TSS System; MIT PDP-1 Timesharing System; and Chicago Magic Number Machine are discussed. The book then describes Plessey System 250, Cambridge CAP Computer, and Hydra System. The selection also discusses STAROS System and IBM System/38. STAROS object support and abstract type management, as well as IBM System/38 profiles and authority and programs/procedures, are described. The book highlights Intel iAPX 432, and then considers segment and objects, program execution, storage resources, and abstraction support. Problems related with capability-based architectures are also noted. The text is a good source for readers wanting to study computer programming.

America's War in Vietnam Larry H. Addington,2000-04-22 "If you want to read one book about Vietnam, read this one." —New York Review of Books Drawing on years of experience teaching about the war, Larry H. Addington presents a short, narrative history of the origins, course, and outcome of America's military involvement in Vietnam. Not intended as a competitor to the many excellent comprehensive studies of the Vietnam Era, this book will prove a useful introduction and a concise reference to America's longest, most controversial war. Addington reviews the history of pre-colonial Vietnam, the impact of French imperialism and the Indochina War, and the Cold War origins of American involvement. He then details US policy after the 1954 Geneva Accords, its role in the establishment of South Vietnam, and the outbreak of a new war. Turning to America's deepening involvement, Addington examines the US strategies for waging air and ground war, the impact of the war at home, and the reasons for the failure of US policy under President Johnson. He studies the successes and failures of the policy of withdrawal under President Nixon and concludes with an overview of the war's aftermath and its legacy.

Indochina Pierre Brocheux, Daniel Hémery,2011-06 Combining new approaches with a groundbreaking historical synthesis, this is the most thorough and up-to-date general history of French Indochina available in English. Unique in its wide-ranging attention to economic, social, intellectual, and cultural dimensions, it is the first book to treat Indochina's entire history, from its inception to Cochinchina in 1858 to its crumbling at Dien Bien Phu in 1954 and on to decolonization. The authors tell this story from a perspective that is neither Eurocentric nor nationalistic but that carefully considers the positions of both the colonizers and the colonized. With this approach, they are able to move beyond descriptive history into rich exploration of the ambiguities and complexities of the French colonial period in Indochina.-- Back cover

The Tragedy of the Vietnam War Van Nguyen Duong,2014-07-15 What Americans call the Vietnam War actually began in December 1946 with a struggle between the communists and the French for possession of the country—but Vietnam's strategic position in southeast Asia inevitably led to the involvement of other countries. Written by an officer in the Republic of Vietnam Armed Forces, this poignant memoir seeks to clarify the nuances of South Vietnam's defeat. From the age of 12, Van Nguyen Duong watched as the conflict affected his home, family, village and friends. He discusses not only the day-to-day hardships of wartime but his postwar forced relocation and eventual imprisonment. A special focus is on the anguish caused by the illusive reality of Vietnamese independence. The political forces at work north and south, the hardships suffered by RVNAF soldiers after the 1975 U.S. withdrawal, and the effects of reunification on the Vietnamese people are discussed.

Vietnamese Tradition on Trial, 1920-1945 David G. Marr,1984-02-03 The colonial setting -- Morality instruction - Ethics and politics -- Language and literacy -- The questions of women -- Perceptions of the past -- Harmony and struggle -- Knowledge power -- Learning from experience -- Conclusion.

Vietnamese Anticolonialism 1885-1925 David G. Marr,2023-11-10 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1971.

France on the Mekong John Andrew Tully,2002 Based on largely unexploited archival sources, *France on the Mekong* is the first comprehensive history of the colonial era in Cambodia. The book takes as its point of departure Marx's early appraisal of colonialism's double mission in Asia. Tully argues that King Norodom's decision to invite in the French in 1863 was a Faustian bargain for Cambodia. While the Protectorate did ensure the continued existence of the Cambodian state, and did much to preserve Cambodia's crumbling cultural legacy, the downside was that authoritarian rule was entrenched rather than weakened, and that the country was left seriously underdeveloped when the French left in 1953. Colonialism disturbed the foundations of traditional society, but did not replace them. This was to have disastrous consequences for post-colonial Cambodia-- a point that the author develops at the end of the book.

The Colonial Bastille Peter Zinoman,2001-03-04 Zinoman makes original contributions on multiple fronts, including colonial systems; prisons as social institutions; political life in prison; public campaigns concerning prisons; and released prisoners in action. He also takes us beyond the colonial/anticolonial, nationalist/communist, and war/peace dichotomies that have long dominated Vietnam studies.—David Marr, author of

Vietnamese Tradition on Trial, 1920-1945 This is a wonderful, lucidly argued, and meticulously documented book.—Ann Stoler, author of *Race and the Education of Desire: Foucault's History of Sexuality and the Colonial Order of Things*

Cambodge Penny Edwards, 2007-02-28 This strikingly original study of Cambodian nationalism brings to life eight turbulent decades of cultural change and sheds new light on the colonial ancestry of Pol Pot's murderous dystopia. Penny Edwards recreates the intellectual milieu and cultural traffic linking Europe and empire, interweaving analysis of key movements and ideas in the French Protectorate of Cambodia with contemporary developments in the Métropole. From the naturalist Henri Mouhot's expedition to Angkor in 1860 to the nationalist Son Ngoc Thanh's short-lived premiership in 1945, this history of ideas tracks the talented Cambodian and French men and women who shaped the contours of the modern Khmer nation. Their visions and ambitions played out within a shifting landscape of Angkorean temples, Parisian museums, Khmer printing presses, world's fairs, Buddhist monasteries, and Cambodian youth hostels. This is cross-cultural history at its best. With its fresh take on the dynamics of colonialism and nationalism, *Cambodge: The Cultivation of a Nation* will become essential reading for scholars of history, politics, and society in Southeast Asia. Edwards' nuanced analysis of Buddhism and her consideration of Angkor's emergence as a national monument will be of particular interest to students of Asian and European religion, museology, heritage studies, and art history. As a highly readable guide to Cambodia's recent past, it will also appeal to specialists in modern French history, cultural studies, and colonialism, as well as readers with a general interest in Cambodia.

The People's Republic of Kampuchea, 1979-1989 Margaret Slocomb, 2003 When the Khmer Rouge troops entered Phnom Penh on 17th April 1975, it seemed that the Cambodian revolution had been secured. During the following four years, Cambodian society was dramatically transformed at great cost in terms of human misery and death. Despite its outward display of total power, the regime of Democratic Kampuchea was deeply fragmented along factional lines within the Communist Party of Kampuchea which eventually ripped it apart. On the morning of 25th December 1978, a huge military force of the People's Army of Vietnam spearheaded a counter attack by the Kampuchean Front for National Salvation, led by a former KR commander, Heng Samrin. They found a country in ruins, the economy shattered and the people shocked and dispirited. This book examines the Cambodian revolution before and after Pol Pot and attempts to explain the reasons for its ultimate failure. In particular, it traces the efforts of the post-DK regime, that of the People's Republic of Kampuchea, to rebuild both the state and the revolution. Many factors intervened to defeat their efforts to restore revolution. Nevertheless, the PRK did rebuild the state and the economy, and it helped return people's lives to the conditions of pre-revolutionary days.

A History of Laos Martin Stuart-Fox, 1997-09-28 This authoritative and wide-ranging 1997 history traces events in this little-known country from ancient monarchy, through its establishment as a French colony, to independence in 1953, the People's Democratic Republic, and the present one-party authoritarianism. The book highlights Laos' complex and shifting political alliances. The struggle for independence from France was followed by a struggle for unity and neutrality in the face of persistent foreign intervention, as the country was drawn into the war in Vietnam. Only with the end of the Cold War and the withdrawal of Vietnamese troops has Laos been able to reassert its neutral foreign policy and develop a market economy. This book is an impressive political, social, cultural and economic history. It will be essential for anyone wanting to understand Laos as it joins ASEAN, faces great economic challenges and struggles to maintain its cultural identity.

A History of Vietnam Oscar Chapuis, 1995-08-30 The first work to chronicle the history of Vietnam beginning in the legendary past—a memory that is so significant to the Vietnamese identity and belief system. Written by a native, this history portrays the Sino-Viet interdependence that lasted for 1,000 years and had such an influence on Vietnamese culture. When in the 15th century, the Vietnamese finally evicted their Chinese masters, they were subsequently overrun with the forces of Westernization, the spice trade and industrialization. Chapuis's history takes us to the French conquest through the regimes of Emperors Gia Long, Ming Mang, Thieu Tri, and Tu Duc.

Imperialism in Southeast Asia Nicholas Tarling, 2003-08-29 One of the few studies of imperialism to concentrate on Southeast Asia, Tarling's work focuses on the establishment of political control from 1870 to 1914 and analyses attempts to re-establish control after the Second World War.

Community and Revolution in Modern Vietnam Alexander Woodside, 1976

Vietnam 1945 David G. Marr, 2023-09-01 1945: the most significant year in the modern history of Vietnam. One thousand years of dynastic politics and monarchist ideology came to an end. Eight decades of French rule lay shattered. Five years of Japanese military occupation ceased. Allied leaders determined that Chinese troops in the north of Indochina and British troops in the South would receive the Japanese surrender. Ho Chi Minh proclaimed the Democratic Republic of Vietnam, with himself as president. Drawing on extensive archival research, interviews, and an examination of published memoirs and documents, David G. Marr has written a richly detailed and descriptive analysis of this crucial moment in Vietnamese history. He shows how Vietnam became a vortex of intense international and domestic competition for power, and how actions in Washington and Paris, as well as Saigon, Hanoi, and Ho Chi Minh's mountain headquarters, interacted and clashed, often with surprising results. Marr's book probes the ways in which war and revolution sustain each other, tracing a process that will interest political scientists and sociologists as well as historians and Southeast Asia specialists.
