Contemporary Nuclear Debates Alexander T. Lennon,2002 Discussions of key domestic and international aspects of missile defense, arms control, and arms races.

**The future of the UK's strategic nuclear deterrent** Great Britain: Parliament: House of Commons: Defence Committee,2006-12-19 In its White Paper (published in December 2006 as Cm 6994, ISBN 0101699425) on the future of the UK's nuclear deterrent, the Government reaffirmed its commitment to maintain the submarine-based Trident weapons system. This will require the procurement of a new generation of nuclear-powered Trident submarines to replace the current fleet of Vanguard-class submarines. Following on from the Committee's earlier report on the strategic context and timetable for decision-making on the renewal of the UK's nuclear deterrent (HCP 986, session 2005-06; ISBN 0215029445), this report focuses on issues related to the UK manufacturing and skills base. These include: the level of investment needed to sustain essential infrastructure and core skills in the UK submarine construction industry; the potential consequences of a gap in the submarine building programme for the long-term viability of the domestic manufacturing and skills base; the implications of the rationalisation of the UK shipbuilding industry for the construction, maintenance and affordability of a Vanguard-class successor; and the linkage between the Government's Defence Industrial Strategy and the decision on retention, replacement or abolition of the UK's Trident system. It also examines the Government's investment programme at the Atomic Weapons Establishment and the possible impact of a new civil nuclear build programme for the retention of nuclear skills and expertise in the military sector.

Thriving in the Face of Childhood Adversity Daphne Blunt Bugental,2013-04-15 This book explores the life experiences of children who are born with a variety of medical or physical disorders. It provides an integration of scientific and personal perspectives on such conditions. In accounting for both outcomes, it suggests how the social responses of others (family, friends, and professionals) may foster resilience as well as risk. It also describes the results of an intervention that facilitates the more positive experiences of such children early in life.

*Welcome to Our Nightmares* Jason Norman,2014-11-11 George Clooney, Leonardo DiCaprio, Amy Adams, Tom Hanks--many of today's most celebrated actors began their careers on the sets of horror movies. However, the majority of performers in even the most popular horror films remain relatively unknown. This engaging collection of profiles introduces many of the actors behind the heroes, heroines, monsters and villains who have terrified and fascinated moviegoers around the world. From Michelle Argyris, who embodied a possessed college student in Devil Seed (2012), to Ian Whyte, the 7 foot tall former basketball player who portrayed one of cinema's most iconic monsters in Aliens vs. Predator (2004), the profiles offer insight into how the actors prepared for and performed their roles. Longer essays explore the casts of renowned horror series, including Saw, Halloween, Nightmare on Elm Street and Friday the 13th, providing a window into the world of horror filmmaking.

**More Than They Bargained For** Jason Stein,Patrick Marley,2013-03-22 parliamentary maneuvers, a camel slipping on icy Madison streets as union firefighters rushed to assist, massive nonviolent street protests, and a weeks-long occupation that blocked the marble halls of the Capitol and made its rotunda ring. Jason Stein and Patrick Marley, award-winning journalists for the Milwaukee Journal Sentinel, covered the fight firsthand. They center their account on the frantic efforts of state officials meeting openly and in the Capitol's elegant backrooms as protesters demonstrated outside. Conducting new in-depth interviews with elected officials, labor leaders, cops, protestors, and other key figures, and drawing on new documents and their own years of experience as statehouse reporters, Stein and Marley have written a gripping account of the wildest sixteen months in Wisconsin politics since the era of Joe McCarthy.

**Report and Recommendations Pursuant to Section 133 of the Emergency Economic Stabilization Act Of 2008** Barry Leonard,2010-11 In 2008, the Emerg. Econ. Stabilization Act was signed into law. It mandates a study on mark-to-market accounting standards as provided by Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measure. (SFAS 157). SFAS 157 does not itself require mark-to-market or fair value (FV) accounting. Rather, other accounting standards require what is more broadly known as FV, of which mark-to-market accounting is a subset. SFAS 157 defines FV, estab. a framework for measuring FV in generally accepted accounting principles, and requires expanded disclosures about FV measurements. This report considered the issue of FV accounting, incl. both mark-to-market accounting and SFAS 157.

**New Literary Hybrids in the Age of Multimedia Expression** Marcel Cornis-Pope,2014-11-15 Begun in 2010 as part of the "Histories of Literatures in European Languages" series sponsored by the International Comparative Literature Association, the current project on New Literary Hybrids in the Age of Multimedia Expression recognizes the global shift toward the visual and the virtual in all areas of textuality: the printed, verbal text is increasingly joined with the visual, often electronic, text. This shift has opened up new domains of human achievement in art and culture. The international roster of 24 contributors to this volume pursue a broad range of issues under four sets of questions that allow a larger conversation to emerge, both inside the volume's sections and between them. The four sections cover, 1) Multimedia Productions in Theoretical and Historical Perspective; 2) Regional and Intercultural Projects; 3) Forms and Genres; and, 4) Readers and Rewriters in Multimedia Environments. The essays included in this volume are examples of the kinds of projects and inquiries that have become possible at the interface between literature and other media, new and old. They emphasize the extent to which hypertextual, multimedia, and virtual reality technologies have enhanced the sociality of reading and writing, enabling more people to interact than ever before. At the same time, however, they warn that, as long as these technologies are used to reinforce old habits of reading/ writing, they will deliver modest results. One of the major tasks pursued by the contributors to this volume is to integrate literature in the global informational environment where it can function as an imaginative partner, teaching its interpretive competencies to other components of the cultural landscape.

Clerical Sexual Abuse Jo Renee Formicola,2014-10-01 The book discusses the changing relationship between American Catholic Bishops and civil authorities in the United States, as civil authority has eclipsed traditional Catholic ecclesiastical privilege and clerical exemption resulting from the hierarchical mismanagement and cover-up of clerical sexual abuse in the United States.

**Principles of Social Change** Leonard A. Jason, 2012-12-20 The efforts of social activists and mental health professionals to institute population-level social change, such as reducing poverty, building better schools, and establishing more effective substance abuse programs, often fail. They tend to focus on individuals and not real-life community conditions; they fail to take into account stakeholders' efforts to maintain the status quo; and they do not develop concrete strategies to build coalitions to alter policies. These unsuccessful attempts at change can leave citizens, community groups, and healthcare professionals feeling dispirited and overwhelmed. Principles of Social Change is written for those who are impassioned and driven by social justice issues in their communities and seek practical solutions. Leonard A. Jason, a leading community psychologist, demonstrates how social change can be accomplished and fostered by observing five key principles: (1) determine the nature of the change desired, (2) identify who holds the power, (3) create coalitions, (4) be patient but persistent, and (5) measure your success. Describing these principles through first-hand accounts of the experiences of people who have worked on a range of social justice issues, Jason gives unique insight and presents a comprehensive approach toward the development of social and community interventions, such as protecting the well-being of children, providing affordable housing, combating abuses of power, and cleaning up the environment. Principles of Social Change provides answers about what citizens and community action groups can do in collaboration with healthcare professionals to address these seemingly intractable problems. It is essential reading for community psychologists, social activists, policy makers, and students and trainees in these fields.
