How to Publish and Promote Online M.J. Rose, Angela Adair-Hoy, 2007-04-01 Everything you need to know about profitable online publishing and promotion From Stephen King to authors who haven't become household names quite yet, authors are increasingly turning to the Internet as a way of taking charge of their own publishing destiny. The opportunities are vast, but also confusing: Should you publish an e-book, a conventional print book, a Print On Demand book, a CD-ROM, or all of the above? What do you need to know to create an e-book? How do you set up a website, and how can you actually get people to visit that website? Where can you sell your books on the web? And how can you use the Internet to generate massive free publicity? M. J. Rose and Angela Adair-Hoy provide the answers to all of these questions and more. When she self-published her first novel, *Lip Service*, as an e-book, M. J. Rose became a cyber pioneer (PW Daily) and attracted so much publicity that she sold the rights to a major book club and a New York publisher. As the co-owner of a highly successful e-book publisher, Booklocker, and the publisher of *Writers Weekly*, an e-magazine featuring markets for freelance writers, Angela Adair-Hoy also learned all of the possibilities that online publishing could offer. Using their own experiences-combined with insiders' tips from other authors on the web-they published an e-book, *The Secrets of Our Success*, that became the underground bible for online authors and publishers. Now thoroughly revised and expanded, this book is an indispensable guide to navigating the publishing jungle from your own personal computer.

The Modern Moves West Richard Cándida Smith, 2012-05-28 In 1921 Sam Rodia, an Italian laborer and tile setter, started work on an elaborate assemblage in the backyard of his home in Watts, California. The result was an iconic structure now known as the Watts Towers. Rodia created a work that was original, even though the resources available to support his project were virtually nonexistent. Each of his limitations—whether of materials, real estate, finances, or his own education—passed through his creative imagination to become a positive element in his work. In *The Modern Moves West*, accomplished cultural historian Richard Cándida Smith contends that the Watts Towers provided a model to succeeding California artists that was no longer defined through a

subordinate relationship to the artistic capitals of New York and Paris. Tracing the development of abstract painting, assemblage art, and efforts to build new arts institutions, Cándida Smith lays bare the tensions between the democratic and professional sides of modern and contemporary art as California developed a distinct regional cultural life. Men and women from groups long alienated—if not forcibly excluded—from the worlds of high culture made their way in, staking out their participation with images and objects that responded to particular circumstances as well as dilemmas of contemporary life, in the process changing the public for whom art was made. Beginning with the emergence of modern art in nineteenth-century France and its influence on young Westerners and continuing through to today's burgeoning border art movement along the U.S.-Mexican frontier, *The Modern Moves West* dramatically illustrates the paths that California artists took toward a more diverse and inclusive culture.

The News Media in Puerto Rico Federico A. Subervi-Vélez, Sandra Rodríguez-Cotto, Jairo Lugo-Ocando, 2020-10-27 *The News Media in Puerto Rico* offers a synopsis as well as a critical analysis of the Island's news media system, with emphasis on the political and economic factors that most influence how the media operate. The authors also document the impact of Hurricane Maria on the media structures and the changing media landscape given the political, economic and colonial strictures. Building on interviews with news media professionals, the book further presents detailed insights about journalism and journalism education in these times of crises. The final chapters include theoretical frameworks and methodological guidelines for the analysis of other colonial, post-colonial and neo-colonial media systems, with research recommendations valuable for future studies of the Island's media as well as for cross-national comparisons. This book will be an essential read for students and scholars interested in learning not only about the Puerto Rican and Latin American mass media, but also the media systems of other colonial/neo-colonial countries.

Hispanic Methodists, Presbyterians, and Baptists in Texas Paul Barton, 2010-01-01 The question of how one can be both Hispanic and Protestant has perplexed Mexican Americans in Texas ever since Anglo-American Protestants began converting their Mexican Catholic neighbors early in the nineteenth century. Mexican-American Protestants have faced the double challenge of being a religious minority within the larger Mexican-American community and a cultural minority within their Protestant denominations. As they have negotiated and sought to reconcile these two worlds over nearly two centuries, los Protestantes have melded Anglo-American Protestantism with Mexican-American culture to create a truly indigenous, authentic, and empowering faith tradition in the Mexican-American community. This book presents the first comparative history of Hispanic Methodists, Presbyterians, and Baptists in Texas. Covering a broad sweep from the 1830s to the 1990s, Paul Barton examines how Mexican-American Protestant identities have formed and evolved as los Protestantes interacted with their two very different communities in the barrio and in the Protestant church. He looks at historical trends and events that affected Mexican-American Protestant identity at different periods and discusses why and how shifts in los Protestantes' sense of identity occurred. His research highlights the fact that while Protestantism has traditionally served to assimilate Mexican Americans into the dominant U.S. society, it has also been transformed into a vehicle for expressing and transmitting Hispanic culture and heritage by its Mexican-American adherents.

Engineering European Unity Éva Bóka,2022-11-30 Which European and non-European ideas and practices facilitated the shaping of European unity? Or rather, which pursuits led to deadlocks in the cooperation between states? The book seeks answers to these questions by surveying the historical attempts at realizing supranational patterns of governance in Europe since the Middle Ages. The main focus is on the nineteenth and twentieth century organizational models of European unification. The analysis draws on an abundance of historical and legal source material. While the author encourages critical thinking about European integration, the exploration is admittedly based on specific values. Éva Bóka claims that the struggle for the humanization of power with its democratic creative force has been the major driver in the development of the system of liberties and the idea of European unity. The analysis of the historical process up to the Lisbon Treaty (2007) with the recognition of common, shared, and supported competences meets the author's set of values to a great extent. The last part of the book examines whether the European Union can serve as a political and economic organizational model for other parts of the world.

Pillars of Salt Lianne Merkur,2019-11-04 In *Pillars of Salt*, Lianne Merkur offers an account of early 21st century immigration as experienced by Israelis in Berlin and Toronto, who simultaneously explore a sense of belonging balanced between new home and homeland, examined through self-expression exercises.

The Art of Ana Clavel JaneElizabeth Lavery,2017-07-05 Ana Clavel is a remarkable contemporary Mexican writer whose literary and multimedia oeuvre is marked by its queerness. The queer is evinced in the manner in which she disturbs conceptions of the normal not only by representing outlaw sexualities and dark desires but also by incorporating into her fictive and multimedia worlds that which is at odds with normalcy as evinced in the presence of the fantastical, the shadow, ghosts, cyborgs, golems and even urinals. Clavel's literary trajectory follows a queer path in the sense that she has moved from singular modes of creative expression in the form of literary writing, a traditional print medium, towards other non-literary forms. Some of Clavel's works have formed the basis of wider multimedia projects involving collaboration with various artists, photographers, performers and IT experts. Her works embrace an array of hybrid forms including the audiovisual, internet-enabled technology, art installation, (video) performance and photography. By foregrounding the queer heterogeneous narrative themes, techniques and multimedia dimension of Clavel's oeuvre, the aim of this monograph is to attest to her particular contribution to Hispanic letters, which arguably is as significant as that of more established Spanish American boom femenino women writers.

Theory into Poetry ,2022-05-20 At the beginning of the 21st century, there is still no generally accepted comprehensive definition of the lyric or differentiated modern toolkit for its analysis. The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by exclusive interest in formal patterning. The present volume seeks to remedy this

deficit. All the contributors ‘theorise’ the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre. Their papers focus on a variety of different questions: the problem of establishing a framework for definition and classification; the search for dynamic and potent critical approaches; investigations of poetry's cultural performance and its fundamental relevance for the construction of group cohesion. The essays collected in this volume offer a consciously polyphonic range of theories and interpretations, suggesting to the reader a variety of theoretical frameworks and practical illustrations of how a discussion of poetry may be firmly grounded in modern literary theory.
